Recommendation

Yes

Comments: Materials provide online student primary source library, online student leveled-reader library and online student work text.

Teacher editions accompany all of these. Graphics and videos enrich and make the material engaging to students. Material is appropriately aligned to the standards and leveled correctly for fourth grade students. Material integrates mathematical concepts, provides opportunities for writing, and asks higher level questions. These materials would be an effective teaching and learning tool.

When looking at standards alignment reviewers should consider not only the robustness of the standard coverage but also the content complexity (depth of knowledge level) if appropriate. More information on content complexity as it relates to Florida standards can be found at: http://www.cpalms.org/Uploads/docs/CPALMS/initiatives/contentcomplexity/CPALMS_ccdefinitions_140711.pdf

For example, if the standard is marked as a level 3 (strategic reasoning and complex thinking) then the materials coverage should reflect this. If the materials coverage is only sufficient to allow for recall (level 1) then this should be reflected in the points assigned.
