### **PROPOSED BOARD ACTION**

For Approval

### **AUTHORITY FOR STATE BOARD ACTION**

Sections 1001.02(2)(n) and 1003.42(2), F.S.

### **EXECUTIVE SUMMARY**

School districts must annually submit a report documenting instruction for students in grades K-12 related to their implementation of the required instruction in s. 1003.42(2), F.S., by July 1. For Mental and Emotional Health Education, Substance Use and Abuse Health Education and Child Trafficking Prevention Education, school districts must also annually submit a plan by December 1 for how instruction will be delivered. These requirements, all relating to the same statute, are spread across four rules and there is not a standardized method for submitting plans and reports to the department.

- This rule amendment consolidates the four rules into one.
- The portal standardizes the submission process through the Required Instruction Reporting Portal.
- The department will have authority to notify districts of reported sections that do not meet the rule and obtain revisions.
- The department may provide technical assistance on required instruction specific to each topic.
- The three health rules will be repealed.
