STATE BOARD OF EDUCATION

Action Item

May 20, 2014

SUBJECT: Approval of the 2014–2015 Dual Enrollment Course—High School Subject Area Equivalency List

PROPOSED BOARD ACTION

For Approval

AUTHORITY FOR STATE BOARD ACTION

Section 1007.01(3)(c), Florida Statutes

EXECUTIVE SUMMARY

The purpose of the *Dual Enrollment Course—High School Subject Area Equivalency List*, authorized by section (s.) 1007.271(9), Florida Statutes (F.S.), is to establish equivalencies between postsecondary courses and credits completed through dual enrollment and high school subject area credit. All high schools will accept these dual enrollment courses toward meeting high school graduation requirements.

S. 1007.01(3)(c), F.S., directs the Articulation Coordinating Committee (ACC) to annually recommend dual enrollment course and high school subject area equivalencies for approval by the State Board of Education and the Board of Governors. The recommended changes were approved by the ACC on April 26, 2014.

Below is a summary of the revisions to the 2014–2015 *Dual Enrollment Course—High School Subject Area Equivalency List:*

Practical Arts/ Career Education

New courses are included assigned to either vocational (elective) high school credit or practical arts credit (pursuant to s. 1003.428(2)(a)5, F.S.).

Introductory language clarifies that all practical arts/career education courses taken through dual enrollment must lead toward a career certificate and industry certification.

Science

Faculty reviewers determined that the content in the sequence of BSC x010 and BSC x011 is comparable to the standards for Biology I. Therefore, this sequence may satisfy the Biology I graduation requirement and serve as preparation for the associated End-of-Course (EOC) assessment. Each individual BSC course, as well as all other science courses on the list, may satisfy the "Equally Rigorous" science requirement.

Social Studies

Faculty reviewers have determined that the content in the sequence of AMH x010 and AMH x020 is comparable to the standards for United States History and therefore may be used as preparation for the associated End-of-Course (EOC)

assessment.

Social Studies (continued)

Any two AMH courses on the list, or others as determined by the school district, may be used to satisfy the U.S. History credit toward high school graduation.

The Economics courses on the list are removed because of the requirement of s. 1003.4282(3)(d), F.S., that the economics high school graduation requirement includes a component of financial literacy. This does not prohibit the use of these courses for high school graduation, but assigns to the local district and college the task of determining if the postsecondary economics course includes that financial literacy component and therefore may be used to satisfy the requirement.

Supporting Documentation Included: 2014–2015 Dual Enrollment Course—High School Subject Area Equivalency List

Facilitator/Presenter: Matthew Bouck, Director, Office of Articulation

2014–2015 DUAL ENROLLMENT COURSE—HIGH SCHOOL SUBJECT AREA EQUIVALENCY LIST

ELECTIVES

This list should not be interpreted as the total number of dual enrollment courses available. Current law allows for any course in the Statewide Course Numbering System, with the exception of remedial courses and Physical Education skills courses, to be offered as dual enrollment. Three-credit (or equivalent) postsecondary courses taken through dual enrollment that are not listed below shall be awarded at least 0.5 high school credits (postsecondary courses offered for fewer than three (3) credits may earn less than 0.5 high school credit), either as an elective or subject area credit as designated in the local dual enrollment articulation agreement.

Any upper-level (3000-4000) postsecondary course that uses as a prerequisite one of the courses on this list that are awarded 1.0 high school credit shall also receive 1.0 high school credit.

PERFORMING/FINE ARTS

Subject area credit in Performing/Fine Arts is awarded for approved courses regardless of whether a lab is taken with the course.

All performing fine arts courses must be taken for 3.0 or more college credit hours in order to be guaranteed 0.5 high school credits.

			POSTSECONDARY COURSE COMPLETED THROUGH DUAL ENROLLMENT	HIGH SCHOOL GRADUATION SUBJECT REQUIREMENT SATISFIED	HIGH SCHOOL CREDIT AWARDED

PRACTICAL ARTS/CAREER EDUCATION CREDIT

All postsecondary courses taken through dual enrollment for three credits or higher that are part of a postsecondary career/technical program of study (Technical Certificate, Advanced Technical Certificate, ATD, AAS, AS) shall be awarded at least 0.5 elective credits toward high school graduation.

Note: Students seeking to meet the requirements of a 3-year Career Preparatory Diploma or a Gold Seal Vocational Scholarship through dual enrollment must carefully choose dual enrollment courses that meet the requirements for 3 sequential credits in one career education program.

Postsecondary adult vocational (PSAV) clock hour courses taken through dual enrollment that are not listed below shall be awarded:

1.0 high school credit for each 150 hours in the course rounded down to the nearest 0.5 credits

The equivalencies of the courses listed below were determined on comparable course content pursuant to s.1007.271(6), F.S.

NOTE: For those career and technical secondary courses that have been identified as satisfying the fine or performing arts high school graduation requirement (s. 1003.428(2)(a)5, Florida Statutes), the equivalent postsecondary CTE course will also satisfy that requirement. Each of these courses has been identified by a committee of representatives from Career and Technical Education and Fine Arts as a practical arts course that incorporates artistic content and techniques of creativity, interpretation, and imagination.

The inclusion of the career and technical education courses on this list does not guarantee that they are all appropriate for career dual enrollment. Institutions must determine which of these or any other career courses will apply toward a career certificate and an industry certification pursuant to 1007.271(7),(11), Florida Statutes.

SCIENCE

Criteria for Awarding High School Subject Area Credit in Science:

- Since all high school science courses (with lab) are awarded 1.0 high school science credits, then all college-level dual enrollment science courses (with lab) will be awarded 1.0 high school science credits.
- College-level dual enrollment science courses <u>taken without a lab component</u> will be awarded 0.5 high school science credits.
- Note: Section 1003.428(2)(a)3, Florida Statutes, states that high school graduation requirements include successful completion of "Three credits in science, two of which must have a laboratory component." Regardless of the number of science credits earned through dual enrollment, the requirement of two sciences with a lab component must be met to graduate.

Section 1003.428, Florida Statutes, requires three credits in science. One of the three credits must be Biology I or a series of courses equivalent to Biology I, one credit must be chemistry or physics or a series of courses equivalent to chemistry or physics, and one credit must be an equally rigorous course.

Biology I. Faculty reviewers have determined that the content in the sequence of BSC x010 and BSC x011 is comparable to the standards for Biology I and therefore may be used as preparation for the associated End-of-Course (EOC) assessment. BSC x010 and BSC x011 each may be assigned as an "equally rigorous" science course, but both must be completed for equivalency to Biology I and as preparation for the Biology I EOC.

SOCIAL STUDIES

Social studies requirements for high school graduation in Florida are prescribed by statute. Unless indicated on the list below, all college social science courses taken through dual enrollment receive elective credit.

United States History. Faculty reviewers have determined that the content in the sequence of AMH x010 and AMH x020 is comparable to the standards for United States History and therefore may be used as preparation for the associated End-of-Course (EOC) assessment. For any other AMH course or set of courses taken through dual enrollment, the school district and postsecondary institution may determine if that course or set of courses may be used as preparation for the U.S. History EOC. The AMH courses on this list, or those designated by the school district, may each satisfy 0.5 U.S. History credits toward high school graduation.

Economics. Section 1003.4282(3)(d), FS, requires one-half credit in economics, which must include financial literacy. The district and college will determine if the local postsecondary economics course meets this requirement.

			ECONDARY COURSE COMPLETED HROUGH DUAL ENROLLMENT	HIGH SCHOOL GRADUATION SUBJECT REQUIREMENT SATISFIED	HIGH SCHOOL CREDIT AWARDED
