PREFACE

Section 1008.385(2), Florida Statutes, mandates that each school district and the Florida Department of Education develop and implement a comprehensive management information system which is made up of compatible components. See

http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=1000-1099/1008/Sections/1008.385.html

In order to support the statewide process of implementing compatible local- and state-level automated information systems, the Florida Department of Education has developed the following documents:

- * DOE INFORMATION DATA BASE REQUIREMENTS:
VOLUME I--AUTOMATED STUDENT INFORMATION
SYSTEM
- * DOE INFORMATION DATA BASE REQUIREMENTS:
VOLUME II--AUTOMATED STAFF INFORMATION
SYSTEM

This document contains the required data elements, functions and timelines which each automated information system component must incorporate within its automated student information system. Further information or questions concerning this document should be addressed to, Education Information Services, Florida Department of Education, 852 Turlington Building, Tallahassee, Florida 32399-0400 or askeias@fldoe.org.

**A. AUTOMATED STUDENT INFORMATION SYSTEM
REQUIREMENTS**

AUTOMATED STUDENT INFORMATION SYSTEM REQUIREMENTS

Section 1008.385(2), F.S., requires the development and implementation of a comprehensive management information system linking all levels of the state education system. Each school district and the Florida Department of Education shall implement an automated information system component containing student information which is compatible with the statewide comprehensive management information system.

The automated student information system functions and timelines implemented by the Florida Department of Education and each school district are as follows:

HISTORY

1. An automated student information system is to be implemented in each school district by June 30, 1987.

Each school district shall install an automated student information system which includes the data elements prescribed in Section B of this document and which contains the procedures for performing the automated state reporting and records transfer functions defined in subsections 4. and 5. Each system shall provide all district schools with the local automated functions of basic student information recordkeeping, course scheduling, attendance, test recordkeeping and academic grade and credit reporting (report cards, permanent records and postsecondary transcripts). Automated report cards for elementary schools will be optional for each district.

2. State-level automated student information data base design is to be implemented in the Florida Department of Education by July 1, 1987.

A state-level student data base of information shall be installed for access by state and local education managers and the Legislature. The data base design shall integrate existing department reports previously collected separately from school districts within the automated reporting formats defined in subsection 5., thereby reducing data burden, improving compatibility among data elements, and providing a more comprehensive and flexible data base of information. The Florida Department of Education shall implement strict controls for privacy and security of student records as contained in Section C of this document.

3. Automated state reporting functions are to be implemented by each school district beginning July 1, 1987.

Current state reporting functions are defined in subsection 5.

4. Automated state records transfer of postsecondary transcripts, permanent records and selected Category B information is to be implemented by each school district using the procedures described in the Florida Automated System for Transferring Educational Records (F.A.S.T.E.R.) document provided by the Florida Department of Education. See <http://www.fldoe.org/faster/>.

The Florida Automated System for Transferring Records (F.A.S.T.E.R.) is an electronic mail system customized to meet the student transfer needs of the Florida school districts, colleges and universities. The F.A.S.T.E.R. system is used to request the transfer of student records from districts or postsecondary institutions and to respond to such requests. The sending district or postsecondary institution will transmit student records through the Florida Information Resources Network (FIRN), which will be stored at Northwest Regional Data Center and then forwarded to the requesting district, postsecondary institution, the Florida Department of Education or other approved entity.

Each school district shall implement electronic transfer of records with other school districts and public postsecondary institutions as listed below. The timelines may differ among districts depending on the district's F.A.S.T.E.R. Implementation Plan, but will be no later than June 30, 1993, for students in grades PK-12, Adult Basic and Adult Secondary Education.

December 1, 1991

All school districts must electronically transfer student records using state-defined record formats containing permanent record and appropriate Category B information for students in grades 9 through 12 to Florida public postsecondary institutions and between Florida public school districts.

April 1, 1992

All school districts must electronically transfer student records using state-defined record formats containing permanent record and selected Category B information for students in grades 6 through 8 who transfer between Florida public school districts.

December 1, 1992

All school districts must electronically transfer student records using state-defined record formats containing permanent record and selected Category B information for students in grades PK through 5 who transfer between Florida public school districts.

All school districts must electronically transfer student records using state-defined record formats for transcripts when adult students transfer between Florida public school districts or apply for admission to public postsecondary institutions.

B. AUTOMATED STUDENT INFORMATION SYSTEM

DATA ELEMENTS

INTRODUCTION

All automated student data elements included in this volume must be incorporated within each school district's automated student information system. Districts may add additional data elements within their local automated system to meet local needs.

DEFINITION

There is a working definition associated with each data element, along with applicable examples, codes, notes and exceptions.

LENGTH AND DATA TYPE

Length and data type define the technical field characteristics to be maintained in the automated system for each element. Numeric elements must have a number in every position, including leading zeros.

GRADES AND PROGRAMS REQUIRING THIS DATA ELEMENT

The data elements contained in this volume do not apply uniformly to all grade levels or instructional programs within the school districts. Accordingly, each data element description lists the specific grade levels and programs which are applicable to the data element. For example, "Dual Enrollment Indicator" pertains only to grades 9 through 12.

COMPATIBILITY REQUIREMENT

All elements must use the specified length, data type and coding definitions provided whenever:

- 1) automated state reporting is performed;
- 2) a permanent record is built for internal district use;
- 3) interdistrict transfer of automated permanent records occurs; or
- 4) automated transcripts are sent to postsecondary institutions.

The degree of required compatibility between state and local elements varies. Many elements listed in this document need merely be **compatible**, while others must meet stricter **state standards**.

Compatible elements

For data elements which are designated 'No', for State Standard the coding structures used by the districts, the data element names presented in user documentation, and the length and format of the data fields may be the same as that contained in this volume or they may be completely locally defined depending on the district's student information needs. If local definitions are used, it must be possible to convert the information into the state-required codes, descriptors and formats by calculation, computer procedures or subroutines whenever state formats are required.

District documentation of locally defined elements must reference the state data elements for which they are surrogates.

Even though the state does not require the use of the state-defined codes for these compatible elements, districts are encouraged to keep each of these elements in state format whenever possible to minimize the need for and cost of conversion.

State Standard elements

For data elements which are designated 'Yes' for **State Standard**, the coding structures used by the district, the data element names presented in user documentation, the length and format of the data fields for all external occurrences of information in reports, user documentation and display and entry screens must be the same as those contained in this volume.

Thus, **State Standard** elements must meet these additional requirements:

- 1) the state codes **must be used locally exactly as defined** in this document for automated student data elements;
- 2) user documentation must list the **State Standard** data element name;
- 3) input and output documents and reports must use the state-defined codes; and
- 4) local screen displays must use the state-defined codes.

These requirements do not address the **physical storage** of the data on tape, disk or other medium, but only how the data elements are to be presented to users in the paper format or on screen displays. The stricter definition of **State Standard** still allows the district the flexibility to use its own district-defined codes for **physically** storing elements in the student record system while, at the same time, using **State Standard** codes for display, input, reports, and user documentation. For example, a date might be required to appear always to the user as MMDDYYYY or MM/DD/YYYY but could be physically stored as YYDDD with nonusers system documentation recording this fact.

These standards do not require the district to show or print the Student Number Identifier, Florida on screens or reports. A local identification number may be displayed or printed as long as the local identification number can be crosswalked to the Student Number Identifier, Florida for state reporting purposes.

In many of the data element definitions included in this volume, a code has been defined for “not applicable.” In cases of very specialized data elements, such as “Disciplinary/Referral Action Code” or “Exceptionality, Primary,” it would seem more sensible in terms of the design of the student records system to record information for such specialized elements only for students to whom the element is pertinent. For both **Compatible** and **State Standard** data elements, the codes defined as “not applicable” need not be maintained in the local data records or displayed on local screens. At the time of reporting, if it is determined that a particular characteristic or condition is “not applicable” for an individual student, the value meaning “not applicable” may be programmatically inserted into the reporting structure at that time.

This interpretation should allow segmentation of records: for example, discipline records should be maintained only for those students who have been disciplined by school officials. The data element, “Adult Fee Status”, should be maintained only for adult students. This should help reduce the need to store large numbers of characters of “noninformation” in the local data records and thus reduce the need for disk or other data storage space.

Use Types

Use Types define the major purposes for which information is collected, maintained and utilized as follows:

State reporting means the data element is required for a state report and must be forwarded to the Florida Department of Education as per the format descriptions.

Local accountability identifies those data elements which the school district must maintain as an audit trail in support of statutorily required activities. These include **permanent record** data elements as required by Rule 6A-1.0955, FAC and defined as Category A items which school districts must maintain on a permanent basis for each student.

FASTER indicates the data element is included in one or both of the following:

Postsecondary transcript - sent by school districts to state colleges or universities upon request of the student..

District records transfer - forwarding to a requesting school district a prescribed set of data elements pertaining to a student to facilitate an initial and prompt placement of the student in the receiving district’s programs. District records transfer includes all permanent record elements plus Category B information deemed to be essential for initial placement of the student.

Migrant Tracking refers to the Migrant Student Information Exchange (MSIX). Section 1308(b) of the Elementary and Secondary Education Act as amended by the NCLB Act of 2001 requires methods for electronically exchanging student records among districts and states for migrant students. MSIX data is used to facilitate the timely enrollment, grade and course placement and credit accrual of migrant students who move from one district or state to another due to their migrant lifestyle.

STATE REPORTING FORMATS REQUIRING THIS DATA ELEMENT

A section is included with this document which specifies the state reporting formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which require the data element.

DATA ELEMENT NUMBER:

The data element number is an internal number assigned by the Education Information Services section, to facilitate use of the data base elements. School districts need not maintain this number in their local automated system.

SURVEY PERIODS REQUIRED

See data element “Survey Period Code” for an explanation of these codes. The Survey Periods that pertain are listed for each data element. If the Survey Period has ‘Yes’ next to it, the data element is fully reported in the survey period indicated. If the Survey Period has ‘Default’ next to it, the data element must contain the default value when submitted to the Department for the survey period. If the Survey Period has ‘Varies’ next to it, the data element must be fully reported on at least one format for the survey period and a default value must be reported on at least one additional format for the survey period, as indicated in the notes on the format layouts. If the Survey Period has ‘Optional’ beside it, the district has the option of sending actual data or the default value for the element for the survey period. For survey periods with “Optional” indicated, the data or default value will be ignored by the Department’s system and default values will be loaded to the data base for these elements.

YEAR

The Year indicates the fiscal year for which this version of the data element is applicable. The Year is updated each July 1 for the next fiscal year until the element is no longer active. Only active data elements are included in each year's listing of data elements on the web site.

The Year Implemented indicates that a data element was first required at the beginning of the indicated fiscal year (July 1).

APPENDIXES

Each appendix that applies to the data element is listed. Appendixes provide one or more of the following: the universe of codes that are valid for the element, expanded explanation of the codes that are valid for the data element, background information about the data element and coding structure, additional information relevant to understanding and reporting the element.

DESCRIPTION OF CHANGES

Beginning with 2011-12, each change to the element is listed with the date the change was made, the part of the element that was changed (e.g., definition, codes, required formats, required surveys, etc.) and a detailed description of the change.

**C. PRIVACY, SECURITY AND RETENTION
OF PUBLIC SCHOOL
AUTOMATED STUDENT RECORDS**

Privacy, Security and Retention of Public School Automated Student Records

The following procedures shall be implemented by the Florida Department of Education for the privacy, security and retention of public school student records collected, maintained and utilized at the state level.

Privacy of Student Records

Individual, personally identifiable student records collected and maintained by the Florida Department of Education shall be accessible only to authorized state education officials for the purposes of auditing, monitoring and evaluation of state and federal education programs, or for the completing of federal or state mandated activities requiring access to such records, as prescribed by Section 1002.22, F.S., 20 U.S.C. 1232g and 34 CFR Part 99. The Florida Department of Education shall not disclose personally identifiable, individual student records to any person, institution, agency or organization except as authorized by 20 U.S.C. 1232g, 34 CFR Part 99 and Section 1002.22, F.S. Personally identifiable, individual student records shall be utilized by the Florida Department of Education to only prepare and publish aggregate reports and analyses, and such personally identifiable, individual student records shall be destroyed in accordance with the records retention procedure prescribed below.

Data Security

Access to individual student records will be stringently controlled through technical security conventions and procedures established by Northwest Regional Data Center. Appropriate computer passwords and Logon ID's shall be assigned to users in order to establish each user's data access authority only to the records or data elements required to complete federal or state mandated activities.

Records Retention

Individual, personally identifiable student records shall be destroyed according to a records retention schedule established by the Department of State, Division of Library and Information Services, Records Management Program, consistent with the requirements of Section 257.36, F.S. Personally identifiable student records shall be maintained for five years or until applicable federal or state audit functions have been completed, at which time all such records shall be destroyed except for those required for the evaluation of state or federal education programs. Personally identifiable, individual student records maintained for the evaluation of state or federal education programs shall be destroyed when no longer required.

A student may be assigned only one final adult educational functioning level for each course on each reporting record. Based upon the instruction being reported on the record, select the most appropriate response from those listed under either Adult General Education (Adult Basic Education and Adult Secondary Education), Literacy for Adult ESOL Learners, Adult ESOL, or Adult VESOL.

For the final Adult General Education functioning level, use the following codes to relate functioning levels to grade levels. See Appendix M for grade levels crosswalked by year. If you use a "Comprehensive" course, enter the code for the lowest "score" and track that through the end of the reporting period.

Code	Definition/Example
------	--------------------

Adult General Education

B	ABE Beginning Literacy (grade level 0 through 1.9)
F	ABE Beginning Basic Education (grade level 2.0 through 3.9)
H	ABE Intermediate Low (grade level 4.0 through 5.9)
J	ABE Intermediate High (grade level 6.0 through 8.9)
K	Adult Secondary Education Low (grade level 9.0 through 10.9)
L	Adult Secondary Education High (grade level 11.0 through 12.9 WITHOUT a high school diploma or its equivalent)
M	Adult Secondary Education High (grade level 11.0 through 12.9, WITH a high school diploma or its equivalent)

For additional ESOL code conversions refer to the Division of Workforce Development's Technical Assistance Paper cited at <http://www.firn.edu/doe/workforce/pdf/vocscr.pdf>

NOTE: When testing on an instrument that assesses two or more subject areas, always place and promote the student according to the lowest score.

Beginning in 2002-03 there is a new course called Literacy For Adult ESOL Learners for adult ESOL students who are functioning initially at less than the second grade level AND who are illiterate in their native language. For these students, use Code 1. Code 1 students should not be included in Codes 2-7 or Codes C, D, or E in the charts that follow.

Data Element Number: **114425**

Data Element Name: **Discipline/Resultant Action Code**

A one-character code representing the type of disciplinary action taken. The discipline code will be associated with the corresponding School Number, Where Discipline/Referral Action Occurred.

Code	Definition/Example
C	Corporal Punishment Corporal punishment is defined as the moderate use of physical force or physical contact by a teacher or principal to maintain discipline or to enforce school rule. (Maintained for students in grades PK-12 only.)
E	Expelled, Without Continuing Educational Services Student expelled from regular school without continuing educational services provided by the district. (Maintained for students in grades PK-12 and adult)
F	Expelled, With Continuing Educational Services Student expelled from regular school with continuing educational services, which may include a disciplinary program or second chance school, and/or referred to the criminal justice or juvenile justice system. (Maintained for students in grades PK-12 and adult)
H	Suspension Extended, Pending Hearing Suspension (out-of-school) extended beyond 10 school days pending School Board hearing for expulsion. (This code should only be used when the district Superintendent grants an extension for suspension beyond 10 school days as per Ch. 1006.08, F.S.).
I	Suspension, In-School In-school suspension is defined as the temporary removal of a student from the school program not exceeding ten days. (Maintained for students in grades PK-12 only.) In accordance with the Individuals with Disabilities Education Act, this code must be used for all instances in which a child with a disability is temporarily removed from his/her regular classroom(s) for disciplinary purposes but remains under the direct supervision of school personnel.
L	Seclusion The involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.
M	Mechanical Restraint The use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as: Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports; Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle; Restraints for medical immobilization; or Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.
O	Suspension, Out-of-School

FLORIDA DEPARTMENT OF EDUCATION
DOE INFORMATION DATABASE REQUIREMENTS VOLUME I:
AUTOMATED STUDENT INFORMATION SYSTEM
AUTOMATED STUDENT DATA ELEMENTS

Year: 2013-14

	Out-of-school suspension is defined as the temporary removal of a student from a school and the school program for a period not exceeding ten days. (Maintained for students in grades PK-12 only.)
P	Placement in Alternative Educational Setting
	Student is removed from the school for an offense, i.e., disobedient, disrespectful, violent, abusive, uncontrollable or disruptive behavior, not expelled, and placed in an alternative educational setting
R	Physical Restraint

Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location.
S	Other SESIR Defined
	Other SESIR defined is all other types of disciplinary action administered for a SESIR defined incident that cannot be reported using any other code in this element. For example, this code may be used when districts require students to attend additional activities such as "Saturday School", tobacco cessation programs, drug prevention programs, counseling, anger management programs, or community service while they continue their regular course of study. (This code is to be used only when the action is related to a SESIR defined incident).
U	Change in Placement
	Change in placement (not to exceed 45 days) due to a unilateral decision by school personnel following a drug, weapon or serious bodily injury offense. (This code is for students with disabilities only.)

Notes:

CODE U: Use Code "U" only for those students with disabilities involved in drug, weapon or serious bodily injury offenses who were unilaterally removed to an interim alternative education setting by school personnel other than the IEP team, in lieu of suspension/expulsion.

LOCAL USE ONLY CODE D: Districts may record other district-defined disciplinary/resultant actions which cannot be reported using any other code in this element, and may assign them the code D in their local systems. These district-defined disciplinary/resultant actions should not be included on the Student Discipline/Resultant Action format. This code is to be used only when the action is related to a non-SESIR defined incident.

CODE H: For survey 5, most students with a record coded with H should also have a record coded E, F or P based on School Board action. This note is a reminder to districts that Code (H) – Suspension Extended, Pending Hearing will be followed by a record with (E) – Expelled, Without Continuing Educational Services, (F) – Expelled, With Continuing Educational Services, or (P) – Placement in an Alternative Educational Setting code for survey 5, based on the final school board decision.

Data Element Number: **115680**

Data Element Name: **Dropout Prevention/Juvenile Justice Programs**

A code indicating the type of program(s) in which the student participated.

Note: In surveys 2 and 3 the student should be in the program during survey week to be reported. Also, in surveys 2 and 3 only one code is reported. Codes R and E take priority because they are used to identify the proper status of students in the school grading system. In survey 5, in the Dropout Prevention Program Data format, report students who were served at any time during the school year and, for students participating in more than one program, school, or term, record the code for each program, in each term, at each school in which the student participates. In the Federal/State Indicator Status format, for surveys 7 and 5, report code Z.

Code	Definition/Example
A	Disciplinary Programs: Programs designed to provide intervention for students who are disruptive in the traditional school environment. Note: This may include in-school suspension programs. This code does not apply to students who have been assigned to this program as an alternative to expulsion – use code E for these students.
D	Education Services in Department of Juvenile Justice Programs: Educational programs provided to students in Department of Juvenile Justice prevention (diversion), detention and commitment programs.
E	Alternative to Expulsion Programs: Programs designed for students who are subject to district school board policies for expulsion for repeated or serious offenders.
N	Non-School Institution for Neglected or Delinquent Students Student resides in a non-school institution for neglected or delinquent students as defined in Title I, Parts A and D of the Elementary and Secondary Education Act, as amended by Public Law 107-110. See the element Institution Number, Neglected /Delinquent for additional information.
P	Teenage Parent Programs: Educational programs which are designed to provide a specialized curriculum and other services to meet the needs of students who are pregnant, students who are parents or babies of TAP students.
R	Dropout Retrieval Programs: Alternative programs serving students who have officially been designated as dropouts.
U	Educational Alternative Programs: Educational programs which are designed to offer variations of traditional instructional programs and strategies for the purpose of increasing the likelihood that students who are unmotivated or unsuccessful in traditional programs remain in school and obtain a high school diploma or its equivalent. This code does not apply to students who are participating in this program as a retrieved dropout - use code R for these students. Note: Examples of Educational Alternative Programs include but are not limited to course modifications, credit recovery, integrated curriculum, alternative curriculum, flexible schedules and self paced curriculum. Typically alternative education programs apply alternative strategies that lead to improvement in academic performance, student attendance or student behaviors.
W	At Risk Programs: Programs in which At-Risk students are provided services with Title I, Part D funds. Services are provided outside of a traditional classroom setting. Examples include after school tutoring services and summer

The source of the funds used to support the program in which the student participates.

Code	Definition/Example
D	Title I, Part D The program is supported, at least in part, by Title I, Part D, Neglected and Delinquent funds.
E	Title III, Part A The supplemental services provided to the student are supported, at least in part, by Title III, Part A, Language Instruction for Limited English Proficient and Immigrant Students, No Child Left Behind, funds.
I	IDEA, Part B The early intervening services provided to the student are supported, at least in part, by IDEA, Part B funds. Funds are to be used to develop and implement coordinated, early intervening services for students in kindergarten through grade 12 (with a particular emphasis on students in kindergarten through grade three) who are not currently identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment. This code should be used regardless of whether the expenditures are required or voluntary. Districts may use up to 15% of IDEA, Part B funds for this purpose (34 CFR §300.226). This is reported in Survey 5 only.
Z	None of the Above The program does not receive funds from the above fund source.

NOTE: Students reported with:

1. D should be reported on the Dropout Prevention Program Data format,
2. E should be reported on the English Language Learners Information format,
3. I should be reported on the Federal/State Indicator Status format, and
4. More than one code should be reported for a student, if applicable, each on the designated format.

Data Element Name: **Fund Source: NCLB Title III**

A one-character code to identify whether a teacher's position or the program a teacher is teaching in is funded under Title III of the No Child Left Behind (NCLB) Act.

Code	Definition/Example
N	No Title III funds are used to pay this teacher or fund the program in which the teacher is teaching.
Y	The teacher or program receives Title III funds.
Z	Not applicable. Report code Z for survey periods 1 and 4.

Note: Title III is a 100% federally funded supplemental program that concentrates on delivering language instruction educational programs to students who have a primary language other than English. This program is designed to improve the education of English Language Learners (ELL) children and youths by helping them learn English and meet challenging state academic content and student academic achievement standards. The program also provides enhanced instructional opportunities for immigrant children and youths.

If Title III funds are used in any way to provide supplemental assistance to the teacher or program use code Y.

For example:

- A teacher is NOT funded with Title III funds but textbooks specific to the ELL students and used in this class were purchased using Title III funds; thus a Y code is used. In other words, the program is being supplemented with Title III funds to enhance the instructional opportunities for ELL students.
- A teacher teaching ELL students, not paid by Title III and having no supplemental services or materials in the class that were purchased using Title III funds. Use code N.
- A school with a specific instructional program model (bilingual, sheltered, two-way) that includes an instructional ELL coach paid with Title III funds who works with the teachers at the site. Use code Y.

AUTOMATED STUDENT DATA ELEMENTS
Year: 2013-14

Data Element Number: **125625**

Data Element Name: **Grade Point Average State, Cumulative**

The numeric value (with an implied decimal point) of the student's cumulative grade point average calculated on an unweighted 4.0 scale, if different from the Grade Point Average District, Cumulative.

The Grade Point Average State, Cumulative is used to determine if the student has met the state high school graduation requirements of a minimum of 24 credits and a 2.0 GPA based on a 4.0 scale. See Section 1003.43, F.S., for general requirements for high school graduation.

This grade point average is calculated as specified in Section 1003.437, F.S., by assigning quality points of "A" = 4, "B" = 3, "C" = 2, "D" = 1, "F" = 0, and "Incomplete" = 0 to the letter grades displayed on the automated permanent record ("+" and "-" signs are ignored). Grades of NG (No Grade Assigned), WP (Withdrew Passing), and WF (Withdrew Failing) are not applicable for inclusion in the Grade Point Average State, Cumulative.

If the district's Cumulative Grade Point Average for the student is based on a different scale than the 4.0 scale noted above, the district must calculate a Grade Point Average State, Cumulative.

The Grade Point Average District, Cumulative and the Grade Point Average State, Cumulative, if different from the district's average, will be displayed on the automated permanent record and the transcript. This State Grade Point Average will be used for all state-defined functions. See Section 1003.437, F.S., for the statewide grading scale.

Code	Definition/Example
------	--------------------

NNNNN	Examples: 36250 Grade Point Average = 3.6250 00000 Grade Point Average = 0.0000 99999 Not applicable
-------	------------------------------------------------------------------------------------------------------------

Examples of Not Applicable:

A student withdrew from all courses before a grade was assigned (NG).

A student withdrew from all district courses before grades were calculated (WP or WF).

A student enrolls only in non-credit courses and is not assigned grades (NG).

Notes:

GPA State, Cumulative must be reported for all students in grades 9-12 and should be reported for any students in grades 6-8 where it is applicable.

A GPA State, Cumulative of 99999 indicates that a student received no grades in the courses completed.

Grades of Incomplete should be included as zeros in the calculation of GPA State, Cumulative.

Data Element Number: **126425**

Data Element Name: **Grade Promotion Status**

Grade promotion status is defined as the change in grade assignment at the end of a regular school year or summer session. For example, if a PK-12 student meets all criteria for advancement to the next highest grade in his or her current school at the end of the regular 180 day school year or the summer session, that student is considered to have been promoted. Conversely, any PK-12 student who has not met all criteria for advancement to the next highest grade should be considered as retained. Codes and definitions follow:

Code	Definition/Example
A	Promoted to a higher grade without meeting levels of performance for pupil progression based on limited circumstances for exceptions or good cause.
D	Student with disabilities opted to remain in school, or a non-disabled student opted to remain in school for one additional year. *
N	Not enrolled in a KG-12 program in the district at the end of the school year. **
P	Academically promoted to a higher grade, graduated, completed, or reported with withdrawal code WPO.
R	Retained in same grade at the end of the school year.
Z	Promotion status not applicable. Use this code for PK unless the PK student is promoted to kindergarten; for students in continuous progress schools who have not been promoted; for students enrolled in District 71, and for students in grades 30 and 31.

COMMENT:

* Use for additional years beyond graduation and completion year. The Individuals with Disabilities Education Act (IDEA) requires that districts must provide a free and appropriate education (FAPE) to all students who have not reached age 22 and who have not earned a regular high school diploma (34 CFR 300.101). This requirement applies even if the student has received a special diploma, a certificate of completion, or a special certificate of completion. Additionally, districts may choose to continue to offer FAPE through the school year in which students turn 22. Section 1003.43 (10)(b) Florida Statutes allows students who are entitled to a certificate of completion to remain in school for up to one additional year to remedy his or her identified deficiencies.

** Any student withdrawing prior to the end of the school year and receiving a diploma, certificate, or WPO withdrawal code should be coded P rather than N.

A code indicating whether or not the incident was gang related.

Code	Definition/Example

Y	Yes
Z	Use this code for (UBL) Unsubstantiated Bullying and (UHR) Unsubstantiated Harassment.

NOTE: Incident is gang related if gang affiliation/association caused the incident or was a contributing factor to action that happened during the incident. For example, an incident of vandalism or robbery might be a part of an initiation into a gang or a fight might be caused by group rivalry. Report an incident as gang related only if you are sure that gang affiliation/association contributed to that incident. Factors to be considered when determining whether the incident is gang related include, but are not limited to the following: A gang is a somewhat organized group of some duration, sometimes characterized by turf concerns, symbols, special dress or colors. The group is recognized as a gang by its members and others. One or more of those involved in the incident admits to gang affiliation/association or admits that gang affiliation/association was a contributing factor to the incident. One or more of those involved was identified by his/her parents as a gang member/associate. One or more involved were wearing clothing, tattoos, or a style of dress "known" to be associated with gang(s). Students/witnesses to the incident alleged that the incident or one or more of those involved in the incident was gang related or affiliated/associated with a gang. The determination of whether or not the incident was gang related should be based on a reasonable interpretation of the totality of the circumstances.

Y	Yes
Z	Use this code for (UBL) Unsubstantiated Bullying and (UHR) Unsubstantiated Harassment.

Examples: Student spray paints anti-gay slogans on bathroom walls, sends racial slurs to someone in a note or through electronic mail, or uses derogatory language involving someone's religious beliefs in a fight with someone.

Note: An act, or attempted act, to cause physical injury, emotional suffering or property damage through intimidation, harassment, racial/ethnic slurs and bigoted epithets, vandalism, force or the threat of force, motivated all or in part by hostility to the victim's real or perceived race, religion, color, sexual orientation, ethnicity, ancestry, national origin, political beliefs, marital status, age, social and family background, linguistic preference or mental/physical¹ disability. Creates an intimidating, hostile or offensive educational environment. The motivation (intent) behind the act is the key element in determining whether an incident is hate-related².

¹Mental or Physical Disability means that the victim suffers from a condition of physical or mental incapacitation due to a developmental disability, organic brain damage, or mental illness, and has one or more physical or mental limitations that restrict the victim's ability to perform the normal activities of daily living (Chapter 775.085, F.S.).

AUTOMATED STUDENT DATA ELEMENTS

Description of Changes:

Data Element Number: **140462**

Data Element Name: **Industry Certification Identifier**

The identifier assigned by the Florida Department of Education to specify the industry certification or technical skill attainment by third party assessment that the student has taken/attempted.

See Appendix Z for a list of the Industry Certification Identifiers.

Report all Z's (ZZZZZZZZ) if no industry certification was attempted by the student in the course being reported.

For certifications or assessments with more than one exam, an industry certification identifier should only be reported when all exams required to earn the certification or pass the assessment have been taken/attempted.

For example, MICRO069 - This Microsoft bundle requires that a student pass three of five exams. Students must have taken at least three exams for the industry certification identifier to be reported.

For certifications or assessments with work experience requirements, an industry certification identifier may be reported as an attempt when all exams have been taken and any requirements other than work experience are satisfied (i.e., report valid identifier on Industry Certification Identifier element and outcome of "F" on the Industry Certification Outcome element). However, students may not be reported with an "F" for two consecutive years if the only certification requirement outstanding is the work experience.

For example, NRAEF002 - This certification requires the student pass Year 1 and Year 2 exams and complete 400 hours of work experience. A student may be reported one time with this industry certification identifier and an outcome of "F" if the exams have been taken but the work experience was not successfully completed.

For a student earning an industry certification in a prior year (value of "P" on industry certification outcome), the student may not be reported with that same industry certification identifier in a subsequent reporting year.

For example, ADOBE012 - This certification often has software updates and new versions of the software and subsequent exams are released. If a student earned the ADOBE012 certification in 2011-12, the student may not be reported as attempting or earning that industry certification in any following year.

Reporting on this data element is end of year reporting only for K-12 (Survey 5). Therefore, students should not be reported with the same industry certification identifier more than once in the survey. The outcome reported should be the final outcome for the reporting year.

For example, ADOBE012 – If a student took this exam twice during the same year and failed the exam on two occasions, the certification identifier and outcome should only be reported once. If the student took an exam and failed on the first attempt and then the student re-tested on the same exam and earned the certification, only the final outcome on the industry certification identifier should be submitted.

Code	Definition/Example
CISCO004	Cisco Certified Network Associate (CCNA)
NIASE007	ASE Automobile/Light Truck Technician: Brakes (A5)
ZZZZZZZZ	Not applicable. No industry certification was attempted by the student in the course being reported.

Data Element Number: **144025**

Data Element Name: **English Language Learners, PK-12**

Using the definitions and the codes given below, indicate the status of the student who has been identified as an English Language Learner (ELL) student. An ELL is one who:

Code	Definition/Example
LF	The student is being followed up for a two-year period after having exited from the ESOL program.
LP	The student is in the 3rd-12th grade, tested fully English proficient on an Aural/Oral Test and is Limited English Proficient pending the Reading and Writing assessment or the student is in K-12th grade, answered "yes" on the Home Language Survey question "Is a language other than English spoken in the Home?" and is pending aural/oral assessment.
LY	The student is classified as limited English proficient and is enrolled in a program or receiving services that are specifically designed to meet the instructional needs of ELL students, regardless of instructional model/approach.
LZ	The student is one for whom a two-year follow-up period has been completed after the student has exited the ESOL program. This code also applies to John M. McKay Scholarship students who were formerly in an English Language Learners program.
ZZ	Not applicable

NOTE: Code LN has been removed effective July 1, 2007. Students previously reported as LN must be reported under another approved code, as appropriate. The decision regarding the appropriate code should be based on whether or not the student is receiving instruction to meet his/her unique needs, regardless of instructional model/approach, teachers' certification and program funding.

Data Element Number: **148269**

Data Element Name: **Migrant Priority for Services**

An indicator that the migrant student has been classified as failing or at risk of failing to meet the state achievement requirements and that the student's education has been interrupted during the regular school year leading to the designation of "priority to receive services." Students Identified as "Priority for Services" must receive services prior to migrant funds being utilized for other migrant children. The following indicators shall be used to identify the children who should receive "Priority for Services".

The migrant student who:

- 1) Scored at Level 1 or Level 2 on the FCAT ; or
- 2) Is an English Language Learner *; or
Was retained at any time; or
- 4) Has an age/grade discrepancy; or
- 5) Is at risk of failing to meet the state graduation requirement by having one or both of the following:
 - 5.1) an unweighted GPA of 2.0 or below, or
 - 5.2) insufficient credits for promotion or graduation and/or did not pass a required End of Course exam

AND

Whose education has been interrupted during the regular school year. An "educational interruption" occurs when a child, in the preceding 12 months, has changed schools or missed a "significant" amount of school time (e.g. ten days or more) during the regular school year (defined as August through June) due to the child's or family's migrant lifestyle. This determination is made on a "rolling" basis, that is, at the time an eligible migratory child is identified and enrolls in school, the preceding 12 month enrollment history should be reviewed for significant absences.

Code	Definition/Example
N	The migrant student is not designated as Priority for Services.
Y	The migrant student is designated as Priority for Services
Z	The student is not a migrant student.

* English Language Learners are students coded LY, LN or LP on the element English Language Learners, PK-12.

Data Element Number: **168273**

Data Element Name: **Reading Fluency**

A code to indicate the decoding and text reading efficiency status of a student who scored Level 1 or Level 2 on the FCAT Reading subtest. This determination is made through the use of a district assessment(s) as required by SBER 6A-6.054(2)(c) and (3)(c). Students with intervention needs in the areas of decoding and/or text reading efficiency must receive additional instructional time. The process for this determination is included in the district's K-12 Comprehensive Reading Plan.

This element applies to students in grades 06-12 only. Report a 'Z' code for all students in grades PK – 05.

Code	Definition/Example
D	The student has been determined to have intervention needs in the areas of decoding and/or text reading efficiency in Reading through the use of a district assessment(s).
F	Student has been determined to be proficient in the areas of decoding and/or text reading efficiency in Reading through the use of a district assessment(s).
W	Senate Bill 1076 has removed the opportunity for students in middle school or in the ninth grade cohort during 2013-14 to receive a one-year exemption to intensive reading. However, Florida statute section 1003.428(b)(2) still applies to students in ninth grade cohorts in 2012-13 and prior, and states, "A high school student who scores at Level 1 or Level 2 on FCAT Reading but who did not score below Level 3 in the previous 3 years may be granted a 1 year exemption from the reading remediation requirement; however, the student must have an approved academic improvement plan already in place, signed by the appropriate school staff and the student's parent, for the year for which the exemption is granted."
Z	Not applicable. The student is in grade level PK-05, in grade 6 in an elementary school or scored above Level 2 on the Reading subtest of the FCAT. Also use code Z for all students in Survey Period 7.

Data Element Number: **168521**

Data Element Name: **Reading Intervention Component**

A code indicating whether or not the course is used to provide reading intervention for the student as per section 1008.25 (2)(b) and (4)(a)-(c). Students scoring at Levels 1 and 2 on the Reading portion of the Florida Comprehensive Assessment Test (FCAT) or who have been determined through diagnostic assessment to have a reading deficiency must receive intervention.

This indicator applies to students in grades KG-12 only. Report a 'Z' for prekindergarten students.

Code	Definition/Example
E	Yes, this course is used to provide reading intervention for this student. This student is also receiving extended time in reading intervention before school, after school, or at another time during the school day. This code applies to students in grade levels 6-12 only.
F	Flexibility – This course is used to provide reading intervention to students who have met the graduation requirement in reading with a score of Level 2 on FCAT Reading (or a concordant score) as noted in SBER 6A-6.054(3)(e). Having a student assigned to the class under this “flexibility” provision does not require the teacher of the course to be reading endorsed, reading certified or to have completed Content Area Reading Professional Development, but the teacher must be knowledgeable in providing reading strategies. This code applies to students in grade levels 11 and 12 only.
N	No, this course is not used to provide reading intervention for this student.
Y	Yes, this course is used to provide reading intervention for this student. For grades 6-12, this student is not also receiving extended time in reading intervention before school, after school, or at another time during the school day.
Z	Not applicable. The student is not in grades KG-12.

Note: Report code Z for all students in Survey Periods 1 and 4.

Note: The reading intervention course must meet the implementation guidelines set forth by the Just Read, Florida! office and approved in the district's K-12 Comprehensive Reading Plan.

Data Element Number: **175175**

Data Element Name: **Student Characteristic, Agency Programs**

Indicate, using the codes below, whether or not the student being reported meets any of the following categories.

Code	Definition/Example
A	The student is a client of Department of Children and Families (DCF), is placed in a residential facility operated by the agency, and receives educational services from the local school district or through a contract with the local school district. This definition was designed to include students with disabilities who were placed in residential facilities by DCF [e.g., a Developmental Services, Intermediate Care Facility (ICF-MR)]. It does not include students who are in foster care placements.
C	The student is enrolled in a Department of Juvenile Justice facility/program and receives educational services from the local school district. This definition was designed to include the Department of Juvenile Justice or a private, public, or other governmental organization under contract with the Department of Juvenile Justice which provides treatment, care and custody or educational programs for youth in juvenile justice intervention, detention, or commitment programs. This definition encompasses programs such as PACE and AMI. Please note that in many DJJ facilities there may be more than one educational program that generates weighted FTE (e.g., ESE, basic, ESOL, or career and technical education.)
Z	None of the above categories applies to the student.

Note: These codes are used in the calculation of the enrollment ceiling (cap) as authorized by s. 1011.62(1)(d)3.a., F.S.

Data Element Number: **175625**

Data Element Name: **Student Number Identifier, Florida**

A ten-character code used to uniquely identify a student. The number must be maintained for all PK-12 students, adult general education students and postsecondary career and technical education students.

If the student provides a social security number, the Student Number Identifier, Florida equals the social security number followed by an "X."

If a student does not provide a social security number, the school district should assign a number using the common method statewide.

For any student entering a Florida school district for the first time who does not have a social security number, the first two digits will represent the district of initial entry into the Florida school system.

The last eight digits are district-defined in such a way as to result in a unique student number within the district where the number is originally assigned.

Code	Definition/Example
------	--------------------

123456789X	The student's social security number (123-45-6789) followed by an X is the student's identifier number.
2610124677	The student did not provide a social security number and was assigned an identifier number by Hendry County, the district of initial entry into a Florida public school for this student.

If a student does not provide a social security number at the time of entry, but later provides a social security number, the district must update the Student Number Identifier, Florida with the verified social security number.

See Student Number Identifier - Alias, Florida data element for more information concerning changes to the Student Number Identifier, Florida.

Section 1008.386, F.S. requires school districts to request a social security number for each student in grades PK - Adult who enroll or who are enrolled in school. However, a student is not required to provide his or her social security number as a condition for enrollment or graduation.

Districts may maintain a separate local student number identifier.

Data Element Number: **175630**

Data Element Name: **Student Number Identifier - Alias, Florida**

A ten-character code used to identify the first Student Number Identifier, Florida assigned to a student in a district. The number will be reported to the state and will be used to enable the state to do longitudinal studies.

Creation of the Data Element

1. Upon enrollment in the district, copy each student's Student Number Identifier, Florida to the student's Student Number Identifier - Alias, Florida field.
2. Effective the first day of the 180 day 1991-92 school year, for any student who provides a social security number, the student's Student Number Identifier, Florida should be equal to the student's social security number followed by an "X."

Subsequent Changes

If a social security number is provided at a later date or the student's social security number is incorrect, the student's existing Student Number Identifier, Florida must be updated. The correct social security number would be entered in the first nine positions of the Student Number Identifier, Florida field and an "X" would be entered into the tenth position. The Student Number Identifier – Alias, Florida field must remain constant.

If a student does not have a social security number and the district determines the student's Student Number Identifier, Florida is incorrect, the student's existing Student Number Identifier, Florida must be updated. The Student Number Identifier - Alias, Florida must remain constant.

AUTOMATED STUDENT DATA ELEMENTS

Year: 2013-14

Description of Changes:

None

Data Element Number: **177900**

Data Element Name: **Time, Total School Week**

The total amount of time a disabled student is scheduled to attend school each week. This should be reported in minutes per week. All scheduled time i.e., class time, recess, lunch, and time between classes must be included in the total.

Code	Definition/Example
------	--------------------

Examples:

1. Student A's school day begins at 7:30 A.M. and ends at 2:30 P.M. and the student attends five days per week. The total amount of time in school is calculated based on seven hours per day, five days per week. This equates to 2100 minutes per week.

2. Student B's school day begins at 7:30 A.M. and lasts until 12:30 P.M. The student then leaves the school campus to go to an on-the-job training site (OJT) on Monday, Wednesday, and Thursday. The student works until 5:00 P.M. on those days. For the three days the student goes to OJT, the minutes would equate to 570 minutes per day x 3 days = 1,710 minutes. For the two days the student does not work, the minutes would equate to 300 minutes per day x 2 days = 600 minutes. Then, the total time in the school week for this student is 1,710 minutes + 600 minutes = 2,310 minutes.

NOTES: This data should be reported only for Survey 2. Districts should zero-fill this element for all other survey periods.

This field should be zero-filled for students who are reported as gifted only--primary exceptionality is L and other exceptionalities are all Z's.

For students with disabilities ages 3-5, Time, Total School Week must reflect all programs the child is attending including childcare, private kindergartens or preschools, home services, Head Start, and service provider locations, as well as public preschool classes and kindergarten.

Data Element Number: **187011**

Data Element Name: **WDIS Student Instructional Hours**

WDIS Student Instructional Hours is a whole number, expressed in hours, assuming no decimal places and right justified with leading zeros.

WDIS Student Instructional Hours may not be reported in the Workforce Development Information System (WDIS) for students enrolled in courses or programs for which the direct instructional costs have been fully funded by an external agency. Section 1011.80(5)(d), Florida Statutes:

“State funding and student fees for workforce education instruction shall be established as follows: For a public educational institution that has been fully funded by an external agency for direct instructional costs of any course or program, the FTE generated shall not be reported for state funding.”

For Adult General Education (Cost Reporting Codes ranging from 401 – 409*):

For the procedures governing the reporting of WDIS Student Instructional Hours for adult general education students, see the procedures and technical assistance documents found at these links:

http://info.fldoe.org/docushare/dsweb/Get/Document-3722/06_14memo.pdf

http://info.fldoe.org/docushare/dsweb/Get/Document-3724/06_14att2.pdf

http://info.fldoe.org/docushare/dsweb/Get/Document-3723/06_14att1.pdf

For Career Certificate and Applied Technology Diploma (Cost Reporting Codes ranging from 351 – 369*):

For career certificate and applied technology diploma students, the WDIS Instructional hours shall be defined as the number of scheduled course hours from a student's first day of enrollment in a course and to his/her last scheduled day of enrollment in the course. If the student's enrollment in a course crosses reporting surveys, the instructional hours shall be pro-rated across the survey.

WDIS Instructional hours may not exceed the contact hours for which a student has paid/deferred tuition or received a waiver/exemption for the payment of tuition; the only exception is for instructional hours of students who withdrew after the drop/add period. If a student withdraws from a course prior to the end of the reporting survey (but after a drop/add period), the instructional hours may still be reported through the end of the course for that survey. For cases in which a student transfers to a different section in the same course during the survey, the instructional hours for the first section must be reported based on the hours from the date of enrollment to the date of transfer.

Code	Definition/Example
------	--------------------

Cost Reporting Codes ranging from 351 – 369*

0100	The student enrolls in a 150 hour course and is scheduled to attend 100 hours in the fall survey and 50 hours in the spring survey. The student remains in this course to the end of the second survey. For this student, WDIS instructional hours are 100 hours in the fall survey and 50 hours in the spring survey.
0150	The student enrolls in a 150 hour course and is scheduled to attend 150 hours within the survey. The student remains in this course to the end of the survey. For this student, WDIS instructional hours are 150.
0150	The student enrolls in a 150 hour course and is scheduled to attend 100 hours in the fall survey and 50 hours in the spring survey. The student remains in this course to the end of the second survey. For this student, WDIS instructional hours are 100 hours in the fall survey and 50 hours in the spring survey.

For Continuing Workforce Education and Apprenticeship (Cost Reporting Codes ranging from 341 – 349, 371 and 372*):

For each Continuing Workforce Education and apprenticeship student, the WDIS Student Instructional Hours shall be defined as the number of scheduled hours from that student's first day of enrollment in that program and course through the last scheduled day for that program and course in the survey regardless of attendance.

The following Continuing Workforce Education and apprenticeship examples apply in district XX where there are 18 weeks in a semester. The WDIS class in question is scheduled to meet for one hour twice each week for a WDIS Class Length of 36 scheduled hours.

CAREER AND TECHNICAL STUDENT COURSE SCHEDULE - REJECT RULES

- 1. District Number, Current Enrollment must be numeric and in the range 01-69 or 71-75. -record rejected-**

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Enrollment is not within the appropriate range.

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida
01	0151	012345677X
01	0151	012345678X
* 00	0151	012345679X

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number, Current Enrollment and resubmit the record.

CAREER AND TECHNICAL STUDENT COURSE SCHEDULE - REJECT RULES

2. **School Number, Current Enrollment must be numeric in the range 0001 to 9899, excluding 9001, or it must be N998 or N999. -record rejected-**

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause the records to be rejected. The last two records would be rejected. The first of these would be rejected because the School Number, Current Enrollment is not in the appropriate numerical range. The second of these two records would be rejected because the School Number, Current Enrollment is not numeric.

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida
01	0151	012345676X
01	0151	012345677X
* 01	9999	012345678X

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the School Number, Current Enrollment and resubmit the records.

CAREER AND TECHNICAL STUDENT COURSE SCHEDULE - REJECT RULES

3. The first nine positions of Student Number Identifier, Florida must be numeric. The tenth position of Student Number Identifier, Florida must either be an "X" or numeric. If the tenth position of Student Number Identifier, Florida is numeric, the first two digits must be a valid district number in the range 01-75 or 78-79. If the tenth position of the Student Number Identifier, Florida is an "X", the first three positions may not all be zeroes. -record rejected-

Note: For more information on Student Number Identifier, Florida refer to DOE Information Data Base Requirements: Volume I -- Automated Student Information System Manual.

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected because when the social security number is used as the Student Number Identifier, Florida, the tenth position must be an "X". The fourth record would be rejected because the Student Number Identifier, Florida contains blanks. The fifth record would be rejected because the first two digits are not a valid district number. The sixth record would be rejected because the tenth position contains an "X", and the first three positions are all zeroes.

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida
01	0151	1234567891
01	0151	123456789X

* 01	0151	123456789
* 01	0151	0023456791
* 01	0151	000123456X

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Student Number Identifier, Florida and resubmit the records.

CAREER AND TECHNICAL STUDENT COURSE SCHEDULE - REJECT RULES

- 4. Survey Period Code must be 5 and must be correct for the submission specified by the district. -record rejected-**

EXAMPLE

If the Survey Period Code as specified in the transmission JCL or in the statements for tape transmission was identified as Survey Period Code "5" and records were coded with Survey Period Code "3", all updates, adds, or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

The District must correct the Survey Period Code either on the transmission JCL or on the records and resubmit the records.

- 5. School Year – Record Submitted must be correct for the submission specified by the district. -record rejected-**

EXAMPLE

The School Year - Record Submitted as specified in the transmission JCL or in statements for tape transmission is identified as the valid year for data submission. However, records on the transmission have the previous School Year coded. All updates, adds or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

Correct the School Year - Record Submitted either on the records coming in or the transmission JCL and resubmit all records.

CAREER AND TECHNICAL STUDENT COURSE SCHEDULE - REJECT RULES

6. District Number, Current Instruction/Service must be numeric in the range 01-69 or 71-75 and must be correct for the district submitting the data. -record rejected-

EXAMPLE

If district 01 is submitting records, District Number, Current Instruction/Service must be 01 for all records. In the records listed below, the first two records would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Instruction/Service is 02 rather than 01 (the number of the district submitting the record).

ENGLISH LANGUAGE LEARNERS STUDENT INFORMATION - EXCEPTION REPORTS

92. If Survey Period is 2 or 3, English Language Learners: Exit Date must be greater than or equal to two years prior to the Survey Date*, unless zero filled or unless English Language Learners: Reclassification Date is greater than zero. If Survey Period is 5, English Language Learners: Exit Date must be greater than or equal to two years prior to August 15th of the year in which the survey 5 data are due to the Department, unless zero filled or unless English Language Learners Reclassification Date is greater than zero. -exception report-

(Example: For Survey 5 of 2007-08 the Exit Date should be greater than or equal to August 15, 2006.)

* Note: The Survey Date is the date of the Friday during Survey Week for the Survey Period reported.

Purpose: The purpose of this edit is to ensure that LF code in the English Language Learners, PK-12 data element is changed to LZ after two years.

EXAMPLE

The first, second and fourth records listed below would pass the edit. The third record would cause a message to be generated because the English Language Learners: Exit Date is more than two years prior to the Survey Date.

The district should verify the English Language Learners: Reclassification Exit Date and correct it if it is in error.

EXCEPTIONAL STUDENT - REJECT RULES

1. **District Number, Current Enrollment must be numeric in the range 01-69 or 71-75 and must be correct for the district submitting the data. -record rejected-**

EXAMPLE

If district 01 is submitting records; District Number, Current Enrollment must be 01 for all records. Of the records listed below, the first two records would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Enrollment is 02 rather than 01 (the district submitting the record).

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida
01	0151	012345678X
01	0151	012345677X
* 02	0151	012345679X

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct District Number, Current Enrollment and resubmit the record.

EXCEPTIONAL STUDENT - REJECT RULES

2. If Survey Period Code is 1-4 or 5, School Number, Current Enrollment must be numeric in the range 0001 to 9899, excluding 9001, or it must be N998 or N999. If Survey Period Code is 7, School Number, Current Enrollment must be numeric in the range 0001 to 9899, excluding 3518 and 9001. -record rejected-

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The second two records would be rejected. The first of these would be rejected because the School Number, Current Enrollment is not in the appropriate numerical range. The second of these two records would be rejected because the School Number, Current Enrollment is not an acceptable code.

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida
01	0151	012345678X
01	0151	012345677X
* 01	9999	012345676X
* 01	C901	012345675X

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct School Number, Current Enrollment and resubmit the records.

EXCEPTIONAL STUDENT - REJECT RULES

3. The first nine positions of Student Number Identifier, Florida must be numeric. The tenth position of Student Number Identifier, Florida must either be an "X" or numeric. If the tenth position of Student Number Identifier, Florida is numeric, the first two digits must be a valid district number in the range 01-75, or 78-79. If the tenth position of the Student Number Identifier, Florida is an "X", the first three positions may not all be zeroes. -record rejected-

Note: For more information on Student Number Identifier, Florida refer to the DOE Information Data Base Requirements: Volume I -- Automated Student Information System Manual.

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected because when the social security number is used as the Student Number Identifier, Florida, the tenth position must be an "X". The fourth record would be rejected because the Student Number Identifier, Florida contains blanks. The fifth record would be rejected because the first two digits are not a valid district number. The sixth record would be rejected because the tenth position contains an "X", and the first three positions are all zeroes.

District Number, Current Enrollment	School Number, Current Enrollment	Student Number Identifier, Florida

* 01	0151	123456789
* 01	0151	0023456791
* 01	0151	000123456X

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct Student Number Identifier, Florida and resubmit the records.

EXCEPTIONAL STUDENT - REJECT RULES

- 4. Survey Period Code must be 1, 2, 3, 4, 5 or 7 and must be correct for the submission specified by the district. -record rejected-**

EXAMPLE

The Survey Period Code as specified in the transmission JCL or in the statements for tape transmission is identified as Survey Period Code "2" and records are coded with Survey Period Code "1". All updates, adds, or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

The district must correct the Survey Period Code either on the records coming in or the transmission JCL, and all records should be resubmitted.

EXCEPTIONAL STUDENT - REJECT RULES

- 5. Year must be correct for the submission specified by the district. -record rejected-**

Note: For Survey Periods 1-4, Year is Fiscal Year. For Survey Periods 5 and 7, Year is School Year.

EXAMPLE

The Year as specified in the transmission JCL or in the statements for tape transmission is identified as the valid year for data submission, but records being submitted have the previous year coded. All updates, adds, or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

The district must correct the Year either on the JCL or the records being submitted and resubmit all records for processing.

- 6. The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified the record must not already exist on the data base; if C or D is specified then the record must exist on the data base. -record rejected-**

EXAMPLE

For all original transmissions, the Transaction Code must be "A". An original transaction is the first submission of a record during a survey period. After the original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D". To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A". Records with an incorrect Transaction Code would be rejected.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Transaction Code and resubmit the records.

EXCEPTIONAL STUDENT - REJECT RULES

7. Each Exceptional Student record must be unique based on the keys of District Number, Current Enrollment; Student Number Identifier, Florida; Survey Period Code; and Year. -first record accepted, all other duplicate records rejected-

EXAMPLE

The first, third and fourth records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The second and fifth records would be rejected because they are duplicates (same District Number, Current Enrollment; Student Number Identifier, Florida; Survey Period Code and Year) of the first and fourth records, respectively.

District Number, Current Enrollment	Student Number Identifier, Florida	Survey Period Code	Year

* 21	212345679X	2	****

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If the records accepted and loaded to the data base are the correct ones no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must delete any invalid records, correct any rejected records if necessary, and resubmit the corrected records.

EXCEPTIONAL STUDENT - REJECT RULES

8. Exceptionality, Other must be C-M, O, P, S-W, or Z. -record rejected-

Note: Nine possible codes may be selected. If less than nine codes are selected, Z-fill the remaining fields.

EXAMPLE

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second and third records would be rejected because the Exceptionality, Other code is invalid.

District Number, Current Enrollment	Student Number Identifier, Florida	Exceptionality, Other
57	571234567X	CLZZZZZZZZ
* 57	571234568X	XZZZZZZZZZ

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Exceptionality, Other code and resubmit the records.

EXCEPTIONAL STUDENT - REJECT RULES

9. If Survey Period Code = 1, 2, 3, 4 or 7, and if Exceptionality, Primary is not L, then the Exceptional Student Plan Date must be a valid date within the current or previous fiscal year. If Survey Period Code = 1, 2, 3, 4 or 7, and if Exceptionality, Primary is L, then the Exceptional Student Plan Date must be a valid date within the current or four previous fiscal years. If Survey Period Code = 5, Exceptional Student Plan Date may either be zeroes or a valid date. -record rejected-

Note: Fiscal Year is July 1, **** to June 30, *****.

EXAMPLE

The records listed below would be rejected. The first record would be rejected because the Exceptional Student Plan Date is not numeric. The second record would be rejected because the Exceptional Student Plan Date is an invalid date.
