PREFACE

Section 1008.385(2), Florida Statutes, mandates that each school district and the Florida Department of Education develop and implement a comprehensive management information system which is made up of compatible components. See: http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&Search_String=&URL=1000-1099/1008/Sections/1008.385.html.

In order to support the statewide process of implementing compatible local and state-level automated information systems, the Florida Department of Education has developed the following documents:

- * DOE INFORMATION DATA BASE REQUIREMENTS:
VOLUME I -- AUTOMATED STUDENT INFORMATION SYSTEM
- * DOE INFORMATION DATA BASE REQUIREMENTS:
VOLUME II -- AUTOMATED STAFF INFORMATION SYSTEM

This document contains the required data elements, functions and timelines which each automated information system component must incorporate within its automated staff information system. Further information or questions concerning this document should be addressed to Education Information Services, Florida Department of Education, 544 Turlington Building, Tallahassee, Florida 32399-0400 or askeias@fldoe.org.

A. AUTOMATED STAFF INFORMATION SYSTEM REQUIREMENTS

AUTOMATED STAFF INFORMATION SYSTEM REQUIREMENTS

Section 1008.385(2), F.S., requires the development and implementation of a comprehensive management information system linking all levels of the state education system. Each school district and the Florida Department of Education shall implement an automated information system component containing staff information which is compatible with the statewide comprehensive management information system.

The automated staff information system functions and timelines implemented by the Florida Department of Education and each school district are as follows:

HISTORY

1. An automated staff Information system is to be implemented in each school district by June 30, 1987.

Each school district shall install an automated staff information system which includes the data elements prescribed in Section B of this document and which contains the procedures for performing the automated state reporting and records transfer functions defined in subsection 4 below. Each system shall provide payroll, Professional Development and basic personnel recordkeeping.

2. State-level automated staff information data base design is to be implemented in the Florida Department of Education by July 1, 1987.

A state-level staff data base of information shall be installed for access by state and local education managers and the Legislature. The data base design shall integrate existing Department reports now collected separately from school districts within the automated reporting formats defined in subsection 4 below, thereby reducing data burden, improving compatibility among data elements and providing a more comprehensive and flexible data base of information. The Florida Department of Education shall implement strict controls for privacy and security of staff records as contained in Section C of this document.

3. Automated state reporting functions are to be implemented by each school district beginning July 1, 1987.

Current state reporting functions are defined in subsection 4.

AUTOMATED STATE REPORTING FUNCTIONS

B. AUTOMATED STAFF INFORMATION SYSTEM APPENDICES

INTRODUCTION

All automated staff data elements included in this volume must be incorporated within each school district's automated staff information system. Districts may add additional data elements with their local automated system to meet local needs.

DEFINITION:

There is a working definition associated with each data element, along with applicable examples, codes, notes and exception(s).

LENGTH AND DATA TYPE:

Length and data type define the technical field characteristics to be maintained in the automated system for each data element. Numeric elements must have a number in every position, including leading zeros.

STATE RECORD FORMATS REQUIRING THIS DATA ELEMENT:

A section is included with document which specifies the state record formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which require the data element.

COMPATIBILITY REQUIREMENT:

All elements must use the specified length, data type and coding definitions given in the automated staff data elements whenever automated state reporting is performed.

The degree of required compatibility between state and local elements varies. Many elements listed in this document need merely be **Compatible**, while others must meet stricter **State Standards**.

Compatible elements:

For data elements which are designated 'No' for State Standard, the coding structures used by the district, the data element names presented in user documentation and the length and format of the data fields may be the same as that contained in this volume or they may be completely locally defined depending on the district's staff information needs. If local definitions are used, it must be possible to convert the information into the state-required codes, descriptors and formats by calculation, computer procedures or subroutines whenever state formats are required.

District documentation of locally defined elements must reference the state data elements for which they are surrogates.

Even though the state does not require the use of the state-defined codes for these compatible elements, districts are encouraged to keep each of these elements in state format whenever possible to minimize the need for and cost of conversion.

State Standard elements:

For data elements which are designated 'Yes' for **State Standard**, the coding structures used by the district, the data element names presented in user documentation, the length and format of the data fields for all external occurrences of information in reports, user documentation and display and entry screens must be the same as those contained in this volume.

Thus, **State Standard** elements must meet these additional requirements:

- 1) the state codes **must be used locally exactly as defined** in this document for automated staff data elements;
- 2) user documentation must list the **State Standard** data element name;
- 3) input and output documents and reports must use the state-defined codes; and
- 4) local screen displays must use the state-defined codes.

These requirements do not address the **physical storage** of the data on tape, disk or other medium, but only how the data elements are to be presented to users in paper format or on screen displays. The stricter definition of **State Standard** still allows the district the flexibility to use its own district-defined codes for **physically** storing elements in the staff records system while, at the same time, using **State Standard** codes for display, input, reports and user documentation. For example, a date might be required to appear always to the user as MMDDYYYY or MM/DD/YYYY but could be physically stored as YYDDD with nonuser system documentation recording this fact.

In many of the data element definitions included in this volume, a code has been defined for "not applicable." In the case of very specialized data elements, it would seem more sensible in terms of the design of the staff records system to record information for such specialized elements only for staff to whom the element is pertinent. For both **Compatible** and **State Standard** data elements, the codes defined as "not applicable" need not be maintained in the local data records or displayed on local screens. At the time of reporting, if it is determined that a particular characteristic or condition is "not applicable" for an individual staff member, the value meaning "not applicable" may be programmatically inserted into the reporting structure at that time.

These standards do not require the district to show or print the Social Security Number on all screens and reports. A local identification number may be displayed or printed as long as the local identification number can be cross walked to the Social Security Number for state reporting purposes.

This interpretation should allow segmentation of records and help reduce the need to store large numbers of characters of “non-information” in the local data records, thereby reducing the need for disk or other data storage space.

USE TYPES:

Use Types define the major purposes for which information is collected, maintained and utilized as follows:

State reporting means the data element is required for a state report and must be forwarded to the Florida Department of Education as per the format descriptions.

Local accountability identifies those data elements which the school district must maintain as an audit trail in support of statutorily required activities.

STATE REPORTING FORMATS REQUIRING THIS DATA ELEMENT:

A section is included with this document which specifies the state reporting formats which school districts must utilize in performing automated state reporting functions. Each data element page lists the specific automated state reporting formats which will require the data element.

DATA ELEMENT NUMBER:

The data element number is an internal number assigned by the Education Information and Accountability Services section to facilitate the use of the data elements. School districts need not maintain this number in their local automated system.

REPORTED IN SURVEY PERIODS:

See data element “Survey Period Code” for an explanation of these codes. The Survey Periods that pertain are listed for each data element. If the Survey Period has ‘Yes’ next to it, the data element is fully reported in the survey period indicated. If the Survey Period has ‘Default’ next to it, the data element must contain the default value when submitted to the Department for the survey period. If the Survey Period has ‘Varies’ next to it, the data element must be fully reported on at least one format for the survey period and a default value must be reported on at least one additional format for the survey period, as indicated in the notes on the format layouts. If the Survey Period has ‘Optional’ beside it, the district has the option of sending actual data or the default value for the element for the survey period. For the survey period with ‘Optional’ indicated, the data or default value will be ignored by the Department’s system and default values will be loaded to the data base for these elements.

YEAR:

The Year indicates the fiscal year for which this version of the data element is applicable. The Year is updated each July 1 for the next fiscal year until the element is no longer active. Only active data elements are included in each year's listing of data elements on the web site.

The Year Implemented indicates that a data element was first required at the beginning of the indicated fiscal year (July 1).

APPENDIXES

Each appendix that applies to the data element is listed. Appendixes provide one or more of the following: the universe of codes that are valid for the element, expanded explanation of the codes that are valid for the data element, background information about the data element and coding structure, additional information relevant to understanding and reporting the element.

DESCRIPTION OF CHANGES

Beginning with 2011-12, each change to the element is listed with the date the change was made, the part of the element that was changed (e.g., definition, codes, required formats, required surveys, etc.) and a detailed description of the change.

AUTOMATED STAFF RECORDS**

Security and Retention of Public School Automated Staff Records

The following procedures shall be implemented by the Florida Department of Education for the privacy, security and retention of public school staff records collected, maintained and utilized at the state level.

Data Security

Access to individual staff records will be stringently controlled through technical security conventions and procedures established by Northwest Regional Data Center. Appropriate computer passwords and Logon ID's shall be assigned to users in order to establish each user's data access authority only to the records or data elements required to complete federal or state mandated activities.

Records Retention

Individual, personally identifiable staff records shall be destroyed according to a records retention schedule established by the Department of State, Division of Library and Information Services, Records Management Program, consistent with the requirements of Section 257.36, F.S. Personally identifiable staff records shall be maintained for five years or until applicable federal or state audit functions have been completed, at which time all such records shall be destroyed except for those required for the evaluation of state or federal education programs. Personally identifiable, individual staff records maintained for the evaluation of state or federal education programs shall be destroyed when no longer required.

DOE INFORMATION DATABASE REQUIREMENTS VOLUME II:
AUTOMATED STAFF INFORMATION SYSTEM
AUTOMATED STAFF DATA ELEMENTS
Year: 2015-16

Data Element Number: **211930**

Data Element Name: **Migrant Regular School Year**

A code to identify the job category of the employee who worked with the Migrant program during the regular school year and who was paid from Title I, Part C, Migrant Education Program funds and the corresponding full-time equivalency (FTE) of this assignment.

Code	Definition/Example
A	Administrators and coordinators (non-clerical)
B	Teachers
C	Paraprofessionals (instructional)
D	Paraprofessionals (non-instructional)
E	Counselors
F	Recruiters
G	Records Transfer Staff
H	Other employee paid from Title I, Part C, MEP funds but not included in codes A-G above.
Z	Employee was not paid from Title I, Part C, Migrant Education Program funds during the regular school year or was employed in a school-wide program where MEP funds were combined with those of other programs.

Examples:

B050 Fifty percent of the teacher's assignment was in the Migrant Education Program during the regular school year and was paid from Title I, Part C, Migrant Education Program funds.

C100 One hundred percent of the instructional paraprofessional's assignment was in the Migrant Education Program during the regular school year and was paid from Title I, Part C, Migrant Education Program funds.

Z000 This employee was not paid from Title I, Part C, Migrant Education Program funds during the regular school year or was employed in a school-wide program where MEP funds were combined with those of other programs.

NOTE: To calculate FTE, use the percentage of time the employee was funded by MEP funds. Alternatively, calculate FTE using the number of days worked. One regular school year FTE equals 180 full-time work days. To calculate FTE, sum the total days the individual worked for the regular school year and divide this sum by the number of full-time days that constitute one FTE, i.e., 180 days.

Use only the percentage of days worked by an individual that were paid by MEP funds in calculating the total FTE numbers to be reported.

Do not include staff employed in school wide programs where MEP funds are combined with those of other programs. These employees should be coded Z000.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

1. **District Number must be numeric in the range 01-69 or 71-75 and must be correct for the district submitting the data. -record rejected-**

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number and resubmit the record for processing.

2. **Social Security Number (SSN) must be numeric and greater than zero, excluding the value 999999999, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-**

EXAMPLE

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

- 3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-**

EXAMPLE

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code either on the JCL or the records being submitted and resubmit the records for processing.

- 4. Fiscal Year must be correct for the submission specified by the district. -record rejected-**

EXAMPLE

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

5. Additional Compensation Type code must be A, B, E - K, N – W, Y, Z, or 1-4.
-record rejected-

EXAMPLE

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Additional Compensation Type code is not an acceptable code.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Additional Compensation Type	Additional Compensation Value
03	123456789	2	****	B	0045000
* 03	123456780	2	****	L	0025000

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Additional Compensation Type and resubmit the record for processing.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

6. Additional Compensation Value must be numeric. -record rejected-

EXAMPLE

The first record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The second record listed below would be rejected because the Additional Compensation Value is not numeric.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Additional Compensation Type	Additional Compensation Value
03	123456789	2	****	B	0045000
* 03	123456780	2	****	B	Z000000

**** = Valid fiscal year for data submission.

7. The Transaction Code must be A, C, or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

EXAMPLE

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

EXAMPLE

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The last record below would be rejected because the key items (District Number, Social Security Number, Survey Period Code, Fiscal Year, and Additional Compensation Type code) duplicate the key items in the first record

District Number	Social Security Number	Survey Period Code	Fiscal Year	Additional Compensation Type
03	123456789	2	****	C
03	123456780	2	****	B

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted with a Transaction Code of C rather than A.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

9. The Staff Number Identifier, Local may be any combination of letters, numbers and blanks. All blanks are not allowable. It must be left-justified with trailing blanks. -record rejected-

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other edit would cause their rejection. The third record would be rejected because the Staff Number Identifier, Local contains a symbol (@). The fourth record would be rejected because it is right-justified rather than left-justified.

District Number	Staff Number Identifier, Local
01	0123456789
01	ABC123DEF9
* 01	2121@xyz
*01	123456

01	123456789	A000012537
* 01	012345678	012345678

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Staff Number Identifier, Local or the Social Security Number and resubmit the record.

STAFF ADDITIONAL COMPENSATION - REJECT RULES

- 11. Florida Education Identifier (FLEID) is alphanumeric and must be entered as “FL” in the first 2 positions followed by twelve numeric digits. No blanks or spaces are allowable. -record rejected-**

EXAMPLE

Florida Education Identifier:

- FL012345678910

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Florida Education Identifier and resubmit the record for processing.

STAFF ADDITIONAL COMPENSATION - STATE VALIDATION RULES

50. Each Staff Additional Compensation record must have a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code and Fiscal Year. -state validation 3-

EXAMPLE

The Staff Additional Compensation record below would not pass this edit because it has no matching Staff Demographic Information record (based on District Number, Social Security Number, Survey Period Code, and Fiscal Year).

Staff Demographic Information records

District Number	Social Security Number	Survey Period Code	Fiscal Year
03	123456789	2	****
03	123456780	2	****

Staff Additional Compensation record

* 03	123456781	2	****	0481	B	0045000

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

The district must verify that the Staff Additional Compensation record is valid, then submit a matching Staff Demographic Information record based on District Number, Social Security Number, Survey Period Code, and Fiscal Year.

STAFF ADDITIONAL COMPENSATION - STATE VALIDATION RULES

51. If the Additional Compensation Type code is Y, then the Salary Schedule Pay Type on the Staff Payroll Information record must be 0, 9, A, or B. The match should be done using District Number, Social Security Number, Survey Period Code and Fiscal Year -state validation 3-

EXAMPLE

The Staff Additional Compensation record below would not pass this edit because the correct relationship does not exist between the Additional Compensation Type code and the Salary Schedule Pay Type code (based on District Number, Social Security Number, Survey Period Code, and Fiscal Year).

Staff Payroll Information records

District Number	Social Security Number	Survey Period Code	Fiscal Year	Salary Schedule Pay Type
03	123456789	2	****	2
03	123456780	2	****	7

Staff Additional Compensation record

District Number	Social Security Number	Survey Period Code	Fiscal Year	School Number, Primary/Home	Additional Compensation Type	Additional Compensation Value
* 03	123456780	2	****	0481	Y	0150000

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

The district must determine which record is in error, the Additional Compensation Type or the Staff Payroll Information, and then correct it so that the proper relationship exists between these two formats.

STAFF EXPERIENCE - REJECT RULES

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-**

EXAMPLE

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero and left-justified. Resubmit the records for processing.

STAFF EXPERIENCE - REJECT RULES

- 3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-**

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number is not in the appropriate range.

District Number	Social Security Number
03	123456789
03	123456782
* 00	123456781

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the District Number and resubmit the record for processing.

2. **Social Security Number (SSN) must be numeric and greater than zero, excluding the value 999999999, unless it is a Staff Number Identifier and the first two positions are "CS" and the last seven positions are numeric. Nine-character SSN's should be left-justified, with a trailing blank. -record rejected-**

EXAMPLE

Social Security Numbers of 0000000000 and (blank)504767954 would cause each record to be rejected. The first number is incorrect because it is not greater than zero. The second is incorrect because it is right-justified rather than left-justified.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Social Security Numbers by making them numeric, greater than zero, and left-justified. Resubmit the records for processing.

STAFF BENEFITS - REJECT RULES

- 3. Survey Period Code must be correct for the submission specified by the district and must be 2 or 3. -record rejected-**

EXAMPLE

The Survey Period Code as specified in the transmission JCL is identified as Survey Period Code "2" and the records are coded as Survey Period Code "3". All updates, adds, or deletes that have this inconsistency are rejected.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Survey Period Code either on the JCL or the records being submitted and resubmit the records for processing.

- 4. Fiscal Year must be correct for the submission specified by the district. -record rejected-**

EXAMPLE

Similar to the edit for Survey Period Code, both the Fiscal Year on the JCL and the records being submitted for processing must match.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Fiscal Year either on the JCL or the records being submitted and resubmit the records for processing.

STAFF BENEFITS - REJECT RULES

5. **Selected Benefits, Type must be A, B, C, D, E, F, G, K, L, M, or N. -record rejected-**

EXAMPLE

The first and second record listed below would be loaded to the data base assuming no other reject rule would cause its rejection. The third record below would be rejected because of an incorrect code for Selected Benefits, Type. The fourth record would be rejected because the Selected Benefits, Type code is blank.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Selected Benefits, Type
03	123456789	2	****	B
03	123456781	3	****	F

* 03	123456788	3	****	

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Selected Benefits, Type and resubmit the records for processing.

STAFF BENEFITS - REJECT RULES

6. **Selected Benefits, Frequency code must be numeric, greater than zero, and less than or equal to 5200. -record rejected-**

EXAMPLE

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected because the Selected Benefits, Frequency code is not numeric. The fourth record would be rejected because Selected Benefits, Frequency code has been left blank. The fifth record would be rejected because the Selected Benefits, Frequency code is not within the acceptable range.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Selected Benefits, Type	Selected Benefits, Frequency	Selected Benefits, Value
03	123456789	2	****	B	1200	00012500

STAFF BENEFITS - REJECT RULES

7. **Selected Benefits, Value must be numeric and greater than zero. -record rejected-**

EXAMPLE

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record below would be rejected because the Selected Benefits, Value has been left blank. The fourth record would be rejected because the Selected Benefits, Value is not numeric.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Selected Benefits, Type	Selected Benefits, Frequency	Selected Benefits, Value
03	123456789	2	****	B	1200	00012500
03	123456780	2	****	C	1200	00005300

* 03	123456791	2	****	D	1000	ZZZZZZZZ

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the data base, the district must correct the Selected Benefits, Value and resubmit the records for processing.

STAFF BENEFITS - REJECT RULES

8. The Transaction Code must be A, C, or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the data base; if C or D is specified, then the record must exist on the data base. -record rejected-

EXAMPLE

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the data base, the district must correct the Transaction Code and resubmit the record for processing.

STAFF BENEFITS - REJECT RULES

9. Each Staff Benefits record must be unique based on District Number; Social Security Number; Survey Period Code; Fiscal Year; and Selected Benefits, Type code. -first record accepted, all other duplicate records rejected-

EXAMPLE

The first and second records listed below would be loaded to the data base assuming no other reject rule would cause their rejection. The third record would be rejected because the key items (District Number; Social Security Number; Survey Period Code; Fiscal Year; and Selected Benefits, Type code) duplicate the key items in the first record.

District Number	Social Security Number	Survey Period Code	Fiscal Year	Selected Benefits, Type	Selected Benefits, Frequency	Selected Benefits, Value
03	123456789	2	****	B	1200	00012500

* 03	123456789	2	****	B	0800	00010250

**** = Valid fiscal year for data submission.

DISTRICT RESPONSIBILITY

If, in fact, the third record above should not have been submitted, the district would not have to take any action. The record was rejected. However, if the record should have been submitted but with a different key, the record should be corrected and resubmitted. If the district wishes to update some item in this record, the record should be submitted for processing with a Transaction Code of "C" rather than "A."

STAFF BENEFITS - REJECT RULES

10. The Staff Number Identifier, Local may be any combination of letters, numbers and blanks. All blanks are not allowable. It must be left-justified with trailing blanks. -record rejected-

EXAMPLE

The first two records listed below would be loaded to the data base assuming no other edit would cause their rejection. District Number	Social Security Number	Staff Number Identifier, Local
01	123456789	A000012537
* 01	012345678	012345678

EXAMPLE

The two records below would be rejected due to incorrect Job Code Fund Source codes. In the first record, the code "Z" is not a valid code. In the second record, only the first of the three Job Code Fund Source codes is supplied and the last two are left blank.

Resubmit the records for processing.

STAFF ADDITIONAL JOB ASSIGNMENTS - REJECT RULES

EXAMPLE

For all original transmissions, the Transaction Code must be "A." An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D." To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A." Records with an incorrect Transaction Code would be rejected.

However, if the district wishes the data in the rejected record to be loaded to the data base, the district must change the "G" Job Code Fund Source to another valid Job Code Fund Source or combine the percentages attributed to that Job Code Fund Source into the first four positions so that the Job Code Fund Source is not repeated within that record. Resubmit the record for processing.

STAFF ADDITIONAL JOB ASSIGNMENTS - REJECT RULES

32. The three Job Code Fund Source percentages on a Staff Additional Job Assignment record must add up to 100 percent. -record rejected-
