INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Expenditures

Expenditure for Maintenance, Repair and Renovation from 1.50-Mills and PECO

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district.

Revenue

1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

The COFTE Projected Total (100,949) for 2025 - 2026 must match the Official Forecasted COFTE Total (100,949) for 2025 - 2026 before this section can be completed. In the event that the COFTE Projected Total does not match the Official forecasted COFTE, then the Balanced Projected COFTE Table should be used to balance COFTE.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The Duval County School Board is exploring several possible solutions for the deduction of permanent student stations.

1. Magnet Schools: The magnet program began in 1991 and offers approximately 84 programs with over 22,000 enrolled students at various schools. Dedicated Magnet Schools in underutilized areas help reduce the need for permanent student stations in the over utilized areas.

2. Charter Schools: The District reviews new charter applications annually to help reduce the need for the District to provide permanent capacity.

3. Boundary Changes: the District considers boundary changes to reduce overcrowding and utilize available seats in other locations on a regular basis. Consideration is given to this option every year following the official 20 day enrollment count.

4. Portable Relocation: The District reviews the current location of portables in relation to the school utilization. Satisfactory portables are moved from under utilized to over utilized schools.

5. A Community Engagement process called ACE (Academic and Community Excellence) to involve stakeholders to help the District form long range facilities plans to include consolidations, boundary changes and facility conditions to balance enrollment throughout the District.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

The District closed Brentwood Elementary No.15 at the end of the 2021 school year, moving students to North Shore Elementary No. 70

Lackawanna No. 10 - Sold March 2021, out of DCPS inventory.

Lake Forest No. 74 - District staff in buildings, Turnaround Region, Gear Up. Site under lease/purchase option with Ability Housing, sale and turn over TBD.

Northwestern Middle No. 155 converted to Northwestern Legends Elementary No. 124, moving the former St. Clair Evans students to the new school.

Carter G Woodson - District staff in building, Duval Virtual Instructional Academy (DVIA), they will be housed at Woodson for the 21/22 school year.

Brentwood - Vacant, City of Jacksonville assessing for public library location, decision by COJ TBD.

West Jacksonville - Vacant, The Bridge relocated to St. Clair Evans, took school number with it 3029. Surplus and sale of site preferred, preparations will begin within the 2021 - 22 school year.

There is a School Board Policy in place for the disposition of any closed facilities. The School Board has approved a Districtwide Master Plan and a local option 1/2 cent surtax was voted on November 3, 2020.
