FOREWORD

The principal purpose of the *Report for the Florida College System* is to provide timely, accurate, and comparative information about the Florida College System. Sometimes referred to as the "The Florida College Fact Book," this report is intended for use by people who are interested in data relevant to education within the Florida College System.

The majority of the tables in the Fact Book are prepared by staff using the Florida College Management Information Systems' databases. All statistical and financial data used to generate information in this publication originates at Florida's 28 institutions within the Florida College System and are reported to the Florida Department of Education, Division of Accountability, Research and Measurement and the Division of Florida Colleges. This information is used to comply with state and federal reporting requirements.

Additional statistical/financial data about Florida's College System may be available upon request from the Bureau.

Florida College System

Florida's college system began in 1933 when Palm Beach Junior College was established as a public two-year college. Palm Beach Junior College remained the only public two-year college in Florida until 1947, when the status of St. Petersburg Junior College, begun in 1927, was changed from a private junior college to public. When the Florida Minimum Foundation Program was enacted in 1947, combined state and local support for Florida colleges became a reality. Because of this combined support, Pensacola Junior College was established in 1947. Also, Chipola Junior College, established in 1947 as a private institution, changed the status to become a public junior college a year later.

In 1955, the Legislature established the Community College Council. The report was published in 1957 under the title, "The Community Junior College in Florida's Future." This report was approved by the State Board of Education and contained recommendations for needed legal changes and a master plan for establishing a system of public colleges in Florida. The system would provide post-high school education within commuting distance for more than 90 percent of Florida's population. With the development and implementation of the master plan, Florida became a national model for the development of a statewide system of Florida colleges.

Consequently, the 1957 Legislature authorized the creation of the Division of Community Colleges in the State Department of Education and appropriated funds for six new colleges to begin implementation of the master plan. These colleges were:

Gulf Coast Community College   Manatee Junior College
Central Florida Community College   North Florida Junior College
Daytona Beach Community College   St. Johns River Community College

The state continued to build additional colleges through the 1960s and early 1970s. In 1972, the master plan was fully implemented with the opening of Pasco-Hernando Community College.

There were twelve black colleges that merged with the Florida College System. These black colleges served as a critical foundation for the Florida College System:

       Booker T. Washington Junior College founded in 1949, merged with Pensacola Junior College in 1965
       Carver Junior College founded in 1960, merged with Brevard Junior College in 1963
       Collier-Blocker Junior College founded in 1960, merged with St. Johns River Community College in 1965
       Gibbs Junior College founded in 1957, merged with St. Petersburg Junior College in 1966
       Hampton Junior College founded in 1958, merged with Central Florida Community College in 1966
       Jackson College founded in 1961, merged with Chipola Junior College in 1966
       Johnson College founded in 1962, merged with Lake-Sumter Community College in 1966
       Lincoln College founded in 1960, merged with Indian River Community College in 1965
       Roosevelt College founded in 1958, merged with Palm Beach Community College in 1965
       Rosenwald College founded in 1958, merged with Gulf Coast Community College in 1966
       Suwannee River College founded in 1959, merged with North Florida Community College in 1967
       Volusia Community College founded in 1957, merged with Daytona Beach Community College in 1966

Florida College System

Florida's 28 colleges were established to serve the citizens of the State of Florida by offering the first two years of a baccalaureate degree, vocational education, and adult continuing education. Of the 182 sites, there are 146 official Public Education Capital Outlay (PECO) sites in the Florida College System. Furthermore, in order to bring instruction closer to students, more than 2,000 other locations, such as churches, public schools, and community centers are also used.

To further ensure the efficient and effective operation of Florida's college system, the Florida Legislature established the State Community College Coordinating Board in 1979, and in 1983 replaced that board with the State Board of Community Colleges. The State Board of Community Colleges earned the respect of the colleges by preserving local control, represented by local Boards of Trustees, while simultaneously establishing system wide policies and coordination. The Florida college system has received national recognition because of this unusual balance between local control, state coordination and funding. In 2001, the statute that established the State Board of Community Colleges was repealed and the Florida college system was placed under the jurisdiction of the Florida Board of Education.

During the expansion and modification of Florida's college system, the postsecondary educational needs in Florida were changing. The identifiable changes included an increase in the average age of students; changes in enrollment patterns, population growth, and population patterns; increased emphasis on vocational education and economic development; and the entry of women into the work force in unprecedented numbers. The Postsecondary Education Planning Commission (PEPC) was established in 1981 to provide overall guidance and direction for the improvement of postsecondary education in Florida. A new college master plan was developed. The Master Plan for the Florida college system was first published in September 1983. This Master Plan addressed several concerns, including emphasis on the improvement of quality, the trend toward increased part-time enrollments, minority needs, women's needs, and student financial aid needs. The 1988 Master Plan updated the 1983 plan and identified challenges (from which strategic plans would evolve) addressing areas such as quality education, economic development, and the quality of life.

In 2005, a committee of college faculty, staff, administrators, and trustees with assistance from the Division of Florida Colleges (DFC) developed a strategic plan. The 2005 Division of Florida Colleges' Strategic Plan is aligned with the Department of Education's strategic imperatives and goals, and includes the following eight sector level goals:

1. Ensure open-door access and student success

2. Vitalize communities through the State by enhancing workforce development programs in community-specific need areas

3. Facilitate baccalaureate expansion policies which help meet unmet community economic and educational needs

4. Enhance leadership and professional development opportunities for faculty, staff and administration

5. Enhance learning and student services through expanded use of emerging technologies

6. Maintain a low tuition policy that supports open-door access

7. Align college funding with performance

8. Implement a comprehensive facilities development plan that supports continued access

The statewide mission for the Florida College System is contained in Chapter 1004, Section 65, Florida Statutes. The primary mission of the Florida College System includes the following:

- Providing lower level undergraduate instruction and awarding associate degrees;

- Preparing students directly for careers requiring less than baccalaureate degrees;

- Providing student development services; and

- Promoting economic development for the state within each college district through the provision of special programs.

The secondary role for colleges includes offering programs in:

- Community services that are not directly related to academic or occupational advancement;

- Adult general education; and

- Recreational and leisure services.

As stated in Florida Statutes, Chapter 1004, Section 65(4):

> "The colleges' mission reflects a commitment to be responsive to local educational needs and challenges. In achieving this mission, the colleges strive to maintain sufficient local authority and flexibility while preserving appropriate legal accountability to the state."

Beginning in 2001, several institutions within the Florida College System were given permission to offer the four-year baccalaureate degree. St. Petersburg College was the first institution allowed to do this. A number of colleges have followed by offering baccalaureate degrees. The initial emphasis was on teacher education, nursing and computer technology. St. Petersburg College has begun offering degrees in other areas as well. While the ability to offer the four-year degree has expanded the mission of these institutions, the major focus remains that of a college.

In 2008, the legislature approved a pilot project that changed the name of the Florida Community College System to the Florida College System. Also, several colleges dropped the word "community" and added the word "state" to the institution's name.

Florida College Funding Policy

The following describes the present State Funding Policy for Florida's College Operations:

General appropriations are provided to each college in a lump sum, which means the institution is given an amount of money to operate the college and provide various programs and services. Colleges' local Boards of Trustees are given the flexibility, by law, to develop a budget with available resources which best meets their college's priorities for offering programs and meeting local needs. Colleges' local Boards of Trustees are also given the responsibility and provided the flexibility to set local policy on employee pay, salary increases, most fringe benefits, and job qualifications/requirements.

The primary source for these operating funds is state General Revenue, but some state funds are also provided from lottery proceeds. The balance of the college operating funds are made up of student tuition, fees, grants, and other local college funds. In addition, categorical funding is sometimes provided for specific special issues or projects. The Florida Legislature determines the specific amount to be funded for the issue or project and expenditures of these funds are to be limited to that purpose. An example is matching funds for Private Contribution/State Matching Programs.

Each year the Florida Legislature specifies a standard student fee amount per credit hour to be charged. Florida Colleges' local Boards of Trustees are authorized to set fees at their college within a range of ten percent below to fifteen percent above this standard amount.

Other = These figures reflect students awaiting enrollment in limited access programs, students enrolled in apprenticeship courses, and students who are enrolled in courses related to employment, as general freshmen or for other personal objectives. There may be some duplication between major program areas.
Unduplicated headcount represents the unduplicated number of students by each college, excluding recreation and leisure.

Notes: Temporary employees are not included. Full-time faculty with contracts less than 2 terms are not included. *2.0 Semester Equivalents have been determined by the application of conversion factors to the 2.5 and 3.0 semester salaries. These contract periods have been adjusted in order to develop a salary composite for 2.0 semesters or nine months. This period is the nationally recognized basis for comparison. The   federal standard factors of 0.909 and 0.818 have been respectively applied to 2.5 and 3.0 semester salaries. The number of days per term included in a contract may vary among the colleges. Several Florida Colleges were involved with union negotiations at the time the data was reported. Therefore the posted amounts could differ once negotiations are completed.
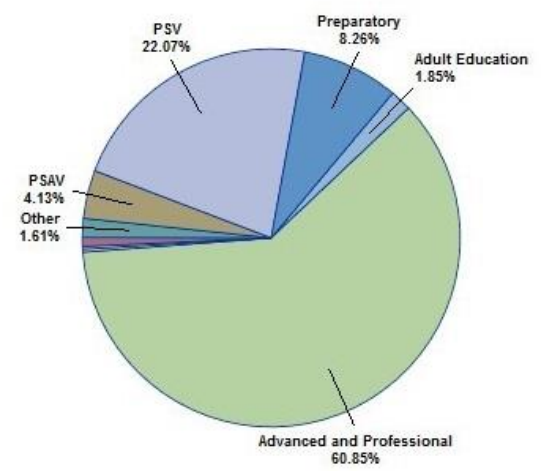

Notes: Beginning in 2013, IPEDS changed the Occupational Codes used for reporting.
