

FLORIDA SCHOOL GRADES

2015-16 SCHOOL GRADES

UPDATED JUNE 2017

GRADING FLORIDA PUBLIC SCHOOLS

2015-16

School grades provide an easily understandable metric to measure the performance of a school. Parents and the general public can use the school grade and its associated components to understand how well each school is serving its students. The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments (FSA). The 2015-16 school grades model uses the new school grades model adopted for 2014-15 and includes the new learning gains components for the first time.

The school grading system focuses the school grading formula on student success measures:

- Achievement
- Learning gains
- Graduation
- Acceleration success
- Maintaining a focus on students who need the most support

The 2015-16 School Grades Model

English Language Arts (FSA and FSAA)	Mathematics (FSA, EOCs, FSAA)	Science (NGSSS, EOC, FSAA)	Social Studies (EOCs)	Graduation Rate	Acceleration Success
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	4-year Graduation Rate (0% to 100%)	High School (AP, IB, AICE, Dual Enrollment or
Learning Gains (0% to 100%)	Learning Gains (0% to 100%)				Industry Certification) (0% to 100%)
Learning Gains of the Lowest 25% (0% to 100%)	Learning Gains of the Lowest 25% (0% to 100%)				Middle School (EOCs or Industry Certifications) (0% to 100%)

Components

In 2015-16, a school's grade may include up to 11 components. There are four achievement components, as well as components for learning gains, learning gains of the lowest 25% of students, middle school acceleration, graduation rate and college and career acceleration. Each component is worth up to 100 points in the overall calculation.

Four Achievement Components – The four achievement components are English Language Arts, Mathematics, Science and Social Studies. These components include student performance on statewide standardized assessments, including the comprehensive assessments, end-of-course (EOC) assessments and Florida Standards Alternate Assessments (FSAA). The components measure the percentage of full-year enrolled students who achieved a passing score.

Four Learning Gains Components – These components are learning gains in English Language Arts and Mathematics, as well as learning gains for the lowest performing 25% of students in English Language Arts and Mathematics. These components include student performance on statewide standardized assessments, including the comprehensive assessments, EOC assessments and the FSAA for the current year and the prior year. The components measure the percentage of full-year-enrolled students who achieved a learning gain from the prior year to the current year.

Middle School Acceleration – This component is based on the percentage of eligible students who passed a high school level EOC assessment or industry certification.

Graduation Rate – The graduation rate is based on a four-year adjusted cohort of ninth grade students, and the rate measures whether the students graduate within four years.

College and Career Acceleration – This component is based on the percentage of graduates from the graduation rate cohort who earned a score on an acceleration examination (AP, IB, or AICE), a grade in a dual enrollment course that qualified for college credit or earned an industry certification.

School Grades Calculation

The points earned for each component are added together and divided by the total number of possible points to determine the percentage of points earned.

School Grading Percentages

- A = 62% of points or greater
- B = 54% to 61% of points
- C = 41% to 53% of points
- D = 32% to 40% of points
- F = 31% of points or less

Percent Tested

Schools must test 95 percent of their students.

Resources

The Florida statute that provides the framework for the school grades calculation is at the following link: [Section 1008.34, F.S.](#)

The rule adopted by the State Board of Education at its January 6, 2016, meeting describes more specifically the school grades calculation and can be found at the following link: [Rule 6A-1.09981, F.A.C.](#)

The department's website contains additional information about the school grades, including the results of the calculation for each school and district. This information will be available on the department's interactive [PK-20 Education Information Portal](#). Additional information describing the calculation and historical information are available at <http://schoolgrades.fldoe.org/>.

School Grade Distribution

2015 and 2016 Grades

All Schools

Grade	Informational Baseline 2015		2016		Change	
	Number	Percent	Number	Percent	Number	Percentage Point

All Schools 2015 Compared to 2016

		2016 School Grade					
		A	B	C	D	F	Total
Informational Baseline 2015 School Grade	A	699	382	94	3	1	1,179
	B	36	254	354	9	3	656
	C	15	105	606	136	6	868
	D	2	9	168	151	32	362
	F	0	7	46	79	47	179
	Total	752	757	1,268	378	89	3,244

The chart above compares the grades schools earned in 2015 with the grades they earned in 2016. Schools in the cells shaded green increased their school grade in 2016. Schools in the cells shaded red had a reduction in their school grade. Schools in the cells shaded yellow had no change in their school grade.

- 467 schools (14%) increased their grade in 2016
- 1,020 schools (31%) decreased their grade in 2016
- 1,757 schools (54%) had no change in their grade in 2016

District Grades for 2016

The commissioner assigns a letter grade of A, B, C, D, or F to each school district annually as provided in s. 1008.34(5), F.S., and rule 6A-1.09981 School and District Accountability, F.A.C., based on the components and processes for school grades. The district's grade is calculated as if the district's students are enrolled in one large combination school. All students who are full-year enrolled in the district will be included in the district's grade. This means that students who were not full-year enrolled at an individual school but who were full-year enrolled within the district will be included in the district's grade.

Detailed information on district grades is available at <http://schoolgrades.fdoe.org> (see the link "District Grades").
