ESOL Endorsement

## PROFESSIONAL PROFILE

After teaching both students and teachers in a Title I school for almost 18 years, I can say with 100% certainty there is no other place I would rather be. As the curriculum coach for our K-8 campus for 5 years, I helped both teachers and students grow and achieve academic success. Being a part of the team that was able to celebrate the designation of our campus as a Blue Ribbon School is something that brings me pride and joy. It does not however compare to being back in the classroom, teaching my students and watching them grow each year. I am passionate about the relationships I build with my students and parents. It is my goal to help my students grow not only academically, but to support their social emotional growth as well.
