SS.912.FL.5.10:	Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation. Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.
SS.912.FL.5.11:	Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets. Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.
SS.912.FL.5.12:	Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets. Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.
SS.912.FL.6.1:	Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later. Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.
SS.912.FL.6.2:	Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example. Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.
SS.912.FL.6.3:	Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance. Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.
SS.912.FL.6.4:	Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance. Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.
SS.912.FL.6.5:	Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim). Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.
SS.912.FL.6.6:	Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk. Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.

SS.912.FL.6.7:	<p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.</p>
SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
SS.912.G.4.4:	<p>Use geographic terms and tools to analyze case studies of issues in globalization.</p> <p>Clarifications: Examples are cultural imperialism, outsourcing.</p>
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.1112.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ol style="list-style-type: none"> Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.

	<p>c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.</p> <p>d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>e. Provide a concluding statement or section that follows from or supports the argument presented.</p>
LAFS.1112.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <p>a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.N-Q.1.1:	<p>Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.N-Q.1.2:	<p>Define appropriate quantities for the purpose of descriptive modeling. ★</p> <p>Clarifications: Algebra 1 Content Notes: Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.N-Q.1.3:	<p>Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p> <p>Make sense of problems and persevere in solving them.</p>

MAFS.K12.MP.1.1:	<p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p> <p>Standard Relation to Course: Supporting</p> <p>Construct viable arguments and critique the reasoning of others.</p>
MAFS.K12.MP.3.1:	<p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p> <p>Standard Relation to Course: Supporting</p> <p>Use appropriate tools strategically.</p>
MAFS.K12.MP.5.1:	<p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p> <p>Standard Relation to Course: Supporting</p> <p>Attend to precision.</p>
MAFS.K12.MP.6.1:	<p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p> <p>Standard Relation to Course: Supporting</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Economics - The grade 9-12 Economics course consists of the following content area strands: Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of the national and international economic systems. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the major economic systems, the global market and economy, major economic theories and economists, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, financial and investment markets, and the business cycle.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes:

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found here.

GENERAL INFORMATION

Course Number: 2102345

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: Economics

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Economics >

Abbreviated Title: ECON FIN LIT HON

Course Length: Semester (S)

Course Attributes:

- Honors
- Class Size Core Required

Course Level: 3

Educator Certifications

Economics (Grades 6-12)

Social Science (Grades 5-9)

History (Grades 6-12)

Social Science (Grades 6-12)

Economics with Financial Literacy Honors (#2102345) 2022 - And Beyond

Course Standards

Name	Description
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?, (2) How to produce?, and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.5:	Compare different forms of business organizations. Clarifications: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.7:	Graph and explain how firms determine price and output through marginal cost analysis.
SS.912.E.1.8:	Explain ways firms engage in price and nonprice competition.
SS.912.E.1.9:	Describe how the earnings of workers are determined. Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.1:	Identify and explain broad economic goals. Clarifications: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.4:	Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls. Clarifications: Examples are shortage, surplus, other inefficiencies.
SS.912.E.2.5:	Analyze how capital investments may impact productivity and economic growth. Clarifications: Examples are factories, machinery, technology, people.
SS.912.E.2.6:	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies. Clarifications: Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.

SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.10:	Describe the organization and functions of the Federal Reserve System.
SS.912.E.2.11:	Assess the economic impact of negative and positive externalities on the local, state, and national environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.
SS.912.E.3.1:	Demonstrate the impact of inflation on world economies. Clarifications: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.
SS.912.E.3.3:	Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones. Clarifications: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.
SS.912.E.3.4:	Assess the economic impact of negative and positive externalities on the international environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.3.5:	Compare the current United States economy with other developed and developing nations. Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.
SS.912.E.3.6:	Differentiate and draw conclusions about historical economic thought theorized by economists. Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.FL.1.1:	Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.
SS.912.FL.1.2:	Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.
SS.912.FL.1.3:	Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.
SS.912.FL.1.4:	Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.
SS.912.FL.1.5:	Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.
SS.912.FL.1.6:	Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.
SS.912.FL.1.7:	Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid. Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.
	Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as

SS.912.FL.2.1:	his or her preferences. Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.
SS.912.FL.2.2:	Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others. Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.
SS.912.FL.2.3:	Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs. Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.
SS.912.FL.2.4:	Describe ways that consumers may be influenced by how the price of a good is expressed. Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.
SS.912.FL.2.5:	Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information. Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.
SS.912.FL.2.6:	Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating. Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.
SS.912.FL.2.7:	Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud. Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.
SS.912.FL.3.1:	Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future. Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.
SS.912.FL.3.2:	Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation. Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.
SS.912.FL.3.3:	Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow. Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.
SS.912.FL.3.4:	Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest. Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.
SS.912.FL.3.5:	Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system. Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.
SS.912.FL.3.6:	Describe government policies that create incentives and disincentives for people to save. Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.
SS.912.FL.3.7:	Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer. Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."
SS.912.FL.4.1:	Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments. Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.

SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications: Explain why a bank may offer low-rate introductory credit offers.</p>
SS.912.FL.4.3:	<p>Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.</p>
SS.912.FL.4.4:	<p>Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate.</p> <p>Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.</p>
SS.912.FL.4.5:	<p>Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports.</p> <p>Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.</p>
SS.912.FL.4.6:	<p>Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk.</p> <p>Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.</p>
SS.912.FL.4.7:	<p>Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums.</p> <p>Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.</p>
SS.912.FL.4.8:	<p>Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future.</p> <p>Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.</p>
SS.912.FL.4.9:	<p>Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors.</p> <p>Clarifications: Identify the costs and benefits associated with using different credit counseling services.</p>
SS.912.FL.4.10:	<p>Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years.</p> <p>Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.</p>
SS.912.FL.4.11:	<p>Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral.</p> <p>Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.</p>
SS.912.FL.4.12:	<p>Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices.</p> <p>Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.</p>
SS.912.FL.4.13:	<p>Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit.</p> <p>Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.</p>
SS.912.FL.5.1:	<p>Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment.</p> <p>Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.</p>
SS.912.FL.5.2:	<p>Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment.</p> <p>Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.</p>
SS.912.FL.5.3:	<p>Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets.</p> <p>Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.</p>
	<p>Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return,</p>

SS.912.FL.5.4:	than the other investment. Clarifications: Explain why the expected rate of return on a "blue chip" stock is likely to be lower than that of an Internet start-up company.
SS.912.FL.5.5:	Explain that shorter-term investments will likely have lower rates of return than longer-term investments. Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.
SS.912.FL.5.6:	Describe how diversifying investments in different types of financial assets can lower investment risk. Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.
SS.912.FL.5.7:	Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets. Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.
SS.912.FL.5.8:	Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy. Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.
SS.912.FL.5.9:	Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks. Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.
SS.912.FL.5.10:	Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation. Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.
SS.912.FL.5.11:	Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets. Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.
SS.912.FL.5.12:	Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets. Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.
SS.912.FL.6.1:	Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later. Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.
SS.912.FL.6.2:	Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example. Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.
SS.912.FL.6.3:	Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance. Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.
SS.912.FL.6.4:	Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance. Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.
SS.912.FL.6.5:	Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim). Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.
SS.912.FL.6.6:	Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk. Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.

SS.912.FL.6.7:	<p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.</p>
SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
SS.912.G.4.4:	<p>Use geographic terms and tools to analyze case studies of issues in globalization.</p> <p>Clarifications: Examples are cultural imperialism, outsourcing.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

ELA.K.12.EE.2.1:	Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K.12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K.12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Economics - The grade 9-12 Economics course consists of the following content area strands: Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of the national and international economic systems. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the major economic systems, the global market and economy, major economic theories and economists, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, financial and investment markets, and the business cycle.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found here.

GENERAL INFORMATION

Course Number: 2102345

Course Path: Section: Grades PreK to 12 Education Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies > **SubSubject:** Economics >

Number of Credits: Half credit (.5)

Abbreviated Title: ECON FIN LIT HON

Course Length: Semester (S)

Course Attributes:

- Honors
- Class Size Core Required

Course Type: Core Academic Course

Course Level: 3

Course Status: State Board Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: Economics

Educator Certifications

Economics (Grades 6-12)

Social Science (Grades 5-9)

History (Grades 6-12)

Social Science (Grades 6-12)

Advanced Placement Microeconomics (#2102360) 2020 -

And Beyond (current)

General Course Information and Notes

VERSION DESCRIPTION

The most current curriculum framework and other instructional and planning resources for this course are available on the Florida Department of Education website at: <http://www.fldoe.org/academics/career-adult-edu/career-tech-edu/curriculum-frameworks/2020-21-frameworks/finance.shtml>

GENERAL NOTES

The course description for this Advanced Placement courses is located on the College Board site at http://apcentral.collegeboard.com/apc/public/courses/teachers_corner/index.html.

Course Standards

Name	Description
SS.912.E.1.9:	Describe how the earnings of workers are determined. Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.
SS.912.FL.1.1:	Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.
SS.912.FL.1.2:	Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.
SS.912.FL.1.3:	Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.
SS.912.FL.1.4:	Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.
SS.912.FL.1.5:	Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.
SS.912.FL.1.6:	Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.
SS.912.FL.1.7:	Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid. Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.
SS.912.FL.2.1:	Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences. Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.

SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>
SS.912.FL.2.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information.</p> <p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
SS.912.FL.4.1:	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p> <p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications:</p>

	Explain why a bank may offer low-rate introductory credit offers.
SS.912.FL.4.3:	Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.
SS.912.FL.4.4:	Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate. Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.
SS.912.FL.4.5:	Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports. Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.
SS.912.FL.4.6:	Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk. Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.
SS.912.FL.4.7:	Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums. Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.
SS.912.FL.4.8:	Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future. Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.
SS.912.FL.4.9:	Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors. Clarifications: Identify the costs and benefits associated with using different credit counseling services.
SS.912.FL.4.10:	Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years. Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.
SS.912.FL.4.11:	Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral. Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.
SS.912.FL.4.12:	Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices. Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.
SS.912.FL.4.13:	Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit. Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.
SS.912.FL.5.1:	Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment. Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.
SS.912.FL.5.2:	Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment. Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.
SS.912.FL.5.3:	Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets. Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.
SS.912.FL.5.4:	Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment. Clarifications: Explain why the expected rate of return on a "blue chip" stock is likely to be lower than that of an Internet start-up company.

SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>
SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.</p>
SS.912.FL.5.9:	<p>Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks.</p> <p>Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.</p>
SS.912.FL.5.10:	<p>Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation.</p> <p>Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.</p>
SS.912.FL.5.11:	<p>Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets.</p> <p>Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.</p>
SS.912.FL.5.12:	<p>Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets.</p> <p>Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.</p>
SS.912.FL.6.1:	<p>Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later.</p> <p>Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.</p>
SS.912.FL.6.2:	<p>Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example.</p> <p>Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.</p>
SS.912.FL.6.3:	<p>Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance.</p> <p>Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.</p>
SS.912.FL.6.4:	<p>Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance.</p> <p>Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.</p>
SS.912.FL.6.5:	<p>Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim).</p> <p>Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.</p>
SS.912.FL.6.6:	<p>Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk.</p> <p>Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.</p> <p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an</p>

SS.912.FL.6.7:	individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.
	Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.
SS.912.FL.6.8:	Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.
	Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.
SS.912.FL.6.9:	Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.
	Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.
SS.912.FL.6.10:	Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.
	Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases. c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.1112.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers. e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.

LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
MAFS.912.N-Q.1.2:	Define appropriate quantities for the purpose of descriptive modeling. ★ Clarifications: Algebra 1 Content Notes: Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.
MAFS.912.N-Q.1.3:	Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
MAFS.K12.MP.6.1:	Attend to precision. Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This grade 9-12 course consists of the following content area and literacy strands: Economics, Financial Literacy, Mathematics, Languages Arts for Literacy in History/Social Studies and Speaking and Listening. Basic economic concepts of scarcity, choice, opportunity cost, and cost/benefit analysis are interwoven throughout the standards and objectives. Emphasis will be placed on economic decision-making and real-life applications using real data.

The primary content for the course pertains to the study of learning the ideas, concepts, knowledge and skills that will enable students to implement beneficial personal decision-making choices; to become wise, successful, and knowledgeable consumers, savers, investors, users of credit and money managers; and to be participating members of a global workforce and society.

Content should include, but not be limited to:

- cost/Benefit analysis of economic decisions
- earning an income
- understanding state and federal taxes
- utilizing banking and financial services
- balancing a checkbook and managing a bank account
- savings, investment and planning for retirement
- understanding loans and borrowing money, including predatory lending and payday loans
- understanding interest, credit card debt and online commerce
- how to prevent identify fraud and theft
- rights and responsibilities of renting or buying a home
- understanding and planning for major financial purchases
- understanding the costs and benefits of insurance
- understanding the financial impact and consequence of gambling

- avoiding and filing bankruptcy
- reducing tax liability.

Instructional Practices: Teaching using real world materials, examples and simulations enhances students' content area knowledge and also strengthens their ability to comprehend concepts related to personal financial literacy. Using the following instructional practices will also help student learning.

1. Incorporating current event articles on economic developments related to personal financial literacy.
2. Having students create economic models that reflect key concepts and economic decisions.
3. Use real world data and evidence to answer complex high-level questions that are based on real world scenarios.
4. Require students to make and support personal financial decisions using evidence and trends.
5. Provide extended learning opportunities that simulate economic scenarios including, but not limited to:
 - o planning and managing a household budget
 - o purchasing a home or automobile
 - o planning for retirement
 - o filing a tax return
 - o managing an investment portfolio
 - o affording college for dependent children

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>.

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found here.

VERSION REQUIREMENTS

This course meets the statutory requirement outlined in Section 1003.4282(3)(g), Florida Statutes, which states that beginning with the 2019-2020 school year, all school districts must offer a financial literacy course consisting of at least 0.5 credit as an elective.

GENERAL INFORMATION

<p>Course Number: 2102372</p> <p>Number of Credits: Half credit (.5)</p> <p>Course Type: Elective Course</p> <p>Course Status: Course Approved</p> <p>Grade Level(s): 9,10,11,12,30,31</p>	<p>Course Path: Section: Grades PreK to 12 Education Courses > Grade Group: Grades 9 to 12 and Adult Education Courses > Subject: Social Studies > SubSubject: Economics ></p> <p>Abbreviated Title: PERSONAL FIN LIT</p> <p>Course Length: Semester (S)</p> <p>Course Attributes:</p> <ul style="list-style-type: none"> • Class Size Core Required <p>Course Level: 2</p>

Personal Financial Literacy (#2102372) 2022 - And Beyond

Course Standards

Name	Description
SS.912.E.1.9:	Describe how the earnings of workers are determined. Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.
SS.912.FL.1.1:	Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.
SS.912.FL.1.2:	Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.
SS.912.FL.1.3:	Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.
SS.912.FL.1.4:	Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.
SS.912.FL.1.5:	Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.
SS.912.FL.1.6:	Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.
SS.912.FL.1.7:	Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid. Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.
SS.912.FL.2.1:	Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences. Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.

SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>
SS.912.FL.2.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information.</p> <p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
SS.912.FL.4.1:	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p> <p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications:</p>

	Explain why a bank may offer low-rate introductory credit offers.
SS.912.FL.4.3:	Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.
SS.912.FL.4.4:	Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate. Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.
SS.912.FL.4.5:	Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports. Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.
SS.912.FL.4.6:	Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk. Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.
SS.912.FL.4.7:	Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums. Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.
SS.912.FL.4.8:	Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future. Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.
SS.912.FL.4.9:	Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors. Clarifications: Identify the costs and benefits associated with using different credit counseling services.
SS.912.FL.4.10:	Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years. Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.
SS.912.FL.4.11:	Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral. Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.
SS.912.FL.4.12:	Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices. Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.
SS.912.FL.4.13:	Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit. Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.
SS.912.FL.5.1:	Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment. Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.
SS.912.FL.5.2:	Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment. Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.
SS.912.FL.5.3:	Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets. Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.
SS.912.FL.5.4:	Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment. Clarifications: Explain why the expected rate of return on a "blue chip" stock is likely to be lower than that of an Internet start-up company.

SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>
SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.</p>
SS.912.FL.5.9:	<p>Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks.</p> <p>Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.</p>
SS.912.FL.5.10:	<p>Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation.</p> <p>Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.</p>
SS.912.FL.5.11:	<p>Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets.</p> <p>Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.</p>
SS.912.FL.5.12:	<p>Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets.</p> <p>Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.</p>
SS.912.FL.6.1:	<p>Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later.</p> <p>Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.</p>
SS.912.FL.6.2:	<p>Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example.</p> <p>Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.</p>
SS.912.FL.6.3:	<p>Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance.</p> <p>Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.</p>
SS.912.FL.6.4:	<p>Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance.</p> <p>Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.</p>
SS.912.FL.6.5:	<p>Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim).</p> <p>Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.</p>
SS.912.FL.6.6:	<p>Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk.</p> <p>Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.</p> <p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an</p>

SS.912.FL.6.7:	<p>individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.</p>
SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.2.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.3.1:

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:	<p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>

General Course Information and Notes

GENERAL NOTES

This grade 9-12 course consists of the following content area and literacy strands: Economics, Financial Literacy, Mathematics, Languages Arts for Literacy in History/Social Studies and Speaking and Listening. Basic economic concepts of scarcity, choice, opportunity cost, and cost/benefit analysis are interwoven throughout the standards and objectives. Emphasis will be placed on economic decision-making and real-life applications using real data.

The primary content for the course pertains to the study of learning the ideas, concepts, knowledge and skills that will enable students to implement beneficial personal decision-making choices; to become wise, successful, and knowledgeable consumers, savers, investors, users of credit and money managers; and to be participating members of a global workforce and society.

Content should include, but not be limited to:

- cost/Benefit analysis of economic decisions
- earning an income
- understanding state and federal taxes
- utilizing banking and financial services
- balancing a checkbook and managing a bank account
- savings, investment and planning for retirement
- understanding loans and borrowing money, including predatory lending and payday loans
- understanding interest, credit card debt and online commerce
- how to prevent identify fraud and theft
- rights and responsibilities of renting or buying a home
- understanding and planning for major financial purchases
- understanding the costs and benefits of insurance
- understanding the financial impact and consequence of gambling
- avoiding and filing bankruptcy
- reducing tax liability.

Instructional Practices: Teaching using real world materials, examples and simulations enhances students' content area knowledge and also strengthens their ability to comprehend concepts related to personal financial literacy. Using the following instructional practices will also help student learning.

1. Incorporating current event articles on economic developments related to personal financial literacy.
2. Having students create economic models that reflect key concepts and economic decisions.
3. Use real world data and evidence to answer complex high-level questions that are based on real world scenarios.
4. Require students to make and support personal financial decisions using evidence and trends.
5. Provide extended learning opportunities that simulate economic scenarios including, but not limited to:
 - o planning and managing a household budget
 - o purchasing a home or automobile
 - o planning for retirement
 - o filing a tax return
 - o managing an investment portfolio
 - o affording college for dependent children

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards:

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support,

students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>.

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found [here](#).

VERSION REQUIREMENTS

This course meets the statutory requirement outlined in Section 1003.4282(3)(g), Florida Statutes, which states that beginning with the 2019-2020 school year, all school districts must offer a financial literacy course consisting of at least 0.5 credit as an elective.

GENERAL INFORMATION

Course Number: 2102372

Course Path: Section: Grades PreK to 12 Education Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies > **SubSubject:** Economics >

Number of Credits: Half credit (.5)

Abbreviated Title: PERSONAL FIN LIT

Course Length: Semester (S)

Course Attributes:

- Class Size Core Required

Course Type: Elective Course

Course Level: 2

Course Status: State Board Approved

Grade Level(s): 9,10,11,12,30,31

Educator Certifications

Social Science (Grades 6-12)

Mathematics (Grades 6-12)

Business Education (Grades 6-12)

Personal Financial Literacy Honors (#2102374) 2019 - 2022

(current)

Course Standards

Name	Description
SS.912.E.1.9:	Describe how the earnings of workers are determined. Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.
SS.912.FL.1.1:	Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.
SS.912.FL.1.2:	Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.
SS.912.FL.1.3:	Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.
SS.912.FL.1.4:	Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.
SS.912.FL.1.5:	Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.
SS.912.FL.1.6:	Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.
	Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid.

SS.912.FL.1.7:	<p>Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.</p>
SS.912.FL.2.1:	<p>Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences.</p> <p>Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.</p>
SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>
SS.912.FL.2.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information.</p> <p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p>

SS.912.FL.4.1:	<p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications: Explain why a bank may offer low-rate introductory credit offers.</p>
SS.912.FL.4.3:	<p>Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.</p>
SS.912.FL.4.4:	<p>Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate.</p> <p>Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.</p>
SS.912.FL.4.5:	<p>Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports.</p> <p>Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.</p>
SS.912.FL.4.6:	<p>Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk.</p> <p>Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.</p>
SS.912.FL.4.7:	<p>Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums.</p> <p>Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.</p>
SS.912.FL.4.8:	<p>Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future.</p> <p>Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.</p>
SS.912.FL.4.9:	<p>Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors.</p> <p>Clarifications: Identify the costs and benefits associated with using different credit counseling services.</p>
SS.912.FL.4.10:	<p>Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years.</p> <p>Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.</p>
SS.912.FL.4.11:	<p>Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral.</p> <p>Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.</p>
SS.912.FL.4.12:	<p>Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices.</p> <p>Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.</p>
SS.912.FL.4.13:	<p>Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit.</p> <p>Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.</p>
SS.912.FL.5.1:	<p>Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment.</p> <p>Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.</p>
SS.912.FL.5.2:	<p>Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment.</p> <p>Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.</p>
	<p>Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets.</p>

SS.912.FL.5.3:	<p>Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.</p>
SS.912.FL.5.4:	<p>Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment.</p> <p>Clarifications: Explain why the expected rate of return on a “blue chip” stock is likely to be lower than that of an Internet start-up company.</p>
SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>
SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.</p>
SS.912.FL.5.9:	<p>Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks.</p> <p>Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.</p>
SS.912.FL.5.10:	<p>Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation.</p> <p>Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.</p>
SS.912.FL.5.11:	<p>Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets.</p> <p>Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.</p>
SS.912.FL.5.12:	<p>Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets.</p> <p>Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.</p>
SS.912.FL.6.1:	<p>Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later.</p> <p>Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.</p>
SS.912.FL.6.2:	<p>Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example.</p> <p>Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.</p>
SS.912.FL.6.3:	<p>Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance.</p> <p>Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.</p>
SS.912.FL.6.4:	<p>Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance.</p> <p>Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.</p>
SS.912.FL.6.5:	<p>Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim).</p> <p>Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.</p>

SS.912.FL.6.6:	<p>Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk.</p> <p>Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.</p>
SS.912.FL.6.7:	<p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.</p>
SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ol style="list-style-type: none"> Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.1112.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★
MAFS.912.N-Q.1.2:	Define appropriate quantities for the purpose of descriptive modeling. ★ Clarifications: Algebra 1 Content Notes: Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions.
MAFS.912.N-Q.1.3:	Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to

identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

MAFS.K12.MP.6.1:

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

ELD.K12.ELL.SS.1:

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This grade 9-12 course consists of the following content area and literacy strands: Economics, Financial Literacy, Mathematics, Languages Arts for Literacy in History/Social Studies and Speaking and Listening. Basic economic concepts of scarcity, choice, opportunity cost, and cost/benefit analysis are interwoven throughout the standards and objectives. Emphasis will be placed on economic decision-making and real-life applications using real data.

The primary content for the course pertains to the study of learning the ideas, concepts, knowledge and skills that will enable students to implement beneficial personal decision-making choices; to become wise, successful, and knowledgeable consumers, savers, investors, users of credit and money managers; and to be participating members of a global workforce and society.

Content should include, but not be limited to:

- cost/Benefit analysis of economic decisions
- earning an income
- understanding state and federal taxes
- utilizing banking and financial services
- balancing a checkbook and managing a bank account
- savings, investment and planning for retirement
- understanding loans and borrowing money, including predatory lending and payday loans
- understanding interest, credit card debt and online commerce
- how to prevent identify fraud and theft
- rights and responsibilities of renting or buying a home
- understanding and planning for major financial purchases
- understanding the costs and benefits of insurance
- understanding the financial impact and consequence of gambling
- avoiding and filing bankruptcy
- reducing tax liability.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Instructional Practices: Teaching using real world materials, examples and simulations enhances students' content area knowledge and also strengthens their ability to comprehend concepts related to personal financial literacy. Using the following instructional practices will also help student learning.

1. Incorporating current event articles on economic developments related to personal financial literacy.
2. Having students create economic models that reflect key concepts and economic decisions.
3. Use real world data and evidence to answer complex high-level questions that are based on real world scenarios.
4. Require students to make and support personal financial decisions using evidence and trends.
5. Provide extended learning opportunities that simulate economic scenarios including, but not limited to:
 - o planning and managing a household budget
 - o purchasing a home or automobile
 - o planning for retirement
 - o filing a tax return
 - o managing an investment portfolio
 - o affording college for dependent children

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found here.

VERSION REQUIREMENTS

This course meets the statutory requirement outlined in Section 1003.4282(3)(g), Florida Statutes, which states that beginning with the 2019-2020 school year, all school districts must offer a financial literacy course consisting of at least 0.5 credit as an elective.

GENERAL INFORMATION

Course Number: 2102374	Course Path: Section: Grades PreK to 12 Education Courses > Grade Group: Grades 9 to 12 and Adult Education Courses > Subject: Social Studies > SubSubject: Economics >
Number of Credits: Half credit (.5)	Abbreviated Title: PERSONAL FIN LIT HON
Course Type: Elective Course	Course Length: Semester (S)
Course Status: Course Approved	Course Attributes: <ul style="list-style-type: none">• Honors• Class Size Core Required
Grade Level(s): 9,10,11,12,30,31	Course Level: 3

Course Standards

Name	Description
SS.912.E.1.9:	Describe how the earnings of workers are determined. Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	Describe the risk and return profiles of various investment vehicles and the importance of diversification. Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.
SS.912.FL.1.1:	Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.
SS.912.FL.1.2:	Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.
SS.912.FL.1.3:	Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.
SS.912.FL.1.4:	Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.
SS.912.FL.1.5:	Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.
SS.912.FL.1.6:	Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.
	Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid.

SS.912.FL.1.7:	<p>Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.</p>
SS.912.FL.2.1:	<p>Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences.</p> <p>Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.</p>
SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>
SS.912.FL.2.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information.</p> <p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p>

SS.912.FL.4.1:	<p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications: Explain why a bank may offer low-rate introductory credit offers.</p>
SS.912.FL.4.3:	<p>Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.</p>
SS.912.FL.4.4:	<p>Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate.</p> <p>Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.</p>
SS.912.FL.4.5:	<p>Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports.</p> <p>Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.</p>
SS.912.FL.4.6:	<p>Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk.</p> <p>Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.</p>
SS.912.FL.4.7:	<p>Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums.</p> <p>Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.</p>
SS.912.FL.4.8:	<p>Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future.</p> <p>Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.</p>
SS.912.FL.4.9:	<p>Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors.</p> <p>Clarifications: Identify the costs and benefits associated with using different credit counseling services.</p>
SS.912.FL.4.10:	<p>Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years.</p> <p>Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.</p>
SS.912.FL.4.11:	<p>Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral.</p> <p>Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.</p>
SS.912.FL.4.12:	<p>Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices.</p> <p>Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.</p>
SS.912.FL.4.13:	<p>Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit.</p> <p>Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.</p>
SS.912.FL.5.1:	<p>Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment.</p> <p>Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.</p>
SS.912.FL.5.2:	<p>Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment.</p> <p>Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.</p>
	<p>Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets.</p>

SS.912.FL.5.3:	<p>Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.</p>
SS.912.FL.5.4:	<p>Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment.</p> <p>Clarifications: Explain why the expected rate of return on a “blue chip” stock is likely to be lower than that of an Internet start-up company.</p>
SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>
SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.</p>
SS.912.FL.5.9:	<p>Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks.</p> <p>Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.</p>
SS.912.FL.5.10:	<p>Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation.</p> <p>Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.</p>
SS.912.FL.5.11:	<p>Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets.</p> <p>Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.</p>
SS.912.FL.5.12:	<p>Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets.</p> <p>Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.</p>
SS.912.FL.6.1:	<p>Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later.</p> <p>Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.</p>
SS.912.FL.6.2:	<p>Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example.</p> <p>Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.</p>
SS.912.FL.6.3:	<p>Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance.</p> <p>Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.</p>
SS.912.FL.6.4:	<p>Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance.</p> <p>Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.</p>
SS.912.FL.6.5:	<p>Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim).</p> <p>Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.</p>

SS.912.FL.6.6:	<p>Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk.</p> <p>Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.</p>
SS.912.FL.6.7:	<p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.</p>
SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
MA.K.12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K.12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K.12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively.

MA.K12.MTR.4.1:	<ul style="list-style-type: none"> Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers. Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. Develop students' ability to justify methods and compare their responses to the responses of their peers.
MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Focus on relevant details within a problem. Create plans and procedures to logically order events, steps or ideas to solve problems. Decompose a complex problem into manageable parts. Relate previously learned concepts to new concepts. Look for similarities among problems. Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. Support students to develop generalizations based on the similarities found among problems. Provide opportunities for students to create plans and procedures to solve problems. Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.
MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> Estimate to discover possible solutions. Use benchmark quantities to determine if a solution makes sense. Check calculations when solving problems. Verify possible solutions by explaining the methods used. Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> Have students estimate or predict solutions prior to solving. Prompt students to continually ask, "Does this solution make sense? How do you know?" Reinforce that students check their work as they progress within and after a task. Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Connect mathematical concepts to everyday experiences. Use models and methods to understand, represent and solve problems. Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Provide opportunities for students to create models, both concrete and abstract, and perform investigations. Challenge students to question the accuracy of their models and methods. Support students as they validate conclusions by comparing them to the given situation. Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>

ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _____ because _____.” The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This grade 9-12 course consists of the following content area and literacy strands: Economics, Financial Literacy, Mathematics, Languages Arts for Literacy in History/Social Studies and Speaking and Listening. Basic economic concepts of scarcity, choice, opportunity cost, and cost/benefit analysis are interwoven throughout the standards and objectives. Emphasis will be placed on economic decision-making and real-life applications using real data.

The primary content for the course pertains to the study of learning the ideas, concepts, knowledge and skills that will enable students to implement beneficial personal decision-making choices; to become wise, successful, and knowledgeable consumers, savers, investors, users of credit and money managers; and to be participating members of a global workforce and society.

Content should include, but not be limited to:

- cost/Benefit analysis of economic decisions
- earning an income
- understanding state and federal taxes
- utilizing banking and financial services
- balancing a checkbook and managing a bank account
- savings, investment and planning for retirement
- understanding loans and borrowing money, including predatory lending and payday loans
- understanding interest, credit card debt and online commerce
- how to prevent identify fraud and theft
- rights and responsibilities of renting or buying a home
- understanding and planning for major financial purchases
- understanding the costs and benefits of insurance
- understanding the financial impact and consequence of gambling
- avoiding and filing bankruptcy
- reducing tax liability.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Instructional Practices: Teaching using real world materials, examples and simulations enhances students' content area knowledge and also strengthens their ability to comprehend concepts related to personal financial literacy. Using the following instructional practices will also help student learning.

1. Incorporating current event articles on economic developments related to personal financial literacy.
2. Having students create economic models that reflect key concepts and economic decisions.
3. Use real world data and evidence to answer complex high-level questions that are based on real world scenarios.
4. Require students to make and support personal financial decisions using evidence and trends.
5. Provide extended learning opportunities that simulate economic scenarios including, but not limited to:
 - o planning and managing a household budget
 - o purchasing a home or automobile
 - o planning for retirement

- o filing a tax return
- o managing an investment portfolio
- o affording college for dependent children

Florida’s Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards:

This course includes Florida’s B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>.

Finance Your Future

The Division of Consumer Services at the Florida Department of Financial Services offers a free financial literacy resource designed for middle and high students. Finance Your Future is comprised of eight main modules on the topics of: Budgeting & Saving, Credit Cards, Banking, Credit Report & Score, Debt, Frauds & Scams, Insurance & Benefits and Life Events. Each module includes lessons, activities, games and a comprehensive knowledge check at the end. Visit the Finance Your Future website to access this resource. It should be noted that this resource does not include all of the financial literacy content needed to satisfy the standard high school diploma requirement per s. 1003.4282, Florida Statutes. A crosswalk of Financial Literacy standards and benchmarks can be found here.

VERSION REQUIREMENTS

This course meets the statutory requirement outlined in Section 1003.4282(3)(g), Florida Statutes, which states that beginning with the 2019-2020 school year, all school districts must offer a financial literacy course consisting of at least 0.5 credit as an elective.

GENERAL INFORMATION	
Course Number: 2102374	Course Path: Section: Grades PreK to 12 Education Courses > Grade Group: Grades 9 to 12 and Adult Education Courses > Subject: Social Studies > SubSubject: Economics >
Number of Credits: Half credit (.5)	Abbreviated Title: PERSONAL FIN LIT HON
	Course Length: Semester (S)
	Course Attributes:
	<ul style="list-style-type: none"> • Honors • Class Size Core Required
Course Type: Elective Course	Course Level: 3
Course Status: State Board Approved

The American Economic Experience: Scarcity and Choice Honors (#2102390) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.5.11:	Examine causes, course, and consequences of the Great Depression and the New Deal. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 37-39. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?, (2) How to produce?, and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place. Compare different forms of business organizations.
SS.912.E.1.5:	Clarifications: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.7:	Graph and explain how firms determine price and output through marginal cost analysis.
SS.912.E.1.8:	Explain ways firms engage in price and nonprice competition. Describe how the earnings of workers are determined.
SS.912.E.1.9:	Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions. Describe the risk and return profiles of various investment vehicles and the importance of diversification.
SS.912.E.1.15:	Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.
SS.912.E.1.16:	Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item. Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.
SS.912.E.2.1:	Identify and explain broad economic goals. Clarifications: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States. Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.
SS.912.E.2.4:	Clarifications: Examples are shortage, surplus, other inefficiencies.
SS.912.E.2.5:	Analyze how capital investments may impact productivity and economic growth. Clarifications: Examples are factories, machinery, technology, people.
SS.912.E.2.6:	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies. Clarifications:

	Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society.
	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).
SS.912.E.2.8:	Clarifications: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.10:	Describe the organization and functions of the Federal Reserve System.
	Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.
	Demonstrate the impact of inflation on world economies.
SS.912.E.3.1:	Clarifications: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.
	Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.
SS.912.E.3.3:	Clarifications: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.
	Assess the economic impact of negative and positive externalities on the international environment.
SS.912.E.3.4:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
	Compare the current United States economy with other developed and developing nations.
SS.912.E.3.5:	Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.
	Differentiate and draw conclusions about historical economic thought theorized by economists.
SS.912.E.3.6:	Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
	Use geographic terms and tools to analyze case studies of issues in globalization.
SS.912.G.4.4:	Clarifications: Examples are cultural imperialism, outsourcing.
SS.912.W.7.4:	Describe the causes and effects of the German economic crisis of the 1920s and the global depression of the 1930s, and analyze how governments responded to the Great Depression.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
LAFS.1112.SL.1.1:	<ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.

	d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.1112.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases. c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.1112.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts. d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers. e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.N-Q.1.1:	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. ★ Standard Relation to Course: Supporting
MAFS.912.N-Q.1.2:	Define appropriate quantities for the purpose of descriptive modeling. ★ Clarifications: Algebra 1 Content Notes: Working with quantities and the relationships between them provides grounding for work with expressions, equations, and functions. Standard Relation to Course: Supporting
MAFS.912.N-Q.1.3:	Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting

MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p>
MAFS.912.S-ID.1.3:	<p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

The American Economic Experience: Scarcity and Choice - The grade 9-12 The American Economic Experience: Scarcity and Choice consists of the following content area strands: American History, World History, Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of economics in the American system. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to

the development of a market economy, the American mixed-market system, the global market and economy, major economic theories, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, personal finance, financial and investment markets, and the business cycle.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Note: Students earning credit in this course may not earn credit in Economics (2102310), Economics Honors (2102320), or The American Economic Experience (2102380).

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2102390

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Economics >

Abbreviated Title: AMER ECON EXP HON

Course Length: Semester (S)

Course Attributes:

- Honors

Course Level: 3

Educator Certifications

Economics (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

The American Economic Experience: Scarcity and Choice Honors (#2102390) 2022 - And Beyond

Course Standards

Name	Description
SS.912.A.5.11:	<p>Examine causes, course, and consequences of the Great Depression and the New Deal.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 37-39. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.E.1.1:	<p>Identify the factors of production and why they are necessary for the production of goods and services.</p> <p>Clarifications: Examples are land, labor, capital, entrepreneurship.</p>
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?, (2) How to produce?, and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.5:	<p>Compare different forms of business organizations.</p> <p>Clarifications: Examples are sole proprietorship, partnership, corporation, limited liability corporation.</p>
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.7:	Graph and explain how firms determine price and output through marginal cost analysis.
SS.912.E.1.8:	<p>Explain ways firms engage in price and nonprice competition.</p> <p>Describe how the earnings of workers are determined.</p>
SS.912.E.1.9:	<p>Clarifications: Examples are minimum wage, the market value of the product produced, workers' productivity.</p>
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.1.15:	<p>Describe the risk and return profiles of various investment vehicles and the importance of diversification.</p> <p>Clarifications: Examples are savings accounts, certificates of deposit, stocks, bonds, mutual funds, Individual Retirement Accounts.</p>
SS.912.E.1.16:	<p>Construct a one-year budget plan for a specific career path including expenses and construction of a credit plan for purchasing a major item.</p> <p>Clarifications: Examples of a career path are university student, trade school student, food service employee, retail employee, laborer, armed forces enlisted personnel. Examples of a budget plan are housing expenses, furnishing, utilities, food costs, transportation, and personal expenses - medical, clothing, grooming, entertainment and recreation, and gifts and contributions. Examples of a credit plan are interest rates, credit scores, payment plan.</p>
SS.912.E.2.1:	<p>Identify and explain broad economic goals.</p> <p>Clarifications: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.</p>
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.E.2.4:	<p>Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.</p> <p>Clarifications: Examples are shortage, surplus, other inefficiencies.</p>
SS.912.E.2.5:	<p>Analyze how capital investments may impact productivity and economic growth.</p> <p>Clarifications: Examples are factories, machinery, technology, people.</p>
SS.912.E.2.6:	<p>Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies.</p> <p>Clarifications:</p>

	Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society.
	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).
SS.912.E.2.8:	Clarifications: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.10:	Describe the organization and functions of the Federal Reserve System.
	Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.
	Demonstrate the impact of inflation on world economies.
SS.912.E.3.1:	Clarifications: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage.
	Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.
SS.912.E.3.3:	Clarifications: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.
	Assess the economic impact of negative and positive externalities on the international environment.
SS.912.E.3.4:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
	Compare the current United States economy with other developed and developing nations.
SS.912.E.3.5:	Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.
	Differentiate and draw conclusions about historical economic thought theorized by economists.
SS.912.E.3.6:	Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.3.3:	Use geographic terms and tools to explain differing perspectives on the use of renewable and non-renewable resources in Florida, the United States, and the world.
	Use geographic terms and tools to analyze case studies of issues in globalization.
SS.912.G.4.4:	Clarifications: Examples are cultural imperialism, outsourcing.
SS.912.W.7.4:	Describe the causes and effects of the German economic crisis of the 1920s and the global depression of the 1930s, and analyze how governments responded to the Great Depression.
	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts.

- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.

	<ul style="list-style-type: none"> Support students as they validate conclusions by comparing them to the given situation. Indicate how various concepts can be applied to other disciplines.
ELA.K.12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K.12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K.12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K.12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K.12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K.12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

The American Economic Experience: Scarcity and Choice - The grade 9-12 The American Economic Experience: Scarcity and Choice consists of the following content area strands: American History, World History, Economics and Geography. The primary content emphasis for this course pertains to the study of the concepts and processes of economics in the American system. Content should include, but is not limited to, currency, banking, and monetary policy, the fundamental concepts relevant to the development of a market economy, the American mixed-market system, the global market and economy, major economic theories, the role and influence of the government and fiscal policies, economic measurements, tools, and methodology, personal finance, financial and investment markets, and the business cycle.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Note: Students earning credit in this course may not earn credit in Economics (2102310), Economics Honors (2102320), or The American Economic Experience (2102380).

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?, (2) How to produce?, and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place. Compare different forms of business organizations.
SS.912.E.1.5:	Clarifications: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.2.1:	Identify and explain broad economic goals. Clarifications: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives. Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls.
SS.912.E.2.4:	Clarifications: Examples are shortage, surplus, other inefficiencies.
SS.912.E.2.5:	Analyze how capital investments may impact productivity and economic growth. Clarifications: Examples are factories, machinery, technology, people.
SS.912.E.2.6:	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies. Clarifications: Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society. Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive).
SS.912.E.2.8:	Clarifications: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt. Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade. Demonstrate the impact of inflation on world economies.
SS.912.E.3.1:	Clarifications: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage. Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.

SS.912.E.3.3:	<p>Clarifications: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.</p>
SS.912.E.3.4:	<p>Assess the economic impact of negative and positive externalities on the international environment.</p> <p>Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.</p>
SS.912.E.3.5:	<p>Compare the current United States economy with other developed and developing nations.</p> <p>Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.</p>
SS.912.E.3.6:	<p>Differentiate and draw conclusions about historical economic thought theorized by economists.</p> <p>Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.</p>
SS.912.FL.1.1:	<p>Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location.</p> <p>Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.</p>
SS.912.FL.1.2:	<p>Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer.</p> <p>Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.</p>
SS.912.FL.1.3:	<p>Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices.</p> <p>Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.</p>
SS.912.FL.1.4:	<p>Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers.</p> <p>Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.</p>
SS.912.FL.1.5:	<p>Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment.</p> <p>Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.</p>
SS.912.FL.1.6:	<p>Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes.</p> <p>Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.</p>
SS.912.FL.1.7:	<p>Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid.</p> <p>Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.</p>
SS.912.FL.2.1:	<p>Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences.</p> <p>Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.</p>
SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>

Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe

	how the amount of information people should gather depends on the benefits and costs of the information.
SS.912.FL.2.5:	<p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
SS.912.FL.4.1:	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p> <p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications: Explain why a bank may offer low-rate introductory credit offers.</p>
SS.912.FL.4.3:	<p>Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.</p>
SS.912.FL.4.4:	<p>Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate.</p> <p>Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.</p>
SS.912.FL.4.5:	<p>Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports.</p> <p>Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit.</p>

	Explain what credit bureaus do.
SS.912.FL.4.6:	<p>Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk.</p> <p>Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.</p>
SS.912.FL.4.7:	<p>Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums.</p> <p>Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.</p>
SS.912.FL.4.8:	<p>Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future.</p> <p>Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.</p>
SS.912.FL.4.9:	<p>Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors.</p> <p>Clarifications: Identify the costs and benefits associated with using different credit counseling services.</p>
SS.912.FL.4.10:	<p>Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years.</p> <p>Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.</p>
SS.912.FL.4.11:	<p>Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral.</p> <p>Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.</p>
SS.912.FL.4.12:	<p>Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices.</p> <p>Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.</p>
SS.912.FL.4.13:	<p>Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit.</p> <p>Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.</p>
SS.912.FL.5.1:	<p>Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment.</p> <p>Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.</p>
SS.912.FL.5.2:	<p>Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment.</p> <p>Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.</p>
SS.912.FL.5.3:	<p>Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets.</p> <p>Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.</p>
SS.912.FL.5.4:	<p>Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment.</p> <p>Clarifications: Explain why the expected rate of return on a "blue chip" stock is likely to be lower than that of an Internet start-up company.</p>
SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>

SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications: Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.</p>
SS.912.FL.5.9:	<p>Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks.</p> <p>Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.</p>
SS.912.FL.5.10:	<p>Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation.</p> <p>Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.</p>
SS.912.FL.5.11:	<p>Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets.</p> <p>Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.</p>
SS.912.FL.5.12:	<p>Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets.</p> <p>Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.</p>
SS.912.FL.6.1:	<p>Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later.</p> <p>Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.</p>
SS.912.FL.6.2:	<p>Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example.</p> <p>Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.</p>
SS.912.FL.6.3:	<p>Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance.</p> <p>Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.</p>
SS.912.FL.6.4:	<p>Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance.</p> <p>Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.</p>
SS.912.FL.6.5:	<p>Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim).</p> <p>Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.</p>
SS.912.FL.6.6:	<p>Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk.</p> <p>Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.</p>
SS.912.FL.6.7:	<p>Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death.</p> <p>Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.</p>
SS.912.FL.6.8:	<p>Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events.</p> <p>Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.</p>
SS.912.FL.6.9:	<p>Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft.</p> <p>Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to</p>

	identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.
	Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.
SS.912.FL.6.10:	Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.

LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
MAFS.K12.MP.6.1:	Attend to precision. Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

VERSION DESCRIPTION

The purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the Florida Next Generation Sunshine State Standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.

GENERAL NOTES

Special Note. *Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the "Any School pre-IB course".*

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes.

https://ibanswers.ibo.org/app/answers/detail/a_id/5414/kw/pre-ib. **Florida's Pre-IB courses should only be used in schools where MYP is not offered in order to prepare students to enter the IBDP. Teachers of Florida's Pre-IB courses should have undergone IB training in order to ensure seamless articulation for students within the subject area.**

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

GENERAL INFORMATION

Course Number: 2102800

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10

Graduation Requirement: Economics

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Economics >

Abbreviated Title: FL PRE-IB COMP ECONS

Course Length: Semester (S)

Course Attributes:

- Honors

Course Level: 3

Educator Certifications

Economics (Grades 6-12)

Social Science (Grades 6-12)

Florida's Preinternational Baccalaureate Comparative Economics With Financial Literacy (#2102800) 2022 - And Beyond

Course Standards

Name	Description
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.2:	Analyze production possibilities curves to explain choice, scarcity, and opportunity costs.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?, (2) How to produce?, and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.5:	Compare different forms of business organizations. Clarifications: Examples are sole proprietorship, partnership, corporation, limited liability corporation.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.1.11:	Explain how the Federal Reserve uses the tools of monetary policy (discount rate, reserve requirement, open market operations) to promote price stability, full employment, and economic growth.
SS.912.E.1.12:	Examine the four phases of the business cycle (peak, contraction - unemployment, trough, expansion - inflation).
SS.912.E.1.13:	Explain the basic functions and characteristics of money, and describe the composition of the money supply in the United States.
SS.912.E.1.14:	Compare credit, savings, and investment services available to the consumer from financial institutions.
SS.912.E.2.1:	Identify and explain broad economic goals. Clarifications: Examples are freedom, efficiency, equity, security, growth, price stability, full employment.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.4:	Diagram and explain the problems that occur when government institutes wage and price controls, and explain the rationale for these controls. Clarifications: Examples are shortage, surplus, other inefficiencies.
SS.912.E.2.5:	Analyze how capital investments may impact productivity and economic growth. Clarifications: Examples are factories, machinery, technology, people.
SS.912.E.2.6:	Examine the benefits of natural monopolies and the purposes of government regulation of these monopolies. Clarifications: Examples are electric, water, cable, waste management.
SS.912.E.2.7:	Identify the impact of inflation on society.
SS.912.E.2.8:	Differentiate between direct and indirect taxes, and describe the progressivity of taxes (progressive, proportional, regressive). Clarifications: Examples are income, sales, social security.
SS.912.E.2.9:	Analyze how changes in federal spending and taxation affect budget deficits and surpluses and the national debt.
SS.912.E.2.11:	Assess the economic impact of negative and positive externalities on the local, state, and national environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.2.12:	Construct a circular flow diagram for an open-market economy including elements of households, firms, government, financial institutions, product and factor markets, and international trade.
SS.912.E.3.1:	Demonstrate the impact of inflation on world economies. Clarifications: Examples are oil prices, 1973 oil crisis, Great Depression, World War II.
SS.912.E.3.2:	Examine absolute and comparative advantage, and explain why most trade occurs because of comparative advantage. Discuss the effect of barriers to trade and why nations sometimes erect barriers to trade or establish free trade zones.
SS.912.E.3.3:	Clarifications: Examples are NAFTA, CAFTA. Examples are quotas, tariffs.

SS.912.E.3.4:	<p>Assess the economic impact of negative and positive externalities on the international environment.</p> <p>Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.</p>
SS.912.E.3.5:	<p>Compare the current United States economy with other developed and developing nations.</p> <p>Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.</p>
SS.912.E.3.6:	<p>Differentiate and draw conclusions about historical economic thought theorized by economists.</p> <p>Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.</p>
SS.912.FL.1.1:	<p>Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location.</p> <p>Clarifications: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs.</p>
SS.912.FL.1.2:	<p>Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer.</p> <p>Clarifications: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.</p>
SS.912.FL.1.3:	<p>Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices.</p> <p>Clarifications: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education.</p>
SS.912.FL.1.4:	<p>Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers.</p> <p>Clarifications: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses.</p>
SS.912.FL.1.5:	<p>Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment.</p> <p>Clarifications: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate.</p>
SS.912.FL.1.6:	<p>Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes.</p> <p>Clarifications: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue.</p>
SS.912.FL.1.7:	<p>Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid.</p> <p>Clarifications: Investigate the tax rates on different sources of income and on different types of goods that are purchased.</p>
SS.912.FL.2.1:	<p>Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences.</p> <p>Clarifications: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors.</p>
SS.912.FL.2.2:	<p>Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others.</p> <p>Clarifications: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community.</p>
SS.912.FL.2.3:	<p>Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs.</p> <p>Clarifications: Explain the factors that a consumer who is buying an automobile should consider before making a choice.</p>
SS.912.FL.2.4:	<p>Describe ways that consumers may be influenced by how the price of a good is expressed.</p> <p>Clarifications: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products.</p>
SS.912.FL.2.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information.</p> <p>Clarifications: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive,</p>

	<p>durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p>
SS.912.FL.2.6:	<p>Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating.</p> <p>Clarifications: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization.</p>
SS.912.FL.2.7:	<p>Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud.</p> <p>Clarifications: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase.</p>
SS.912.FL.3.1:	<p>Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future.</p> <p>Clarifications: Identify instances in their lives where they decided to buy something immediately and then wished they had instead saved the money for future purchases.</p>
SS.912.FL.3.2:	<p>Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation.</p> <p>Clarifications: Explain why savers expect a higher nominal interest rate when inflation is expected to be high.</p>
SS.912.FL.3.3:	<p>Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow.</p> <p>Clarifications: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings.</p>
SS.912.FL.3.4:	<p>Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest.</p> <p>Clarifications: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now.</p>
SS.912.FL.3.5:	<p>Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system.</p> <p>Clarifications: : Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments.</p>
SS.912.FL.3.6:	<p>Describe government policies that create incentives and disincentives for people to save.</p> <p>Clarifications: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save.</p>
SS.912.FL.3.7:	<p>Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer.</p> <p>Clarifications: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in."</p>
SS.912.FL.4.1:	<p>Discuss ways that consumers can compare the cost of credit by using the annual percentage rate (APR), initial fees charged, and fees charged for late payment or missed payments.</p> <p>Clarifications: Use the APR, initial fees, late fees, nonpayment fees, and other relevant information to compare the cost of credit from various sources for the purchase of a product.</p>
SS.912.FL.4.2:	<p>Discuss that banks and financial institutions sometimes compete by offering credit at low introductory rates, which increase after a set period of time or when the borrower misses a payment or makes a late payment.</p> <p>Clarifications: Explain why a bank may offer low-rate introductory credit offers.</p>
SS.912.FL.4.3:	<p>Explain that loans can be unsecured or secured with collateral, that collateral is a piece of property that can be sold by the lender to recover all or part of a loan if the borrower fails to repay. Explain why secured loans are viewed as having less risk and why lenders charge a lower interest rate than they charge for unsecured loans.</p>
SS.912.FL.4.4:	<p>Describe why people often make a cash payment to the seller of a good—called a down payment—in order to reduce the amount they need to borrow. Describe why lenders may consider loans made with a down payment to have less risk because the down payment gives the borrower some equity or ownership right away and why these loans may carry a lower interest rate.</p> <p>Clarifications: Explain how a down payment reduces the total amount financed and why this reduces the monthly payment and/or the length of the loan. Explain why a borrower who has made a down payment has an incentive to repay a loan or make payments on time.</p>
SS.912.FL.4.5:	<p>Explain that lenders make credit decisions based in part on consumer payment history. Credit bureaus record borrowers' credit and payment histories and provide that information to lenders in credit reports.</p> <p>Clarifications: List factors from an individual's credit history or credit application that may cause a lender to deny credit. Explain what credit bureaus do.</p>
	<p>Discuss that lenders can pay to receive a borrower's credit score from a credit bureau and that a credit score is a number based on information in a credit report and assesses a person's credit risk.</p>

SS.912.FL.4.6:	<p>Clarifications: Explain the concept of a credit score and what it indicates about a borrower. Explain why certain factors, such as having many credit cards with large lines of credit and large balances, might hurt a credit score.</p>
SS.912.FL.4.7:	<p>Describe that, in addition to assessing a person's credit risk, credit reports and scores may be requested and used by employers in hiring decisions, landlords in deciding whether to rent apartments, and insurance companies in charging premiums.</p> <p>Clarifications: Provide two examples of how having a good credit score can benefit a person financially. Explain why employers find it useful to hire someone with a better credit score.</p>
SS.912.FL.4.8:	<p>Examine the fact that failure to repay a loan has significant consequences for borrowers such as negative entries on their credit report, repossession of property (collateral), garnishment of wages, and the inability to obtain loans in the future.</p> <p>Clarifications: Write a scenario about the future opportunities a person can lose by failing to repay loans as agreed.</p>
SS.912.FL.4.9:	<p>Explain that consumers who have difficulty repaying debt can seek assistance through credit counseling services and by negotiating directly with creditors.</p> <p>Clarifications: Identify the costs and benefits associated with using different credit counseling services.</p>
SS.912.FL.4.10:	<p>Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers who are unable to repay debt, and although bankruptcy provides some benefits, filing for bankruptcy also entails considerable costs, including having notice of the bankruptcy appear on a consumer's credit report for up to 10 years.</p> <p>Clarifications: Investigate the costs of bankruptcy by examining the bankruptcy laws in Florida.</p>
SS.912.FL.4.11:	<p>Explain that people often apply for a mortgage to purchase a home and identify a mortgage is a type of loan that is secured by real estate property as collateral.</p> <p>Clarifications: Predict what might happen should a homeowner fail to make his or her mortgage payments.</p>
SS.912.FL.4.12:	<p>Discuss that consumers who use credit should be aware of laws that are in place to protect them and that these include requirements to provide full disclosure of credit terms such as APR and fees, as well as protection against discrimination and abusive marketing or collection practices.</p> <p>Clarifications: Explain why it is important that consumers have full information about loans. Explain the information on a credit disclosure statement.</p>
SS.912.FL.4.13:	<p>Explain that consumers are entitled to a free copy of their credit report annually so that they can verify that no errors were made that might increase their cost of credit.</p> <p>Clarifications: Explain why it is important to check the accuracy of the information recorded on a credit report and know what steps to take to correct errors on credit reports.</p>
SS.912.FL.5.1:	<p>Compare the ways that federal, state, and local tax rates vary on different types of investments. Describe the taxes effect on the after-tax rate of return of an investment.</p> <p>Clarifications: Given tax rates and inflation rates, calculate the real, after-tax rates of return for groups of stocks and bonds.</p>
SS.912.FL.5.2:	<p>Explain how the expenses of buying, selling, and holding financial assets decrease the rate of return from an investment.</p> <p>Clarifications: Identify and compare the administrative costs of several mutual funds and estimate the differences in the total amount accumulated after 10 years for each mutual fund, assuming identical market performance.</p>
SS.912.FL.5.3:	<p>Discuss that buyers and sellers in financial markets determine prices of financial assets and therefore influence the rates of return on those assets.</p> <p>Clarifications: Predict what will happen to the price and rate of return on a bond if buyers believe that the bond has increased in risk.</p>
SS.912.FL.5.4:	<p>Explain that an investment with greater risk than another investment will commonly have a lower market price, and therefore a higher rate of return, than the other investment.</p> <p>Clarifications: Explain why the expected rate of return on a "blue chip" stock is likely to be lower than that of an Internet start-up company.</p>
SS.912.FL.5.5:	<p>Explain that shorter-term investments will likely have lower rates of return than longer-term investments.</p> <p>Clarifications: Explain how markets will determine the rates of return for two bonds if one is a long-term bond and the other a short-term bond, assuming each bond pays the same rate of interest.</p>
SS.912.FL.5.6:	<p>Describe how diversifying investments in different types of financial assets can lower investment risk.</p> <p>Clarifications: Compare the risk faced by two investors, both of whom own two businesses on a beach. One investor owns a suntan lotion business and a rain umbrella business. The other investor owns two suntan lotion businesses. Explain why a financial advisor might encourage a client to include stocks, bonds, and real estate assets in his or her portfolio.</p>
SS.912.FL.5.7:	<p>Describe how financial markets adjust to new financial news and that prices in those markets reflect what is known about those financial assets.</p> <p>Clarifications: Explain how prices of financial investments can adjust when given specific news about a company's or industry's future profitability.</p>
SS.912.FL.5.8:	<p>Discuss ways that the prices of financial assets are affected by interest rates and explain that the prices of financial assets are also affected by changes in domestic and international economic conditions, monetary policy, and fiscal policy.</p> <p>Clarifications:</p>

	Give an example of a change in interest rates affecting the current value of a financial asset that pays returns in the future. Explain why the current value increases when interest rates fall. Explain how a change in economic growth might change the value of a stock held by an investor.
SS.912.FL.5.9:	Examine why investors should be aware of tendencies that people have that may result in poor choices, which may include avoiding selling assets at a loss because they weigh losses more than they weigh gains and investing in financial assets with which they are familiar, such as their own employer's stock or domestic rather than international stocks. Clarifications: Explain why investors may sell stocks that have gained in value, but hold ones that have lost value. Explain why this may not make sense. Identify an example of why an investor may have a bias toward familiar investments and why this may or may not be a rational decision.
SS.912.FL.5.10:	Explain that people vary in their willingness to take risks because the willingness to take risks depends on factors such as personality, income, and family situation. Clarifications: Explain how the portfolio of a retiree might differ from that of a young, single person.
SS.912.FL.5.11:	Describe why an economic role for a government may exist if individuals do not have complete information about the nature of alternative investments or access to competitive financial markets. Clarifications: Explain why it is important for individuals to have accurate information about a company's sales and profits when investing in that company.
SS.912.FL.5.12:	Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and other government agencies that regulate financial markets. Clarifications: Conduct research to learn about the SEC or the Federal Reserve and identify their roles in regulating financial markets.
SS.912.FL.6.1:	Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later. Clarifications: Discuss whether or not a premium paid to insure against an accident that never happens is wasted.
SS.912.FL.6.2:	Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example. Clarifications: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty.
SS.912.FL.6.3:	Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance. Clarifications: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance.
SS.912.FL.6.4:	Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance. Clarifications: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations.
SS.912.FL.6.5:	Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim). Clarifications: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles.
SS.912.FL.6.6:	Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk. Clarifications: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium.
SS.912.FL.6.7:	Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death. Clarifications: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance.
SS.912.FL.6.8:	Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events. Clarifications: Describe examples of government transfer programs that compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation.
SS.912.FL.6.9:	Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft. Clarifications: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information.

SS.912.FL.6.10:	<p>Compare federal and state regulations that provide some remedies and assistance for victims of identity theft.</p> <p>Clarifications: Recommend actions a victim of identity theft should take to limit losses and restore personal security.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers. Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. Develop students' ability to justify methods and compare their responses to the responses of their peers.
MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Focus on relevant details within a problem. Create plans and procedures to logically order events, steps or ideas to solve problems. Decompose a complex problem into manageable parts. Relate previously learned concepts to new concepts. Look for similarities among problems. Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. Support students to develop generalizations based on the similarities found among problems.

- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.2.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.3.1:

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

ELA.K12.EE.4.1:

Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

ELA.K12.EE.5.1:

Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

ELA.K12.EE.6.1:

ELD.K12.ELL.SI.1:

English language learners communicate for social and instructional purposes within the school setting.

ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

VERSION DESCRIPTION

The purpose of this Pre-IB course is to prepare students for the International Baccalaureate Diploma Programme (DP). As such, this course will provide academic rigor and relevance through a comprehensive curriculum based on the Florida Next Generation Sunshine State Standards taught with reference to the unique facets of the IB. These facets include interrelatedness of subject areas, a holistic view of knowledge, intercultural awareness, embracing international issues, and communication as fundamental to learning. Instructional design must provide students with values and opportunities that enable them to develop respect for others and an appreciation of similarities and differences. Learning how to learn and how to critically evaluate information is as important as the content of the disciplines themselves.

GENERAL NOTES

Special Note. *Pre-IB courses have been created by individual schools or school districts since before the MYP started. These courses mapped backwards the Diploma Programme (DP) to prepare students as early as age 14. The IB was never involved in creating or approving these courses. The IB acknowledges that it is important for students to receive preparation for taking part in the DP, and that preparation is the MYP. The IB designed the MYP to address the whole child, which, as a result, has a very different philosophical approach that aims at educating all students aged 11-16. Pre-IB courses usually deal with content, with less emphasis upon the needs of the whole child or the affective domain than the MYP. A school can have a course that it calls "pre-IB" as long as it makes it clear that the course and any supporting material have been developed independently of the IB. For this reason, the school must name the course along the lines of, for example, the "Any School pre-IB course".*

The IB does not recognize pre-IB courses or courses labeled IB by different school districts which are not an official part of the IBDP or IBCC curriculum. Typically, students enrolled in grade 9 or 10 are not in the IBDP or IBCC programmes.

https://ibanswers.ibo.org/app/answers/detail/a_id/5414/kw/pre-ib. **Florida's Pre-IB courses should only be used in schools where MYP is not offered in order to prepare students to enter the IBDP. Teachers of Florida's Pre-IB courses should have undergone IB training in order to ensure seamless articulation for students within the subject area.**

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).

	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
SS.912.W.2.19:	Describe the impact of Japan's physiography on its economic and political development.
	Summarize the major cultural, economic, political, and religious developments in medieval Japan.
SS.912.W.2.20:	Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.
	Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America.
SS.912.W.3.18:	Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.
	Describe the causes and effects of post-World War II economic and demographic changes.
SS.912.W.9.2:	Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
	Describe the causes and effects of twentieth century nationalist conflicts.
SS.912.W.9.4:	Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
LAFS.910.SL.1.1:	<ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
	Write arguments focused on <i>discipline-specific content</i> .
	<ol style="list-style-type: none"> Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s)

LAFS.910.WHST.1.1:	<p>and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.</p> <p>c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.</p> <p>d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>e. Provide a concluding statement or section that follows from or supports the argument presented.</p>
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <p>a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.</p> <p>d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).</p>
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>

MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

World Cultural Geography - The grade World Cultural Geography course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of world cultural regions in terms of location, physical characteristics, demographics, historical changes, land use, and economic activity. Content should include, but is not limited to, the use of geographic tools and skills to gather and interpret data and to draw conclusions about physical and human patterns, the relationships between physical geography and the economic, political, social, cultural and historical aspects of human activity, patterns of population growth and settlement in different cultures and environments, the interaction between culture and technology in the use, alteration and conservation of the physical environment, and the interrelationships and interdependence of world cultures.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and

social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

GENERAL INFORMATION

Course Number: 2103300	Course Path: Section: Grades PreK to 12 Education Courses > Grade Group: Grades 9 to 12 and Adult Education Courses > Subject: Social Studies > SubSubject: Geography >
Number of Credits: One (1) credit	Abbreviated Title: WORLD CLTRL GEOG
Course Type: Elective Course	Course Length: Year (Y)
Course Status: Course Approved	Course Level: 2
Grade Level(s): 9,10,11,12	

Educator Certifications

Geography (Grades 6-12)
Social Science (Grades 5-9)
Social Science (Grades 6-12)

World Cultural Geography (#2103300) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).

	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	<p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
SS.912.W.2.19:	Describe the impact of Japan's physiography on its economic and political development.
	Summarize the major cultural, economic, political, and religious developments in medieval Japan.
SS.912.W.2.20:	<p>Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.</p>
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	<p>Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.</p>
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.
	Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America.
SS.912.W.3.18:	<p>Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.</p>
	Describe the causes and effects of post-World War II economic and demographic changes.
SS.912.W.9.2:	<p>Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.</p>
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	<p>Clarifications: Examples are prejudice, racism, stereotyping, economic competition.</p>
	Describe the causes and effects of twentieth century nationalist conflicts.
SS.912.W.9.4:	<p>Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.</p>
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
	Mathematicians who participate in effortful learning both individually and with others:
	<ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	<p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.
	Mathematicians who demonstrate understanding by representing problems in multiple ways:
	<ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	<p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	Complete tasks with mathematical fluency.
	Mathematicians who complete tasks with mathematical fluency:
	<ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations.
MA.K12.MTR.3.1:	

Clarifications:
 Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.
 Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:
 Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.
 Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:
 Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

MA.K12.MTR.6.1:

Assess the reasonableness of solutions.
 Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:
 Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

MA.K12.MTR.7.1:

Apply mathematics to real-world contexts.
 Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:
 Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

ELA.K12.EE.1.1:

Cite evidence to explain and justify reasoning.
Clarifications:
 K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide

	<p>referenced by the instructor.</p> <p>6-8 Students continue with previous skills and use a style guide to create a proper citation.</p> <p>9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K.12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K.12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K.12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K.12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K.12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

World Cultural Geography - The grade World Cultural Geography course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of world cultural regions in terms of location, physical characteristics, demographics, historical changes, land use, and economic activity. Content should include, but is not limited to, the use of geographic tools and skills to gather and interpret data and to draw conclusions about physical and human patterns, the relationships between physical geography and the economic, political, social, cultural and historical aspects of human activity, patterns of population growth and settlement in different cultures and environments, the interaction between culture and technology in the use, alteration and conservation of the physical environment, and the interrelationships and interdependence of world cultures.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard

should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

World Cultural Geography (#2103300) 2023 - And Beyond

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.CG.4.1:	Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States. <ul style="list-style-type: none"> • Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). • Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). • Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	Explain how the United States uses foreign policy to influence other nations. <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	Explain how U.S. foreign policy supports democratic principles and protects human rights around the world. <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.

SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
SS.912.W.2.19:	Describe the impact of Japan's physiography on its economic and political development.
	Summarize the major cultural, economic, political, and religious developments in medieval Japan.
SS.912.W.2.20:	Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.
	Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America.
SS.912.W.3.18:	Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.
	Describe the causes and effects of post-World War II economic and demographic changes.
SS.912.W.9.2:	Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
	Describe the causes and effects of twentieth century nationalist conflicts.
SS.912.W.9.4:	Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or

MA.K12.MTR.7.1:	<p>efficiency.</p> <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

World Cultural Geography - The grade World Cultural Geography course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of world cultural regions in terms of location, physical characteristics, demographics, historical changes, land use, and economic activity. Content should include, but is not limited to, the use of geographic tools and skills to gather and interpret data and to draw conclusions about physical and human patterns, the relationships between physical geography and the economic, political, social, cultural and historical aspects of human activity, patterns of population growth and settlement in different cultures and environments, the interaction between culture and technology in the use, alteration and conservation of the physical environment, and the interrelationships and interdependence of world cultures.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer,

complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

Introduction to the Social Sciences (#2104300) 2015 - 2022

(current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.2.7:	Explain why rights have limits and are not absolute. Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).

SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth. Compare the current United States economy with other developed and developing nations.
SS.912.E.3.5:	Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.
SS.912.E.3.6:	Differentiate and draw conclusions about historical economic thought theorized by economists. Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.2:	Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens. Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.
SS.912.H.1.3:	Relate works in the arts to various cultures. Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.

LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting

	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★
MAFS.912.S-ID.1.1:	<p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Introduction to the Social Sciences - The grade 9-12 Introduction to the Social Sciences course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the scope, focus and methodology of the social sciences through an overview of its various disciplines. Content should include, but is not limited to essential concepts in the fields of anthropology, economics, geography, history, political science, psychology and sociology, inquiry methodologies, measurement techniques, interdisciplinary strategies, leading contributors in the major fields of social science, and development of effective logic and reasoning skills.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

Introduction to the Social Sciences (#2104300) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.2.7:	Explain why rights have limits and are not absolute. Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.1.1:	Identify the factors of production and why they are necessary for the production of goods and services. Clarifications: Examples are land, labor, capital, entrepreneurship.
SS.912.E.1.3:	Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?: (2) How to produce?: and (3) For whom to produce?
SS.912.E.1.4:	Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.
SS.912.E.1.6:	Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).
SS.912.E.1.10:	Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.
SS.912.E.3.5:	Compare the current United States economy with other developed and developing nations. Clarifications:

	Examples are standard of living, exchange rates, productivity, gross domestic product.
SS.912.E.3.6:	Differentiate and draw conclusions about historical economic thought theorized by economists. Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.2:	Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens. Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.
SS.912.H.1.3:	Relate works in the arts to various cultures. Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks.

MA.K12.MTR.1.1:

- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1:

Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1:

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.

MA.K12.MTR.6.1:	<ul style="list-style-type: none"> • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

GENERAL NOTES

Introduction to the Social Sciences - The grade 9-12 Introduction to the Social Sciences course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the scope, focus and methodology of the social sciences through an overview of its various disciplines. Content should include, but is not limited to essential concepts in the fields of anthropology, economics, geography, history, political science, psychology and sociology, inquiry methodologies, measurement techniques, interdisciplinary strategies, leading contributors in the major fields of social science, and development of effective logic and reasoning skills.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.1.4:	Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic. <ul style="list-style-type: none"> • Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. • Students will evaluate how the documents are connected to one another. • Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. • Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers. <ul style="list-style-type: none"> • Students will explain how the structure and function of the U.S. government reflects these political principles. • Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. • Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.4:	Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good. <ul style="list-style-type: none"> • Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). • Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. • Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	Analyze contemporary and historical examples of government-imposed restrictions on rights. <ul style="list-style-type: none"> • Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). • Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation,

	<p>military secrets).</p> <p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.7:	
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society. Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.E.1.1:	<p>Identify the factors of production and why they are necessary for the production of goods and services.</p> <p>Clarifications: Examples are land, labor, capital, entrepreneurship.</p>
SS.912.E.1.3:	<p>Compare how the various economic systems (traditional, market, command, mixed) answer the questions: (1) What to produce?; (2) How to produce?; and (3) For whom to produce?</p>
SS.912.E.1.4:	<p>Define supply, demand, quantity supplied, and quantity demanded; graphically illustrate situations that would cause changes in each, and demonstrate how the equilibrium price of a product is determined by the interaction of supply and demand in the market place.</p>
SS.912.E.1.6:	<p>Compare the basic characteristics of the four market structures (monopoly, oligopoly, monopolistic competition, pure competition).</p>
SS.912.E.1.10:	<p>Explain the use of fiscal policy (taxation, spending) to promote price stability, full employment, and economic growth.</p>
SS.912.E.3.5:	<p>Compare the current United States economy with other developed and developing nations.</p> <p>Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.</p>
SS.912.E.3.6:	<p>Differentiate and draw conclusions about historical economic thought theorized by economists.</p> <p>Clarifications: Examples are Adam Smith, Malthus, Ricardo, Keynes, Friedman, Say, Gilder.</p>
SS.912.G.1.1:	<p>Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.</p>
SS.912.G.1.2:	<p>Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.</p>
SS.912.G.1.3:	<p>Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.</p>
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	<p>Describe the factors and processes that contribute to the differences between developing and developed regions of the world.</p>
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	<p>Interpret population growth and other demographic data for any given place.</p>
SS.912.G.4.2:	<p>Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.</p>
SS.912.G.4.3:	<p>Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.</p>
SS.912.G.4.7:	<p>Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.</p>
SS.912.G.4.9:	<p>Use political maps to describe the change in boundaries and governments within continents over time.</p>
	<p>Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were</p>

SS.912.H.1.1:	created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.2:	Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens. Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.
SS.912.H.1.3:	Relate works in the arts to various cultures. Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. Clarifications: Teachers who encourage students to complete tasks with mathematical fluency: <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.

- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

ELA.K12.EE.1.1:

	9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.
ELA.K.12.EE.2.1:	Read and comprehend grade-level complex texts proficiently. Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K.12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K.12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Introduction to the Social Sciences - The grade 9-12 Introduction to the Social Sciences course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the scope, focus and methodology of the social sciences through an overview of its various disciplines. Content should include, but is not limited to essential concepts in the fields of anthropology, economics, geography, history, political science, psychology and sociology, inquiry methodologies, measurement techniques, interdisciplinary strategies, leading contributors in the major fields of social science, and development of effective logic and reasoning skills.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2104300

Number of Credits: One (1) credit

Course Type: Elective Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Interdisciplinary and Applied Social
Studies >

Abbreviated Title: INTROD SOCIAL SCI

Course Length: Year (Y)

Course Level: 2

Educator Certifications

Political Science (Grades 6-12)

Sociology (Grades 6-12)

Psychology (Grades 6-12)

Social Science (Grades 5-9)

Social Science (Grades 6-12)

Examining the African American Experience in the 20th Century (#2104310) 2017 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.8:	Examine the importance of social change and reform in the late 19th and early 20th centuries (class system, migration from farms to cities, Social Gospel movement, role of settlement houses and churches in providing services to the poor). Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.5.7:	Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.5.10:	Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.5:	Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights. Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.6:	Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement. Clarifications: Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Philip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale]. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

	Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.
SS.912.A.7.7:	<p>Clarifications: Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.8:	<p>Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.</p> <p>Clarifications: Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainwright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 53-54. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.H.1.1:	<p>Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created.</p> <p>Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.</p>
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.1.5:	<p>Examine artistic response to social issues and new ideas in various cultures.</p> <p>Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.</p>
SS.912.P.10.1:	Define culture and diversity.
SS.912.P.10.3:	Discuss the relationship between culture and conceptions of self and identity.
SS.912.P.10.4:	Discuss psychological research examining race and ethnicity.
SS.912.P.10.6:	Discuss how privilege and social power structures relate to stereotypes, prejudice, and discrimination.
SS.912.P.10.12:	Examine how perspectives affect stereotypes and treatment of minority and majority groups in society.
SS.912.S.1.4:	Examine changing points of view of social issues, such as poverty, crime and discrimination.
SS.912.S.2.1:	Define the key components of a culture, such as knowledge, language and communication, customs, values, norms, and physical objects.
SS.912.S.2.6:	Identify the factors that promote cultural diversity within the United States.
SS.912.S.2.9:	Prepare original written and oral reports and presentations on specific events, people or historical eras.
SS.912.S.4.10:	<p>Distinguish the degree of assimilation that ethnic, cultural, and social groups achieve with the United States culture.</p> <p>Clarifications: Examples may include, but are not limited to, forced vs. voluntary assimilations, association with different groups, interaction within a cultural community, adaptation within families due to education.</p>
SS.912.S.5.4:	Investigate stereotypes of the various United States subcultures, such as "American Indian," "American cowboys," teenagers," "Americans," "gangs," and "hippies," from a world perspective.
SS.912.S.5.7:	Use various resources to interpret information about cultural life in the United States and other world cultures, both in the past and today.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.

LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.SL.2.5:	Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
LAFS.910.SL.2.6:	Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
WL.K12.AH.5.4:	Incorporate, with accuracy, idioms and culturally authentic expressions in writing with ease.
WL.K12.AH.5.7:	Write creative pieces (poetry, narratives, and plays) using effective imagery and the appropriate literary devices to genre.
WL.K12.AL.5.4:	Use idioms and idiomatic expressions in writing.
WL.K12.AL.9.2:	Create and present activities- in the target language- (i.e., drama, poetry, art, music) through a variety of media where communication is extended outside the classroom.
WL.K12.AM.6.4:	Research diverse cultural products among groups in other societies (e.g., celebrations, literature, architecture, music, dance, theater, political systems, economic systems, number systems, social systems, belief systems).
WL.K12.IH.5.2:	Describe, in writing, personal experiences and interests with clarity and detail.
WL.K12.IL.6.4:	Identify products of culture (e.g., food, shelter, clothing, transportation, toys, music, art, sports and recreation, language, customs, traditions).

WL.K12.IM.6.3:	Research contributions made by individuals from the target culture through the arts such as visual arts, architecture, music, dance, literature, etc.
VA.912.C.3.3:	Examine relationships among social, historical, literary, and/or other references to explain how they are assimilated into artworks.
VA.912.C.3.5:	Make connections between timelines in other content areas and timelines in the visual arts.
VA.912.F.1.5:	Create a digital or time-based presentation to analyze and compare artists, artworks, and concepts in historical context.
VA.912.H.1.1:	Analyze the impact of social, ecological, economic, religious, and/or political issues on the function or meaning of the artwork.
VA.912.H.1.8:	Analyze and compare works in context, considering economic, social, cultural, and political issues, to define the significance and purpose of art. Clarifications: e.g., patronage, authority, iconography, gender, semiotics, deconstruction
VA.912.H.1.10:	Describe and analyze the characteristics of a culture and its people to create personal art reflecting daily life and/or the specified environment. Clarifications: e.g., belief system, ecology, environment, current visual culture, economy
MU.912.F.2.2:	Analyze the effect of the arts and entertainment industry on the economic and social health of communities and regions. Clarifications: e.g., community revitalization, industry choosing new locations, cultural and social enrichment
MU.912.H.1.1:	Investigate and discuss how a culture's traditions are reflected through its music. Clarifications: e.g., patriotic, folk, celebration, entertainment, spiritual
MU.912.H.1.4:	Analyze how Western music has been influenced by historical and current world cultures.
MU.912.H.2.1:	Evaluate the social impact of music on specific historical periods.
MU.912.H.2.3:	Analyze the evolution of a music genre. Clarifications: e.g., jazz, blues
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.1.3:	Evaluate how environment and personal health are interrelated. Clarifications: Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

General Course Information and Notes

VERSION DESCRIPTION

This course will examine the artistic expressions of African Americans during the 20th Century. This century was a tumultuous time period in United States History highlighted by profound changes in the social, economic and political affairs of African Americans. By examining the music and visual art created by African Americans during this time period, students will gain an understanding of the experiences of African American peoples.

Students will be exposed to the various genres of music that African Americans created or influenced such as jazz, blues, rhythm and blues, gospel, rock and roll and hip hop. Students will dissect and interpret works and explain what led to their creation and the impact that they had.

Students are not only exposed to the African American music of the time, but are also introduced to their visual art pieces. Students will analyze and provide their interpretations of works within the context of United States history.

Students will have been exposed to some of the greatest works ever produced in American culture.

GENERAL NOTES

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>

GENERAL INFORMATION

Course Path: Section: Grades PreK to 12 Education
Courses > **Grade Group:** Grades 9 to 12 and Adult

Course Number: 2104310

Education Courses > **Subject:** Social Studies >
SubSubject: Interdisciplinary and Applied Social
Studies >

Number of Credits: Half credit (.5)

Abbreviated Title: EXAMINING AFR EXPER

Course Type: Elective Course

Course Length: Semester (S)

Course Status: Course Approved

Course Level: 2

Educator Certifications

Social Science (Grades 6-12)

History (Grades 6-12)

Examining the African American Experience in the 20th Century (#2104310) 2022 - And Beyond

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.8:	Examine the importance of social change and reform in the late 19th and early 20th centuries (class system, migration from farms to cities, Social Gospel movement, role of settlement houses and churches in providing services to the poor). Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.5.7:	Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.5.10:	Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.5:	Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights. Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.6:	Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement. Clarifications: Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Philip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale]. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

	Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.
SS.912.A.7.7:	<p>Clarifications: Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.8:	<p>Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.</p> <p>Clarifications: Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainwright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 53-54. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.H.1.1:	<p>Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created.</p> <p>Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.</p>
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.1.5:	<p>Examine artistic response to social issues and new ideas in various cultures.</p> <p>Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.</p>
SS.912.P.10.1:	Define culture and diversity.
SS.912.P.10.3:	Discuss the relationship between culture and conceptions of self and identity.
SS.912.P.10.4:	Discuss psychological research examining race and ethnicity.
SS.912.P.10.6:	Discuss how privilege and social power structures relate to stereotypes, prejudice, and discrimination.
SS.912.P.10.12:	Examine how perspectives affect stereotypes and treatment of minority and majority groups in society.
SS.912.S.1.4:	Examine changing points of view of social issues, such as poverty, crime and discrimination.
SS.912.S.2.1:	Define the key components of a culture, such as knowledge, language and communication, customs, values, norms, and physical objects.
SS.912.S.2.6:	Identify the factors that promote cultural diversity within the United States.
SS.912.S.2.9:	Prepare original written and oral reports and presentations on specific events, people or historical eras.
SS.912.S.4.10:	<p>Distinguish the degree of assimilation that ethnic, cultural, and social groups achieve with the United States culture.</p> <p>Clarifications: Examples may include, but are not limited to, forced vs. voluntary assimilations, association with different groups, interaction within a cultural community, adaptation within families due to education.</p>
SS.912.S.5.4:	Investigate stereotypes of the various United States subcultures, such as "American Indian," "American cowboys," teenagers," "Americans," "gangs," and "hippies," from a world perspective.
SS.912.S.5.7:	Use various resources to interpret information about cultural life in the United States and other world cultures, both in the past and today.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
WL.K12.AH.5.4:	Incorporate, with accuracy, idioms and culturally authentic expressions in writing with ease.
WL.K12.AH.5.7:	Write creative pieces (poetry, narratives, and plays) using effective imagery and the appropriate literary devices to genre.
WL.K12.AL.5.4:	Use idioms and idiomatic expressions in writing.
WL.K12.AL.9.2:	Create and present activities- in the target language- (i.e., drama, poetry, art, music) through a variety of media where communication is extended outside the classroom.
WL.K12.AM.6.4:	Research diverse cultural products among groups in other societies (e.g., celebrations, literature, architecture, music, dance, theater, political systems, economic systems, number systems, social systems, belief systems).

WL.K12.IH.5.2:	Describe, in writing, personal experiences and interests with clarity and detail.
WL.K12.IL.6.4:	Identify products of culture (e.g., food, shelter, clothing, transportation, toys, music, art, sports and recreation, language, customs, traditions).
WL.K12.IM.6.3:	Research contributions made by individuals from the target culture through the arts such as visual arts, architecture, music, dance, literature, etc.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
-----------------	---

MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
-----------------	---

MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers. Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. Develop students' ability to justify methods and compare their responses to the responses of their peers.
-----------------	--

MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Focus on relevant details within a problem. Create plans and procedures to logically order events, steps or ideas to solve problems. Decompose a complex problem into manageable parts. Relate previously learned concepts to new concepts. Look for similarities among problems. Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. Support students to develop generalizations based on the similarities found among problems.
-----------------	--

- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.2.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.3.1:

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

ELA.K12.EE.4.1:

Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

ELA.K12.EE.5.1:

Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

ELA.K12.EE.6.1:

VA.912.C.3.3: Examine relationships among social, historical, literary, and/or other references to explain how they are assimilated into artworks.

VA.912.C.3.5: Make connections between timelines in other content areas and timelines in the visual arts.

VA.912.F.1.5:	Create a digital or time-based presentation to analyze and compare artists, artworks, and concepts in historical context.
VA.912.H.1.1:	Analyze the impact of social, ecological, economic, religious, and/or political issues on the function or meaning of the artwork.
VA.912.H.1.8:	Analyze and compare works in context, considering economic, social, cultural, and political issues, to define the significance and purpose of art. Clarifications: e.g., patronage, authority, iconography, gender, semiotics, deconstruction
VA.912.H.1.10:	Describe and analyze the characteristics of a culture and its people to create personal art reflecting daily life and/or the specified environment. Clarifications: e.g., belief system, ecology, environment, current visual culture, economy
MU.912.F.2.2:	Analyze the effect of the arts and entertainment industry on the economic and social health of communities and regions. Clarifications: e.g., community revitalization, industry choosing new locations, cultural and social enrichment
MU.912.H.1.1:	Investigate and discuss how a culture's traditions are reflected through its music. Clarifications: e.g., patriotic, folk, celebration, entertainment, spiritual
MU.912.H.1.4:	Analyze how Western music has been influenced by historical and current world cultures.
MU.912.H.2.1:	Evaluate the social impact of music on specific historical periods.
MU.912.H.2.3:	Analyze the evolution of a music genre. Clarifications: e.g., jazz, blues
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.1.3:	Evaluate how environment and personal health are interrelated. Clarifications: Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

General Course Information and Notes

VERSION DESCRIPTION

This course will examine the artistic expressions of African Americans during the 20th Century. This century was a tumultuous time period in United States History highlighted by profound changes in the social, economic and political affairs of African Americans. By examining the music and visual art created by African Americans during this time period, students will gain an understanding of the experiences of African American peoples.

Students will be exposed to the various genres of music that African Americans created or influenced such as jazz, blues, rhythm and blues, gospel, rock and roll and hip hop. Students will dissect and interpret works and explain what led to their creation and the impact that they had.

Students are not only exposed to the African American music of the time, but are also introduced to their visual art pieces. Students will analyze and provide their interpretations of works within the context of United States history.

Students will have been exposed to some of the greatest works ever produced in American culture.

GENERAL NOTES

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>.

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.5:	Examine artistic response to social issues and new ideas in various cultures. Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.P.10.1:	Define culture and diversity.
SS.912.P.10.3:	Discuss the relationship between culture and conceptions of self and identity.
SS.912.P.10.4:	Discuss psychological research examining race and ethnicity.
SS.912.P.10.6:	Discuss how privilege and social power structures relate to stereotypes, prejudice, and discrimination.
SS.912.P.10.12:	Examine how perspectives affect stereotypes and treatment of minority and majority groups in society.
SS.912.S.1.4:	Examine changing points of view of social issues, such as poverty, crime and discrimination.
SS.912.S.2.1:	Define the key components of a culture, such as knowledge, language and communication, customs, values, norms, and physical objects.
SS.912.S.2.6:	Identify the factors that promote cultural diversity within the United States.
SS.912.S.2.9:	Prepare original written and oral reports and presentations on specific events, people or historical eras.
SS.912.S.4.10:	Distinguish the degree of assimilation that ethnic, cultural, and social groups achieve with the United States culture. Clarifications: Examples may include, but are not limited to, forced vs. voluntary assimilations, association with different groups, interaction within a cultural community, adaptation within families due to education.
SS.912.S.5.4:	Investigate stereotypes of the various United States subcultures, such as "American Indian," "American cowboys," teenagers," "Americans," "gangs," and "hippies," from a world perspective.

SS.912.S.5.7:	Use various resources to interpret information about cultural life in the United States and other world cultures, both in the past and today.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
	a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
	b. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
	c. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
	d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.1:	
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.1112.SL.2.5:	Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
LAFS.1112.SL.2.6:	Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.
	Write arguments focused on <i>discipline-specific content</i> .
	a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.
	b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.
	c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
	d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
	e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.1112.WHST.1.1:	
	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.
	a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
	b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
	c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
	d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.
	e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).
LAFS.1112.WHST.1.2:	
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
WL.K12.AH.5.4:	Incorporate, with accuracy, idioms and culturally authentic expressions in writing with ease.
WL.K12.AH.5.7:	Write creative pieces (poetry, narratives, and plays) using effective imagery and the appropriate literary devices to genre.
WL.K12.AL.5.4:	Use idioms and idiomatic expressions in writing.
WL.K12.AL.9.2:	Create and present activities- in the target language- (i.e., drama, poetry, art, music) through a variety of media where communication is extended outside the classroom.
WL.K12.AM.6.4:	Research diverse cultural products among groups in other societies (e.g., celebrations, literature, architecture, music, dance, theater, political systems, economic systems, number systems, social systems, belief systems).
WL.K12.IH.5.2:	Describe, in writing, personal experiences and interests with clarity and detail.
WL.K12.IL.6.4:	Identify products of culture (e.g., food, shelter, clothing, transportation, toys, music, art, sports and recreation, language, customs, traditions).
WL.K12.IM.6.3:	Research contributions made by individuals from the target culture through the arts such as visual arts, architecture, music, dance, literature, etc.
MU.912.F.2.2:	Analyze the effect of the arts and entertainment industry on the economic and social health of communities and regions. Clarifications: e.g., community revitalization, industry choosing new locations, cultural and social enrichment
MU.912.H.1.1:	Investigate and discuss how a culture's traditions are reflected through its music. Clarifications: e.g., patriotic, folk, celebration, entertainment, spiritual
MU.912.H.1.4:	Analyze how Western music has been influenced by historical and current world cultures.
MU.912.H.2.1:	Evaluate the social impact of music on specific historical periods.
MU.912.H.2.3:	Analyze the evolution of a music genre. Clarifications: e.g., jazz, blues
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.1.3:	Evaluate how environment and personal health are interrelated. Clarifications: Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

General Course Information and Notes

GENERAL NOTES

This course explores one of the most revolutionary art forms in American culture known as Hip Hop. This course will focus on the diverse social, political, cultural and spiritual elements represented within the various genres of Hip Hop music through an analysis of song lyrics. Through this course, students will learn about the history of Hip Hop and examine the social, economic and political conditions that influenced its development and evolution. Students will have the opportunity to create their own artistic expressions by integrating their personal experiences and the content learned through the course.

At the conclusion of this course, students will have developed an understanding of the origins and intent of Hip Hop while appreciating it as an art form. Students will be able to identify and provide examples of literary devices. Students will also have had the opportunity to develop critical thinking, analytical and creative writing skills.

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>.

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.5:	Examine artistic response to social issues and new ideas in various cultures. Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.P.10.1:	Define culture and diversity.
SS.912.P.10.3:	Discuss the relationship between culture and conceptions of self and identity.
SS.912.P.10.4:	Discuss psychological research examining race and ethnicity.
SS.912.P.10.6:	Discuss how privilege and social power structures relate to stereotypes, prejudice, and discrimination.
SS.912.P.10.12:	Examine how perspectives affect stereotypes and treatment of minority and majority groups in society.
SS.912.S.1.4:	Examine changing points of view of social issues, such as poverty, crime and discrimination.
SS.912.S.2.1:	Define the key components of a culture, such as knowledge, language and communication, customs, values, norms, and physical objects.
SS.912.S.2.6:	Identify the factors that promote cultural diversity within the United States.
SS.912.S.2.9:	Prepare original written and oral reports and presentations on specific events, people or historical eras.
SS.912.S.4.10:	Distinguish the degree of assimilation that ethnic, cultural, and social groups achieve with the United States culture. Clarifications: Examples may include, but are not limited to, forced vs. voluntary assimilations, association with different groups, interaction within a cultural community, adaptation within families due to education.
SS.912.S.5.4:	Investigate stereotypes of the various United States subcultures, such as "American Indian," "American cowboys," teenagers," "Americans," "gangs," and "hippies," from a world perspective.

SS.912.S.5.7:	Use various resources to interpret information about cultural life in the United States and other world cultures, both in the past and today.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	<p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	<p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
WL.K12.AH.5.4:	Incorporate, with accuracy, idioms and culturally authentic expressions in writing with ease.
WL.K12.AH.5.7:	Write creative pieces (poetry, narratives, and plays) using effective imagery and the appropriate literary devices to genre.
WL.K12.AL.5.4:	Use idioms and idiomatic expressions in writing.
WL.K12.AL.9.2:	Create and present activities- in the target language- (i.e., drama, poetry, art, music) through a variety of media where communication is extended outside the classroom.
WL.K12.AM.6.4:	Research diverse cultural products among groups in other societies (e.g., celebrations, literature, architecture, music, dance, theater, political systems, economic systems, number systems, social systems, belief systems).
WL.K12.IH.5.2:	Describe, in writing, personal experiences and interests with clarity and detail.
WL.K12.IL.6.4:	Identify products of culture (e.g., food, shelter, clothing, transportation, toys, music, art, sports and recreation, language, customs, traditions).
WL.K12.IM.6.3:	Research contributions made by individuals from the target culture through the arts such as visual arts, architecture, music, dance, literature, etc.
	Mathematicians who participate in effortful learning both individually and with others:
	<ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	<p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.
	Mathematicians who demonstrate understanding by representing problems in multiple ways:
	<ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	<p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	Complete tasks with mathematical fluency.
	Mathematicians who complete tasks with mathematical fluency:
	<ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations.
MA.K12.MTR.3.1:	<p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	Engage in discussions that reflect on the mathematical thinking of self and others.
	Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:
	<ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence.
MA.K12.MTR.4.1:	<p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p>

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
6-8 Students continue with previous skills and use a style guide to create a proper citation.
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

ELA.K.12.EE.4.1:	In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
MU.912.F.2.2:	Analyze the effect of the arts and entertainment industry on the economic and social health of communities and regions. Clarifications: e.g., community revitalization, industry choosing new locations, cultural and social enrichment
MU.912.H.1.1:	Investigate and discuss how a culture's traditions are reflected through its music. Clarifications: e.g., patriotic, folk, celebration, entertainment, spiritual
MU.912.H.1.4:	Analyze how Western music has been influenced by historical and current world cultures.
MU.912.H.2.1:	Evaluate the social impact of music on specific historical periods.
MU.912.H.2.3:	Analyze the evolution of a music genre. Clarifications: e.g., jazz, blues
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.1.3:	Evaluate how environment and personal health are interrelated. Clarifications: Food options within a community; prenatal-care services; availability of recreational facilities; air quality; weather-safety awareness; and weather, air, and water conditions.

General Course Information and Notes

GENERAL NOTES

This course explores one of the most revolutionary art forms in American culture known as Hip Hop. This course will focus on the diverse social, political, cultural and spiritual elements represented within the various genres of Hip Hop music through an analysis of song lyrics. Through this course, students will learn about the history of Hip Hop and examine the social, economic and political conditions that influenced its development and evolution. Students will have the opportunity to create their own artistic expressions by integrating their personal experiences and the content learned through the course.

At the conclusion of this course, students will have developed an understanding of the origins and intent of Hip Hop while appreciating it as an art form. Students will be able to identify and provide examples of literary devices. Students will also have had the opportunity to develop critical thinking, analytical and creative writing skills.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>.

GENERAL INFORMATION

Course Number: 2104315

Course Path: Section: Grades PreK to 12 Education
Courses > Grade Group: Grades 9 to 12 and Adult
Education Courses > Subject: Social Studies >
SubSubject: Interdisciplinary and Applied Social

Studies >

Abbreviated Title: EXPLOR HIP HOP LIT

Course Length: Semester (S)

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: State Board Approved

Educator Certifications

Social Science (Grades 6-12)

History (Grades 6-12)

English (Grades 6-12)

Global Studies (#2104320) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.11:	Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East. Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.14:	Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns). Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.3.4:	Assess the economic impact of negative and positive externalities on the international environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.3.5:	Compare the current United States economy with other developed and developing nations. Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.

SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.4:	Use geographic terms and tools to analyze case studies of issues in globalization. Clarifications: Examples are cultural imperialism, outsourcing.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.2:	Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens. Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.
SS.912.H.1.3:	Relate works in the arts to various cultures. Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.5:	Examine artistic response to social issues and new ideas in various cultures. Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America. Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the

SS.912.W.8.10:	last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.2:	Describe the causes and effects of post-World War II economic and demographic changes. Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
SS.912.W.9.6:	Analyze the rise of regional trade blocs such as the European Union and NAFTA, and predict the impact of increased globalization in the 20th and 21st centuries.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.

	<p>d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).</p>
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically.

MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
MAFS.K12.MP.6.1:	Attend to precision. Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Global Studies - The grade 9-12 Global Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the commonalities and differences among the peoples and cultures of the world and the complex nature of individual, group and national interactions in today's world. Content should include, but is not limited to, global interdependence and challenges, culture, international systems and policies, pluralism, transnationalism, and cultural diffusion, global economics, and human-environment interactions.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2104320

Course Path: Section: Grades PreK to 12 Education Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies > **SubSubject:** Interdisciplinary and Applied Social Studies >

Number of Credits: One (1) credit

Abbreviated Title: GLOBAL STUDIES

Course Type: Elective Course

Course Length: Year (Y)

Course Level: 2

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Educator Certifications

History (Grades 6-12)

Sociology (Grades 6-12)

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Global Studies (#2104320) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.11:	Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East. Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.14:	Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns). Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.3.4:	Assess the economic impact of negative and positive externalities on the international environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.E.3.5:	Compare the current United States economy with other developed and developing nations. Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.

SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.4:	Use geographic terms and tools to analyze case studies of issues in globalization. Clarifications: Examples are cultural imperialism, outsourcing.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.1:	Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created. Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.
SS.912.H.1.2:	Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens. Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.
SS.912.H.1.3:	Relate works in the arts to various cultures. Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.1.5:	Examine artistic response to social issues and new ideas in various cultures. Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America. Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the

SS.912.W.8.10:	last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.2:	Describe the causes and effects of post-World War II economic and demographic changes. Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
SS.912.W.9.6:	Analyze the rise of regional trade blocs such as the European Union and NAFTA, and predict the impact of increased globalization in the 20th and 21st centuries.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. Clarifications: Teachers who encourage students to complete tasks with mathematical fluency: <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others: <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task.

MA.K12.MTR.4.1:

- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

MA.K12.MTR.6.1:

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

MA.K12.MTR.7.1:

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

ELA.K12.EE.1.1:

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.2.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.3.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the

	girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Global Studies - The grade 9-12 Global Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the commonalities and differences among the peoples and cultures of the world and the complex nature of individual, group and national interactions in today's world. Content should include, but is not limited to, global interdependence and challenges, culture, international systems and policies, pluralism, transnationalism, and cultural diffusion, global economics, and human-environment interactions.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Global Studies (#2104320) 2023 - And Beyond

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.11:	Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East. Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.12:	Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century. Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.14:	Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns). Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.4.1:	Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States. <ul style="list-style-type: none"> • Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). • Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). • Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	Explain how the United States uses foreign policy to influence other nations. <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia).

	<ul style="list-style-type: none"> Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.E.3.4:	<p>Assess the economic impact of negative and positive externalities on the international environment.</p> <p>Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.</p>
SS.912.E.3.5:	<p>Compare the current United States economy with other developed and developing nations.</p> <p>Clarifications: Examples are standard of living, exchange rates, productivity, gross domestic product.</p>
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.4:	<p>Use geographic terms and tools to analyze case studies of issues in globalization.</p> <p>Clarifications: Examples are cultural imperialism, outsourcing.</p>
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.1:	<p>Relate works in the arts (architecture, dance, music, theatre, and visual arts) of varying styles and genre according to the periods in which they were created.</p> <p>Clarifications: Examples are Bronze Age, Ming Dynasty, Classical, Renaissance, Modern, and Contemporary.</p>
SS.912.H.1.2:	<p>Describe how historical events, social context, and culture impact forms, techniques, and purposes of works in the arts, including the relationship between a government and its citizens.</p> <p>Clarifications: Examples are imperial Roman sculpture; Palace of Versailles; Picasso's Guernica; layout of Washington, DC.</p>
SS.912.H.1.3:	<p>Relate works in the arts to various cultures.</p> <p>Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.</p>
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.1.5:	<p>Examine artistic response to social issues and new ideas in various cultures.</p> <p>Clarifications: Examples are Victor Hugo's Les Miserables, Langston Hughes' poetry, Pete Seeger's Bring 'Em Home.</p>
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>

SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	<p>Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.</p>
SS.912.W.1.6:	<p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.8.8:	<p>Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies.</p> <p>Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.</p>
SS.912.W.8.9:	<p>Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.</p>
SS.912.W.8.10:	<p>Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.</p> <p>Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.</p>
SS.912.W.9.1:	<p>Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life.</p> <p>Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.</p>
SS.912.W.9.2:	<p>Describe the causes and effects of post-World War II economic and demographic changes.</p> <p>Clarifications: Examples are medical and technological advances, free market economics, increased consumption of natural resources and goods, rise in expectations for standards of living.</p>
SS.912.W.9.3:	<p>Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.</p> <p>Clarifications: Examples are prejudice, racism, stereotyping, economic competition.</p>
SS.912.W.9.4:	<p>Describe the causes and effects of twentieth century nationalist conflicts.</p> <p>Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.</p>
SS.912.W.9.5:	<p>Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.</p>
SS.912.W.9.6:	<p>Analyze the rise of regional trade blocs such as the European Union and NAFTA, and predict the impact of increased globalization in the 20th and 21st centuries.</p>
SS.912.W.9.7:	<p>Describe the impact of and global response to international terrorism.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence.

MA.K12.MTR.3.1:

- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

ELA.K.12.EE.1.1:	4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.
ELA.K.12.EE.2.1:	Read and comprehend grade-level complex texts proficiently. Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K.12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K.12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Global Studies - The grade 9-12 Global Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the study of the commonalities and differences among the peoples and cultures of the world and the complex nature of individual, group and national interactions in today's world. Content should include, but is not limited to, global interdependence and challenges, culture, international systems and policies, pluralism, transnationalism, and cultural diffusion, global economics, and human-environment interactions.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard

should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard

MAFS.912.S-ID.1.2:	<p>deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
SS.912.A.1.5:	<p>Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.</p> <p>Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida’s research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf</p>
SS.912.A.1.7:	<p>Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.</p>
SS.912.C.2.2:	<p>Evaluate the importance of political participation and civic participation.</p>
SS.912.C.2.3:	<p>Experience the responsibilities of citizens at the local, state, or federal levels.</p> <p>Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.</p>
SS.912.C.2.5:	<p>Conduct a service project to further the public good.</p> <p>Clarifications: Examples are school, community, state, national, international.</p>
	<p>Analyze the impact of citizen participation as a means of achieving political and social change.</p>

SS.912.C.2.8:	Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
	Monitor current public issues in Florida.
SS.912.C.2.10:	Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
	Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Voluntary School/Community Service - The grade **Voluntary School/Community Service** course consists of the following content area strands: World History, American History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the concept of service to society and the engagement in activities that benefit communities. Content should include, but is not limited to, the identification of school or community challenges and needs, options for responding to identified needs, and the development and implementation of a personal plan for providing school or community service.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Note: To receive credit for this course, documentation of at least 75 hours of school or community service must be provided.

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

2023

Course Standards

Name	Description
SS.912.A.1.5:	<p>Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.</p> <p>Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf</p>
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation.
	Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	<p>Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.</p>
	Conduct a service project to further the public good.
SS.912.C.2.5:	<p>Clarifications: Examples are school, community, state, national, international.</p>
	Analyze the impact of citizen participation as a means of achieving political and social change.
SS.912.C.2.8:	<p>Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.</p>
	Monitor current public issues in Florida.
SS.912.C.2.10:	<p>Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.</p>
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	<p>Clarifications: Examples are education, transportation, crime prevention, funding of services.</p>
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
	Assess the economic impact of negative and positive externalities on the local, state, and national environment.
SS.912.E.2.11:	<p>Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.</p>
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources.
	<p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
	Mathematicians who participate in effortful learning both individually and with others:
	<ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	<p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.
	<p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.

MA.K12.MTR.2.1:	<ul style="list-style-type: none"> • Progress from modeling problems with objects and drawings to using algorithms and equations. • Express connections between concepts and representations. • Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Help students make connections between concepts and representations. • Provide opportunities for students to use manipulatives when investigating concepts. • Guide students from concrete to pictorial to abstract representations as understanding progresses. • Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Select efficient and appropriate methods for solving problems within the given context. • Maintain flexibility and accuracy while performing procedures and mental calculations. • Complete tasks accurately and with confidence. • Adapt procedures to apply them to a new context. • Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. • Offer multiple opportunities for students to practice efficient and generalizable methods. • Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Communicate mathematical ideas, vocabulary and methods effectively. • Analyze the mathematical thinking of others. • Compare the efficiency of a method to those expressed by others. • Recognize errors and suggest how to correctly solve the task. • Justify results by explaining methods and processes. • Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. • Create opportunities for students to discuss their thinking with peers. • Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. • Develop students' ability to justify methods and compare their responses to the responses of their peers.
MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Focus on relevant details within a problem. • Create plans and procedures to logically order events, steps or ideas to solve problems. • Decompose a complex problem into manageable parts. • Relate previously learned concepts to new concepts. • Look for similarities among problems. • Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. • Support students to develop generalizations based on the similarities found among problems. • Provide opportunities for students to create plans and procedures to solve problems. • Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.
MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences.

MA.K12.MTR.7.1:	<ul style="list-style-type: none"> • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Voluntary School/Community Service - The grade **Voluntary School/Community Service** course consists of the following content area strands: World History, American History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the concept of service to society and the engagement in activities that benefit communities. Content should include, but is not limited to, the identification of school or community challenges and needs, options for responding to identified needs, and the development and implementation of a personal plan for providing school or community service.

Special Note: To receive credit for this course, documentation of at least 75 hours of school or community service must be provided.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. Course Standards

Name	Description
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.CG.2.2:	Explain the importance of political and civic participation to the success of the United States' constitutional republic. <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	Explain the responsibilities of citizens at the local, state and national levels. <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.7:	Analyze the impact of civic engagement as a means of preserving or reforming institutions. <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.12:	Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues. <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.3.15:	Explain how citizens are affected by the local, state and national governments. <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.11:	Assess the economic impact of negative and positive externalities on the local, state, and national environment. Clarifications: Examples of negative are pollution, global warming. Examples of positive are pure water, better air quality.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve.

- Recognize students' effort when solving challenging problems.

Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"

	<ul style="list-style-type: none"> Reinforce that students check their work as they progress within and after a task. Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Connect mathematical concepts to everyday experiences. Use models and methods to understand, represent and solve problems. Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Provide opportunities for students to create models, both concrete and abstract, and perform investigations. Challenge students to question the accuracy of their models and methods. Support students as they validate conclusions by comparing them to the given situation. Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Voluntary School/Community Service - The grade **Voluntary School/Community Service** course consists of the following content area strands: World History, American History, Geography, Humanities, Economics, and Civics and Government. The primary content emphasis for this course pertains to the concept of service to society and the engagement in activities that benefit communities. Content should include, but is not limited to, the identification of school or community challenges and needs, options for

responding to identified needs, and the development and implementation of a personal plan for providing school or community service.

Special Note: To receive credit for this course, documentation of at least 75 hours of school or community service must be provided.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2104330

Course Path: Section: Grades PreK to 12 Education Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies > **SubSubject:** Interdisciplinary and Applied Social Studies >

Number of Credits: Half credit (.5)

Abbreviated Title: VOL SCH/COMMU SERV

Course Type: Elective Course

Course Length: Semester (S)

Course Status: Draft - Course Pending Approval

Course Level: 2

Grade Level(s): 9,10,11,12

Educator Certifications

History (Grades 6-12)

Sociology (Grades 6-12)

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Women's Studies (#2104340) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.3.5:	<p>Identify significant inventors of the Industrial Revolution including African Americans and women.</p> <p>Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.3:	<p>Examine the changing status of women in the United States from post-World War II to present.</p> <p>Clarifications: Examples may include, but are not limited to, increased numbers of women in the workforce, Civil Rights Act of 1964, <i>The Feminine Mystique</i>, National Organization for Women, <i>Roe v. Wade</i>, Equal Rights Amendment, Title IX, Betty Freidan, Gloria Steinem, Phyllis Schlafly, Billie Jean King, feminism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-48. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	<p>Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.</p> <p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-</p>

SS.912.A.7.11:	<p>Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.10:	Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.17:	<p>Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.</p> <p>Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.</p>
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.

SS.912.W.3.17:	Describe the roles of people in the Maya, Inca, and Aztec societies. Clarifications: Examples are class structure, family life, warfare, religious beliefs and practices, slavery.
SS.912.W.3.18:	Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America. Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.
SS.912.W.4.3:	Identify the major artistic, literary, and technological contributions of individuals during the Renaissance. Clarifications: Examples are Petrarch, Brunelleschi, Giotto, the Medici Family, Michelangelo, Leonardo da Vinci, Erasmus, Thomas More, Machiavelli, Shakespeare, Gutenberg, El Greco, Artemisia Gentileschi, Van Eyck.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
SS.912.W.4.15:	Explain the origins, developments, and impact of the trans-Atlantic slave trade between West Africa and the Americas.
SS.912.W.6.4:	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America. Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.

- d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.
- e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically.

MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
	Attend to precision.
MAFS.K12.MP.6.1:	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Women's Studies - The grade 9-12 Women's Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the historical development of women in various cultures, the role of women in shaping history, and of contemporary issues that impact the lives of women.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2104340	Course Path: Section: Grades PreK to 12 Education Courses > Grade Group: Grades 9 to 12 and Adult Education Courses > Subject: Social Studies > SubSubject: Interdisciplinary and Applied Social Studies >
Number of Credits: Half credit (.5)	Abbreviated Title: WOMEN'S STUDIES Course Length: Semester (S)

Course Type: Elective Course
Course Status: Course Approved
Grade Level(s): 9,10,11,12

Course Level: 2

Educator Certifications

Sociology (Grades 6-12)
Political Science (Grades 6-12)
Social Science (Grades 6-12)

Women's Studies (#2104340) 2022 - 2023

Course Standards

Name	Description
SS.912.A.3.5:	<p>Identify significant inventors of the Industrial Revolution including African Americans and women.</p> <p>Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.3:	<p>Examine the changing status of women in the United States from post-World War II to present.</p> <p>Clarifications: Examples may include, but are not limited to, increased numbers of women in the workforce, Civil Rights Act of 1964, <i>The Feminine Mystique</i>, National Organization for Women, <i>Roe v. Wade</i>, Equal Rights Amendment, Title IX, Betty Freidan, Gloria Steinem, Phyllis Schlafly, Billie Jean King, feminism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-48. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	<p>Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.</p> <p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-</p>

SS.912.A.7.11:	<p>Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.10:	Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.17:	<p>Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.</p> <p>Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.</p>
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.

SS.912.W.3.17:	<p>Describe the roles of people in the Maya, Inca, and Aztec societies.</p> <p>Clarifications: Examples are class structure, family life, warfare, religious beliefs and practices, slavery.</p>
SS.912.W.3.18:	<p>Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America.</p> <p>Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.</p>
SS.912.W.4.3:	<p>Identify the major artistic, literary, and technological contributions of individuals during the Renaissance.</p> <p>Clarifications: Examples are Petrarch, Brunelleschi, Giotto, the Medici Family, Michelangelo, Leonardo da Vinci, Erasmus, Thomas More, Machiavelli, Shakespeare, Gutenberg, El Greco, Artemisia Gentileschi, Van Eyck.</p>
SS.912.W.4.14:	<p>Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.</p>
SS.912.W.4.15:	<p>Explain the origins, developments, and impact of the trans-Atlantic slave trade between West Africa and the Americas.</p>
SS.912.W.6.4:	<p>Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.</p> <p>Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.</p>
SS.912.W.9.4:	<p>Describe the causes and effects of twentieth century nationalist conflicts.</p> <p>Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.</p>
SS.912.W.9.5:	<p>Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	<p>Engage in discussions that reflect on the mathematical thinking of self and others.</p> <p>Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task.

MA.K12.MTR.4.1:

- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the

	girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Women's Studies - The grade 9-12 Women's Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the historical development of women in various cultures, the role of women in shaping history, and of contemporary issues that impact the lives of women.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
SS.912.A.3.5:	<p>Identify significant inventors of the Industrial Revolution including African Americans and women.</p> <p>Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.3:	<p>Examine the changing status of women in the United States from post-World War II to present.</p> <p>Clarifications: Examples may include, but are not limited to, increased numbers of women in the workforce, Civil Rights Act of 1964, <i>The Feminine Mystique</i>, National Organization for Women, <i>Roe v. Wade</i>, Equal Rights Amendment, Title IX, Betty Freidan, Gloria Steinem, Phyllis Schlafly, Billie Jean King, feminism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-48. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	<p>Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.</p> <p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-</p>

SS.912.A.7.11:	<p>Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> • Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). • Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). • Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>

SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.10:	Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.17:	Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe. Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.13:	Compare economic, political, and social developments in East, West, and South Africa.
SS.912.W.3.17:	Describe the roles of people in the Maya, Inca, and Aztec societies. Clarifications: Examples are class structure, family life, warfare, religious beliefs and practices, slavery.
SS.912.W.3.18:	Compare the key economic, cultural, and political characteristics of the major civilizations of Meso and South America. Clarifications: Examples are agriculture, architecture, astronomy, literature, mathematics, trade networks, government.
SS.912.W.4.3:	Identify the major artistic, literary, and technological contributions of individuals during the Renaissance. Clarifications: Examples are Petrarch, Brunelleschi, Giotto, the Medici Family, Michelangelo, Leonardo da Vinci, Erasmus, Thomas More, Machiavelli, Shakespeare, Gutenberg, El Greco, Artemisia Gentileschi, Van Eyck.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
SS.912.W.4.15:	Explain the origins, developments, and impact of the trans-Atlantic slave trade between West Africa and the Americas.
SS.912.W.6.4:	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America. Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.5:	Assess the social and economic impact of pandemics on a global scale, particularly within the developing and under-developed world.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence.

MA.K12.MTR.3.1:

- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

ELA.K12.EE.1.1:	4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.
ELA.K12.EE.2.1:	Read and comprehend grade-level complex texts proficiently. Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Women's Studies - The grade 9-12 Women's Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the historical development of women in various cultures, the role of women in shaping history, and of contemporary issues that impact the lives of women.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and

Course Standards

Name	Description
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other

mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

MAFS.K12.MP.6.1:

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.

SS.912.A.1.5:

Clarifications:

Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf

SS.912.A.3.12:

Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.

Clarifications:

Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.

This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.A.7.12:

Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.

Clarifications:

Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.

This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.C.2.2:

Evaluate the importance of political participation and civic participation.

Experience the responsibilities of citizens at the local, state, or federal levels.

SS.912.C.2.3:

Clarifications:

Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.

SS.912.C.2.5:

Conduct a service project to further the public good.

Clarifications:

Examples are school, community, state, national, international.

SS.912.C.2.8:

Analyze the impact of citizen participation as a means of achieving political and social change.

Clarifications:

Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.

SS.912.C.2.10:

Monitor current public issues in Florida.

Clarifications:

Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.

SS.912.C.2.11:

Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.

SS.912.E.2.2:

Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.

SS.912.G.5.5:

Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

SS.912.W.1.3:

Interpret and evaluate primary and secondary sources.

Clarifications:

Examples are artifacts, images, auditory and written sources.

LAFS.910.L.3.4:

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 9–10 reading and content*, choosing flexibly from a range of strategies.

- Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., *analyze, analysis, analytical; advocate, advocacy*).
- Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
- Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

LAFS.910.RI.1.1:

Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

By the end of grade 9, read and comprehend literary nonfiction in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

LAFS.910.RI.4.10:	By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.W.1.1:	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence. a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from and supports the argument presented.
LAFS.910.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
PE.912.C.2.20:	Identify appropriate methods to resolve physical conflict.
PE.912.M.1.5:	Apply strategies for self improvement based on individual strengths and needs.
PE.912.R.5.1:	Describe ways to act independently of peer pressure during physical activities.
PE.912.R.5.4:	Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities. Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.
HE.912.B.5.3:	Appraise the potential short-term and long-term outcomes of each alternative on self and others. Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.
HE.912.B.5.5:	Examine barriers that can hinder healthy decision making. Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.
HE.912.C.1.4:	Propose strategies to reduce or prevent injuries and health problems. Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides an introduction and opportunities for leadership in the areas of service-learning and civic responsibility. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 30 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others

about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 30-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fldoe.org/family/learnserve.asp.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).

Provide documentation of activities and the minimum 30 hours of participation in one or more approved service-learning project.

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

GENERAL INFORMATION

Course Number: 2104350

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Interdisciplinary and Applied Social Studies >

Abbreviated Title: ENG CITIZ SERV LRNG1

Number of Credits: Half credit (.5)

Course Length: Semester (S)

Course Type: Elective Course

MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve.

- Recognize students' effort when solving challenging problems.

Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"

	<ul style="list-style-type: none"> Reinforce that students check their work as they progress within and after a task. Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Connect mathematical concepts to everyday experiences. Use models and methods to understand, represent and solve problems. Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Provide opportunities for students to create models, both concrete and abstract, and perform investigations. Challenge students to question the accuracy of their models and methods. Support students as they validate conclusions by comparing them to the given situation. Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
PE.912.C.2.20:	Identify appropriate methods to resolve physical conflict.
PE.912.M.1.5:	Apply strategies for self improvement based on individual strengths and needs.
PE.912.R.5.1:	Describe ways to act independently of peer pressure during physical activities.
PE.912.R.5.4:	<p>Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities.</p> <p>Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.</p>
HE.912.B.5.3:	<p>Appraise the potential short-term and long-term outcomes of each alternative on self and others.</p> <p>Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.</p>
HE.912.B.5.5:	<p>Examine barriers that can hinder healthy decision making.</p> <p>Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.</p>
	Propose strategies to reduce or prevent injuries and health problems.

HE.912.C.1.4:	Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides an introduction and opportunities for leadership in the areas of service-learning and civic responsibility. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 30 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 30-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fl DOE.org/family/learnserve.asp.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).

Provide documentation of activities and the minimum 30 hours of participation in one or more approved service-learning project.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

GENERAL INFORMATION

Course Path: Section: Grades PreK to 12 Education

Course Number: 2104350

Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >
SubSubject: Interdisciplinary and Applied Social
Studies >

Abbreviated Title: ENG CITIZ SERV LRNG1

Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.E.2.2:	<p>Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.</p>
SS.912.G.5.5:	<p>Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks.

MA.K12.MTR.1.1:

- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1:

Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1:

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.

MA.K12.MTR.6.1:	<ul style="list-style-type: none"> • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
PE.912.C.2.20:	<p>Identify appropriate methods to resolve physical conflict.</p>
PE.912.M.1.5:	<p>Apply strategies for self improvement based on individual strengths and needs.</p>
PE.912.R.5.1:	<p>Describe ways to act independently of peer pressure during physical activities.</p>
PE.912.R.5.4:	<p>Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities.</p>
PE.912.R.5.4:	<p>Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.</p>
HE.912.B.5.3:	<p>Appraise the potential short-term and long-term outcomes of each alternative on self and others.</p>
HE.912.B.5.3:	<p>Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and</p>

	use of stress management and coping skills.
HE.912.B.5.5:	Examine barriers that can hinder healthy decision making. Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.
HE.912.C.1.4:	Propose strategies to reduce or prevent injuries and health problems. Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides an introduction and opportunities for leadership in the areas of service-learning and civic responsibility. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 30 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 30-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fl DOE.org/family/learnserv.asp.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).

Provide documentation of activities and the minimum 30 hours of participation in one or more approved service-learning project.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

Engaged Citizenship through Service-Learning 2 (#2104360) 2015 - 2022 (current)

Course Standards

Name	Description
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other

mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

MAFS.K.12.MP.6.1:

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.

SS.912.A.1.5:

Clarifications:

Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf

SS.912.A.3.12:

Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.

Clarifications:

Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.

This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.A.7.12:

Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.

Clarifications:

Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.

This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.C.2.2:

Evaluate the importance of political participation and civic participation.

Experience the responsibilities of citizens at the local, state, or federal levels.

SS.912.C.2.3:

Clarifications:

Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.

SS.912.C.2.5:

Conduct a service project to further the public good.

Clarifications:

Examples are school, community, state, national, international.

SS.912.C.2.8:

Analyze the impact of citizen participation as a means of achieving political and social change.

Clarifications:

Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.

SS.912.C.2.10:

Monitor current public issues in Florida.

Clarifications:

Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.

SS.912.C.2.11:

Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.

SS.912.E.2.2:

Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.

SS.912.G.5.5:

Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

SS.912.W.1.3:

Interpret and evaluate primary and secondary sources.

Clarifications:

Examples are artifacts, images, auditory and written sources.

LAFS.910.L.3.4:

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grades 9–10 reading and content*, choosing flexibly from a range of strategies.

- Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., *analyze, analysis, analytical; advocate, advocacy*).
- Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
- Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

LAFS.910.RI.1.1:

Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

By the end of grade 9, read and comprehend literary nonfiction in the grades 9–10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

LAFS.910.RI.4.10:	By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.W.1.1:	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence. a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from and supports the argument presented.
LAFS.910.W.4.10:	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
PE.912.C.2.20:	Identify appropriate methods to resolve physical conflict.
PE.912.M.1.5:	Apply strategies for self improvement based on individual strengths and needs.
PE.912.R.5.1:	Describe ways to act independently of peer pressure during physical activities.
PE.912.R.5.4:	Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities. Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.
HE.912.B.5.3:	Appraise the potential short-term and long-term outcomes of each alternative on self and others. Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.
HE.912.B.5.5:	Examine barriers that can hinder healthy decision making. Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.
HE.912.C.1.4:	Propose strategies to reduce or prevent injuries and health problems. Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides applications and opportunities for leadership in the areas of service-learning, civic responsibility, and civic engagement. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 40 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 40-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fl DOE.org/family/learnservice.asp.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).
7. Assess and evaluate impacts of their efforts, measuring outputs and impacts not only on the communities being served, but also on her/himself.
8. Provide documentation of activities and the minimum 40 hours of participation in one or more approved service-learning projects.

For this second-level high school course, the expectation is that students will not only engage in more service-learning hours and activities than students in the first level, but will also show higher levels of responsibility and leadership in project design and implementation. Additional roles can include helping other students or teachers with aspects of project design and implementation, and teaching/presenting to other groups inside and beyond the school about course-based projects.

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

Engaged Citizenship through Service-Learning 2 (#2104360) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.5:	<p>Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources.</p> <p>Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf</p>
SS.912.A.3.12:	<p>Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.</p> <p>Clarifications: Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.2.2:	<p>Evaluate the importance of political participation and civic participation.</p>
SS.912.C.2.3:	<p>Experience the responsibilities of citizens at the local, state, or federal levels.</p> <p>Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.</p>
SS.912.C.2.5:	<p>Conduct a service project to further the public good.</p> <p>Clarifications: Examples are school, community, state, national, international.</p>
SS.912.C.2.8:	<p>Analyze the impact of citizen participation as a means of achieving political and social change.</p> <p>Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.</p>
SS.912.C.2.10:	<p>Monitor current public issues in Florida.</p> <p>Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.</p>
SS.912.C.2.11:	<p>Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.</p>
SS.912.E.2.2:	<p>Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.</p>
SS.912.G.5.5:	<p>Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve.

- Recognize students' effort when solving challenging problems.

Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"

	<ul style="list-style-type: none"> Reinforce that students check their work as they progress within and after a task. Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Connect mathematical concepts to everyday experiences. Use models and methods to understand, represent and solve problems. Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> Provide opportunities for students to create models, both concrete and abstract, and perform investigations. Challenge students to question the accuracy of their models and methods. Support students as they validate conclusions by comparing them to the given situation. Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
PE.912.C.2.20:	Identify appropriate methods to resolve physical conflict.
PE.912.M.1.5:	Apply strategies for self improvement based on individual strengths and needs.
PE.912.R.5.1:	Describe ways to act independently of peer pressure during physical activities.
PE.912.R.5.4:	<p>Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities.</p> <p>Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.</p>
HE.912.B.5.3:	<p>Appraise the potential short-term and long-term outcomes of each alternative on self and others.</p> <p>Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and use of stress management and coping skills.</p>
HE.912.B.5.5:	<p>Examine barriers that can hinder healthy decision making.</p> <p>Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.</p>
	Propose strategies to reduce or prevent injuries and health problems.

HE.912.C.1.4:	Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides applications and opportunities for leadership in the areas of service-learning, civic responsibility, and civic engagement. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 40 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 40-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fldoe.org/family/learnservice.asp.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).
7. Assess and evaluate impacts of their efforts, measuring outputs and impacts not only on the communities being served, but also on her/himself.
8. Provide documentation of activities and the minimum 40 hours of participation in one or more approved service-learning projects.

For this second-level high school course, the expectation is that students will not only engage in more service-learning hours and activities than students in the first level, but will also show higher levels of responsibility and leadership in project design and implementation. Additional roles can include helping other students or teachers with aspects of project design and implementation, and teaching/presenting to other groups inside and beyond the school about course-based projects.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> • Students will discuss various ways in which U.S. citizens can exercise political and civic participation. • Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). • Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> • Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). • Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). • Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). • Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> • Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). • Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> • Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. • Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. • Students will analyze public policy solutions related to local, state and national issues.
SS.912.E.2.2:	<p>Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.</p>
SS.912.G.5.5:	<p>Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Analyze the problem in a way that makes sense given the task. • Ask questions that will help with solving the task. • Build perseverance by modifying methods as needed while solving a challenging task. • Stay engaged and maintain a positive mindset when working to solve tasks.

MA.K12.MTR.1.1:

- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1:

Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1:

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.

MA.K12.MTR.6.1:	<ul style="list-style-type: none"> • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
PE.912.C.2.20:	<p>Identify appropriate methods to resolve physical conflict.</p>
PE.912.M.1.5:	<p>Apply strategies for self improvement based on individual strengths and needs.</p>
PE.912.R.5.1:	<p>Describe ways to act independently of peer pressure during physical activities.</p>
PE.912.R.5.4:	<p>Maintain appropriate personal, social and ethical behavior while participating in a variety of physical activities.</p>
PE.912.R.5.4:	<p>Clarifications: Some examples are respecting teammates, opponents and officials, and accepting both victory and defeat.</p>
HE.912.B.5.3:	<p>Appraise the potential short-term and long-term outcomes of each alternative on self and others.</p>
HE.912.B.5.3:	<p>Clarifications: Nutrition plan based on personal needs and preferences, impact of chronic health condition on individual and family, weapons on campus, and</p>

	use of stress management and coping skills.
HE.912.B.5.5:	Examine barriers that can hinder healthy decision making. Clarifications: Interpersonal, financial, environmental factors, and accessibility of health information.
HE.912.C.1.4:	Propose strategies to reduce or prevent injuries and health problems. Clarifications: Mandatory passenger-restraint/helmet laws, refusal skills, mandatory immunizations, healthy relationship skills, and improved inspection of food sources.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

General Course Information and Notes

GENERAL NOTES

This course provides applications and opportunities for leadership in the areas of service-learning, civic responsibility, and civic engagement. Academic, personal, and career skills needed for effective service-learning project implementation will be taught and applied through structured service projects that meet real school and/or community needs. Students will actively participate in meaningful service-learning experiences of at least 40 hours' duration.

The content should include, but not be limited to, the following:

1. Students, working individually or in small or large groups, will investigate, quantify, and choose among issues and needs that can be addressed.
2. Students will design and then implement one or more service-learning projects to address identified needs through direct, indirect, advocacy, or research-focused action. Projects will involve meaningful partnerships.
3. Students will conduct reflection activities to measure and record information about the service-learning activities and their impacts.
4. Students will demonstrate KSAs (knowledge, skills, or abilities) gained from projects through project-developed products and public presentations that educate others about the needs/issues addressed, activities conducted, impacts measured, and/or how others can also meet needs through service.

All of the above activities may be counted toward the service-learning 40-hour requirement. Activities can range widely and occur within or beyond the school. For more information about service-learning, see the Florida Department of Education Web site at www.fldoe.org/family/learnservice.asp.

Language Arts benchmarks are addressed as students read, write, create documents, and make public presentations about needs and activities to address them. Social Studies benchmarks include analyzing community issues, coming up with solutions, and conducting service projects. Math benchmarks are met as students chart and graph data as part of issue investigation, project design, demonstration, and/or reflection. Health and Physical Education are addressed as projects include discussion and learning related to safety, liability, interpersonal skills, conflict avoidance, appraising outcomes and impacts on others, maintaining appropriate behavior, etc., in the students' interaction with others.

After successfully completing this course, the student will:

1. Demonstrate an understanding of service-learning, the types of service-learning, and its importance in a participatory democracy.
2. Demonstrate the ability to identify school/community needs and propose solutions that can be implemented through service-learning.
3. Demonstrate the ability to identify and analyze different points of view to gain an understanding of diverse backgrounds and perspectives and their value.
4. Demonstrate the ability to investigate significant needs, plan and implement service-learning projects to address them, evaluate project effectiveness, and present the information to an authentic audience.
5. Demonstrate use of effective self-assessment and reflection strategies (e.g., verbal, written, artistic, and non-verbal activities to demonstrate learning, understanding, and changes in students' knowledge, skills and/or abilities).
6. Demonstrate effective use of facilitative communication skills (e.g., writing, speaking, listening, questioning, paraphrasing, non-verbal communication, non-judgmental response).
7. Assess and evaluate impacts of their efforts, measuring outputs and impacts not only on the communities being served, but also on her/himself.
8. Provide documentation of activities and the minimum 40 hours of participation in one or more approved service-learning projects.

For this second-level high school course, the expectation is that students will not only engage in more service-learning hours and activities than students in the first level, but will also show higher levels of responsibility and leadership in project design and implementation. Additional roles can include helping other students or teachers with aspects of project design and implementation, and teaching/presenting to other groups inside and beyond the school about course-based projects.

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

QUALIFICATIONS

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

GENERAL INFORMATION

Course Number: 2104360

Course Path: Section: Grades PreK to 12 Education Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies > **SubSubject:** Interdisciplinary and Applied Social Studies >

Number of Credits: Half credit (.5)

Abbreviated Title: ENG CITIZ SERV LRNG2

Course Type: Elective Course

Course Length: Semester (S)

Course Status: Draft - Course Pending Approval

Course Level: 2

Grade Level(s): 9,10,11,12

Multicultural Studies (#2104600) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.6:	Compare the effects of the Black Codes and the Nadir on freed people, and analyze the sharecropping system and debt peonage as practiced in the United States. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.7:	Review the Native American experience. Clarifications: Examples may include, but are not limited to, westward expansion, reservation system, the Dawes Act, Wounded Knee Massacre, Sand Creek Massacre, Battle of Little Big Horn, Indian Schools, government involvement in the killing of the buffalo. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.5:	Identify significant inventors of the Industrial Revolution including African Americans and women. Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.6:	Analyze changes that occurred as the United States shifted from agrarian to an industrial society. Clarifications: Examples may include, but are not limited to, Social Darwinism, laissez-faire, government regulations of food and drugs, migration to cities, urbanization, changes to the family structure, Ellis Island, Angel Island, push-pull factors. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.A.3.7:	<p>Compare the experience of European immigrants in the east to that of Asian immigrants in the west (the Chinese Exclusion Act, Gentlemen's Agreement with Japan).</p> <p>Clarifications: Examples may include, but are not limited to nativism, integration of immigrants into society when comparing "Old" [before 1890] and "New" immigrants [after 1890], Immigration Act of 1924.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.11:	<p>Analyze the impact of political machines in United States cities in the late 19th and early 20th centuries.</p> <p>Clarifications: Examples may include, but are not limited to, Boss Tweed, Tammany Hall, George Washington Plunkitt, Washington Gladden, Thomas Nast.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.12:	<p>Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.</p> <p>Clarifications: Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.13:	<p>Examine key events and peoples in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, the railroad industry, bridge construction in the Florida Keys, the cattle industry, the cigar industry, the influence of Cuban, Greek and Italian immigrants, Henry B. Plant, William Chipley, Henry Flagler, George Proctor, Thomas DeSaille Tucker, Hamilton Disston.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.1:	<p>Analyze the major factors that drove United States imperialism.</p> <p>Clarifications: Examples may include, but are not limited to, the Monroe Doctrine, Manifest Destiny, <i>The Influence of Sea Power Upon History</i>, <i>Turner's thesis</i>, <i>the Roosevelt Corollary</i>, <i>natural resources</i>, <i>markets for resources</i>, <i>elimination of spheres of influence in China</i>.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 27-28. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.2:	<p>Explain the causes of the public reaction (Sacco and Vanzetti, labor, racial unrest) associated with the Red Scare.</p> <p>Clarifications: Examples may also include, but are not limited to, Palmer Raids, FBI, J. Edgar Hoover.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.5.6:	<p>Analyze the influence that Hollywood, the Harlem Renaissance, the Fundamentalist movement, and prohibition had in changing American society in the 1920s.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.8:	<p>Compare the views of Booker T. Washington, W.E.B. DuBois, and Marcus Garvey relating to the African American experience.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.6.9:	<p>Describe the rationale for the formation of the United Nations, including the contribution of Mary McLeod Bethune.</p> <p>Clarifications: Examples may include, but are not limited to, the Declaration of Human Rights.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 40-42. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.4:	<p>Evaluate the success of 1960s era presidents' foreign and domestic policies.</p> <p>Clarifications: Examples may include, but are not limited to, civil rights legislation, Space Race, Great Society, War on Poverty.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.6:	<p>Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement.</p> <p>Clarifications: Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Phillip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.7:	<p>Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.</p> <p>Clarifications: Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.7.8:	<p>Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.</p> <p>Clarifications: Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainwright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 53-54. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.11:	<p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.13:	<p>Analyze the attempts to extend New Deal legislation through the Great Society and the successes and failures of these programs to promote social and economic stability.</p> <p>Clarifications: Examples may include, but are not limited to, Civil Rights Act of 1964, Voting Rights Act of 1965, War on Poverty, Medicare, Medicaid, Headstart.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.14:	<p>Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns).</p> <p>Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.16:	<p>Examine changes in immigration policy and attitudes toward immigration since 1950.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.17:	<p>Examine key events and key people in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, selection of Central Florida as a location for Disney, growth of the citrus and cigar industries, construction of Interstates, Harry T. Moore, Pork Chop Gang, Claude Pepper, changes in the space program, use of DEET, Hurricane Andrew, the Election of 2000, migration and immigration, Sunbelt state.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-52 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
	Identify the physical characteristics and the human characteristics that define and differentiate regions.

SS.912.G.2.1:	<p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ol style="list-style-type: none"> Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and

- reasons, between reasons and evidence, and between claim(s) and counterclaims.
- d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- e. Provide a concluding statement or section that follows from or supports the argument presented.

LAFS.910.WHST.1.2: Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

- a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.
- d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.
- e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
- f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

LAFS.910.WHST.2.4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

LAFS.910.WHST.2.5: Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.

LAFS.910.WHST.2.6: Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

LAFS.910.WHST.3.7: Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

LAFS.910.WHST.3.8: Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

LAFS.910.WHST.3.9: Draw evidence from informational texts to support analysis, reflection, and research.

LAFS.910.WHST.4.10: Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

MAFS.912.S-IC.2.3: Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★
Standard Relation to Course: Supporting

MAFS.912.S-IC.2.4: Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★
Standard Relation to Course: Supporting

MAFS.912.S-IC.2.5: Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★
Standard Relation to Course: Supporting

MAFS.912.S-IC.2.6: Evaluate reports based on data. ★
Standard Relation to Course: Supporting

MAFS.912.S-ID.1.1: Represent data with plots on the real number line (dot plots, histograms, and box plots). ★

Clarifications:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Standard Relation to Course: Supporting

MAFS.912.S-ID.1.2: Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★

Clarifications:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Standard Relation to Course: Supporting

MAFS.912.S-ID.1.3: Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★

Clarifications:
 In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.

Standard Relation to Course: Supporting

MAFS.912.S-ID.1.4: Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★
Standard Relation to Course: Supporting

Make sense of problems and persevere in solving them.

Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.

Construct viable arguments and critique the reasoning of others.

MAFS.K12.MP.3.1:	Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.6.1:	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

Multicultural Studies - The grade 9-12 Multicultural Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the chronological development of multicultural and multiethnic groups in the United States and their influence on the development of American culture. Content should include, but is not limited to, the influence of geography on the social and economic development of Native American culture, the influence of major historical events on the development of a multicultural American society and a study of the political, economic and social aspects of Native American, Hispanic American, African American and Asian American culture.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and

GENERAL INFORMATION

Course Number: 2104600

Course Path: Section: Grades PreK to 12 Education
Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >
SubSubject: Multicultural Studies >

Number of Credits: Half credit (.5)

Abbreviated Title: MULTICLTRL STUDIES

Course Type: Elective Course

Course Length: Semester (S)

Course Status: Course Approved

Course Level: 2

Grade Level(s): 9,10,11,12

Educator Certifications

History (Grades 6-12)

Sociology (Grades 6-12)

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Multicultural Studies (#2104600) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.6:	Compare the effects of the Black Codes and the Nadir on freed people, and analyze the sharecropping system and debt peonage as practiced in the United States. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.7:	Review the Native American experience. Clarifications: Examples may include, but are not limited to, westward expansion, reservation system, the Dawes Act, Wounded Knee Massacre, Sand Creek Massacre, Battle of Little Big Horn, Indian Schools, government involvement in the killing of the buffalo. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.5:	Identify significant inventors of the Industrial Revolution including African Americans and women. Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.6:	Analyze changes that occurred as the United States shifted from agrarian to an industrial society. Clarifications: Examples may include, but are not limited to, Social Darwinism, laissez-faire, government regulations of food and drugs, migration to cities, urbanization, changes to the family structure, Ellis Island, Angel Island, push-pull factors. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.A.3.7:	<p>Compare the experience of European immigrants in the east to that of Asian immigrants in the west (the Chinese Exclusion Act, Gentlemen's Agreement with Japan).</p> <p>Clarifications: Examples may include, but are not limited to nativism, integration of immigrants into society when comparing "Old" [before 1890] and "New" immigrants [after 1890], Immigration Act of 1924.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.11:	<p>Analyze the impact of political machines in United States cities in the late 19th and early 20th centuries.</p> <p>Clarifications: Examples may include, but aren ot limited to, Boss Tweed, Tammany Hall, George Washington Plunkitt, Washington Gladden, Thomas Nast.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.12:	<p>Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.</p> <p>Clarifications: Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.13:	<p>Examine key events and peoples in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, the railroad industry, bridge construction in the Florida Keys, the cattle industry, the cigar industry, the influence of Cuban, Greek and Italian immigrants, Henry B. Plant, William Chipley, Henry Flagler, George Proctor, Thomas DeSaille Tucker, Hamilton Disston.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.1:	<p>Analyze the major factors that drove United States imperialism.</p> <p>Clarifications: Examples may include, but are not limited to, the Monroe Doctrine, Manifest Destiny, <i>The Influence of Sea Power Upon History</i>, <i>Turner's thesis</i>, <i>the Roosevelt Corollary</i>, <i>natural resources</i>, <i>markets for resources</i>, <i>elimination of spheres of influence in China</i>.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 27-28. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.2:	<p>Explain the causes of the public reaction (Sacco and Vanzetti, labor, racial unrest) associated with the Red Scare.</p> <p>Clarifications: Examples may also include, but are not limited to, Palmer Raids, FBI, J. Edgar Hoover.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.5.6:	<p>Analyze the influence that Hollywood, the Harlem Renaissance, the Fundamentalist movement, and prohibition had in changing American society in the 1920s.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.8:	<p>Compare the views of Booker T. Washington, W.E.B. DuBois, and Marcus Garvey relating to the African American experience.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.6.9:	<p>Describe the rationale for the formation of the United Nations, including the contribution of Mary McLeod Bethune.</p> <p>Clarifications: Examples may include, but are not limited to, the Declaration of Human Rights.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 40-42. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.4:	<p>Evaluate the success of 1960s era presidents' foreign and domestic policies.</p> <p>Clarifications: Examples may include, but are not limited to, civil rights legislation, Space Race, Great Society, War on Poverty.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.6:	<p>Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement.</p> <p>Clarifications: Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Phillip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.7:	<p>Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.</p> <p>Clarifications: Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.7.8:	<p>Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.</p> <p>Clarifications: Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainwright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 53-54. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.11:	<p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.13:	<p>Analyze the attempts to extend New Deal legislation through the Great Society and the successes and failures of these programs to promote social and economic stability.</p> <p>Clarifications: Examples may include, but are not limited to, Civil Rights Act of 1964, Voting Rights Act of 1965, War on Poverty, Medicare, Medicaid, Headstart.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.14:	<p>Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns).</p> <p>Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.16:	<p>Examine changes in immigration policy and attitudes toward immigration since 1950.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.17:	<p>Examine key events and key people in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, selection of Central Florida as a location for Disney, growth of the citrus and cigar industries, construction of Interstates, Harry T. Moore, Pork Chop Gang, Claude Pepper, changes in the space program, use of DEET, Hurricane Andrew, the Election of 2000, migration and immigration, Sunbelt state.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-52 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
	Identify the physical characteristics and the human characteristics that define and differentiate regions.

SS.912.G.2.1:	<p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.
SS.912.G.4.1:	<p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.2:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.3:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.4:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	Evaluate the role of history in shaping identity and character.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p>

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

MA.K12.MTR.4.1:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

	6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.
ELA.K12.EE.2.1:	Read and comprehend grade-level complex texts proficiently. Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors. Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

Multicultural Studies - The grade 9-12 Multicultural Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the chronological development of multicultural and multiethnic groups in the United States and their influence on the development of American culture. Content should include, but is not limited to, the influence of geography on the social and economic development of Native American culture, the influence of major historical events on the development of a multicultural American society and a study of the political, economic and social aspects of Native American, Hispanic American, African American and Asian American culture.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and

GENERAL INFORMATION

Course Number: 2104600

Course Path: Section: Grades PreK to 12 Education
Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >
SubSubject: Multicultural Studies >

Number of Credits: Half credit (.5)

Abbreviated Title: MULTICLTRL STUDIES

Course Type: Elective Course

Course Length: Semester (S)

Course Status: State Board Approved

Course Level: 2

Grade Level(s): 9,10,11,12

Educator Certifications

History (Grades 6-12)

Sociology (Grades 6-12)

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Multicultural Studies (#2104600) 2023 - And Beyond

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.6:	Compare the effects of the Black Codes and the Nadir on freed people, and analyze the sharecropping system and debt peonage as practiced in the United States. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.7:	Review the Native American experience. Clarifications: Examples may include, but are not limited to, westward expansion, reservation system, the Dawes Act, Wounded Knee Massacre, Sand Creek Massacre, Battle of Little Big Horn, Indian Schools, government involvement in the killing of the buffalo. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.5:	Identify significant inventors of the Industrial Revolution including African Americans and women. Clarifications: Examples may include, but are not limited to, Lewis Howard Latimer, Jan E. Matzeliger, Sarah E. Goode, Granville T. Woods, Alexander Graham Bell, Thomas Edison, George Pullman, Henry Ford, Orville and Wilbur Wright, Elijah McCoy, Garrett Morgan, Madame C.J. Walker, George Westinghouse. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.3.6:	Analyze changes that occurred as the United States shifted from agrarian to an industrial society. Clarifications: Examples may include, but are not limited to, Social Darwinism, laissez-faire, government regulations of food and drugs, migration to cities, urbanization, changes to the family structure, Ellis Island, Angel Island, push-pull factors. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.

SS.912.A.3.7:	<p>Compare the experience of European immigrants in the east to that of Asian immigrants in the west (the Chinese Exclusion Act, Gentlemen's Agreement with Japan).</p> <p>Clarifications: Examples may include, but are not limited to nativism, integration of immigrants into society when comparing "Old" [before 1890] and "New" immigrants [after 1890], Immigration Act of 1924.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 23-26. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.11:	<p>Analyze the impact of political machines in United States cities in the late 19th and early 20th centuries.</p> <p>Clarifications: Examples may include, but are not limited to, Boss Tweed, Tammany Hall, George Washington Plunkitt, Washington Gladden, Thomas Nast.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.12:	<p>Compare how different nongovernmental organizations and progressives worked to shape public policy, restore economic opportunities, and correct injustices in American life.</p> <p>Clarifications: Examples may include, but are not limited to, NAACP, YMCA, Women's Christian Temperance Union, National Women's Suffrage Association, National Women's Party, Robert LaFollette, Florence Kelley, Ida M. Tarbell, Eugene Debs, Carrie Chapman Catt, Alice Paul, Theodore Roosevelt, William Taft, Woodrow Wilson, Upton Sinclair, Booker T. Washington, W.E.B. DuBois, Gifford Pinchot, William Jennings Bryan.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.3.13:	<p>Examine key events and peoples in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, the railroad industry, bridge construction in the Florida Keys, the cattle industry, the cigar industry, the influence of Cuban, Greek and Italian immigrants, Henry B. Plant, William Chipley, Henry Flagler, George Proctor, Thomas DeSaille Tucker, Hamilton Disston.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.1:	<p>Analyze the major factors that drove United States imperialism.</p> <p>Clarifications: Examples may include, but are not limited to, the Monroe Doctrine, Manifest Destiny, <i>The Influence of Sea Power Upon History</i>, <i>Turner's thesis</i>, <i>the Roosevelt Corollary</i>, <i>natural resources</i>, <i>markets for resources</i>, <i>elimination of spheres of influence in China</i>.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 27-28. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.8:	<p>Compare the experiences Americans (African Americans, Hispanics, Asians, women, conscientious objectors) had while serving in Europe.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.4.9:	<p>Compare how the war impacted German Americans, Asian Americans, African Americans, Hispanic Americans, Jewish Americans, Native Americans, women and dissenters in the United States.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 29-31. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.2:	<p>Explain the causes of the public reaction (Sacco and Vanzetti, labor, racial unrest) associated with the Red Scare.</p> <p>Clarifications: Examples may also include, but are not limited to, Palmer Raids, FBI, J. Edgar Hoover.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.5.6:	<p>Analyze the influence that Hollywood, the Harlem Renaissance, the Fundamentalist movement, and prohibition had in changing American society in the 1920s.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.7:	<p>Examine the freedom movements that advocated civil rights for African Americans, Latinos, Asians, and women.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.8:	<p>Compare the views of Booker T. Washington, W.E.B. DuBois, and Marcus Garvey relating to the African American experience.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.9:	<p>Explain why support for the Ku Klux Klan varied in the 1920s with respect to issues such as anti-immigration, anti-African American, anti-Catholic, anti-Jewish, anti-women, and anti-union ideas.</p> <p>Clarifications: Examples may include, but are not limited to, 100 Percent Americanism.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.5.10:	<p>Analyze support for and resistance to civil rights for women, African Americans, Native Americans, and other minorities.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 35-36. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.6.9:	<p>Describe the rationale for the formation of the United Nations, including the contribution of Mary McLeod Bethune.</p> <p>Clarifications: Examples may include, but are not limited to, the Declaration of Human Rights.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 40-42. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.4:	<p>Evaluate the success of 1960s era presidents' foreign and domestic policies.</p> <p>Clarifications: Examples may include, but are not limited to, civil rights legislation, Space Race, Great Society, War on Poverty.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.6:	<p>Assess key figures and organizations in shaping the Civil Rights Movement and Black Power Movement.</p> <p>Clarifications: Examples may include, but are not limited to, the NAACP, National Urban League, SNCC, CORE, James Farmer, Charles Houston, Thurgood Marshall, Rosa Parks, Constance Baker Motley, the Little Rock Nine, Roy Wilkins, Whitney M. Young, A. Phillip Randolph, Dr. Martin Luther King, Jr., Robert F. Williams, Fannie Lou Hamer, Malcolm X [El-Hajj Malik El-Shabazz], Stokely Carmichael [Kwame Ture], H. Rap Brown [Jamil Abdullah Al-Amin], the Black Panther Party [e.g., Huey P. Newton, Bobby Seale].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.7:	<p>Assess the building of coalitions between African Americans, whites, and other groups in achieving integration and equal rights.</p> <p>Clarifications: Examples may include, but are not limited to, Freedom Summer, Freedom Rides, Montgomery Bus Boycott, Tallahassee Bus Boycott of 1956, March on Washington.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>

SS.912.A.7.8:	<p>Analyze significant Supreme Court decisions relating to integration, busing, affirmative action, the rights of the accused, and reproductive rights.</p> <p>Clarifications: Examples may include, but are not limited to, Plessy v. Ferguson [1896], Brown v. Board of Education [1954], Swann v. Charlotte-Mecklenburg Board of Education [1971], Regents of the University of California v. Bakke [1978], Miranda v. Arizona [1966], Gideon v. Wainwright [1963], Mapp v. Ohio [1961], and Roe v. Wade [1973].</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 53-54. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.9:	Examine the similarities of social movements (Native Americans, Hispanics, women, anti-war protesters) of the 1960s and 1970s.
SS.912.A.7.11:	<p>Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East.</p> <p>Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.12:	<p>Analyze political, economic, and social concerns that emerged at the end of the 20th century and into the 21st century.</p> <p>Clarifications: Examples may include, but are not limited to, AIDS, Green Revolution, outsourcing of jobs, global warming, human rights violations.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.13:	<p>Analyze the attempts to extend New Deal legislation through the Great Society and the successes and failures of these programs to promote social and economic stability.</p> <p>Clarifications: Examples may include, but are not limited to, Civil Rights Act of 1964, Voting Rights Act of 1965, War on Poverty, Medicare, Medicaid, Headstart.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 49-50 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.14:	<p>Review the role of the United States as a participant in the global economy (trade agreements, international competition, impact on American labor, environmental concerns).</p> <p>Clarifications: Examples may include, but are not limited to, NAFTA, World Trade Organization.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.16:	<p>Examine changes in immigration policy and attitudes toward immigration since 1950.</p> <p>Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.17:	<p>Examine key events and key people in Florida history as they relate to United States history.</p> <p>Clarifications: Examples may include, but are not limited to, selection of Central Florida as a location for Disney, growth of the citrus and cigar industries, construction of Interstates, Harry T. Moore, Pork Chop Gang, Claude Pepper, changes in the space program, use of DEET, Hurricane Andrew, the Election of 2000, migration and immigration, Sunbelt state.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 47-52 and pages 57-59. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> • Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). • Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). • Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia).

	<ul style="list-style-type: none"> Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.
SS.912.G.2.3:	<p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	<p>Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).</p> <p>Evaluate the role of history in shaping identity and character.</p>
SS.912.W.1.6:	<p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications:</p>

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

	<p>Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

Multicultural Studies - The grade 9-12 Multicultural Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the chronological development of multicultural and multiethnic groups in the United States and their influence on the development of American culture. Content should include, but is not limited to, the influence of geography on the social and economic development of Native American culture, the influence of major historical events on the development of a multicultural American society and a study of the political, economic and social aspects of Native American, Hispanic American, African American and Asian American culture.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.

2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time. Relate works in the arts to various cultures.
SS.912.H.1.3:	Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.2:	Describe the impact of Constantine the Great's establishment of "New Rome" (Constantinople) and his recognition of Christianity as a legal religion. Identify key figures associated with the Byzantine Empire.
SS.912.W.2.4:	Clarifications: Examples are Justinian the Great, Theodora, Belisarius, John of Damascus, Anna Comnena, Cyril and Methodius.
SS.912.W.2.5:	Explain the contributions of the Byzantine Empire. Clarifications: Examples are Justinian's Code, the preservation of ancient Greek and Roman learning and culture, artistic and architectural achievements, the empire's impact on the development of Western Europe, Islamic civilization, and Slavic peoples.
SS.912.W.2.6:	Describe the causes and effects of the Iconoclast controversy of the 8th and 9th centuries and the 11th century Christian schism between the churches of Constantinople and Rome.

SS.912.W.2.7:	Analyze causes (Justinian's Plague, ongoing attacks from the "barbarians," the Crusades, and internal political turmoil) of the decline of the Byzantine Empire.
SS.912.W.2.8:	Describe the rise of the Ottoman Turks, the conquest of Constantinople in 1453, and the subsequent growth of the Ottoman empire under the sultanate including Mehmet the Conqueror and Suleyman the Magnificent.
SS.912.W.2.10:	Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.19:	Describe the impact of Japan's physiography on its economic and political development.
SS.912.W.2.20:	Summarize the major cultural, economic, political, and religious developments in medieval Japan. Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
SS.912.W.3.1:	Discuss significant people and beliefs associated with Islam. Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.3:	Determine the causes, effects, and extent of Islamic military expansion through Central Asia, North Africa, and the Iberian Peninsula.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.3.5:	Describe the achievements, contributions, and key figures associated with the Islamic Golden Age. Clarifications: Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.
SS.912.W.3.6:	Describe key economic, political, and social developments in Islamic history. Clarifications: Examples are growth of the caliphate, division of Sunni and Shi'a, role of trade, dhimmitude, Islamic slave trade.
SS.912.W.3.7:	Analyze the causes, key events, and effects of the European response to Islamic expansion beginning in the 7th century. Clarifications: Examples are Crusades, Reconquista.
SS.912.W.3.8:	Identify important figures associated with the Crusades. Clarifications: Examples are Alexius Comnenus, Pope Urban, Bernard of Clairvaux, Godfrey of Bouillon, Saladin, Richard the Lionheart, Baybars, Louis IX.
SS.912.W.8.10:	Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently. Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
LAFS.910.SL.1.1:	

	<p>c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.</p> <p>d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.</p>
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <p>a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence.</p> <p>b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns.</p> <p>c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.</p> <p>d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>e. Provide a concluding statement or section that follows from or supports the argument presented.</p>
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <p>a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.</p> <p>b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts.</p> <p>d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.</p> <p>f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).</p>
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p>

	Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★
	Standard Relation to Course: Supporting
	Make sense of problems and persevere in solving them.
MAFS.K12.MP.1.1:	Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
	Construct viable arguments and critique the reasoning of others.
MAFS.K12.MP.3.1:	Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically.
MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
	Attend to precision.
MAFS.K12.MP.6.1:	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors.
	Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

World Religions - The grade 9-12 World Religions course consists of the following content area strands: World History, Geography and Humanities. The primary content emphasis for this course pertains to the study of major world religious traditions of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shintoism and Taoism. Students will identify criteria upon which religious beliefs are based, analyze relationships between religious and social and political institutions, trace the major developments of the world's living religions, distinguish the similarities and differences among the world's major religious traditions, synthesize information and ideas from conflicting religious beliefs, and interpret the development of a society as reflected by its religious beliefs.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.

3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL’s need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

World Religions (#2105310) 2022 - And Beyond

Course Standards

Name	Description
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.4.2:	Use geographic terms and tools to analyze the push/pull factors contributing to human migration within and among places.
SS.912.G.4.3:	Use geographic terms and tools to analyze the effects of migration both on the place of origin and destination, including border areas.
SS.912.G.4.7:	Use geographic terms and tools to explain cultural diffusion throughout places, regions, and the world.
SS.912.G.4.9:	Use political maps to describe the change in boundaries and governments within continents over time. Relate works in the arts to various cultures.
SS.912.H.1.3:	Clarifications: Examples are African, Asian, Oceanic, European, the Americas, Middle Eastern, Egyptian, Greek, Roman.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.2:	Describe the impact of Constantine the Great's establishment of "New Rome" (Constantinople) and his recognition of Christianity as a legal religion. Identify key figures associated with the Byzantine Empire.
SS.912.W.2.4:	Clarifications: Examples are Justinian the Great, Theodora, Belisarius, John of Damascus, Anna Comnena, Cyril and Methodius.
SS.912.W.2.5:	Explain the contributions of the Byzantine Empire. Clarifications: Examples are Justinian's Code, the preservation of ancient Greek and Roman learning and culture, artistic and architectural achievements, the empire's impact on the development of Western Europe, Islamic civilization, and Slavic peoples.
SS.912.W.2.6:	Describe the causes and effects of the Iconoclast controversy of the 8th and 9th centuries and the 11th century Christian schism between the churches of Constantinople and Rome.

SS.912.W.2.7:	Analyze causes (Justinian's Plague, ongoing attacks from the "barbarians," the Crusades, and internal political turmoil) of the decline of the Byzantine Empire.
SS.912.W.2.8:	Describe the rise of the Ottoman Turks, the conquest of Constantinople in 1453, and the subsequent growth of the Ottoman empire under the sultanate including Mehmet the Conqueror and Suleyman the Magnificent.
SS.912.W.2.10:	Describe the orders of medieval social hierarchy, the changing role of the Church, the emergence of feudalism, and the development of private property as a distinguishing feature of Western Civilization.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.19:	Describe the impact of Japan's physiography on its economic and political development.
SS.912.W.2.20:	Summarize the major cultural, economic, political, and religious developments in medieval Japan. Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
SS.912.W.3.1:	Discuss significant people and beliefs associated with Islam. Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.3:	Determine the causes, effects, and extent of Islamic military expansion through Central Asia, North Africa, and the Iberian Peninsula.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.3.5:	Describe the achievements, contributions, and key figures associated with the Islamic Golden Age. Clarifications: Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.
SS.912.W.3.6:	Describe key economic, political, and social developments in Islamic history. Clarifications: Examples are growth of the caliphate, division of Sunni and Shi'a, role of trade, dhimmitude, Islamic slave trade.
SS.912.W.3.7:	Analyze the causes, key events, and effects of the European response to Islamic expansion beginning in the 7th century. Clarifications: Examples are Crusades, Reconquista.
SS.912.W.3.8:	Identify important figures associated with the Crusades. Clarifications: Examples are Alexius Comnenus, Pope Urban, Bernard of Clairvaux, Godfrey of Bouillon, Saladin, Richard the Lionheart, Baybars, Louis IX.
SS.912.W.8.10:	Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations.

MA.K12.MTR.2.1:

- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or

MA.K12.MTR.7.1:	<p>efficiency.</p> <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

World Religions - The grade 9-12 World Religions course consists of the following content area strands: World History, Geography and Humanities. The primary content emphasis for this course pertains to the study of major world religious traditions of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Shintoism and Taoism . Students will identify criteria upon which religious beliefs are based, analyze relationships between religious and social and political institutions, trace the major developments of the world's living religions, distinguish the similarities and differences among the world's major religious traditions, synthesize information and ideas from conflicting religious beliefs, and interpret the development of a society as reflected by its religious beliefs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Philosophy (#2105340) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.5:	Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights. Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.10:	Evaluate the significance and outcomes of landmark Supreme Court cases. Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
	Explain philosophical beliefs as they relate to works in the arts.

SS.912.H.1.4:	Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.20:	Summarize the major cultural, economic, political, and religious developments in medieval Japan. Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea. Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus. Identify the major contributions of individuals associated with the Scientific Revolution.
SS.912.W.4.10:	Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.
SS.912.W.5.2:	Identify major causes of the Enlightenment. Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
SS.912.W.6.4:	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America. Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America. Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.
SS.912.W.8.10:	Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.

LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting

MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
MAFS.912.S-ID.1.1:	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
MAFS.K12.MP.1.1:	Make sense of problems and persevere in solving them. Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
MAFS.K12.MP.3.1:	Construct viable arguments and critique the reasoning of others. Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
MAFS.K12.MP.5.1:	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
MAFS.K12.MP.6.1:	Attend to precision. Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors. Clarifications: Various cultures’ dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

Philosophy - The grade 9-12 Philosophy course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the fundamental questions pertinent to all areas of human activity and inquiries. Content should include, but is not limited to, an introduction to classical and modern philosophies, the fundamental principles of philosophical thought, such as semantics, logic, inductive and deductive reasoning, and social, political and religious philosophies.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105340

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Philosophy and Religion >

Abbreviated Title: PHILOS

Course Length: Semester (S)

Course Level: 2

Educator Certifications

History (Grades 6-12)

Humanities (Elementary and Secondary Grades K-12)

Social Science (Grades 6-12)

Philosophy (#2105340) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.5:	Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights. Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.10:	Evaluate the significance and outcomes of landmark Supreme Court cases. Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.G.2.1:	Identify the physical characteristics and the human characteristics that define and differentiate regions. Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
	Explain philosophical beliefs as they relate to works in the arts.

SS.912.H.1.4:	Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography). Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.20:	Summarize the major cultural, economic, political, and religious developments in medieval Japan. Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea. Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus. Identify the major contributions of individuals associated with the Scientific Revolution.
SS.912.W.4.10:	Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.
SS.912.W.5.2:	Identify major causes of the Enlightenment. Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
SS.912.W.6.4:	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America. Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America. Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.
SS.912.W.8.10:	Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism. Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

MA.K12.MTR.1.1:

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:	<ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

Philosophy - The grade 9-12 Philosophy course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the fundamental questions pertinent to all areas of human activity and inquiries. Content should include, but is not limited to, an introduction to classical and modern philosophies, the fundamental principles of philosophical thought, such as semantics, logic, inductive and deductive reasoning, and social, political and religious philosophies.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105340

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: State Board Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Philosophy and Religion >

Abbreviated Title: PHILOS

Course Length: Semester (S)

Course Level: 2

Educator Certifications

History (Grades 6-12)

Humanities (Elementary and Secondary Grades K-12)

Social Science (Grades 6-12)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.5:	Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights. Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.1.2:	Explain the influence of Enlightenment ideas on the Declaration of Independence. <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government. <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic. <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers. <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.3.1:	Analyze how certain political ideologies conflict with the principles of freedom and democracy. <ul style="list-style-type: none"> Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity

	and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). • Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. • Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.G.2.1:	<p>Identify the physical characteristics and the human characteristics that define and differentiate regions.</p> <p>Clarifications: Examples of physical characteristics are climate, terrain, resources. Examples of human characteristics are religion, government, economy, demography.</p>
SS.912.G.2.2:	Describe the factors and processes that contribute to the differences between developing and developed regions of the world.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.20:	<p>Summarize the major cultural, economic, political, and religious developments in medieval Japan.</p> <p>Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.</p>
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
SS.912.W.3.1:	<p>Discuss significant people and beliefs associated with Islam.</p> <p>Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.</p>
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.4.10:	<p>Identify the major contributions of individuals associated with the Scientific Revolution.</p> <p>Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.</p>
SS.912.W.5.2:	<p>Identify major causes of the Enlightenment.</p> <p>Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.</p>
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.

SS.912.W.6.4:	<p>Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.</p> <p>Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.</p>
SS.912.W.8.8:	<p>Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies.</p> <p>Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.</p>
SS.912.W.8.9:	<p>Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.</p>
SS.912.W.8.10:	<p>Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.</p> <p>Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.</p>
SS.912.W.9.1:	<p>Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life.</p> <p>Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.</p>
SS.912.W.9.7:	<p>Describe the impact of and global response to international terrorism.</p>
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others.</p> <p>Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers.

- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

ELA.K12.EE.4.1:	In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors. Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

Philosophy - The grade 9-12 Philosophy course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the fundamental questions pertinent to all areas of human activity and inquiries. Content should include, but is not limited to, an introduction to classical and modern philosophies, the fundamental principles of philosophical thought, such as semantics, logic, inductive and deductive reasoning, and social, political and religious philosophies.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.6.11:	Examine the controversy surrounding the proliferation of nuclear technology in the United States and the world. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 45-46. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.13:	Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal. Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.3.10:	Evaluate the significance and outcomes of landmark Supreme Court cases. Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.

SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
	Summarize the major cultural, economic, political, and religious developments in medieval Japan.
SS.912.W.2.20:	Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
	Identify major causes of the Enlightenment.
SS.912.W.5.2:	Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.
SS.912.W.6.4:	Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
	a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

LAFS.910.SL.1.1:	<ul style="list-style-type: none"> b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications:</p> </div>

MAFS.912.S-ID.1.3:	In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.
	Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★
	Standard Relation to Course: Supporting
	Make sense of problems and persevere in solving them.
MAFS.K12.MP.1.1:	Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
	Construct viable arguments and critique the reasoning of others.
MAFS.K12.MP.3.1:	Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically.
MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
	Attend to precision.
MAFS.K12.MP.6.1:	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors. Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

Ethics - The grade 9-12 Ethics course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the foundations of ethical thought and theories and the process of moral development. Content should include, but is not limited to, the sources of ethical beliefs and practices, traditional ethical theories, the strengths and weaknesses of the principal models of moral development, the typical fallacies in flawed moral arguments, the difference between an ethical choice and a legal decision, major ethical questions in American society such as public service, law, the workplace, bioethics, and new technologies, and current ethical issues in the local and national arena.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.6.11:	Examine the controversy surrounding the proliferation of nuclear technology in the United States and the world. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 45-46. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.13:	Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal. Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.3.10:	Evaluate the significance and outcomes of landmark Supreme Court cases. Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.2.3:	Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications. Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.
SS.912.H.1.4:	Explain philosophical beliefs as they relate to works in the arts. Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.

SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
	Summarize the major cultural, economic, political, and religious developments in medieval Japan.
SS.912.W.2.20:	Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
	Identify major causes of the Enlightenment.
SS.912.W.5.2:	Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
	Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.
SS.912.W.6.4:	Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.

MA.K12.MTR.2.1:	<ul style="list-style-type: none"> • Progress from modeling problems with objects and drawings to using algorithms and equations. • Express connections between concepts and representations. • Choose a representation based on the given context or purpose. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Help students make connections between concepts and representations. • Provide opportunities for students to use manipulatives when investigating concepts. • Guide students from concrete to pictorial to abstract representations as understanding progresses. • Show students that various representations can have different purposes and can be useful in different situations. </div>
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Select efficient and appropriate methods for solving problems within the given context. • Maintain flexibility and accuracy while performing procedures and mental calculations. • Complete tasks accurately and with confidence. • Adapt procedures to apply them to a new context. • Use feedback to improve efficiency when performing calculations. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. • Offer multiple opportunities for students to practice efficient and generalizable methods. • Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used. </div>
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Communicate mathematical ideas, vocabulary and methods effectively. • Analyze the mathematical thinking of others. • Compare the efficiency of a method to those expressed by others. • Recognize errors and suggest how to correctly solve the task. • Justify results by explaining methods and processes. • Construct possible arguments based on evidence. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. • Create opportunities for students to discuss their thinking with peers. • Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. • Develop students' ability to justify methods and compare their responses to the responses of their peers. </div>
MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Focus on relevant details within a problem. • Create plans and procedures to logically order events, steps or ideas to solve problems. • Decompose a complex problem into manageable parts. • Relate previously learned concepts to new concepts. • Look for similarities among problems. • Connect solutions of problems to more complicated large-scale situations. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. • Support students to develop generalizations based on the similarities found among problems. • Provide opportunities for students to create plans and procedures to solve problems. • Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking. </div>
MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications. </div>
	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences.

MA.K12.MTR.7.1:	<ul style="list-style-type: none"> • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

Ethics - The grade 9-12 Ethics course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the foundations of ethical thought and theories and the process of moral development. Content should include, but is not limited to, the sources of ethical beliefs and practices, traditional ethical theories, the strengths and weaknesses of the principal models of moral development, the typical fallacies in flawed moral arguments, the difference between an ethical choice and a legal decision, major ethical questions in American society such as public service, law, the workplace, bioethics, and new technologies, and current ethical issues in the local and national arena.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Educator Certifications

History (Grades 6-12)
Social Science (Grades 6-12)
Humanities (Elementary and Secondary Grades K-12)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.3.10:	Review different economic and philosophic ideologies. Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.6.11:	Examine the controversy surrounding the proliferation of nuclear technology in the United States and the world. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 45-46. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.2.4:	Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good. <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.6:	Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time. <ul style="list-style-type: none"> Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.11:	Evaluate political communication for bias, factual accuracy, omission and emotional appeal. <ul style="list-style-type: none"> Students will compare the reporting on the same political event or issue from multiple perspectives. Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). Students will discuss the historical impact of political communication on American political process and public opinion. Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues. <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.3.11:	Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution. <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.

	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency).
SS.912.CG.4.2:	<ul style="list-style-type: none"> • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.G.2.3:	<p>Use geographic terms and tools to analyze case studies of regional issues in different parts of the world that have critical economic, physical, or political ramifications.</p> <p>Clarifications: Examples are desertification, global warming, cataclysmic natural disasters.</p>
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.3.1:	Analyze the effects of transportation, trade, communication, science, and technology on the preservation and diffusion of culture.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.20:	<p>Summarize the major cultural, economic, political, and religious developments in medieval Japan.</p> <p>Clarifications: Examples are Pillow Book, Tale of Genji, Shinto and Japanese Buddhism, the rise of feudalism, the development of the shogunate, samurai, and social hierarchy.</p>
SS.912.W.2.22:	Describe Japan's cultural and economic relationship to China and Korea.
SS.912.W.3.1:	<p>Discuss significant people and beliefs associated with Islam.</p> <p>Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.</p>
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
SS.912.W.3.4:	Describe the expansion of Islam into India and the relationship between Muslims and Hindus.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
SS.912.W.5.2:	<p>Identify major causes of the Enlightenment.</p> <p>Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.</p>
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
SS.912.W.6.4:	<p>Describe the 19th and early 20th century social and political reforms and reform movements and their effects in Africa, Asia, Europe, the United States, the Caribbean, and Latin America.</p> <p>Clarifications: Examples are Meiji Reforms, abolition of slavery in the British Empire, expansion of women's rights, labor laws.</p>
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in

SS.912.W.9.3:	Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.7: MA.K.12.MTR.1.1:	Describe the impact of and global response to international terrorism. Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K.12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K.12.MTR.3.1:	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. Clarifications: Teachers who encourage students to complete tasks with mathematical fluency: <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K.12.MTR.4.1:	Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others: <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others: <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers. Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. Develop students' ability to justify methods and compare their responses to the responses of their peers.
MA.K.12.MTR.5.1:	Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts: <ul style="list-style-type: none"> Focus on relevant details within a problem. Create plans and procedures to logically order events, steps or ideas to solve problems. Decompose a complex problem into manageable parts. Relate previously learned concepts to new concepts. Look for similarities among problems. Connect solutions of problems to more complicated large-scale situations. Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts: <ul style="list-style-type: none"> Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.

- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.2.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.3.1:

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

ELA.K12.EE.4.1:

Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

ELA.K12.EE.5.1:

Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

ELA.K12.EE.6.1:

English language learners communicate for social and instructional purposes within the school setting.

ELD.K12.ELL.SI.1:

ELD.K12.ELL.SS.1: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

Analyze how culture supports and challenges health beliefs, practices, and behaviors.

HE.912.C.2.7:

Clarifications:

Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

Ethics - The grade 9-12 Ethics course consists of the following content area strands: American History, World History, Geography, Humanities, Civics and Government. The primary content emphasis for this course pertains to the study of the foundations of ethical thought and theories and the process of moral development. Content should include, but is not limited to, the sources of ethical beliefs and practices, traditional ethical theories, the strengths and weaknesses of the principal models of moral development, the typical fallacies in flawed moral arguments, the difference between an ethical choice and a legal decision, major ethical questions in American society such as public service, law, the workplace, bioethics, and new technologies, and current ethical issues in the local and national arena.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105350

Course Path: Section: Grades PreK to 12 Education
Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >
SubSubject: Philosophy and Religion >

Number of Credits: Half credit (.5)

Abbreviated Title: ETHICS

Course Type: Elective Course

Course Length: Semester (S)

Course Status: Draft - Course Pending Approval

Course Level: 2

Grade Level(s): 9,10,11,12

Educator Certifications

History (Grades 6-12)

Social Science (Grades 6-12)

Humanities (Elementary and Secondary Grades K-12)

Philosophy Honors: Ethics (#2105355) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation.
SS.912.C.2.3:	<p>Experience the responsibilities of citizens at the local, state, or federal levels.</p> <p>Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.</p>
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.2.7:	<p>Explain why rights have limits and are not absolute.</p> <p>Clarifications: Examples are speech, search and seizure, religion, gun possession.</p>
SS.912.C.2.8:	<p>Analyze the impact of citizen participation as a means of achieving political and social change.</p> <p>Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.</p>
SS.912.C.2.9:	<p>Identify the expansion of civil rights and liberties by examining the principles contained in primary documents.</p> <p>Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.</p>
SS.912.C.2.10:	<p>Monitor current public issues in Florida.</p> <p>Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.</p>
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication.
SS.912.C.2.13:	<p>Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.</p> <p>Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.</p>
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.10:	<p>Evaluate the significance and outcomes of landmark Supreme Court cases.</p> <p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des</p>

	Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
	Explain philosophical beliefs as they relate to works in the arts.
SS.912.H.1.4:	Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
	Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.
SS.912.W.2.17:	Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
	Describe the achievements, contributions, and key figures associated with the Islamic Golden Age.
SS.912.W.3.5:	Clarifications: Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.
SS.912.W.4.5:	Describe how ideas from the Middle Ages and Renaissance led to the Scientific Revolution.
SS.912.W.4.7:	Identify criticisms of the Roman Catholic Church by individuals such as Wycliffe, Hus and Erasmus and their impact on later reformers.
	Summarize religious reforms associated with Luther, Calvin, Zwingli, Henry VIII, and John of Leyden and the effects of the Reformation on Europe.
SS.912.W.4.8:	Clarifications: Examples are Catholic and Counter Reformation, political and religious fragmentation, military conflict, expansion of capitalism.
	Analyze the Roman Catholic Church's response to the Protestant Reformation in the forms of the Counter and Catholic Reformation.
SS.912.W.4.9:	Clarifications: Examples are Council of Trent, Thomas More, Ignatius of Loyola and the Jesuits, Teresa of Avila, Charles V.
	Identify the major contributions of individuals associated with the Scientific Revolution.
SS.912.W.4.10:	Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
	Identify major causes of the Enlightenment.
SS.912.W.5.2:	Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.

SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
SS.912.W.6.6:	Analyze the causes and effects of imperialism. Clarifications: Examples are social impact on indigenous peoples, the Crimean War, development of the Suez Canal, Spheres of Influence)
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.
SS.912.W.8.10:	Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.

LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from</p>

MAFS.K12.MP.3.1:	which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically. Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
MAFS.K12.MP.5.1:	
	Attend to precision. Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
MAFS.K12.MP.6.1:	
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Analyze how culture supports and challenges health beliefs, practices, and behaviors.
HE.912.C.2.7:	Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

The learner, building on the foundations of Philosophy Honors as a prerequisite, will explore, understand, and apply the important ethical theories in philosophy to present day issues, and will focus on the ethical theories of the great thinkers, from the ancient era through the modern era, with the purpose of providing the students with the tools necessary to analyze, critique and evaluate current issues and to formulate a personal value system with which to evaluate any present day issue. Special emphasis will be on character education.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes: Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105355

Number of Credits: One (1) credit

Course Type: Elective Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >

SubSubject: Philosophy and Religion >

Abbreviated Title: PHILOS HON ETHICS

Course Length: Year (Y)

Course Attributes:

- Honors

Course Level: 3

Educator Certifications

Social Science (Grades 6-12)

Philosophy Honors: Ethics (#2105355) 2022 - 2023

Course Standards

Name	Description
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation.
SS.912.C.2.3:	<p>Experience the responsibilities of citizens at the local, state, or federal levels.</p> <p>Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.</p>
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.2.7:	<p>Explain why rights have limits and are not absolute.</p> <p>Clarifications: Examples are speech, search and seizure, religion, gun possession.</p>
SS.912.C.2.8:	<p>Analyze the impact of citizen participation as a means of achieving political and social change.</p> <p>Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.</p>
SS.912.C.2.9:	<p>Identify the expansion of civil rights and liberties by examining the principles contained in primary documents.</p> <p>Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.</p>
SS.912.C.2.10:	<p>Monitor current public issues in Florida.</p> <p>Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.</p>
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication.
SS.912.C.2.13:	<p>Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.</p> <p>Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.</p>
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.10:	<p>Evaluate the significance and outcomes of landmark Supreme Court cases.</p> <p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des</p>

	Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
	Explain philosophical beliefs as they relate to works in the arts.
SS.912.H.1.4:	Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
	Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.
SS.912.W.2.17:	Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, illumination, universities, Natural Law Philosophy, Scholasticism.
	Discuss significant people and beliefs associated with Islam.
SS.912.W.3.1:	Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.
SS.912.W.3.2:	Compare the major beliefs and principles of Judaism, Christianity, and Islam.
	Describe the achievements, contributions, and key figures associated with the Islamic Golden Age.
SS.912.W.3.5:	Clarifications: Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.
SS.912.W.4.5:	Describe how ideas from the Middle Ages and Renaissance led to the Scientific Revolution.
SS.912.W.4.7:	Identify criticisms of the Roman Catholic Church by individuals such as Wycliffe, Hus and Erasmus and their impact on later reformers.
	Summarize religious reforms associated with Luther, Calvin, Zwingli, Henry VIII, and John of Leyden and the effects of the Reformation on Europe.
SS.912.W.4.8:	Clarifications: Examples are Catholic and Counter Reformation, political and religious fragmentation, military conflict, expansion of capitalism.
	Analyze the Roman Catholic Church's response to the Protestant Reformation in the forms of the Counter and Catholic Reformation.
SS.912.W.4.9:	Clarifications: Examples are Council of Trent, Thomas More, Ignatius of Loyola and the Jesuits, Teresa of Avila, Charles V.
	Identify the major contributions of individuals associated with the Scientific Revolution.
SS.912.W.4.10:	Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
	Identify major causes of the Enlightenment.
SS.912.W.5.2:	Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.

SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
SS.912.W.6.6:	Analyze the causes and effects of imperialism. Clarifications: Examples are social impact on indigenous peoples, the Crimean War, development of the Suez Canal, Spheres of Influence)
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
SS.912.W.8.8:	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies. Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.
SS.912.W.8.10:	Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades. Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
SS.912.W.9.1:	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life. Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
SS.912.W.9.3:	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them. Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.4:	Describe the causes and effects of twentieth century nationalist conflicts. Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. Clarifications: Teachers who encourage students to complete tasks with mathematical fluency: <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

ELA.K.12.EE.2.1:	Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.
ELA.K.12.EE.3.1:	Make inferences to support comprehension. Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.
ELA.K.12.EE.4.1:	Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations. Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	Analyze how culture supports and challenges health beliefs, practices, and behaviors. Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.

General Course Information and Notes

GENERAL NOTES

The learner, building on the foundations of Philosophy Honors as a prerequisite, will explore, understand, and apply the important ethical theories in philosophy to present day issues, and will focus on the ethical theories of the great thinkers, from the ancient era through the modern era, with the purpose of providing the students with the tools necessary to analyze, critique and evaluate current issues and to formulate a personal value system with which to evaluate any present day issue. Special emphasis will be on character education.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes: Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105355

Number of Credits: One (1) credit

Course Type: Elective Course

Course Status: State Board Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >

SubSubject: Philosophy and Religion >

Abbreviated Title: PHILOS HON ETHICS

Course Length: Year (Y)

Course Attributes:

- Honors

Course Level: 3

Educator Certifications

Social Science (Grades 6-12)

Philosophy Honors: Ethics (#2105355) 2023 - And Beyond

Course Standards

Name	Description
SS.912.A.3.10:	<p>Review different economic and philosophic ideologies.</p> <p>Clarifications: Economic examples may include, but are not limited to, market economy, mixed economy, planned economy and philosophic examples are capitalism, socialism, communism, anarchy.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications page 22. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.A.7.5:	<p>Compare nonviolent and violent approaches utilized by groups (African Americans, women, Native Americans, Hispanics) to achieve civil rights.</p> <p>Clarifications: Examples may include, but are not limited to, sit-ins, Freedom Rides, boycotts, riots, protest marches.</p> <p>This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 51-52. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.</p>
SS.912.CG.1.2:	<p>Explain the influence of Enlightenment ideas on the Declaration of Independence.</p> <ul style="list-style-type: none"> • Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. • Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. • Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	<p>Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government.</p> <ul style="list-style-type: none"> • Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. • Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	<p>Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic.</p> <ul style="list-style-type: none"> • Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. • Students will evaluate how the documents are connected to one another. • Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. • Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	<p>Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers.</p> <ul style="list-style-type: none"> • Students will explain how the structure and function of the U.S. government reflects these political principles. • Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. • Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	<p>Explain the constitutional provisions that establish and affect citizenship.</p> <ul style="list-style-type: none"> • Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). • Students will compare birthright citizenship, permanent residency and naturalization in the United States. • Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> • Students will discuss various ways in which U.S. citizens can exercise political and civic participation. • Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). • Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> • Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). • Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). • Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). • Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> • Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods).

SS.912.CG.2.4:	<p>during wartime, enactment of the Patriot Act).</p> <ul style="list-style-type: none"> • Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. • Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> • Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). • Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).
SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> • Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). • Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> • Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). • Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> • Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. • Students will identify historical examples of interest groups, media and individuals influencing public policy. • Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> • Students will identify the different primary formats and how political parties nominate candidates using primaries. • Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). • Students will explain the process by which candidates register to be part of state and national elections. • Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). • Students will evaluate the role of debates in elections.
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> • Students will compare the reporting on the same political event or issue from multiple perspectives. • Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). • Students will discuss the historical impact of political communication on American political process and public opinion. • Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> • Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. • Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. • Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> • Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). • Students will describe how the methods used by political officials to communicate with the public has changed over time. • Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> • Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). • Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> • Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. • Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). • Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. • Students will analyze the role of the "general welfare clause" and "necessary and proper clause" in granting Congress implied powers. • Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). • Students will explain how reserved powers define issues as matters for the people or the state governments. • Students will compare the roles of expressed, implied, concurrent and reserved powers in United States' federalism.
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). • Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other

	<p>amendments.</p> <ul style="list-style-type: none"> Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states' rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.15:	<p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society. Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.G.1.1:	Design maps using a variety of technologies based on descriptive data to explain physical and cultural attributes of major world regions.
SS.912.H.1.4:	<p>Explain philosophical beliefs as they relate to works in the arts.</p> <p>Clarifications: Examples are classical architecture, protest music, Native American dance, Japanese Noh.</p>
SS.912.H.2.3:	Apply various types of critical analysis (contextual, formal, and intuitive criticism) to works in the arts, including the types and use of symbolism within art forms and their philosophical implications.
SS.912.H.2.4:	Examine the effects that works in the arts have on groups, individuals, and cultures.
SS.912.H.3.2:	Identify social, moral, ethical, religious, and legal issues arising from technological and scientific developments, and examine their influence on works of arts within a culture.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.5:	Compare conflicting interpretations or schools of thought about world events and individual contributions to history (historiography).
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.12:	Recognize the importance of Christian monasteries and convents as centers of education, charitable and missionary activity, economic productivity, and political power.
SS.912.W.2.13:	Explain how Western civilization arose from a synthesis of classical Greco-Roman civilization, Judeo-Christian influence, and the cultures of northern European peoples promoting a cultural unity in Europe.
SS.912.W.2.16:	Trace the growth and development of a national identity in the countries of England, France, and Spain.
SS.912.W.2.17:	<p>Identify key figures, artistic, and intellectual achievements of the medieval period in Western Europe.</p> <p>Clarifications: Examples are Anselm of Canterbury, Chaucer, Thomas Aquinas, Roger Bacon, Hildegard of Bingen, Dante, Code of Chivalry, Gothic architecture, Illumination, universities, Natural Law Philosophy, Scholasticism.</p>
SS.912.W.3.1:	<p>Discuss significant people and beliefs associated with Islam.</p> <p>Clarifications: Examples are the prophet Muhammad, the early caliphs, the Pillars of Islam, Islamic law, the relationship between government and religion in Islam.</p>
SS.912.W.3.2:	<p>Compare the major beliefs and principles of Judaism, Christianity, and Islam.</p> <p>Describe the achievements, contributions, and key figures associated with the Islamic Golden Age.</p>

SS.912.W.3.5:	Clarifications: Examples are Al-Ma'mun, Avicenna, Averroes, Algebra, Al-Razi, Alhambra, The Thousand and One Nights.
SS.912.W.4.5:	Describe how ideas from the Middle Ages and Renaissance led to the Scientific Revolution.
SS.912.W.4.7:	Identify criticisms of the Roman Catholic Church by individuals such as Wycliffe, Hus and Erasmus and their impact on later reformers.
	Summarize religious reforms associated with Luther, Calvin, Zwingli, Henry VIII, and John of Leyden and the effects of the Reformation on Europe.
SS.912.W.4.8:	Clarifications: Examples are Catholic and Counter Reformation, political and religious fragmentation, military conflict, expansion of capitalism.
	Analyze the Roman Catholic Church's response to the Protestant Reformation in the forms of the Counter and Catholic Reformation.
SS.912.W.4.9:	Clarifications: Examples are Council of Trent, Thomas More, Ignatius of Loyola and the Jesuits, Teresa of Avila, Charles V.
	Identify the major contributions of individuals associated with the Scientific Revolution.
SS.912.W.4.10:	Clarifications: Examples are Francis Bacon, Nicholas Copernicus, Rene Descartes, Galileo Galilei, Johannes Kepler, Isaac Newton, Blaise Pascal, Vesalius.
SS.912.W.4.14:	Recognize the practice of slavery and other forms of forced labor experienced during the 13th through 17th centuries in East Africa, West Africa, Europe, Southwest Asia, and the Americas.
	Identify major causes of the Enlightenment.
SS.912.W.5.2:	Clarifications: Examples are ideas from the Renaissance, Scientific Revolution, Reformation, and resistance to absolutism.
SS.912.W.5.3:	Summarize the major ideas of Enlightenment philosophers.
SS.912.W.5.5:	Analyze the extent to which the Enlightenment impacted the American and French Revolutions.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
	Analyze the causes and effects of imperialism.
SS.912.W.6.6:	Clarifications: Examples are social impact on indigenous peoples, the Crimean War, development of the Suez Canal, Spheres of Influence)
SS.912.W.7.10:	Summarize the causes and effects of President Truman's decision to drop the atomic bombs on Japan.
SS.912.W.8.6:	Explain the 20th century background for the establishment of the modern state of Israel in 1948, including the Zionist movement led by Theodor Herzl, and the ongoing military and political conflicts between Israel and the Arab-Muslim world.
	Describe the rise and goals of nationalist leaders in the post-war era and the impact of their rule on their societies.
SS.912.W.8.8:	Clarifications: Examples are Mahatma Ghandi, Fidel Castro, Gamal Abdel Nasser, Francois 'Papa Doc' Duvalier, Jawaharlal Nehru.
SS.912.W.8.9:	Analyze the successes and failures of democratic reform movements in Africa, Asia, the Caribbean, and Latin America.
	Explain the impact of religious fundamentalism in the last half of the 20th century, and identify related events and forces in the Middle East over the last several decades.
SS.912.W.8.10:	Clarifications: Examples are Iranian Revolution, Mujahideen in Afghanistan, Persian Gulf War.
	Identify major scientific figures and breakthroughs of the 20th century, and assess their impact on contemporary life.
SS.912.W.9.1:	Clarifications: Examples are Marie Curie, Albert Einstein, Enrico Fermi, Sigmund Freud, Wright Brothers, Charles R. Drew, mass vaccination, atomic energy, transistor, microchip, space exploration, Internet, discovery of DNA, Human Genome Project.
	Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
	Describe the causes and effects of twentieth century nationalist conflicts.
SS.912.W.9.4:	Clarifications: Examples are Cyprus, Kashmir, Tibet, Northern Ireland.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations.

MA.K12.MTR.2.1:

- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1:

Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

MA.K12.MTR.6.1:

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or

MA.K12.MTR.7.1:	<p>efficiency.</p> <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.7:	<p>Analyze how culture supports and challenges health beliefs, practices, and behaviors.</p> <p>Clarifications: Various cultures' dietary patterns, rites of passage, courtship practices, family roles, personal relationships, ethics, and parenting.</p>

General Course Information and Notes

GENERAL NOTES

The learner, building on the foundations of Philosophy Honors as a prerequisite, will explore, understand, and apply the important ethical theories in philosophy to present day issues, and will focus on the ethical theories of the great thinkers, from the ancient era through the modern era, with the purpose of providing the students with the tools necessary to analyze, critique and evaluate current issues and to formulate a personal value system with which to evaluate any present day issue. Special emphasis will be on character education.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes: Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2105355

Number of Credits: One (1) credit

Course Type: Elective Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Philosophy and Religion >

Abbreviated Title: PHILOS HON ETHICS

Course Length: Year (Y)

Course Attributes:

- Honors

Course Level: 3

Educator Certifications

Social Science (Grades 6-12)

Course Standards

Name	Description
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. Create opportunities for students to discuss their thinking with peers. Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. Develop students' ability to justify methods and compare their responses to the responses of their peers.
	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> Focus on relevant details within a problem.

MA.K12.MTR.5.1:	<ul style="list-style-type: none"> • Create plans and procedures to logically order events, steps or ideas to solve problems. • Decompose a complex problem into manageable parts. • Relate previously learned concepts to new concepts. • Look for similarities among problems. • Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. • Support students to develop generalizations based on the similarities found among problems. • Provide opportunities for students to create plans and procedures to solve problems. • Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.
MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.

SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
	Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	<p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.</p>
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	<p>Clarifications: Examples are education, transportation, crime prevention, funding of services.</p>
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.1112.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ol style="list-style-type: none"> Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from or supports the argument presented.
	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.

LAFS.1112.WHST.1.2:	<p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> </div> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>

	Use appropriate tools strategically.
MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
	Attend to precision.
MAFS.K12.MP.6.1:	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in

GENERAL INFORMATION

Course Number: 2106310

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: United States Government

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT

Course Length: Semester (S)

Course Attributes:

- Class Size Core Required

Course Level: 2

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government (#2106310) 2022 - 2023

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.

SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
	Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	<p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.</p>
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	<p>Clarifications: Examples are education, transportation, crime prevention, funding of services.</p>
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
	Mathematicians who participate in effortful learning both individually and with others:
	<ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	<p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.
	Mathematicians who demonstrate understanding by representing problems in multiple ways:
	<ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	<p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	Complete tasks with mathematical fluency.
	Mathematicians who complete tasks with mathematical fluency:
	<ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations.
MA.K12.MTR.3.1:	<p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	Engage in discussions that reflect on the mathematical thinking of self and others.
	Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:
	<ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence.
MA.K12.MTR.4.1:	<p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p>

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
6-8 Students continue with previous skills and use a style guide to create a proper citation.
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

ELA.K.12.EE.4.1:	In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

GENERAL INFORMATION

Course Number: 2106310

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: United States
Government

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT

Course Length: Semester (S)

Course Attributes:

- Class Size Core Required

Course Level: 2

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government (#2106310) 2023 - And Beyond

Course Standards

Name	Description
SS.912.CG.1.1:	<p>Examine how intellectual influences in primary documents contributed to the ideas in the Declaration of Independence, the U.S. Constitution and the Bill of Rights.</p> <ul style="list-style-type: none"> Students will recognize the influence of the Judeo-Christian tradition, republicanism, the English Constitution and common Law, and the European Enlightenment in establishing the organic laws of the United States in primary documents (e.g., Magna Carta (1215); the Mayflower Compact (1620); the English Bill of Rights (1689); Common Sense (1776); Declaration of Independence (1776); the Constitution of Massachusetts (1780); the Articles of Confederation (1781); the Northwest Ordinance (1787); U.S. Constitution (1789)).
SS.912.CG.1.2:	<p>Explain the influence of Enlightenment ideas on the Declaration of Independence.</p> <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	<p>Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government.</p> <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	<p>Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic.</p> <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	<p>Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers.</p> <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	<p>Explain the constitutional provisions that establish and affect citizenship.</p> <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).

SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> • Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). • Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> • Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). • Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> • Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. • Students will identify historical examples of interest groups, media and individuals influencing public policy. • Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> • Students will identify the different primary formats and how political parties nominate candidates using primaries. • Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). • Students will explain the process by which candidates register to be part of state and national elections. • Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). • Students will evaluate the role of debates in elections.
SS.912.CG.2.10:	<p>Analyze factors that contribute to voter turnout in local, state and national elections.</p> <ul style="list-style-type: none"> • Students will explain trends in voter turnout. • Students will discuss attempts to increase voter turnout (e.g., get out the vote campaigns, social movements). • Students will explain how governmental action has affected voter participation (e.g., 15th, 19th and 26th Amendments; Jim Crow laws; poll tax; efforts to suppress voters).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> • Students will compare the reporting on the same political event or issue from multiple perspectives. • Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). • Students will discuss the historical impact of political communication on American political process and public opinion. • Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> • Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. • Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. • Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> • Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). • Students will describe how the methods used by political officials to communicate with the public has changed over time. • Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> • Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). • Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> • Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. • Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. • Students will identify the methods for determining the number of members in the House of Representatives and the Senate. • Students will identify and describe the "enumerated powers" delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). • Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. • Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S. Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	<p>Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. • Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). • Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. • Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its original description in Article II. • Students will describe the impeachment process.

Describe how independent regulatory agencies interact with the three branches of government and with citizens.

SS.912.CG.3.5:	<ul style="list-style-type: none"> Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). Students will explain how reserved powers define issues as matters for the people or the state governments. Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	<p>Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. Students will describe the role of the Supreme Court and lesser federal courts. Students will explain what Article III says about judicial tenure, appointment and salaries. Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	<p>Describe the purpose and function of judicial review in the American constitutional government.</p> <ul style="list-style-type: none"> Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	<p>Compare the role of state and federal judges with other elected officials.</p> <ul style="list-style-type: none"> Students will compare the ways state and federal judges are appointed compared to other elected officials. Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	<p>Analyze the levels and responsibilities of state and federal courts.</p> <ul style="list-style-type: none"> Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. Students will contrast the differences among civil trials and criminal trials at the state level. Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.13:	<p>Explain how issues between Florida, other states and the national government are resolved.</p> <ul style="list-style-type: none"> Students will explain the concept of federalism as it applies to each issue. Students will use historical and issue-based scenarios to demonstrate understanding of how disputes between Florida, other states and the national government are resolved (e.g., water rights arguments between Florida and Georgia, national and state conflict over rights to adjacent waters and seabeds, civil rights).
SS.912.CG.3.14:	<p>Explain the judicial decision-making process in interpreting law at the state and national levels.</p> <ul style="list-style-type: none"> Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law.
SS.912.CG.3.15:	<p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society. Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United

- States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International).
- Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia).
- Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria).
- Students will explain the U.S. response to international conflicts.

SS.912.CG.4.3: Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.

- Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.

SS.912.CG.4.4: Identify indicators of democratization in foreign countries.

- Students will recognize indicators of democratization as a system of free and fair elections, active civic participation, the protection of human rights, and the rule of law.

SS.912.G.4.1: Interpret population growth and other demographic data for any given place.

SS.912.G.5.5: Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

MA.K12.MTR.1.1: Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:
Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1: Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:
Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1: Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:
Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1: Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:
Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.

MA.K12.MTR.5.1:

- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

Use the accepted rules governing a specific format to create quality work.

Clarifications:

ELA.K.12.EE.5.1:	Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
	Use appropriate voice and tone when speaking or writing.
ELA.K.12.EE.6.1:	Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies. Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

VERSION DESCRIPTION

Civic education is essential in the development of informed citizenry who are equipped to participate in civic life and preserve a government of the people, by the people, and for the people. The Civics and Government (CG) standards in this class were revised in 2021 as a result of the House Bill (2019) civics standards review and reflect the following priorities for K-12 Civics and Government teaching and learning in Florida schools.

- Students study primary source documents to understand the philosophical underpinnings of the American Republic and the root cause of American exceptionalism.
- Students compare the success of the United States and the success or failure of other nations' governing philosophies to evaluate their past, present and likely future effects.
- Students have a sense of civic pride and participate regularly in all levels of government.
- Students reflect upon United States civic history, so they understand their rights and responsibilities as citizens, including the process of advocating properly with government officials.

This course must include a comparative discussion of political ideologies, such as communism and totalitarianism, that conflict with the principles of freedom and democracy essential to the founding principles of the United States.

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
 - Unity/diversity in American society
 - Civil society: nongovernmental associations, groups
 - Nation-states
 - Interaction among nation-states
 - United States, major governmental, nongovernmental international organizations
- The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

GENERAL INFORMATION

Course Number: 2106310

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT

Course Length: Semester (S)

Course Attributes:

- Class Size Core Required

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Graduation Requirement: United States

Government

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government for Credit Recovery (#2106315) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation.
SS.912.C.2.3:	Experience the responsibilities of citizens at the local, state, or federal levels. Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.

SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them. Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level. Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
LAFS.1112.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
LAFS.1112.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.
LAFS.1112.RH.1.3:	Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.
LAFS.1112.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines <i>faction</i> in <i>Federalist</i> No. 10).
LAFS.1112.RH.2.5:	Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.
LAFS.1112.RH.2.6:	Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.
LAFS.1112.RH.3.7:	Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.
LAFS.1112.RH.3.8:	Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.
LAFS.1112.RH.3.9:	Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.
LAFS.1112.RH.4.10:	By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.
LAFS.1112.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed. c. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives. d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.
LAFS.1112.SL.1.2:	Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
LAFS.1112.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
LAFS.1112.SL.2.4:	Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.
LAFS.1112.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases. c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other

LAFS.1112.WHST.1.2:	<p>information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve</p>

the arguments.

Use appropriate tools strategically.

MAFS.K12.MP.5.1:

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

MAFS.K12.MP.6.1:

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

ELD.K12.ELL.SI.1:

English language learners communicate for social and instructional purposes within the school setting.

ELD.K12.ELL.SS.1:

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

HE.912.C.2.4:

Clarifications:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes:

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2106315

Course Path: Section: Grades PreK to 12 Education
Courses > **Grade Group:** Grades 9 to 12 and Adult
Education Courses > **Subject:** Social Studies >
SubSubject: Political Sciences >
Abbreviated Title: US GOVT CR
Course Length: Credit Recovery (R)
Course Level: 2

Number of Credits: Half credit (.5)
Course Type: Credit Recovery
Course Status: Course Approved
Grade Level(s): 9,10,11,12

Educator Certifications

Political Science (Grades 6-12)
History (Grades 6-12)
Social Science (Grades 6-12)

United States Government for Credit Recovery (#2106315) 2022 - 2023

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation.
SS.912.C.2.3:	Experience the responsibilities of citizens at the local, state, or federal levels. Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.

SS.912.C.3.8:	<p>Clarifications: Examples are decisions based on the law vs. will of the majority.</p>
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them. Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	<p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.</p>
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level. Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	<p>Clarifications: Examples are education, transportation, crime prevention, funding of services.</p>
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

ELA.K12.EE.2.1:

Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

ELA.K12.EE.3.1:

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:	<p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
	Use the accepted rules governing a specific format to create quality work.
ELA.K12.EE.5.1:	<p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
	Use appropriate voice and tone when speaking or writing.
ELA.K12.EE.6.1:	<p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	<p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Special Notes:

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

United States Government for Credit Recovery (#2106315) 2023 - And Beyond

Course Standards

Name	Description
SS.912.CG.1.1:	<p>Examine how intellectual influences in primary documents contributed to the ideas in the Declaration of Independence, the U.S. Constitution and the Bill of Rights.</p> <ul style="list-style-type: none"> Students will recognize the influence of the Judeo-Christian tradition, republicanism, the English Constitution and common Law, and the European Enlightenment in establishing the organic laws of the United States in primary documents (e.g., Magna Carta (1215); the Mayflower Compact (1620); the English Bill of Rights (1689); Common Sense (1776); Declaration of Independence (1776); the Constitution of Massachusetts (1780); the Articles of Confederation (1781); the Northwest Ordinance (1787); U.S. Constitution (1789)).
SS.912.CG.1.2:	<p>Explain the influence of Enlightenment ideas on the Declaration of Independence.</p> <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	<p>Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government.</p> <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	<p>Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic.</p> <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	<p>Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers.</p> <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	<p>Explain the constitutional provisions that establish and affect citizenship.</p> <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during

SS.912.CG.2.5:	<p>wartime and limitations on speech).</p> <ul style="list-style-type: none"> Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).
SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. Students will identify historical examples of interest groups, media and individuals influencing public policy. Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> Students will identify the different primary formats and how political parties nominate candidates using primaries. Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). Students will explain the process by which candidates register to be part of state and national elections. Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). Students will evaluate the role of debates in elections.
SS.912.CG.2.10:	<p>Analyze factors that contribute to voter turnout in local, state and national elections.</p> <ul style="list-style-type: none"> Students will explain trends in voter turnout. Students will discuss attempts to increase voter turnout (e.g., get out the vote campaigns, social movements). Students will explain how governmental action has affected voter participation (e.g., 15th, 19th and 26th Amendments; Jim Crow laws; poll tax; efforts to suppress voters).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> Students will compare the reporting on the same political event or issue from multiple perspectives. Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). Students will discuss the historical impact of political communication on American political process and public opinion. Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). Students will describe how the methods used by political officials to communicate with the public has changed over time. Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. Students will identify the methods for determining the number of members in the House of Representatives and the Senate. Students will identify and describe the "enumerated powers" delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S. Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	<p>Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its

	<p>original description in Article II.</p> <ul style="list-style-type: none"> Students will describe the impeachment process.
SS.912.CG.3.5:	<p>Describe how independent regulatory agencies interact with the three branches of government and with citizens.</p> <ul style="list-style-type: none"> Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). Students will explain how reserved powers define issues as matters for the people or the state governments. Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	<p>Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. Students will describe the role of the Supreme Court and lesser federal courts. Students will explain what Article III says about judicial tenure, appointment and salaries. Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	<p>Describe the purpose and function of judicial review in the American constitutional government.</p> <ul style="list-style-type: none"> Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	<p>Compare the role of state and federal judges with other elected officials.</p> <ul style="list-style-type: none"> Students will compare the ways state and federal judges are appointed compared to other elected officials. Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	<p>Analyze the levels and responsibilities of state and federal courts.</p> <ul style="list-style-type: none"> Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. Students will contrast the differences among civil trials and criminal trials at the state level. Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.13:	<p>Explain how issues between Florida, other states and the national government are resolved.</p> <ul style="list-style-type: none"> Students will explain the concept of federalism as it applies to each issue. Students will use historical and issue-based scenarios to demonstrate understanding of how disputes between Florida, other states and the national government are resolved (e.g., water rights arguments between Florida and Georgia, national and state conflict over rights to adjacent waters and seabeds, civil rights).
SS.912.CG.3.14:	<p>Explain the judicial decision-making process in interpreting law at the state and national levels.</p> <ul style="list-style-type: none"> Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law.
SS.912.CG.3.15:	<p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society.

SS.912.CG.4.2:	<ul style="list-style-type: none"> • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.CG.4.4:	<p>Identify indicators of democratization in foreign countries.</p> <ul style="list-style-type: none"> • Students will recognize indicators of democratization as a system of free and fair elections, active civic participation, the protection of human rights, and the rule of law.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Analyze the problem in a way that makes sense given the task. • Ask questions that will help with solving the task. • Build perseverance by modifying methods as needed while solving a challenging task. • Stay engaged and maintain a positive mindset when working to solve tasks. • Help and support each other when attempting a new method or approach. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Cultivate a community of growth mindset learners. • Foster perseverance in students by choosing tasks that are challenging. • Develop students' ability to analyze and problem solve. • Recognize students' effort when solving challenging problems. </div>
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Build understanding through modeling and using manipulatives. • Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. • Progress from modeling problems with objects and drawings to using algorithms and equations. • Express connections between concepts and representations. • Choose a representation based on the given context or purpose. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Help students make connections between concepts and representations. • Provide opportunities for students to use manipulatives when investigating concepts. • Guide students from concrete to pictorial to abstract representations as understanding progresses. • Show students that various representations can have different purposes and can be useful in different situations. </div>
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Select efficient and appropriate methods for solving problems within the given context. • Maintain flexibility and accuracy while performing procedures and mental calculations. • Complete tasks accurately and with confidence. • Adapt procedures to apply them to a new context. • Use feedback to improve efficiency when performing calculations. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. • Offer multiple opportunities for students to practice efficient and generalizable methods. • Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used. </div>
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others.</p> <p>Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Communicate mathematical ideas, vocabulary and methods effectively. • Analyze the mathematical thinking of others. • Compare the efficiency of a method to those expressed by others. • Recognize errors and suggest how to correctly solve the task. • Justify results by explaining methods and processes. • Construct possible arguments based on evidence. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. • Create opportunities for students to discuss their thinking with peers. • Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. • Develop students' ability to justify methods and compare their responses to the responses of their peers. </div>

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

	Use the accepted rules governing a specific format to create quality work.
ELA.K12.EE.5.1:	Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
	Use appropriate voice and tone when speaking or writing.
ELA.K12.EE.6.1:	Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Special Notes:

Credit Recovery courses are credit bearing courses with specific content requirements defined by Next Generation Sunshine State Standards and/or Florida Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment) since the course requirements for the Credit Recovery course are exactly the same as the previously attempted corresponding course. For example, Geometry (1206310) and Geometry for Credit Recovery (1206315) have identical content requirements. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards, since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of-Course assessment retake.

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2106315

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT CR

Course Length: Credit Recovery (R)

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Credit Recovery

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government Honors (#2106320) 2015 - 2022

(current)

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government.

Compare the role of judges on the state and federal level with other elected officials.

SS.912.C.3.8:

Clarifications:

Examples are decisions based on the law vs. will of the majority.

SS.912.C.3.9:

Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
Evaluate the significance and outcomes of landmark Supreme Court cases.

SS.912.C.3.10:

Clarifications:

Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.

SS.912.C.3.11:

Contrast how the Constitution safeguards and limits individual rights.

SS.912.C.3.12:

Simulate the judicial decision-making process in interpreting law at the state and federal level.

Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.

SS.912.C.3.13:

Clarifications:

Examples are education, transportation, crime prevention, funding of services.

SS.912.C.3.14:

Examine constitutional powers (expressed, implied, concurrent, reserved).

SS.912.C.3.15:

Examine how power and responsibility are distributed, shared, and limited by the Constitution.

SS.912.C.4.1:

Explain how the world's nations are governed differently.

SS.912.C.4.2:

Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.

SS.912.C.4.3:

Assess human rights policies of the United States and other countries.

SS.912.C.4.4:

Compare indicators of democratization in multiple countries.

SS.912.G.4.1:

Interpret population growth and other demographic data for any given place.

SS.912.G.5.5:

Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

LAFS.1112.RH.1.1:

Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.

LAFS.1112.RH.1.2:

Determine the central ideas or information of a primary or secondary source; provide an accurate summary that makes clear the relationships among the key details and ideas.

LAFS.1112.RH.1.3:

Evaluate various explanations for actions or events and determine which explanation best accords with textual evidence, acknowledging where the text leaves matters uncertain.

LAFS.1112.RH.2.4:

Determine the meaning of words and phrases as they are used in a text, including analyzing how an author uses and refines the meaning of a key term over the course of a text (e.g., how Madison defines *faction* in *Federalist* No. 10).

LAFS.1112.RH.2.5:

Analyze in detail how a complex primary source is structured, including how key sentences, paragraphs, and larger portions of the text contribute to the whole.

LAFS.1112.RH.2.6:

Evaluate authors' differing points of view on the same historical event or issue by assessing the authors' claims, reasoning, and evidence.

LAFS.1112.RH.3.7:

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, as well as in words) in order to address a question or solve a problem.

LAFS.1112.RH.3.8:

Evaluate an author's premises, claims, and evidence by corroborating or challenging them with other information.

LAFS.1112.RH.3.9:

Integrate information from diverse sources, both primary and secondary, into a coherent understanding of an idea or event, noting discrepancies among sources.

LAFS.1112.RH.4.10:

By the end of grade 12, read and comprehend history/social studies texts in the grades 11–CCR text complexity band independently and proficiently.

LAFS.1112.SL.1.1:

Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

b. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.

c. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.

d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

LAFS.1112.SL.1.2:

Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.

LAFS.1112.SL.1.3:

Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

LAFS.1112.SL.2.4:

Present information, findings, and supporting evidence, conveying a clear and distinct perspective, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks.

Write arguments focused on *discipline-specific content*.

LAFS.1112.WHST.1.1:

a. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences the claim(s), counterclaims, reasons, and evidence.

b. Develop claim(s) and counterclaims fairly and thoroughly, supplying the most relevant data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form that anticipates the audience's knowledge level, concerns, values, and possible biases.

c. Use words, phrases, and clauses as well as varied syntax to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.

d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.

e. Provide a concluding statement or section that follows from or supports the argument presented.

Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.

a. Introduce a topic and organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.

LAFS.1112.WHST.1.2:	<p>b. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.</p> <p>c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.</p> <p>d. Use precise language, domain-specific vocabulary and techniques such as metaphor, simile, and analogy to manage the complexity of the topic; convey a knowledgeable stance in a style that responds to the discipline and context as well as to the expertise of likely readers.</p> <p>e. Provide a concluding statement or section that follows from and supports the information or explanation provided (e.g., articulating implications or the significance of the topic).</p>
LAFS.1112.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.1112.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.1112.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
LAFS.1112.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.1112.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the specific task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation.
LAFS.1112.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.1112.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	<p>Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.4:	<p>Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.5:	<p>Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-IC.2.6:	<p>Evaluate reports based on data. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.K12.MP.1.1:	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, "Does this make sense?" They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.3.1:	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies.</p>

Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.

Use appropriate tools strategically.

MAFS.K12.MP.5.1:

Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.

Attend to precision.

MAFS.K12.MP.6.1:

Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.

ELD.K12.ELL.SI.1:

English language learners communicate for social and instructional purposes within the school setting.

ELD.K12.ELL.SS.1:

English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

Evaluate how public health policies and government regulations can influence health promotion and disease prevention.

HE.912.C.2.4:

Clarifications:

Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and

concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

GENERAL INFORMATION

Course Number: 2106320

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: United States Government

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT HON

Course Length: Semester (S)

Course Attributes:

- Honors
- Class Size Core Required

Course Level: 3

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government Honors (#2106320) 2022 - 2023

Course Standards

Name	Description
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good. Conduct a service project to further the public good.
SS.912.C.2.5:	Clarifications: Examples are school, community, state, national, international.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy. Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.

SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
	Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	<p>Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.</p>
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	<p>Clarifications: Examples are education, transportation, crime prevention, funding of services.</p>
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
	Mathematicians who participate in effortful learning both individually and with others:
	<ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach.
MA.K12.MTR.1.1:	<p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.
	Mathematicians who demonstrate understanding by representing problems in multiple ways:
	<ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose.
MA.K12.MTR.2.1:	<p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
	Complete tasks with mathematical fluency.
	Mathematicians who complete tasks with mathematical fluency:
	<ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations.
MA.K12.MTR.3.1:	<p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	Engage in discussions that reflect on the mathematical thinking of self and others.
	Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:
	<ul style="list-style-type: none"> Communicate mathematical ideas, vocabulary and methods effectively. Analyze the mathematical thinking of others. Compare the efficiency of a method to those expressed by others. Recognize errors and suggest how to correctly solve the task. Justify results by explaining methods and processes. Construct possible arguments based on evidence.
MA.K12.MTR.4.1:	<p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p>

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.
2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.
4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.
6-8 Students continue with previous skills and use a style guide to create a proper citation.
9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

ELA.K.12.EE.4.1:	In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.
ELA.K.12.EE.5.1:	Use the accepted rules governing a specific format to create quality work. Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K.12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
 - Unity/diversity in American society
 - Civil society: nongovernmental associations, groups
 - Nation-states
 - Interaction among nation-states
 - United States, major governmental, nongovernmental international organizations
- The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

GENERAL INFORMATION

Course Number: 2106320

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Graduation Requirement: United States Government

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT HON

Course Length: Semester (S)

Course Attributes:

- Honors
- Class Size Core Required

Course Level: 3

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

United States Government Honors (#2106320) 2023 - 2023

Course Standards

Name	Description
SS.912.CG.1.1:	<p>Examine how intellectual influences in primary documents contributed to the ideas in the Declaration of Independence, the U.S. Constitution and the Bill of Rights.</p> <ul style="list-style-type: none"> Students will recognize the influence of the Judeo-Christian tradition, republicanism, the English Constitution and common Law, and the European Enlightenment in establishing the organic laws of the United States in primary documents (e.g., Magna Carta (1215); the Mayflower Compact (1620); the English Bill of Rights (1689); Common Sense (1776); Declaration of Independence (1776); the Constitution of Massachusetts (1780); the Articles of Confederation (1781); the Northwest Ordinance (1787); U.S. Constitution (1789)).
SS.912.CG.1.2:	<p>Explain the influence of Enlightenment ideas on the Declaration of Independence.</p> <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	<p>Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government.</p> <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	<p>Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic.</p> <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	<p>Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers.</p> <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	<p>Explain the constitutional provisions that establish and affect citizenship.</p> <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).

SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> • Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). • Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> • Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). • Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> • Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. • Students will identify historical examples of interest groups, media and individuals influencing public policy. • Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> • Students will identify the different primary formats and how political parties nominate candidates using primaries. • Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). • Students will explain the process by which candidates register to be part of state and national elections. • Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). • Students will evaluate the role of debates in elections.
SS.912.CG.2.10:	<p>Analyze factors that contribute to voter turnout in local, state and national elections.</p> <ul style="list-style-type: none"> • Students will explain trends in voter turnout. • Students will discuss attempts to increase voter turnout (e.g., get out the vote campaigns, social movements). • Students will explain how governmental action has affected voter participation (e.g., 15th, 19th and 26th Amendments; Jim Crow laws; poll tax; efforts to suppress voters).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> • Students will compare the reporting on the same political event or issue from multiple perspectives. • Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). • Students will discuss the historical impact of political communication on American political process and public opinion. • Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> • Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. • Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. • Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> • Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). • Students will describe how the methods used by political officials to communicate with the public has changed over time. • Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> • Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). • Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> • Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. • Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. • Students will identify the methods for determining the number of members in the House of Representatives and the Senate. • Students will identify and describe the "enumerated powers" delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). • Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. • Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S. Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	<p>Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. • Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). • Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. • Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its original description in Article II. • Students will describe the impeachment process.
	<p>Describe how independent regulatory agencies interact with the three branches of government and with citizens.</p>

SS.912.CG.3.5:	<ul style="list-style-type: none"> Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). Students will explain how reserved powers define issues as matters for the people or the state governments. Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	<p>Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. Students will describe the role of the Supreme Court and lesser federal courts. Students will explain what Article III says about judicial tenure, appointment and salaries. Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	<p>Describe the purpose and function of judicial review in the American constitutional government.</p> <ul style="list-style-type: none"> Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	<p>Compare the role of state and federal judges with other elected officials.</p> <ul style="list-style-type: none"> Students will compare the ways state and federal judges are appointed compared to other elected officials. Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	<p>Analyze the levels and responsibilities of state and federal courts.</p> <ul style="list-style-type: none"> Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. Students will contrast the differences among civil trials and criminal trials at the state level. Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.13:	<p>Explain how issues between Florida, other states and the national government are resolved.</p> <ul style="list-style-type: none"> Students will explain the concept of federalism as it applies to each issue. Students will use historical and issue-based scenarios to demonstrate understanding of how disputes between Florida, other states and the national government are resolved (e.g., water rights arguments between Florida and Georgia, national and state conflict over rights to adjacent waters and seabeds, civil rights).
SS.912.CG.3.14:	<p>Explain the judicial decision-making process in interpreting law at the state and national levels.</p> <ul style="list-style-type: none"> Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law.
SS.912.CG.3.15:	<p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society. Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United

- States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International).
- Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia).
- Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria).
- Students will explain the U.S. response to international conflicts.

SS.912.CG.4.3: Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.

- Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.

SS.912.CG.4.4: Identify indicators of democratization in foreign countries.

- Students will recognize indicators of democratization as a system of free and fair elections, active civic participation, the protection of human rights, and the rule of law.

SS.912.G.4.1: Interpret population growth and other demographic data for any given place.

SS.912.G.5.5: Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.

MA.K12.MTR.1.1: Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:
Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1: Demonstrate understanding by representing problems in multiple ways.
Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:
Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1: Complete tasks with mathematical fluency.
Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:
Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1: Engage in discussions that reflect on the mathematical thinking of self and others.
Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:
Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.

MA.K12.MTR.5.1:

- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

MA.K12.MTR.7.1:

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

ELA.K12.EE.1.1:

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

Use the accepted rules governing a specific format to create quality work.

Clarifications:

ELA.K12.EE.5.1:	Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
	Use appropriate voice and tone when speaking or writing.
ELA.K12.EE.6.1:	Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies. Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

VERSION DESCRIPTION

Civic education is essential in the development of informed citizenry who are equipped to participate in civic life and preserve a government of the people, by the people, and for the people. The Civics and Government (CG) standards in this class were revised in 2021 as a result of the House Bill (2019) civics standards review and reflect the following priorities for K-12 Civics and Government teaching and learning in Florida schools.

- Students study primary source documents to understand the philosophical underpinnings of the American Republic and the root cause of American exceptionalism.
- Students compare the success of the United States and the success or failure of other nations' governing philosophies to evaluate their past, present and likely future effects.
- Students have a sense of civic pride and participate regularly in all levels of government.
- Students reflect upon United States civic history, so they understand their rights and responsibilities as citizens, including the process of advocating properly with government officials.

This course must include a comparative discussion of political ideologies, such as communism and totalitarianism, that conflict with the principles of freedom and democracy essential to the founding principles of the United States.

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
 - Unity/diversity in American society
 - Civil society: nongovernmental associations, groups
 - Nation-states
 - Interaction among nation-states
 - United States, major governmental, nongovernmental international organizations
- The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:
<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

Course Standards

Name	Description
SS.912.CG.1.1:	<p>Examine how intellectual influences in primary documents contributed to the ideas in the Declaration of Independence, the U.S. Constitution and the Bill of Rights.</p> <ul style="list-style-type: none"> Students will recognize the influence of the Judeo-Christian tradition, republicanism, the English Constitution and common Law, and the European Enlightenment in establishing the organic laws of the United States in primary documents (e.g., Magna Carta (1215); the Mayflower Compact (1620); the English Bill of Rights (1689); Common Sense (1776); Declaration of Independence (1776); the Constitution of Massachusetts (1780); the Articles of Confederation (1781); the Northwest Ordinance (1787); U.S. Constitution (1789)).
SS.912.CG.1.2:	<p>Explain the influence of Enlightenment ideas on the Declaration of Independence.</p> <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	<p>Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government.</p> <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	<p>Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic.</p> <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	<p>Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers.</p> <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	<p>Explain the constitutional provisions that establish and affect citizenship.</p> <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	<p>Explain the importance of political and civic participation to the success of the United States' constitutional republic.</p> <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during

SS.912.CG.2.5:	<p>wartime and limitations on speech).</p> <ul style="list-style-type: none"> Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).
SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. Students will identify historical examples of interest groups, media and individuals influencing public policy. Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> Students will identify the different primary formats and how political parties nominate candidates using primaries. Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). Students will explain the process by which candidates register to be part of state and national elections. Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). Students will evaluate the role of debates in elections.
SS.912.CG.2.10:	<p>Analyze factors that contribute to voter turnout in local, state and national elections.</p> <ul style="list-style-type: none"> Students will explain trends in voter turnout. Students will discuss attempts to increase voter turnout (e.g., get out the vote campaigns, social movements). Students will explain how governmental action has affected voter participation (e.g., 15th, 19th and 26th Amendments; Jim Crow laws; poll tax; efforts to suppress voters).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> Students will compare the reporting on the same political event or issue from multiple perspectives. Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). Students will discuss the historical impact of political communication on American political process and public opinion. Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). Students will describe how the methods used by political officials to communicate with the public has changed over time. Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. Students will identify the methods for determining the number of members in the House of Representatives and the Senate. Students will identify and describe the "enumerated powers" delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S. Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	<p>Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its

	<p>original description in Article II.</p> <ul style="list-style-type: none"> Students will describe the impeachment process.
SS.912.CG.3.5:	<p>Describe how independent regulatory agencies interact with the three branches of government and with citizens.</p> <ul style="list-style-type: none"> Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). Students will identify that expressed powers are known as enumerated powers found in Article I of the U.S. Constitution. Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). Students will explain how reserved powers define issues as matters for the people or the state governments. Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	<p>Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. Students will describe the role of the Supreme Court and lesser federal courts. Students will explain what Article III says about judicial tenure, appointment and salaries. Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	<p>Describe the purpose and function of judicial review in the American constitutional government.</p> <ul style="list-style-type: none"> Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	<p>Compare the role of state and federal judges with other elected officials.</p> <ul style="list-style-type: none"> Students will compare the ways state and federal judges are appointed compared to other elected officials. Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	<p>Analyze the levels and responsibilities of state and federal courts.</p> <ul style="list-style-type: none"> Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. Students will contrast the differences among civil trials and criminal trials at the state level. Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.13:	<p>Explain how issues between Florida, other states and the national government are resolved.</p> <ul style="list-style-type: none"> Students will explain the concept of federalism as it applies to each issue. Students will use historical and issue-based scenarios to demonstrate understanding of how disputes between Florida, other states and the national government are resolved (e.g., water rights arguments between Florida and Georgia, national and state conflict over rights to adjacent waters and seabeds, civil rights).
SS.912.CG.3.14:	<p>Explain the judicial decision-making process in interpreting law at the state and national levels.</p> <ul style="list-style-type: none"> Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law.
SS.912.CG.3.15:	<p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens. Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> Students will explain how the policies of other nations influence U.S. policy and society.

SS.912.CG.4.2:	<ul style="list-style-type: none"> • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.CG.4.4:	<p>Identify indicators of democratization in foreign countries.</p> <ul style="list-style-type: none"> • Students will recognize indicators of democratization as a system of free and fair elections, active civic participation, the protection of human rights, and the rule of law.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.G.5.5:	Use geographic terms and tools to analyze case studies of policies and programs for resource use and management.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Analyze the problem in a way that makes sense given the task. • Ask questions that will help with solving the task. • Build perseverance by modifying methods as needed while solving a challenging task. • Stay engaged and maintain a positive mindset when working to solve tasks. • Help and support each other when attempting a new method or approach. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Cultivate a community of growth mindset learners. • Foster perseverance in students by choosing tasks that are challenging. • Develop students' ability to analyze and problem solve. • Recognize students' effort when solving challenging problems. </div>
MA.K12.MTR.2.1:	<p>Demonstrate understanding by representing problems in multiple ways.</p> <p>Mathematicians who demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Build understanding through modeling and using manipulatives. • Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. • Progress from modeling problems with objects and drawings to using algorithms and equations. • Express connections between concepts and representations. • Choose a representation based on the given context or purpose. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:</p> <ul style="list-style-type: none"> • Help students make connections between concepts and representations. • Provide opportunities for students to use manipulatives when investigating concepts. • Guide students from concrete to pictorial to abstract representations as understanding progresses. • Show students that various representations can have different purposes and can be useful in different situations. </div>
MA.K12.MTR.3.1:	<p>Complete tasks with mathematical fluency.</p> <p>Mathematicians who complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Select efficient and appropriate methods for solving problems within the given context. • Maintain flexibility and accuracy while performing procedures and mental calculations. • Complete tasks accurately and with confidence. • Adapt procedures to apply them to a new context. • Use feedback to improve efficiency when performing calculations. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to complete tasks with mathematical fluency:</p> <ul style="list-style-type: none"> • Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. • Offer multiple opportunities for students to practice efficient and generalizable methods. • Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used. </div>
MA.K12.MTR.4.1:	<p>Engage in discussions that reflect on the mathematical thinking of self and others.</p> <p>Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Communicate mathematical ideas, vocabulary and methods effectively. • Analyze the mathematical thinking of others. • Compare the efficiency of a method to those expressed by others. • Recognize errors and suggest how to correctly solve the task. • Justify results by explaining methods and processes. • Construct possible arguments based on evidence. <div style="border: 1px solid black; padding: 5px;"> <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. • Create opportunities for students to discuss their thinking with peers. • Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. • Develop students' ability to justify methods and compare their responses to the responses of their peers. </div>

Use patterns and structure to help understand and connect mathematical concepts.
Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

MA.K12.MTR.5.1:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.
Mathematicians who assess the reasonableness of solutions:

MA.K12.MTR.6.1:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

Apply mathematics to real-world contexts.
Mathematicians who apply mathematics to real-world contexts:

MA.K12.MTR.7.1:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

Cite evidence to explain and justify reasoning.

ELA.K12.EE.1.1:

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

Read and comprehend grade-level complex texts proficiently.

ELA.K12.EE.2.1:

Clarifications:

See Text Complexity for grade-level complexity bands and a text complexity rubric.

Make inferences to support comprehension.

ELA.K12.EE.3.1:

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

ELA.K12.EE.4.1:

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

	Use the accepted rules governing a specific format to create quality work.
ELA.K12.EE.5.1:	Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.
ELA.K12.EE.6.1:	Use appropriate voice and tone when speaking or writing. Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	Evaluate how public health policies and government regulations can influence health promotion and disease prevention. Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

United States Government - The grade 9-12 United States Government course consists of the following content area strands: Geography, Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their historical impact on American society. Content should include, but is not limited to, the functions and purpose of government, the function of the state, the constitutional framework, federalism, separation of powers, functions of the three branches of government at the local, state and national level, and the political decision-making process.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

Special Notes:

Additional content that may be included in the Grade 12 NAEP Civics assessment includes:

- Distinctive characteristics of American society
- Unity/diversity in American society
- Civil society: nongovernmental associations, groups
- Nation-states
- Interaction among nation-states
- United States, major governmental, nongovernmental international organizations

The NAEP frameworks for Civics may be accessed at <http://www.nagb.org/publications/frameworks/civicsframework.pdf>

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Additional Instructional Resources:

A.V.E. for Success Collection is provided by the Florida Association of School Administrators: [http://www.fasa.net/4DCGI/cms/review.html?](http://www.fasa.net/4DCGI/cms/review.html?Action=CMS_Document&DocID=139)

Action=CMS_Document&DocID=139. Please be aware that these resources have not been reviewed by CPALMS and there may be a charge for the use of some of them in this collection.

GENERAL INFORMATION

Course Number: 2106320

Number of Credits: Half credit (.5)

Course Type: Core Academic Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Graduation Requirement: United States
Government

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: US GOVT HON

Course Length: Semester (S)

Course Attributes:

- Honors
- Class Size Core Required

Course Level: 3

Educator Certifications

Political Science (Grades 6-12)

History (Grades 6-12)

Social Science (Grades 6-12)

Political Science (#2106340) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.

SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
	Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution.
	Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government.
	Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
	Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.
SS.912.G.1.4:	Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.
SS.912.W.2.18:	Clarifications: Examples are Magna Carta, parliament, habeas corpus.

SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	<p>Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.</p> <ol style="list-style-type: none"> Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	<p>Write arguments focused on <i>discipline-specific content</i>.</p> <ol style="list-style-type: none"> Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	<p>Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes.</p> <ol style="list-style-type: none"> Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★
	Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★

	Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★
MAFS.912.S-ID.1.1:	Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.2:	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.3:	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★ Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
	Make sense of problems and persevere in solving them.
MAFS.K12.MP.1.1:	Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
	Construct viable arguments and critique the reasoning of others.
MAFS.K12.MP.3.1:	Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.
	Use appropriate tools strategically.
MAFS.K12.MP.5.1:	Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.
	Attend to precision.
MAFS.K12.MP.6.1:	Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.

General Course Information and Notes

GENERAL NOTES

Political Science - The grade 9-12 Political Science course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their influence on American society. Content should include, but is not limited to, the types of government, the functions and purpose of government, the function of the state, exercise of power, policy making and public opinion, political control and the economy, political ideologies, civil liberties, international relations, and the evolution of political change.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

GENERAL INFORMATION

Course Number: 2106340

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: POLI SCI

Course Length: Semester (S)

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Educator Certifications

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Political Science (#2106340) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications: Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication. Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.

SS.912.C.2.14:	Evaluate the processes and results of an election at the state or federal level.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
	Analyze trends in voter turnout.
SS.912.C.2.16:	Clarifications: Examples are youth voter turnout, issue-based voting.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution.
	Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government.
	Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them.
	Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level.
	Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.1:	Explain how the world's nations are governed differently.
SS.912.C.4.2:	Evaluate the influence of American foreign policy on other nations and the influences of other nations on American policies and society.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.C.4.4:	Compare indicators of democratization in multiple countries.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.
SS.912.G.1.4:	Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
	Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.
SS.912.W.2.18:	Clarifications: Examples are Magna Carta, parliament, habeas corpus.

Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

MA.K.12.MTR.1.1:

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K.12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K.12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K.12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K.12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications:</p>

General Course Information and Notes

GENERAL NOTES

Political Science - The grade 9-12 Political Science course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their influence on American society. Content should include, but is not limited to, the types of government, the functions and purpose of government, the function of the state, exercise of power, policy making and public opinion, political control and the economy, political ideologies, civil liberties, international relations, and the evolution of political change.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2106340

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: State Board Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: POLI SCI

Course Length: Semester (S)

Course Level: 2

Educator Certifications

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.1.2:	Explain the influence of Enlightenment ideas on the Declaration of Independence. <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government. <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic. <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers. <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	Explain the constitutional provisions that establish and affect citizenship. <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
SS.912.CG.2.2:	Explain the importance of political and civic participation to the success of the United States' constitutional republic. <ul style="list-style-type: none"> Students will discuss various ways in which U.S. citizens can exercise political and civic participation. Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
	Explain the responsibilities of citizens at the local, state and national levels.

SS.912.CG.2.3:	<ul style="list-style-type: none"> Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).
SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. Students will identify historical examples of interest groups, media and individuals influencing public policy. Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.9:	<p>Explain the process and procedures of elections at the state and national levels.</p> <ul style="list-style-type: none"> Students will identify the different primary formats and how political parties nominate candidates using primaries. Students will compare and contrast the different ways in which elections are decided (e.g., Electoral College, proportional representation, popular vote, winner-take-all). Students will explain the process by which candidates register to be part of state and national elections. Students will describe the different methods used to tabulate election results in state and national elections (i.e., electronic voting, punch cards, fill-in ballots). Students will evaluate the role of debates in elections.
SS.912.CG.2.10:	<p>Analyze factors that contribute to voter turnout in local, state and national elections.</p> <ul style="list-style-type: none"> Students will explain trends in voter turnout. Students will discuss attempts to increase voter turnout (e.g., get out the vote campaigns, social movements). Students will explain how governmental action has affected voter participation (e.g., 15th, 19th and 26th Amendments; Jim Crow laws; poll tax; efforts to suppress voters).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> Students will compare the reporting on the same political event or issue from multiple perspectives. Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). Students will discuss the historical impact of political communication on American political process and public opinion. Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). Students will describe how the methods used by political officials to communicate with the public has changed over time. Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments.

	<ul style="list-style-type: none"> Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. Students will identify the methods for determining the number of members in the House of Representatives and the Senate. Students will identify and describe the “enumerated powers” delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S. Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	<p>Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its original description in Article II. Students will describe the impeachment process.
SS.912.CG.3.5:	<p>Describe how independent regulatory agencies interact with the three branches of government and with citizens.</p> <ul style="list-style-type: none"> Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	<p>Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). Students will explain how reserved powers define issues as matters for the people or the state governments. Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	<p>Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. Students will describe the role of the Supreme Court and lesser federal courts. Students will explain what Article III says about judicial tenure, appointment and salaries. Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	<p>Describe the purpose and function of judicial review in the American constitutional government.</p> <ul style="list-style-type: none"> Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	<p>Compare the role of state and federal judges with other elected officials.</p> <ul style="list-style-type: none"> Students will compare the ways state and federal judges are appointed compared to other elected officials. Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	<p>Analyze the levels and responsibilities of state and federal courts.</p> <ul style="list-style-type: none"> Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. Students will contrast the differences among civil trials and criminal trials at the state level. Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	<p>Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution.</p> <ul style="list-style-type: none"> Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	<p>Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments.</p> <ul style="list-style-type: none"> Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.14:	<p>Explain the judicial decision-making process in interpreting law at the state and national levels.</p> <ul style="list-style-type: none"> Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law. <p>Explain how citizens are affected by the local, state and national governments.</p> <ul style="list-style-type: none"> Students will identify local government officials and employees who affect the daily lives of citizens.

SS.912.CG.3.15:	<ul style="list-style-type: none"> • Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. • Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. • Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.1:	<p>Analyze how liberty and economic freedom generate broad-based opportunity and prosperity in the United States.</p> <ul style="list-style-type: none"> • Students will differentiate between government systems (e.g., autocracy, democracy, monarchy, oligarchy republic, theocracy). • Students will differentiate between economic systems (e.g., capitalism, communism, mixed market, socialism). • Students will analyze the disadvantages of authoritarian control over the economy (e.g., communism and socialism) in generating broad-based economic prosperity for their population.
SS.912.CG.4.2:	<p>Explain how the United States uses foreign policy to influence other nations.</p> <ul style="list-style-type: none"> • Students will explain how the policies of other nations influence U.S. policy and society. • Students will identify agencies of the U.S. government that contribute to its foreign policy agenda (e.g., National Security Agency, Central Intelligence Agency). • Students will explain the advantages and disadvantages of how nongovernmental organizations (NGOs) influence foreign policy (e.g., United States Agency for International Development, Red Cross, American Woman Suffrage Association, Amnesty International). • Students will explain how U.S. trade policy influences its relationships with other nations (e.g., China, Saudi Arabia). • Students will explain how the use of embargos and economic sanctions by the United States has affected other nations (e.g., Cuba, Iran, Syria). • Students will explain the U.S. response to international conflicts.
SS.912.CG.4.3:	<p>Explain how U.S. foreign policy supports democratic principles and protects human rights around the world.</p> <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.CG.4.4:	<p>Identify indicators of democratization in foreign countries.</p> <ul style="list-style-type: none"> • Students will recognize indicators of democratization as a system of free and fair elections, active civic participation, the protection of human rights, and the rule of law.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.E.2.3:	Research contributions of entrepreneurs, inventors, and other key individuals from various gender, social, and ethnic backgrounds in the development of the United States.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.3:	Employ applicable units of measurement and scale to solve simple locational problems using maps and globes.
SS.912.G.1.4:	<p>Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.</p> <p>Clarifications: Examples are thematic, contour, and dot-density.</p>
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	<p>Compare time measurement systems used by different cultures.</p> <p>Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.</p>
SS.912.W.1.3:	<p>Interpret and evaluate primary and secondary sources.</p> <p>Clarifications: Examples are artifacts, images, auditory and written sources.</p>
SS.912.W.1.4:	<p>Explain how historians use historical inquiry and other sciences to understand the past.</p> <p>Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.</p>
SS.912.W.1.6:	<p>Evaluate the role of history in shaping identity and character.</p> <p>Clarifications: Examples are ethnic, cultural, personal, national, religious.</p>
SS.912.W.2.18:	<p>Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.</p> <p>Clarifications: Examples are Magna Carta, parliament, habeas corpus.</p>
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
MA.K12.MTR.1.1:	<p>Mathematicians who participate in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Analyze the problem in a way that makes sense given the task. • Ask questions that will help with solving the task. • Build perseverance by modifying methods as needed while solving a challenging task. • Stay engaged and maintain a positive mindset when working to solve tasks. • Help and support each other when attempting a new method or approach. <p>Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others:</p> <ul style="list-style-type: none"> • Cultivate a community of growth mindset learners. • Foster perseverance in students by choosing tasks that are challenging. • Develop students' ability to analyze and problem solve. • Recognize students' effort when solving challenging problems.
	Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

MA.K12.MTR.2.1:

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

MA.K12.MTR.3.1:

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

MA.K12.MTR.4.1:

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

MA.K12.MTR.5.1:

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

MA.K12.MTR.6.1:

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Political Science - The grade 9-12 Political Science course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of government institutions and political processes and their influence on American society. Content should include, but is not limited to, the types of government, the functions and purpose of government, the function of the state, exercise of power, policy making and public opinion, political control and the economy, political ideologies, civil liberties, international relations, and the evolution of political change.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2106340

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: POLI SCI

Course Length: Semester (S)

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Educator Certifications

Political Science (Grades 6-12)

Social Science (Grades 6-12)

Law Studies (#2106350) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications:

	Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication.
	Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them. Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level. Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place. Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.
SS.912.G.1.4:	Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.
SS.912.W.2.18:	Clarifications: Examples are Magna Carta, parliament, habeas corpus.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.

LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting

	<p>Represent data with plots on the real number line (dot plots, histograms, and box plots). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.1:	
	<p>Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.2:	
	<p>Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★</p> <p>Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points.</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.3:	
	<p>Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★</p> <p>Standard Relation to Course: Supporting</p>
MAFS.912.S-ID.1.4:	
	<p>Make sense of problems and persevere in solving them.</p> <p>Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.</p>
MAFS.K12.MP.1.1:	
	<p>Construct viable arguments and critique the reasoning of others.</p> <p>Mathematically proficient students understand and use stated assumptions, definitions, and previously established results in constructing arguments. They make conjectures and build a logical progression of statements to explore the truth of their conjectures. They are able to analyze situations by breaking them into cases, and can recognize and use counterexamples. They justify their conclusions, communicate them to others, and respond to the arguments of others. They reason inductively about data, making plausible arguments that take into account the context from which the data arose. Mathematically proficient students are also able to compare the effectiveness of two plausible arguments, distinguish correct logic or reasoning from that which is flawed, and—if there is a flaw in an argument—explain what it is. Elementary students can construct arguments using concrete referents such as objects, drawings, diagrams, and actions. Such arguments can make sense and be correct, even though they are not generalized or made formal until later grades. Later, students learn to determine domains to which an argument applies. Students at all grades can listen or read the arguments of others, decide whether they make sense, and ask useful questions to clarify or improve the arguments.</p>
MAFS.K12.MP.3.1:	
	<p>Use appropriate tools strategically.</p> <p>Mathematically proficient students consider the available tools when solving a mathematical problem. These tools might include pencil and paper, concrete models, a ruler, a protractor, a calculator, a spreadsheet, a computer algebra system, a statistical package, or dynamic geometry software. Proficient students are sufficiently familiar with tools appropriate for their grade or course to make sound decisions about when each of these tools might be helpful, recognizing both the insight to be gained and their limitations. For example, mathematically proficient high school students analyze graphs of functions and solutions generated using a graphing calculator. They detect possible errors by strategically using estimation and other mathematical knowledge. When making mathematical models, they know that technology can enable them to visualize the results of varying assumptions, explore consequences, and compare predictions with data. Mathematically proficient students at various grade levels are able to identify relevant external mathematical resources, such as digital content located on a website, and use them to pose or solve problems. They are able to use technological tools to explore and deepen their understanding of concepts.</p>
MAFS.K12.MP.5.1:	
	<p>Attend to precision.</p> <p>Mathematically proficient students try to communicate precisely to others. They try to use clear definitions in discussion with others and in their own reasoning. They state the meaning of the symbols they choose, including using the equal sign consistently and appropriately. They are careful about specifying units of measure, and labeling axes to clarify the correspondence with quantities in a problem. They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem context. In the elementary grades, students give carefully formulated explanations to each other. By the time they reach high school they have learned to examine claims and make explicit use of definitions.</p>
MAFS.K12.MP.6.1:	
ELD.K12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
	Evaluate how public health policies and government regulations can influence health promotion and disease prevention.
HE.912.C.2.4:	<p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

GENERAL NOTES

Law Studies - The grade 9-12 Law Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of the American legal system as the foundation of American society by examining those laws which have an impact on citizens' lives and an introduction to fundamental civil and criminal justice procedures. Content should include, but is not limited to, the need for law, the basis for our legal system, civil and criminal law, adult and juvenile courts, family and consumer law, causes and consequences of crime, individual rights and responsibilities, and career opportunities in the legal system.

Mathematics Benchmark Guidance - Social Studies instruction should include opportunities for students to interpret and create representations of historical events and concepts using mathematical tables, charts, and graphs.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Literacy Standards in Social Studies

Secondary social studies courses include reading standards for literacy in history/social studies 6-12, and writing standards for literacy in history/social studies, science, and technical subjects 6-12. This course also includes speaking and listening standards. For a complete list of standards required for this course click on the blue tile labeled course standards. You may also download the complete course including all required standards and notes sections using the export function located at the top of this page.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Number: 2106350

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Course Path: Section: Grades PreK to 12 Education

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: LAW STUDIES

Course Length: Semester (S)

Course Level: 2

Educator Certifications

Political Science (Grades 6-12)

Social Science (Grades 5-9)

Social Science (Grades 6-12)

Law (Secondary Grades 7-12)

Law Studies (#2106350) 2022 - 2023

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.4:	Analyze and categorize the diverse viewpoints presented by the Federalists and the Anti-Federalists concerning ratification of the Constitution and inclusion of a bill of rights.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.1:	Evaluate the constitutional provisions establishing citizenship, and assess the criteria among citizens by birth, naturalized citizens, and non-citizens.
SS.912.C.2.2:	Evaluate the importance of political participation and civic participation. Experience the responsibilities of citizens at the local, state, or federal levels.
SS.912.C.2.3:	Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights. Explain why rights have limits and are not absolute.
SS.912.C.2.7:	Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.10:	Monitor current public issues in Florida. Clarifications:

	Examples are On-line Sunshine, media, e-mails to government officials, political text messaging.
SS.912.C.2.11:	Analyze public policy solutions or courses of action to resolve a local, state, or federal issue.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication.
	Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal.
SS.912.C.2.13:	Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.
SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them. Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level. Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place. Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.
SS.912.G.1.4:	Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
	Interpret and evaluate primary and secondary sources.
SS.912.W.1.3:	Clarifications: Examples are artifacts, images, auditory and written sources.
	Explain how historians use historical inquiry and other sciences to understand the past.
SS.912.W.1.4:	Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
	Evaluate the role of history in shaping identity and character.
SS.912.W.1.6:	Clarifications: Examples are ethnic, cultural, personal, national, religious.
	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures.
SS.912.W.2.18:	Clarifications: Examples are Magna Carta, parliament, habeas corpus.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world. Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task.

MA.K12.MTR.1.1:

- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

MA.K12.MTR.2.1:

Demonstrate understanding by representing problems in multiple ways.

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

MA.K12.MTR.3.1:

Complete tasks with mathematical fluency.

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

MA.K12.MTR.4.1:

Engage in discussions that reflect on the mathematical thinking of self and others.

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

MA.K12.MTR.5.1:

Use patterns and structure to help understand and connect mathematical concepts.

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

Assess the reasonableness of solutions.

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.

MA.K12.MTR.6.1:	<ul style="list-style-type: none"> • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>
ELA.K12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K12.ELL.SI.1:	<p>English language learners communicate for social and instructional purposes within the school setting.</p>
ELD.K12.ELL.SS.1:	<p>English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.</p>
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Law Studies - The grade 9-12 Law Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of the American legal system as the foundation of American society by examining those laws which have an impact on citizens' lives and an introduction to fundamental civil and criminal justice procedures. Content should include, but is not limited to, the need for law, the basis for our legal system, civil and criminal law, adult and juvenile courts, family and consumer law, causes and consequences of crime, individual rights and responsibilities, and career opportunities in the legal system.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fl DOE.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.1.7:	Describe various socio-cultural aspects of American life including arts, artifacts, literature, education, and publications.
SS.912.A.2.4:	Distinguish the freedoms guaranteed to African Americans and other groups with the 13th, 14th, and 15th Amendments to the Constitution. Clarifications: Examples may include, but are not limited to, abolition of slavery, citizenship, suffrage, equal protection. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.2.5:	Assess how Jim Crow Laws influenced life for African Americans and other racial/ethnic minority groups. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 19-21. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.CG.1.2:	Explain the influence of Enlightenment ideas on the Declaration of Independence. <ul style="list-style-type: none"> Students will identify grievances listed in the Declaration of Independence in terms of due process of law, individual rights, natural rights, popular sovereignty and social contract. Students will explain national sovereignty, natural law, self-evident truth, equality of all persons, due process of law, limited government, popular sovereignty, and unalienable rights of life, liberty and property as they relate to Enlightenment ideas in the Declaration of Independence. Students will recognize that national sovereignty, due process of law, natural law, self-evident truth, equality of all persons, limited government, popular sovereignty, and unalienable rights of life, liberty and property form the philosophical foundation of our government.
SS.912.CG.1.3:	Explain arguments presented in the Federalist Papers in support of ratifying the U.S. Constitution and a republican form of government. <ul style="list-style-type: none"> Students will recognize that the Federalist Papers argued for a federal system of government, separation of powers and a representative form of government that is accountable to its citizens. Students will analyze Federalist and Anti-Federalist arguments concerning ratification of the U.S. Constitution and inclusion of a bill of rights.
SS.912.CG.1.4:	Analyze how the ideals and principles expressed in the founding documents shape America as a constitutional republic. <ul style="list-style-type: none"> Students will differentiate among the documents and determine how each one was individually significant to the founding of the United States. Students will evaluate how the documents are connected to one another. Documents include, but are not limited to, the Declaration of Independence, Articles of Confederation, Federalist Papers (e.g., No. 10, No. 14, No. 31, No. 39, No. 51) and the U.S. Constitution. Students will identify key individuals who contributed to the founding documents (e.g., Thomas Jefferson, Alexander Hamilton, John Jay, James Madison, George Mason).
SS.912.CG.1.5:	Explain how the U.S. Constitution and its amendments uphold the following political principles: checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers. <ul style="list-style-type: none"> Students will explain how the structure and function of the U.S. government reflects these political principles. Students will differentiate between republicanism and democracy, and discuss how the United States reflects both. Students will describe compromises made during the Constitutional Convention (e.g., the Great Compromise, the Three-Fifths Compromise, the Electoral College).
SS.912.CG.2.1:	Explain the constitutional provisions that establish and affect citizenship. <ul style="list-style-type: none"> Students will explain how the concept of citizenship in the United States has changed over the course of history (i.e., 13th, 14th, 15th and 19th Amendments). Students will compare birthright citizenship, permanent residency and naturalization in the United States. Students will differentiate the rights held by native-born citizens, permanent residents and naturalized citizens (e.g., running for public office).
	Explain the importance of political and civic participation to the success of the United States' constitutional republic.

SS.912.CG.2.2:	<ul style="list-style-type: none"> • Students will discuss various ways in which U.S. citizens can exercise political and civic participation. • Students will identify historical examples of political and civic participation (e.g., Civil Rights Movement, Women's Suffrage Movement). • Students will describe the ways in which individuals can be denied and limited in their right to practice political and civic participation (e.g., losing voting rights for felony conviction, limitations on political contributions, limits on the type of protesting).
SS.912.CG.2.3:	<p>Explain the responsibilities of citizens at the local, state and national levels.</p> <ul style="list-style-type: none"> • Students will identify various responsibilities held by citizens (e.g., voting, volunteering and being informed, respecting laws). • Students will understand the process of registering or preregistering to vote and how to complete a ballot in Florida (e.g., uniform primary and general election ballot). • Students will discuss appropriate methods of communication with public officials (e.g., corresponding, attending public meetings, requesting a meeting and providing information). • Students will participate in classroom activities that simulate exercising the responsibilities of citizenship.
SS.912.CG.2.4:	<p>Evaluate, take and defend objective, evidence-based positions on issues that cause the government to balance the interests of individuals with the public good.</p> <ul style="list-style-type: none"> • Students will examine situations when individuals' rights have been restricted for the public good (e.g., limits on speech or rationing of goods during wartime, enactment of the Patriot Act). • Students will analyze how environmental and financial policies place limitations on citizens and private industry for the public good. • Students will explain different services provided by local, state and national governments to citizens to ensure their rights are protected (e.g., social services, law enforcement, defense, emergency response).
SS.912.CG.2.5:	<p>Analyze contemporary and historical examples of government-imposed restrictions on rights.</p> <ul style="list-style-type: none"> • Students will identify historical examples of government-imposed restrictions on rights (e.g., suspension of habeas corpus, rationing during wartime and limitations on speech). • Students will examine the rationale for government-imposed restrictions on rights (e.g., inciting a crime, campaign contributions, defamation, military secrets).
SS.912.CG.2.6:	<p>Explain how the principles contained in foundational documents contributed to the expansion of civil rights and liberties over time.</p> <ul style="list-style-type: none"> • Students will explain how different groups of people (e.g., African Americans, immigrants, Native Americans, women) had their civil rights expanded through legislative action (e.g., Voting Rights Act, Civil Rights Act), executive action (e.g., Truman's desegregation of the army, Lincoln's Emancipation Proclamation) and the courts (e.g., Brown v. Board of Education; In re Gault). • Students will explain the role founding documents, such as the Declaration of Independence and the Constitution, had on setting precedent for the future granting of rights.
SS.912.CG.2.7:	<p>Analyze the impact of civic engagement as a means of preserving or reforming institutions.</p> <ul style="list-style-type: none"> • Students will identify legal methods that citizens can use to promote social and political change (e.g., voting, peaceful protests, petitioning, demonstrations, contacting government offices). • Students will identify historical examples of citizens achieving or preventing political and social change through civic engagement (e.g., the Abolitionist Movement).
SS.912.CG.2.8:	<p>Explain the impact of political parties, interest groups, media and individuals on determining and shaping public policy.</p> <ul style="list-style-type: none"> • Students will explain the origins of the Republican and Democratic political parties and evaluate their roles in shaping public policy. • Students will identify historical examples of interest groups, media and individuals influencing public policy. • Students will compare and contrast how the free press influenced politics at major points in U.S. history (e.g., Vietnam War Era, Civil Rights Era).
SS.912.CG.2.11:	<p>Evaluate political communication for bias, factual accuracy, omission and emotional appeal.</p> <ul style="list-style-type: none"> • Students will compare the reporting on the same political event or issue from multiple perspectives. • Students will identify various forms of propaganda (e.g., plain folks, glittering generalities, testimonial, fear, logical fallacies). • Students will discuss the historical impact of political communication on American political process and public opinion. • Examples of political communication may include, but are not limited to, political cartoons, propaganda, campaign advertisements, political speeches, bumper stickers, blogs, press and social media.
SS.912.CG.2.12:	<p>Explain how interest groups, the media and public opinion influence local, state and national decision-making related to public issues.</p> <ul style="list-style-type: none"> • Students will objectively discuss current public issues in Florida and use both the U.S. and Florida Constitutions to justify pro and con positions. • Students will examine the relationship and responsibilities of both the state and national governments regarding these public issues. • Students will analyze public policy solutions related to local, state and national issues.
SS.912.CG.2.13:	<p>Analyze the influence and effects of various forms of media and the internet in political communication.</p> <ul style="list-style-type: none"> • Students will explain how the methods of political communication has changed over time (e.g., television, radio, press, social media). • Students will describe how the methods used by political officials to communicate with the public has changed over time. • Students will discuss the strengths and weaknesses of different methods of political communication.
SS.912.CG.3.1:	<p>Analyze how certain political ideologies conflict with the principles of freedom and democracy.</p> <ul style="list-style-type: none"> • Students will identify political ideologies that conflict with the principles of freedom and democracy (e.g., communism and totalitarianism). • Students will analyze how the principles of checks and balances, consent of the governed, democracy, due process of law, federalism, individual rights, limited government, representative government, republicanism, rule of law and separation of powers contribute to the nation's longevity and its ability to overcome challenges, and distinguish the United States' constitutional republic from authoritarian and totalitarian nations.
SS.912.CG.3.2:	<p>Explain how the U.S. Constitution safeguards and limits individual rights.</p> <ul style="list-style-type: none"> • Students will identify the individual rights protected by the U.S. Constitution, the Bill of Rights and other constitutional amendments. • Students will describe the role of the Supreme Court in further defining the safeguards and limits of constitutional rights.
SS.912.CG.3.3:	<p>Analyze the structures, functions and processes of the legislative branch as described in Article I of the U.S. Constitution.</p> <ul style="list-style-type: none"> • Students will explain why Article I of the U.S. Constitution established a bicameral legislative body and how the House of Representatives functions differently from the Senate. • Students will identify the methods for determining the number of members in the House of Representatives and the Senate. • Students will identify and describe the "enumerated powers" delegated to Congress (e.g., assess taxes, borrow money, declare war, make laws). • Students will analyze the role of the legislative branch in terms of its relationship with the judicial and executive branch of the government. • Students will describe constitutional amendments that changed the role of Congress from its original description in Article I of the U.S.

	Constitution (i.e., 10th, 14th, 16th, 17th and 27th Amendments).
SS.912.CG.3.4:	Analyze the structures, functions and processes of the executive branch as described in Article II of the U.S. Constitution. <ul style="list-style-type: none"> • Students will explain the qualifications one must have to seek the office of president and the process of presidential elections. • Students will explain different presidential responsibilities outlined in Article II (e.g., receiving foreign heads of state, delivering the State of the Union address, carrying out faithful execution of the law). • Students will examine the role of the executive branch in terms of its relationship with the judicial and legislative branches of the government. • Students will describe constitutional amendments (i.e., 12th, 20th, 22nd and 25th) that have changed the role of the executive branch from its original description in Article II. • Students will describe the impeachment process.
SS.912.CG.3.5:	Describe how independent regulatory agencies interact with the three branches of government and with citizens. <ul style="list-style-type: none"> • Students will identify independent regulatory agencies (e.g., Federal Communications Commission, Federal Election Commission, National Labor Relations Board) and explain their purpose and effect. • Students will describe the advantages and disadvantages of delegating power to independent regulatory agencies.
SS.912.CG.3.6:	Explain expressed, implied, concurrent and reserved powers in the U.S. Constitution. <ul style="list-style-type: none"> • Students will identify powers that are expressed in the U.S. Constitution to Congress (e.g., coin money, declare war, assess taxes, citizenship). • Students will identify that expressed powers are also known as enumerated powers found in Article I of the U.S. Constitution. • Students will analyze the role of the “general welfare clause” and “necessary and proper clause” in granting Congress implied powers. • Students will describe examples of concurrent powers as those powers shared by both state and national governments (e.g., build roads, tax citizens, make laws). • Students will explain how reserved powers define issues as matters for the people or the state governments. • Students will compare the roles of expressed, implied, concurrent and reserved powers in United States’ federalism.
SS.912.CG.3.7:	Analyze the structures, functions and processes of the judicial branch as described in Article III of the U.S. Constitution. <ul style="list-style-type: none"> • Students will examine the role of the judicial branch in terms of its relationship with the legislative and executive branches of the government. • Students will describe the role of the Supreme Court and lesser federal courts. • Students will explain what Article III says about judicial tenure, appointment and salaries. • Students will describe the powers delegated to the courts by Article III including, but not limited to, treason, jurisdiction and trial by jury.
SS.912.CG.3.8:	Describe the purpose and function of judicial review in the American constitutional government. <ul style="list-style-type: none"> • Students will examine the role of district courts, the courts of appeals and the Supreme Court in the judicial review process. • Students will explain the relationship between the concept of judicial review and the language of the Supremacy Clause in Article VI of the U.S. Constitution.
SS.912.CG.3.9:	Compare the role of state and federal judges with other elected officials. <ul style="list-style-type: none"> • Students will compare the ways state and federal judges are appointed compared to other elected officials. • Students will distinguish the qualifications needed for a judge at the state or federal level versus other elected officials. • Students will compare the decision-making process of judges compared to other political figures.
SS.912.CG.3.10:	Analyze the levels and responsibilities of state and federal courts. <ul style="list-style-type: none"> • Students will describe what Article III of the U.S. Constitution states about the relationship between state and federal courts. • Students will recognize the role of the Federal Judiciary Act of 1789 in establishing the structure and jurisdiction of the federal court system. • Students will contrast the differences among civil trials and criminal trials at the state level. • Students will describe the relationship among the Supreme Court, federal appellate courts and federal district courts (e.g., Erie Doctrine, Rooker-Feldman Doctrine).
SS.912.CG.3.11:	Evaluate how landmark Supreme Court decisions affect law, liberty and the interpretation of the U.S. Constitution. <ul style="list-style-type: none"> • Students will recognize landmark Supreme Court cases (e.g., <i>Marbury v. Madison</i>; <i>McCulloch v. Maryland</i>; <i>Dred Scott v. Sandford</i>; <i>Plessy v. Ferguson</i>; <i>Brown v. Board of Education</i>; <i>Gideon v. Wainwright</i>; <i>Miranda v. Arizona</i>; <i>Korematsu v. United States</i>; <i>Mapp v. Ohio</i>; <i>In re Gault</i>; <i>United States v. Nixon</i>; <i>Regents of the University of California v. Bakke</i>; <i>Hazelwood v. Kuhlmeier</i>; <i>District of Columbia v. Heller</i>). • Students will explain the foundational constitutional issues underlying landmark Supreme Court decisions related to the Bill of Rights and other amendments. • Students will explain the outcomes of landmark Supreme Court cases related to the Bill of Rights and other amendments.
SS.912.CG.3.12:	Analyze the concept of federalism in the United States and its role in establishing the relationship between the state and national governments. <ul style="list-style-type: none"> • Students will identify examples of the powers reserved and shared among state and the national governments in the American federal system of government. • Students will examine the role the Great Compromise had on the eventual establishment of a federal system of fifty equal states. • Students will explain specific rights that are granted to the states in the language of the U.S. Constitution and its amendments (e.g., 10th Amendment, defense and extradition). • Students will analyze how states have challenged the national government regarding states’ rights (e.g., Civil War, the New Deal, No Child Left Behind, Affordable Health Care Act, Civil Rights Movement).
SS.912.CG.3.14:	Explain the judicial decision-making process in interpreting law at the state and national levels. <ul style="list-style-type: none"> • Students will explain the role of the U.S. Constitution in interpreting law at the state and national levels. • Students will explain the process used by judges at the state and national levels when making a decision or writing summary opinions. • Students will incorporate language from the U.S. Constitution or court briefs to justify a legal decision when interpreting state or national law.
SS.912.CG.3.15:	Explain how citizens are affected by the local, state and national governments. <ul style="list-style-type: none"> • Students will identify local government officials and employees who affect the daily lives of citizens. • Students will identify the role of state governmental officials and employees who affect the daily lives of citizens. • Students will identify the role of national governmental officials and employees who affect the daily lives of citizens. • Students will explain how government at all levels impacts the daily lives of citizens.
SS.912.CG.4.3:	Explain how U.S. foreign policy supports democratic principles and protects human rights around the world. <ul style="list-style-type: none"> • Students will explain how U.S. foreign policy aims to protect liberty around the world and describe how the founding documents support the extension of liberty to all mankind.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student’s community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.

SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place.
SS.912.G.1.4:	Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps. Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events.
SS.912.W.1.2:	Compare time measurement systems used by different cultures. Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.6:	Evaluate the role of history in shaping identity and character. Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.18:	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures. Clarifications: Examples are Magna Carta, parliament, habeas corpus.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
MA.K12.MTR.1.1:	Mathematicians who participate in effortful learning both individually and with others: <ul style="list-style-type: none"> Analyze the problem in a way that makes sense given the task. Ask questions that will help with solving the task. Build perseverance by modifying methods as needed while solving a challenging task. Stay engaged and maintain a positive mindset when working to solve tasks. Help and support each other when attempting a new method or approach. Clarifications: Teachers who encourage students to participate actively in effortful learning both individually and with others: <ul style="list-style-type: none"> Cultivate a community of growth mindset learners. Foster perseverance in students by choosing tasks that are challenging. Develop students' ability to analyze and problem solve. Recognize students' effort when solving challenging problems.
MA.K12.MTR.2.1:	Demonstrate understanding by representing problems in multiple ways. Mathematicians who demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Build understanding through modeling and using manipulatives. Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations. Progress from modeling problems with objects and drawings to using algorithms and equations. Express connections between concepts and representations. Choose a representation based on the given context or purpose. Clarifications: Teachers who encourage students to demonstrate understanding by representing problems in multiple ways: <ul style="list-style-type: none"> Help students make connections between concepts and representations. Provide opportunities for students to use manipulatives when investigating concepts. Guide students from concrete to pictorial to abstract representations as understanding progresses. Show students that various representations can have different purposes and can be useful in different situations.
MA.K12.MTR.3.1:	Complete tasks with mathematical fluency. Mathematicians who complete tasks with mathematical fluency: <ul style="list-style-type: none"> Select efficient and appropriate methods for solving problems within the given context. Maintain flexibility and accuracy while performing procedures and mental calculations. Complete tasks accurately and with confidence. Adapt procedures to apply them to a new context. Use feedback to improve efficiency when performing calculations. Clarifications: Teachers who encourage students to complete tasks with mathematical fluency: <ul style="list-style-type: none"> Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately. Offer multiple opportunities for students to practice efficient and generalizable methods. Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.
	Engage in discussions that reflect on the mathematical thinking of self and others. Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

MA.K12.MTR.4.1:	<ul style="list-style-type: none"> • Communicate mathematical ideas, vocabulary and methods effectively. • Analyze the mathematical thinking of others. • Compare the efficiency of a method to those expressed by others. • Recognize errors and suggest how to correctly solve the task. • Justify results by explaining methods and processes. • Construct possible arguments based on evidence. <p>Clarifications: Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:</p> <ul style="list-style-type: none"> • Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning. • Create opportunities for students to discuss their thinking with peers. • Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods. • Develop students' ability to justify methods and compare their responses to the responses of their peers.
MA.K12.MTR.5.1:	<p>Use patterns and structure to help understand and connect mathematical concepts. Mathematicians who use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Focus on relevant details within a problem. • Create plans and procedures to logically order events, steps or ideas to solve problems. • Decompose a complex problem into manageable parts. • Relate previously learned concepts to new concepts. • Look for similarities among problems. • Connect solutions of problems to more complicated large-scale situations. <p>Clarifications: Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:</p> <ul style="list-style-type: none"> • Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts. • Support students to develop generalizations based on the similarities found among problems. • Provide opportunities for students to create plans and procedures to solve problems. • Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.
MA.K12.MTR.6.1:	<p>Assess the reasonableness of solutions. Mathematicians who assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Estimate to discover possible solutions. • Use benchmark quantities to determine if a solution makes sense. • Check calculations when solving problems. • Verify possible solutions by explaining the methods used. • Evaluate results based on the given context. <p>Clarifications: Teachers who encourage students to assess the reasonableness of solutions:</p> <ul style="list-style-type: none"> • Have students estimate or predict solutions prior to solving. • Prompt students to continually ask, "Does this solution make sense? How do you know?" • Reinforce that students check their work as they progress within and after a task. • Strengthen students' ability to verify solutions through justifications.
MA.K12.MTR.7.1:	<p>Apply mathematics to real-world contexts. Mathematicians who apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Connect mathematical concepts to everyday experiences. • Use models and methods to understand, represent and solve problems. • Perform investigations to gather data or determine if a method is appropriate. • Redesign models and methods to improve accuracy or efficiency. <p>Clarifications: Teachers who encourage students to apply mathematics to real-world contexts:</p> <ul style="list-style-type: none"> • Provide opportunities for students to create models, both concrete and abstract, and perform investigations. • Challenge students to question the accuracy of their models and methods. • Support students as they validate conclusions by comparing them to the given situation. • Indicate how various concepts can be applied to other disciplines.
ELA.K12.EE.1.1:	<p>Cite evidence to explain and justify reasoning.</p> <p>Clarifications: K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing. 2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations. 4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor. 6-8 Students continue with previous skills and use a style guide to create a proper citation. 9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.</p>
ELA.K12.EE.2.1:	<p>Read and comprehend grade-level complex texts proficiently.</p> <p>Clarifications: See Text Complexity for grade-level complexity bands and a text complexity rubric.</p>

ELA.K.12.EE.3.1:	<p>Make inferences to support comprehension.</p> <p>Clarifications: Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.</p>
ELA.K.12.EE.4.1:	<p>Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.</p> <p>Clarifications: In kindergarten, students learn to listen to one another respectfully. In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _____ because _____.” The collaborative conversations are becoming academic conversations. In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.</p>
ELA.K.12.EE.5.1:	<p>Use the accepted rules governing a specific format to create quality work.</p> <p>Clarifications: Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.</p>
ELA.K.12.EE.6.1:	<p>Use appropriate voice and tone when speaking or writing.</p> <p>Clarifications: In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.</p>
ELD.K.12.ELL.SI.1:	English language learners communicate for social and instructional purposes within the school setting.
ELD.K.12.ELL.SS.1:	English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
HE.912.C.2.4:	<p>Evaluate how public health policies and government regulations can influence health promotion and disease prevention.</p> <p>Clarifications: Seat-belt enforcement, underage alcohol sales, reporting communicable diseases, child care, and AED availability.</p>

General Course Information and Notes

GENERAL NOTES

Law Studies - The grade 9-12 Law Studies course consists of the following content area strands: American History, World History, Geography, Humanities, Economics, and Civics and Government. The primary content for the course pertains to the study of the American legal system as the foundation of American society by examining those laws which have an impact on citizens' lives and an introduction to fundamental civil and criminal justice procedures. Content should include, but is not limited to, the need for law, the basis for our legal system, civil and criminal law, adult and juvenile courts, family and consumer law, causes and consequences of crime, individual rights and responsibilities, and career opportunities in the legal system.

Instructional Practices

Teaching from well-written, grade-level instructional materials enhances students' content area knowledge and also strengthens their ability to comprehend longer, complex reading passages on any topic for any reason. Using the following instructional practices also helps student learning:

1. Reading assignments from longer text passages as well as shorter ones when text is extremely complex.
2. Making close reading and rereading of texts central to lessons.
3. Asking high-level, text-specific questions and requiring high-level, complex tasks and assignments.
4. Requiring students to support answers with evidence from the text.
5. Providing extensive text-based research and writing opportunities (claims and evidence).

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package.

English Language Development ELD Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English language learners (ELL) to communicate information, ideas and concepts for academic success in the content area of Social Studies. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/ss.pdf>

GENERAL INFORMATION

Course Path: Section: Grades PreK to 12 Education

Course Number: 2106350

Courses > **Grade Group:** Grades 9 to 12 and Adult

Education Courses > **Subject:** Social Studies >

SubSubject: Political Sciences >

Abbreviated Title: LAW STUDIES

Course Length: Semester (S)

Course Level: 2

Number of Credits: Half credit (.5)

Course Type: Elective Course

Course Status: Draft - Course Pending Approval

Grade Level(s): 9,10,11,12

Educator Certifications

Political Science (Grades 6-12)

Social Science (Grades 5-9)

Social Science (Grades 6-12)

Law (Secondary Grades 7-12)

International Law (#2106355) 2015 - 2022 (current)

Course Standards

Name	Description
SS.912.A.1.1:	Describe the importance of historiography, which includes how historical knowledge is obtained and transmitted, when interpreting events in history.
SS.912.A.1.2:	Utilize a variety of primary and secondary sources to identify author, historical significance, audience, and authenticity to understand a historical period. Clarifications: Examples of primary and secondary sources may be found on various websites such as the site for The Kinsey Collection.
SS.912.A.1.3:	Utilize timelines to identify the time sequence of historical data.
SS.912.A.1.4:	Analyze how images, symbols, objects, cartoons, graphs, charts, maps, and artwork may be used to interpret the significance of time periods and events from the past.
SS.912.A.1.5:	Evaluate the validity, reliability, bias, and authenticity of current events and Internet resources. Clarifications: Students should be encouraged to utilize FINDS (Focus, Investigate, Note, Develop, Score), Florida's research process model accessible at: http://www.fldoe.org/bii/library_media/pdf/12totalfinds.pdf
SS.912.A.1.6:	Use case studies to explore social, political, legal, and economic relationships in history.
SS.912.A.6.7:	Describe the attempts to promote international justice through the Nuremberg Trials. Clarifications: This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 40-42. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.A.7.11:	Analyze the foreign policy of the United States as it relates to Africa, Asia, the Caribbean, Latin America, and the Middle East. Clarifications: Examples may include, but are not limited to, Haiti, Bosnia-Kosovo, Rwanda, Grenada, Camp David Accords, Iran Hostage Crisis, Lebanon, Iran-Iraq War, Reagan Doctrine, Iran-Contra Affair, Persian Gulf War. This benchmark is annually evaluated on the United States History End-of-Course Assessment. For more information on how this benchmark is evaluated view the United States History End-of-Course Assessment Test Item Specifications pages 55-56. Additional resources may be found on the FLDOE End-of-Course (EOC) Assessments webpage and the FLDOE Social Studies webpage.
SS.912.C.1.1:	Evaluate, take, and defend positions on the founding ideals and principles in American Constitutional government.
SS.912.C.1.2:	Explain how the Declaration of Independence reflected the political principles of popular sovereignty, social contract, natural rights, and individual rights.
SS.912.C.1.3:	Evaluate the ideals and principles of the founding documents (Declaration of Independence, Articles of Confederation, Federalist Papers) that shaped American Democracy.
SS.912.C.1.5:	Evaluate how the Constitution and its amendments reflect the political principles of rule of law, checks and balances, separation of powers, republicanism, democracy, and federalism.
SS.912.C.2.3:	Experience the responsibilities of citizens at the local, state, or federal levels. Clarifications: Examples are registering or pre-registering to vote, volunteering, communicating with government officials, informing others about current issues, participating in a political campaign/mock election.
SS.912.C.2.4:	Evaluate, take, and defend positions on issues that cause the government to balance the interests of individuals with the public good.
SS.912.C.2.6:	Evaluate, take, and defend positions about rights protected by the Constitution and Bill of Rights.
SS.912.C.2.7:	Explain why rights have limits and are not absolute. Clarifications: Examples are speech, search and seizure, religion, gun possession.
SS.912.C.2.8:	Analyze the impact of citizen participation as a means of achieving political and social change. Clarifications: Examples are e-mail campaigns, boycotts, blogs, podcasts, protests, demonstrations, letters to editors.
SS.912.C.2.9:	Identify the expansion of civil rights and liberties by examining the principles contained in primary documents. Clarifications: Examples are Preamble, Declaration of Independence, Constitution, Emancipation Proclamation, 13th, 14th, 15th, 19th, 24th, and 26th Amendments, Voting Rights Act of 1965.
SS.912.C.2.12:	Explain the changing roles of television, radio, press, and Internet in political communication.
SS.912.C.2.13:	Analyze various forms of political communication and evaluate for bias, factual accuracy, omission, and emotional appeal. Clarifications: Examples are political cartoons, propaganda, campaign advertisements, political speeches, electronic bumper stickers, blogs, media.
SS.912.C.2.15:	Evaluate the origins and roles of political parties, interest groups, media, and individuals in determining and shaping public policy.
SS.912.C.3.1:	Examine the constitutional principles of representative government, limited government, consent of the governed, rule of law, and individual rights.

SS.912.C.3.2:	Define federalism, and identify examples of the powers granted and denied to states and the national government in the American federal system of government.
SS.912.C.3.3:	Analyze the structures, functions, and processes of the legislative branch as described in Article I of the Constitution.
SS.912.C.3.4:	Analyze the structures, functions, and processes of the executive branch as described in Article II of the Constitution. Identify the impact of independent regulatory agencies in the federal bureaucracy.
SS.912.C.3.5:	Clarifications: Examples are Federal Reserve, Food and Drug Administration, Federal Communications Commission.
SS.912.C.3.6:	Analyze the structures, functions, and processes of the judicial branch as described in Article III of the Constitution.
SS.912.C.3.7:	Describe the role of judicial review in American constitutional government. Compare the role of judges on the state and federal level with other elected officials.
SS.912.C.3.8:	Clarifications: Examples are decisions based on the law vs. will of the majority.
SS.912.C.3.9:	Analyze the various levels and responsibilities of courts in the federal and state judicial system and the relationships among them. Evaluate the significance and outcomes of landmark Supreme Court cases.
SS.912.C.3.10:	Clarifications: Examples are Marbury v. Madison, Plessy v. Ferguson, Brown v. Board of Education, Gideon v. Wainwright, Miranda v. Arizona, Tinker v. Des Moines, Hazelwood v. Kuhlmeier, United States v. Nixon, Roe v. Wade, Bush v. Gore, Texas v. Johnson, Mapp v. Ohio, McCulloch v. Maryland, District of Columbia v. Heller.
SS.912.C.3.11:	Contrast how the Constitution safeguards and limits individual rights.
SS.912.C.3.12:	Simulate the judicial decision-making process in interpreting law at the state and federal level. Illustrate examples of how government affects the daily lives of citizens at the local, state, and national levels.
SS.912.C.3.13:	Clarifications: Examples are education, transportation, crime prevention, funding of services.
SS.912.C.3.14:	Examine constitutional powers (expressed, implied, concurrent, reserved).
SS.912.C.3.15:	Examine how power and responsibility are distributed, shared, and limited by the Constitution.
SS.912.C.4.3:	Assess human rights policies of the United States and other countries.
SS.912.E.2.2:	Use a decision-making model to analyze a public policy issue affecting the student's community that incorporates defining a problem, analyzing the potential consequences, and considering the alternatives.
SS.912.G.1.2:	Use spatial perspective and appropriate geographic terms and tools, including the Six Essential Elements, as organizational schema to describe any given place. Analyze geographic information from a variety of sources including primary sources, atlases, computer, and digital sources, Geographic Information Systems (GIS), and a broad variety of maps.
SS.912.G.1.4:	Clarifications: Examples are thematic, contour, and dot-density.
SS.912.G.4.1:	Interpret population growth and other demographic data for any given place.
SS.912.H.1.6:	Analyze how current events are explained by artistic and cultural trends of the past.
SS.912.W.1.1:	Use timelines to establish cause and effect relationships of historical events. Compare time measurement systems used by different cultures.
SS.912.W.1.2:	Clarifications: Examples are Chinese, Gregorian, and Islamic calendars, dynastic periods, decade, century, era.
SS.912.W.1.3:	Interpret and evaluate primary and secondary sources. Clarifications: Examples are artifacts, images, auditory and written sources.
SS.912.W.1.4:	Explain how historians use historical inquiry and other sciences to understand the past. Clarifications: Examples are archaeology, economics, geography, forensic chemistry, political science, physics.
SS.912.W.1.6:	Evaluate the role of history in shaping identity and character. Clarifications: Examples are ethnic, cultural, personal, national, religious.
SS.912.W.2.18:	Describe developments in medieval English legal and constitutional history and their importance to the rise of modern democratic institutions and procedures. Clarifications: Examples are Magna Carta, parliament, habeas corpus.
SS.912.W.5.4:	Evaluate the impact of Enlightenment ideals on the development of economic, political, and religious structures in the Western world.
SS.912.W.6.3:	Compare the philosophies of capitalism, socialism, and communism as described by Adam Smith, Robert Owen, and Karl Marx.
SS.912.W.7.5:	Describe the rise of authoritarian governments in the Soviet Union, Italy, Germany, and Spain, and analyze the policies and main ideas of Vladimir Lenin, Joseph Stalin, Benito Mussolini, Adolf Hitler, and Francisco Franco.
SS.912.W.7.6:	Analyze the restriction of individual rights and the use of mass terror against populations in the Soviet Union, Nazi Germany, and occupied territories. Explain cultural, historical, and economic factors and governmental policies that created the opportunities for ethnic cleansing or genocide in Cambodia, the Balkans, Rwanda, and Darfur, and describe various governmental and non-governmental responses to them.
SS.912.W.9.3:	Clarifications: Examples are prejudice, racism, stereotyping, economic competition.
SS.912.W.9.7:	Describe the impact of and global response to international terrorism.
LAFS.910.RH.1.1:	Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.

LAFS.910.RH.1.2:	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of how key events or ideas develop over the course of the text.
LAFS.910.RH.1.3:	Analyze in detail a series of events described in a text; determine whether earlier events caused later ones or simply preceded them.
LAFS.910.RH.2.4:	Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
LAFS.910.RH.2.5:	Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
LAFS.910.RH.2.6:	Compare the point of view of two or more authors for how they treat the same or similar topics, including which details they include and emphasize in their respective accounts.
LAFS.910.RH.3.7:	Integrate quantitative or technical analysis (e.g., charts, research data) with qualitative analysis in print or digital text.
LAFS.910.RH.3.8:	Assess the extent to which the reasoning and evidence in a text support the author's claims.
LAFS.910.RH.3.9:	Compare and contrast treatments of the same topic in several primary and secondary sources.
LAFS.910.RH.4.10:	By the end of grade 10, read and comprehend history/social studies texts in the grades 9–10 text complexity band independently and proficiently.
LAFS.910.SL.1.1:	Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. <ul style="list-style-type: none"> a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas. b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed. c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
LAFS.910.SL.1.2:	Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.
LAFS.910.SL.1.3:	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
LAFS.910.SL.2.4:	Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
LAFS.910.WHST.1.1:	Write arguments focused on <i>discipline-specific content</i> . <ul style="list-style-type: none"> a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among the claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. e. Provide a concluding statement or section that follows from or supports the argument presented.
LAFS.910.WHST.1.2:	Write informative/explanatory texts, including the narration of historical events, scientific procedures/ experiments, or technical processes. <ul style="list-style-type: none"> a. Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension. b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic. c. Use varied transitions and sentence structures to link the major sections of the text, create cohesion, and clarify the relationships among ideas and concepts. d. Use precise language and domain-specific vocabulary to manage the complexity of the topic and convey a style appropriate to the discipline and context as well as to the expertise of likely readers. e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing. f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
LAFS.910.WHST.2.4:	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
LAFS.910.WHST.2.5:	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience.
LAFS.910.WHST.2.6:	Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
LAFS.910.WHST.3.7:	Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
LAFS.910.WHST.3.8:	Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
LAFS.910.WHST.3.9:	Draw evidence from informational texts to support analysis, reflection, and research.
LAFS.910.WHST.4.10:	Write routinely over extended time frames (time for reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
MAFS.912.S-IC.2.3:	Recognize the purposes of and differences among sample surveys, experiments, and observational studies; explain how randomization relates to each. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.4:	Use data from a sample survey to estimate a population mean or proportion; develop a margin of error through the use of simulation models for random sampling. ★ Standard Relation to Course: Supporting
MAFS.912.S-IC.2.5:	Use data from a randomized experiment to compare two treatments; use simulations to decide if differences between parameters are significant. ★ Standard Relation to Course: Supporting

MAFS.912.S-IC.2.6:	Evaluate reports based on data. ★ Standard Relation to Course: Supporting
	Represent data with plots on the real number line (dot plots, histograms, and box plots). ★
MAFS.912.S-ID.1.1:	Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
	Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets. ★
MAFS.912.S-ID.1.2:	Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
	Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). ★
MAFS.912.S-ID.1.3:	Clarifications: In grades 6 – 8, students describe center and spread in a data distribution. Here they choose a summary statistic appropriate to the characteristics of the data distribution, such as the shape of the distribution or the existence of extreme data points. Standard Relation to Course: Supporting
MAFS.912.S-ID.1.4:	Use the mean and standard deviation of a data set to fit it to a normal distribution and to estimate population percentages. Recognize that there are data sets for which such a procedure is not appropriate. Use calculators, spreadsheets, and tables to estimate areas under the normal curve. ★ Standard Relation to Course: Supporting
	Make sense of problems and persevere in solving them.
MAFS.K12.MP.1.1:	Mathematically proficient students start by explaining to themselves the meaning of a problem and looking for entry points to its solution. They analyze givens, constraints, relationships, and goals. They make conjectures about the form and meaning of the solution and plan a solution pathway rather than simply jumping into a solution attempt. They consider analogous problems, and try special cases and simpler forms of the original problem in order to gain insight into its solution. They monitor and evaluate their progress and change course if necessary. Older students might, depending on the context of the problem, transform algebraic expressions or change the viewing window on their graphing calculator to get the information they need. Mathematically proficient students can explain correspondences between equations, verbal descriptions, tables, and graphs or draw diagrams of important features and relationships, graph data, and search for regularity or trends. Younger students might rely on using concrete objects or pictures to help conceptualize and solve a problem. Mathematically proficient students check their answers to problems using a different method, and they continually ask themselves, “Does this make sense?” They can understand the approaches of others to solving complex problems and identify correspondences between different approaches.
	Construct viable arguments and critique the reasoning of others.
