#### **Advance: For release on Wednesday, April 24, 2013**

**Note to editors: Corporate-sponsored Merit Scholarship® winners in your state are listed alphabetically by city following this press release. News media are encouraged to contact high school principals for additional information about these outstanding students.**

*This material is prepared solely for news media to announce the names of Merit Scholar® designees; its use for any other purpose is prohibited.*

*This is the first announcement of National Merit Scholars in 2013 by National Merit Scholarship Corporation (NMSC). NMSC will name recipients of National Merit® \$2500 Scholarships on May 8, and winners of college-sponsored Merit Scholarship awards on May 29 and July 15. By the conclusion of this year's competition, about 8,000 academic champions will have won National Merit Scholarships worth over \$35 million.*

### **Corporate-Sponsored Merit Scholarship Winners Named**

(Evanston, Illinois) Today, National Merit Scholarship Corporation (NMSC) released the names of the first group of winners in the 58<sup>th</sup> annual National Merit Scholarship Program. Approximately 1,000 distinguished high school seniors have won corporate-sponsored National Merit Scholarship awards financed by about 200 corporations, company foundations, and other business organizations.

Scholars were selected from students who advanced to the Finalist level in the National Merit Scholarship competition and met criteria of their scholarship sponsors. Corporate sponsors provide National Merit Scholarships for Finalists who are children of their employees, who are residents of communities the company serves, or who plan to pursue college majors or careers the sponsor wishes to encourage.

Most of these awards are renewable for up to four years of college undergraduate study and provide annual stipends that range from \$500 to \$10,000 per year. Some provide a single payment between \$2,500 and \$5,000. Recipients can use their awards at any regionally accredited U.S. college or university of their choice.

Funding for these National Merit Scholarships is provided by corporate organizations that represent nearly all sectors of American industry. Sponsors from the business community have underwritten awards offered in all 58 competitions, expending or committing more than \$700 million to support the intellectual development of the nation's scholastically talented youth.

### **2013 National Merit Scholarship Competition**

About 1.5 million juniors in some 22,000 high schools entered the 2013 National Merit Scholarship competition when they took the 2011 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT®), which served as an initial screen of program entrants. In September 2012, some 16,000 Semifinalists were designated on a state representational basis in numbers proportional to each state's percentage of the national total of graduating high school seniors. Semifinalists were the highest-scoring program entrants in each state and represented less than one percent of the nation's seniors.

To be considered for a National Merit Scholarship, Semifinalists had to fulfill requirements to advance to Finalist standing. Each Semifinalist was asked to complete a detailed scholarship application, which included writing an essay and providing information about extracurricular activities, awards, and leadership positions. Semifinalists also had to have an outstanding academic record, be endorsed and recommended by a high school official, and earn SAT scores that confirmed their qualifying test performance. From the Semifinalist group, some 15,000 met Finalist requirements.

By the conclusion of the 2013 competition, about 8,000 Finalists will have been selected to receive National Merit Scholarships totaling over \$35 million. Winners are the Finalist candidates judged to have the strongest combination of academic skills and achievements, extracurricular accomplishments, and potential for success in rigorous college studies.

NMSC, a not-for-profit organization that operates without government assistance, was established in 1955 to conduct the annual National Merit Scholarship Program. The majority of National Merit Scholarships offered each year are underwritten by some 440 independent corporate and college sponsors that support NMSC's efforts to honor the nation's scholastically talented youth and encourage academic excellence at all levels of education.

# # #

**CAUTION:** Any attempt to compare high schools on the basis of numbers of Merit Scholarship winners will lead to erroneous and unsound conclusions. The National Merit Scholarship Program honors *individual* students who show exceptional academic ability and potential for success in rigorous college studies. The program does not measure the quality or effectiveness of education within a school, system, or state.
