

EQUIPMENT LIST

DENTAL ASSISTING (postsecondary) DENTAL ASSISTING TECHNOLOGY and MANAGEMENT (postsecondary)

Students in this program should have access to the following equipment:

air compressors	model trimmers
al amalgamator (mechanical)	mortar and pestle
amalgam dispenser	operating light
amalgam instrument	oral evacuating machine
anesthetic equipment (gas)	oral evacuating machine (mobile)
articulator	oral surgery mallet
aspirators	oral surgery points
AV equipment	oxygen equipment
AV materials	panorex
bands, copper	pneumatic condensor
baskets, durr	probe, perio
blood pressure cuff	pulp tester
burn-out furnace (electric)	reamers & file
cabinet, mobile	resuscitation equipment
cabinets, modular	retractors
calculator	scales
camera	shell, aluminum
camron-mitter electrosurg	slides
cavitron	spatulas
centrifugal casting machine	sterilizers
cephalograph	stool, assistant's
cotton roll holder	stool, operator's
culture tubes and plates	suction apparatus
dam equipment, rubber	syringe warmer
dental chair, motorized	syringes
dental lathe	telephone
dental units, conventional	tonator for flouride
dental units, high speed	trays, impression
dental units, portable	typewriter
gas burner	ultrasonic portable unit
glass slab	vacuum pump
gold foil equipment	vibrator
hemolet	view box
hemostats	wax templates
hydrocolloid conditioners	welding machine, electric
instrument sharpener, mechanical	wire farming tools
instruments, hand cutting	x-ray machine
instruments, non-cutting	x-ray processing equipment
instruments, polishing	
instruments, rotary cutting	
instruments, surgical	
mallets, electronic	
matrix retainers	
microscopes	
mixer, mechanical
