

# EQUIPMENT LIST

## SURGICAL TECHNOLOGY (postsecondary)

Students in this program should have access to the following equipment:

|                                       |                                       |                                     |
|---------------------------------------|---------------------------------------|-------------------------------------|
| abdominal set, basic                  | basin stand, single (stainless steel) | drills, surgical                    |
| adenois curette                       | 2" casters                            | electrosurgical grounding pad       |
| adenoid punch                         | battery box                           | electrosurgical unit                |
| air equipment (stryker & Hall)        | biopsy set, basic                     | ENT drill                           |
| air tanks                             | bone screw                            | ENT instruments                     |
| anesthesia stand                      | bougie, filiform                      | esophoscope                         |
| anatomical <b>charts</b> :            | bougies                               | eye instruments                     |
| circulation,                          | Bovic unit                            | Falope rings                        |
| ear,                                  | bronchscopes                          | fiberoptic light source             |
| eye,                                  | bronchscopes, fiberoptic              | flouroscope (c-arm)                 |
| heart,                                | calipers                              | footstools                          |
| kidney,                               | cast cutter, electric                 | forcep, Adson thumb                 |
| reproductive organs,                  | cast knife                            | forcep, Adson tissue                |
| thorasic cavity                       | cast spreader                         | forcep, De hec obstetrical          |
| anatomical <b>models</b> :            | cataract cryo-extractor               | forcep, Gaylor biopsy               |
| adult mannequin                       | cataract instrument tray              | forcep, Heaney hysterectomy         |
| female reproductive organs,           | catheter, embolectomy                 | forcep, Jacobs uterine vulsellum    |
| heart model,                          | catheter, Foley and insertion set     | forcep, Laryngeal                   |
| head section model,                   | catheter, Robinson                    | forcep, Skine uterine vulsellum     |
| human ear,                            | catheter, Shunt                       | forcep, tonsil sponge               |
| human eye,                            | catheter stylete                      | forceps, 2-3 tissue                 |
| kidney,                               | cautery adapter                       | forceps, 3-4 tissue                 |
| reproductive organs,                  | chest bottles                         | forceps, 7-inch                     |
| skeleton with organs/complete         | chest tubes                           | forceps, Bayonet thumb              |
| human skeleton                        | chisels, (aasteomes)                  | forceps, Bayonet tissue             |
| thorasic cavity,                      | cidex                                 | forceps, dressing (large)           |
| torso (counter-top)                   | clamp, Doyens                         | forceps, dressing (small)           |
| anatomical <b>system charts</b> :     | clamps                                | forceps, foreign body               |
| digestive,                            | clamps, vascular                      | forceps, obstetrical                |
| endocrine,                            | clock, wall with sweep-second         | forceps, Potts-Smith                |
| genitourinary                         | colonscope                            | fracture table                      |
| lymphatic                             | compression plates                    | gastroscope                         |
| muscular,                             | Craig box set                         | goiter tenaculum                    |
| nervous,                              | craniotome                            | gowns, linen                        |
| skeletal,                             | cryo extractor (ophthalmic unit)      | gowns, patient                      |
| urinary system                        | cryo unit                             | hand surgery table                  |
| anoscope                              | curette, Dell uterine                 | head holders                        |
| arterial graft                        | curette, Heaney                       | hemostat, tonsil                    |
| arterial kit, major                   | curette, Sharp uterine                | hemostats, Halstead (curved)        |
| arthroscope                           | curettes, adenotomes                  | hemostats, Halstead (straight)      |
| aspirators                            | D & C set                             | hemovac drains                      |
| atomizer with anesthetic agent        | dental equipment                      | hip nailing equipment               |
| autoclave, electrical (steam & dry)   | depth gauge ruler                     | hip replacement instruments, total  |
| autoclave, sterilizer                 | dermabrasion set                      | instrument stand, adjustable        |
| autosuture devices                    | dermatome, brown air                  | (stainless steel)                   |
| AV equipment                          | dermatome, electric                   | instrument tray, plastic            |
| AV materials                          | dermatome meshgraft                   | insulflator                         |
| basins, emesis                        | dilator, Goodell                      | intramedullary pin, driver          |
| basins, lap (stainless steel)         | dilator, Wyle                         | IV stands on casters                |
| basins, 7-quart (stainless steel)     | dilators, Hegar uterine               | K thermia heating units and spreads |
| basin stand, double (stainless steel) | doll, adult                           | Kellys (Mayo-Pean clamps)           |
| 2" casters                            | drapes, muslin                        | keratomes                           |

kety's, long  
 kickbuckets on casters  
 knee immobilizers  
 knee implants & instruments, total  
 knife handles, #3 BP  
 knife handles, #4 BP  
 knife, Lebsche and mallet  
 Knowles pins  
 cockers, curved  
 cockers, long curved  
 cockers, long straight  
 cockers, straight  
 lakeside carts, 3-shelf  
 laminectomy equipment  
 lamp, auxiliary  
 laparotomy, major set-up (linens)  
 laparscope  
 laryngeal mirrors  
 laryngoscope  
 light cord  
 linen hamper with bag  
 mannikin, adult  
 Mayo standard-U-base (stainless steel) adjustable with 2" casters  
 mediastinal-scope  
 medicine cups (stainless steel)  
 microscopes  
 microscopic instruments  
 mirror, head  
 mirror, wall-mounted  
 mucous trap  
 mouth gag  
 nail driver and extractor  
 needles, ventricular  
 needle holder, Heaney  
 needle holder, long  
 needle holders, Frencheye  
 needle holders, long arterial  
 needle holders, medium  
 nephrectomy instruments set  
 neuro instruments, fine  
 operating overhead lights with sterile handles  
 operating room table:  
   electric,  
   3 section mattress table  
   attachments,  
   stirrups,  
   kidney braces,  
   shoulder braces,  
   ether screen,  
   arm boards,  
   knee strap  
 orthairtome drill  
 orthopedic set, major  
 pacemaker with electrodes (implantable)  
 perfusion tubing and connectors  
 prosthesis, hip  
 prosthesis, micro-ENT  
 prosthesis, vascular  
 receptacle, waste  
 resectoscope  
 resuscitation training model  
 retractor, army-navy  
 retractor, Book-walter  
 retractor, Eastman vaginal  
 retractor, Gelpi  
 retractor, Hurd  
 retractor, Pillar  
 retractor, Weitlaner  
 retractors, Balfour  
 retractors, chest  
 retractors, narrow ribbon  
 retractors, self-retaining  
 retractors, wide ribbon  
 retractors, wide Deaver  
 rib approximatore  
 rib sheers  
 rubber tips (large and small)  
 saw, sternal  
 scapula cups and retractors  
 scissors, heavy  
 scissors, long arterial  
 scissors, Mayo curved  
 scissors, Mayo straight  
 scissors, Metzenbaum  
 scrub sinks, double  
 sheets, drape  
 sheets, draw  
 sheets, large  
 Shirley sump drains  
 sigmoidoscope with attachments  
 skin board  
 snare  
 soft tissue set, basic  
 solution warmer  
 speculum, anal  
 speculum, weighted vaginal  
 stools, roll-away  
 stopcocks, three-way  
 stretcher  
 stretcher IV pole  
 stretcher mattress  
 stretcher safety strap  
 stretcher side rails  
 Stryker frame  
 suction cannister unit on casters  
 suction drain, hemovac  
 suction drain, hysterovac  
 suction drain, Jackson-Pratt  
 suction tip, Frazier  
 suction tips, Poole  
 suction tips, Yankauer  
 suction tips and tubing  
 surgical lamp, double-track mounted  
 tables, instrument with lower shelf  
 thoracotomy tray, basic  
 tonsil shave and wires  
 tourniquets  
 towel clips  
 towels, bath  
 towels, surgical  
 tracheostomy tray  
 trays, Mayo (stainless steel)  
 ultrasonic cleaner  
 uterine sound, Sims  
 vascular clips and applicators  
 vein strippers  
 vitrectomy tray  
 washer sterilizer  
 water-seal drainage set (Pleur-a-vac)  
 x-ray machine (portable)  
 x-ray viewbox
