¹ To provide meaningful results and to protect the privacy of individual students, data are not reported when the total number of students in a group is fewer than 10 or when all the students in a group are in the same category (i.e., all in the same Achievement Level or all earning "Level 3 or Above"). An asterisk (*) appears when data are suppressed.

² On January 14, 2015, the State Board of Education established Achievement Levels for the Civics End-of-Course (EOC) Assessment. Fall and Winter 2014 Civics EOC Assessment scores were reported to students on the new score scale, but at that time, the Achievement Levels had not been established. The Fall and Winter 2014 results have been retrofitted to the established Achievement Levels so that stakeholders and the general public are able to see what the results would have been if the Achievement Levels had been approved and implemented at that time.

³ Results in this report include first-time testers only.

⁴ Adding the percentages in Levels 3-5 may not result in the percentage reported under "Percentage Passing (Level 3 or Above)" due to rounding.
