 Grades 4 and 5 Reading and Mathematics  
 2007-2010

**These tables present the number of test items (questions) and points for the reporting categories in reading and in mathematics for each year 2007 through 2010. For grades 4 reading and 5 math, the number of points is more than the number of items because of test questions that require students to write a response. These questions earn more points.**
