

# CELLA Interpretive Guide

---

## The Purpose of the CELLA

Florida uses the Comprehensive English Language Learning Assessment (CELLA) as a tool to measure the progress of English Language Learners' (ELLs) proficiency in English; thus, ensuring the skills needed in school to achieve at high levels, academically. For more information about the CELLA, visit the Florida CELLA website at <http://www.fldoe.org/aala/cella.asp> to download the CELLA Parent Information Brochure and Interpretive Guide in the following languages:

- English
- Spanish
- Arabic
- Chinese/Zhongwen
- French
- Haitian Creole
- Portuguese
- Russian
- Tagalog
- Urdu
- Vietnamese

## Uses of the CELLA Scores

The CELLA provides individual student information to parents and teachers. It also provides information to schools, districts, and the state on how well a school's programs are working.

The CELLA provides evidence of program accountability in accordance with Title I and Title III of No Child Left Behind (NCLB). NCLB mandates schools and districts to meet state accountability objectives for increasing the English language proficiency of English language learners. These accountability requirements are called Annual Measurable Achievement Objectives (AMAOs).

States are required to report on the achievement of three AMAOs:

1. Progress towards acquiring English language proficiency
2. Attainment of English language proficiency
3. Academic progress in academic reading and mathematics by ELLs

Annual goals must be set for each objective. Districts that do not meet the goals for all three AMAOs must inform the parents of all ELLs about the district's performance. This notice must be provided, if possible, in a language the parent understands. For additional information regarding NCLB, go to <http://www.fldoe.org/nclb>.

# 2015 CELLA Individual Student Report (ISR)

Every student who takes the CELLA will receive an ISR containing information about his or her performance on the test. A sample of the front page of an ISR is below. The letters A, B, C, and D match the descriptions of the information provided.

## **A** Student Information

This section displays the student's name, identification number, date of birth, home language, test date, grade, and test level. In addition, this section includes information of the school and district that administered the CELLA to the student.

## **B** Scale Scores

This section summarizes the student's performance within each section (Listening/Speaking, Reading, and Writing) of the CELLA. The following information is shown in the blue boxes:

**Performance Level** is indicated by a black arrow that points to the rank of the student's Performance Level (Beginning, Low Intermediate, High Intermediate, and Proficient) and shows how the student's score compares to all possible scores on that section of the test. The rank of the Performance Level within each section is listed again at the bottom of the blue boxes.

**Points Scored** is the number of points the student earned on that section of the test.

**Possible Points** is the number of points the student would receive if he or she answered every question correctly.

**Scale Scores** show the student's performance on each section of the test.

Note:

**NT** (Not Tested) displayed in any Scale Score box means that the student did not complete enough test questions to provide a valid test score, or the test section was invalidated.

**ET** (Exempt from Test) displayed in any Scale Score box means that the student was not given that section of the test.

**OLT** (Off Level Test) displayed in any Scale Score box means that the student was not administered the appropriate test level for the student's grade level.

For additional information on why the student did not receive a score or was exempted, contact the student's teacher.

## **Ⓒ Sub-Scores**

This section of the Student Report displays the sub-scores. Sub-scores are given for Listening/Speaking and Reading/Writing. These sub-scores give more detailed information about the student's academic strengths and weaknesses.

Sub-scores are considered "raw scores," which include the number of points the student scored correctly on that section of the test. As a result, sub-scores are only valuable in relation to the test and cannot be compared from year to year.

For students taking Level A, the number of points possible in the sub-scores for a section may not add up to the total number of possible points in that section of the test as a whole. That is because some test items are included in the overall score, but are not included in the sub-scores.

## **Ⓓ Footnotes**

Footnotes define the abbreviations that might appear on the Student Report.

**NT** (Not Tested) – The student answered too few items to receive a score, the student was not tested for that section, or the test section was invalidated.

**ET** (Exempt from Test) – The student was not tested due to being exempted from that section. Deaf and Hard-of-Hearing students are the only students that may be exempted from a test section.

**OLT** (Off Level Test) – The test level was not appropriate for the student's grade level.
