Commissioner

## Introduction

| District: | Enrollment Group: | PK-12 Population: | Percent Disabled: |
| :--- | :--- | :--- | :--- |
| Bradford | less than $\mathbf{7 , 0 0 0}$ | $\mathbf{3 , 2 7 8}$ | $\mathbf{2 1 \%}$ |

The LEA profile is intended to provide districts with a tool for use in planning for systemic improvement in exceptional education programs. The profile contains a series of data indicators that describe measures of educational benefit, educational environment, prevalence, parent involvement and provides information about district performance as compared to state level targets in Florida's State Performance Plan (SPP). Required by IDEA 2004, the State Performance Plan (2005-2012) is a eight-year plan that establishes annual benchmarks and targets for 20 indicators. Annual Performance Reports (APR) are submitted to report progress in these performance areas and the process requires annual public reporting for the state and each local education agency.

Data in the LEA profile are presented for the district and the state. Where appropriate and available, comparative data for enrollment group and/or general education students are included. Indicators in bold are part of the State Performance Plan.

Data presented as indicators of educational benefit (Section One)

- NCLB graduation rate
- Standard diploma graduation rate
- Dropout rate
- Postschool outcome data

Note: Statewide assessment data (participation and performance) are published separately in the fall of each year.

Data presented as indicators of educational environment (Section Two)

- Students with disabilities ages 6-21 by placement setting
- Children with disabilities ages 3-5 by placement setting
- Part C to Part B transition
- Secondary Transition IEPs
- Students with disabilities suspended/expelled for more than 10 days in a school year

Data presented as indicators of prevalence (Section Three)

- Evaluations completed within 60 days
- Student membership by race/ethnicity
- Risk ratios of racial/ethnic groups being identified as disabled

Data presented as an indicator of parent involvement (Section Four)

- Survey of parent perceptions

## Selected State Performance Plan indicators (Section Five)

## - Summary information on selected state performance plan indicators

- State level targets
- District level data

## Data Sources and Reporting

The data contained in this profile were obtained from data submitted electronically by districts through the Department of Education Information Database in surveys 2 and 5, parent survey submissions, the Florida Education and Training Placement Information Program (FETPIP), and through the Department of Health (DOH) Early Steps program.

Data contained in Section One through Section Four are rounded to the nearest whole number. Because rounding is not used in determining if SPP targets have been met, data in Section Five contain all decimal places.

## Districts in Enrollment Group:

Baker, Bradford, Calhoun, DeSoto, Dixie, Franklin, Gadsden, Gilchrist, Glades, Gulf, Hamilton, Hardee, Hendry, Holmes, Jefferson, Lafayette, Levy, Liberty, Madison, Okeechobee, Suwannee, Taylor, Union, Wakulla, Washington, Dozier/Okeechobee, FAMU Lab School, FAU Lab School, FL Connections, FSDB, FSU Lab School, FL Virtual Academy, UF Lab School

## Section One: Educational Benefit

Educational benefit refers to the extent to which children benefit from their educational experience. Progression through and completion of school are dimensions of educational benefit as are postschool outcomes. This section of the profile provides data on indicators of school completion, and postschool outcomes.

## No Child Left Behind (NCLB) Graduation Rate:

The number of first-time ninth graders from four years ago, plus incoming transfer students on the same schedule to graduate, minus students from this population who transferred out or left to enroll in a private school, home education, or adult education, divided into the number of standard diploma graduates from the same group. The resulting percentages are reported for the three-year period from 2007-08 through 2009-10 for students with disabilities and all students.

## Standard Diploma Graduation Rate:

The number of standard diploma graduates divided by the number of students with disabilities who completed their education (received either a standard diploma, GED, special diploma, certificate of completion or special certificate of completion) or dropped out. This graduation rate is calculated based on the total number of students with disabilities who exited school in a given year, rather than using the four-year cohort model described in the NCLB graduation rate. The data are reported for the three year period from 2007-08 through 2009-10.

Standard Diploma Graduation Rate for Students with Disabilities

| Enrollment Group | $48 \%$ | $48 \%$ | $48 \%$ |

## Dropout Rate:

The number of students grades 9-12 for whom a dropout withdrawal reason (DNE, W05, W11, W13-W23) was reported, divided by the total enrollment of grades 9-12 students and students who did not enter school as expected (DNEs) as reported at the end of the school year (survey 5). The resulting percentages are reported for students with disabilities, all students, students identified as emotionally/behaviorally disabled (EBD), and students identified as specific learning disabled (SLD) for the years 2007-08 through 2009-10.

## Postschool Outcome Data:

The Florida Education and Training Placement Information Program (FETPIP) is an interagency data collection system that obtains follow-up data on former students. The most recent FETPIP data available reports on students who exited Florida public schools during the 2008-09 school year. The table below displays percentage of students with disabilities exiting school in 2007-08 and 2008-09 who were found during the fall/winter following the school year and were (1) enrolled in higher education, (2) enrolled in higher education or competitively employed, and (3) enrolled in higher education or some other

## Section Two: Educational Environment

Indicators related to educational environment address the extent to which students with disabilities receive special education with their nondisabled peers, timely transition from Part C programs to Part B programs, secondary transition IEPs, and risk ratios of out-of-school suspensions/expulsions for students with disabilities when compared to nondisabled peers.

## Regular Class, Resource Room, Separate Class Placement, and Other Separate Environments, Ages 6-21:

The number of students with disabilities ages 6-21 in regular class, resource room, separate class, and other separate environment, divided by the total number of students with disabilities ages 6-21 reported October (survey 2). Regular class includes students who spend 80\% or more of their school week with nondisabled peers. Resource room includes students spending between $40 \%$ and $80 \%$ of their school week with nondisabled peers. Separate class includes students spending less than $40 \%$ of their week with nondisabled peers. Other separate environment includes students served in public or private separate schools, residential placements or hospital/homebound placements. The resulting percentages are reported for the three years from 2008-09 through 2010-11. Students served in corrections facilities and students enrolled by their parents in private schools who are receiving special education and/or related services from the LEA are not included in this calculation.

## Early Childhood Education Settings, Ages 3-5:

The number of students with disabilities ages 3-5 attending a regular early childhood program or kindergarten at least 10 hours a week and receiving the majority of special education and related services in the regular early childhood program; attending a regular early childhood program or kindergarten at least 10 hours a week and receiving the majority of special education and related services outside the regular early childhood program; attending a regular early childhood program or kindergarten less than 10 hours a week and receiving the majority of special education and related services in the regular early childhood program; attending a regular early childhood program or kindergarten less than 10 hours a week and receiving the majority of special education and related services outside the regular early childhood program; attending a special education program in a class with less than $50 \%$ nondisabled children; attending a public or private day school designed specifically for children with disabilities; or in another separate environment (residential facility, home or service provider location) divided by the total number of students with disabilities ages $3-5$ reported in October (survey 2). Students attending a regular early childhood program or kindergarten are those who spend any time in a program that includes at least 50\% nondisabled children. The resulting percentages are reported for 2010-11.

## Part C to Part B Transition:

The number of children referred for eligibility determination by Part C prior to age 3 , who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays, divided by the number of children served in Part C and referred to Part B for eligibility determination (not including children determined to be ineligible for Part B prior to age 3 or children for whom parent refusal to provide consent caused delays in evaluation or initial services). The resulting percentages are reported for 200708 through 2009-10.

## LEA Profile 2011

IEP Developed and Implemented by 3rd Birthday

|  | 2007-08 | $\mathbf{2 0 0 8 - 0 9}$ | $\mathbf{2 0 0 9 - 1 0}$ |

| Bradford | $100 \%$ | $100 \%$ | $\mathbf{1 0 0 \%}$ |
| State | $90 \%$ | $99 \%$ | $\mathbf{1 0 0 \%}$ |

## Secondary Transition IEPs:

The percentage of compliant transition IEPs are calculated by dividing (a) the number of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition services needs by (b) the number of youth with an IEP age 16 and above. The resulting percentages are reported for 2007-08 through 2009-10. The 2009-10 data represent new baseline data for Indicator 13.

Transition IEPs Found Compliant

| ---: | :---: | :---: | :---: |
| Bradford | $0 \%$ | $20 \%$ | $80 \%$ |
| State | $24 \%$ | $61 \%$ | $82 \%$ |

## Discipline Rates and Risk Ratios:

Discipline rates for students with disabilities and nondisabled students are calculated by dividing the number of students who received out-of-school suspensions or expulsions that total more than 10 days by total-year enrollment as reported at the end of the school year (survey 5). Discipline risk ratios are calculated by dividing the discipline rate of students with disabilities by the discipline rate of nondisabled students. Risk ratios indicate the risk that students with disabilities will be suspended/expelled for greater than 10 days compared to nondisabled students. A risk ratio of 1.0 indicates that students with disabilities and nondisabled students are equally likely to be suspended/expelled. The resulting rates are reported for students with disabilities and nondisabled students for three years from 2007-08 through 2009-10 along with risk ratios for students with disabilities.

Students with Disabilities Suspended/Expelled For Greater than 10 Days

|  | $\mathbf{2 0 0 7 - 0 8}$ | $\mathbf{2 0 0 8 - 0 9}$ | $\mathbf{2 0 0 9 - 1 0}$ |

| Bradford | $<1 \%$ | $<1 \%$ | $<1 \%$ |
| State | $<1 \%$ | $<1 \%$ | $<1 \%$ |

Risk Ratios

|  | $\mathbf{2 0 0 7 - 0 8}$ | $\mathbf{2 0 0 8 - 0 9}$ | $\mathbf{2 0 0 9 - 1 0}$ |
| ---: | :---: | :---: | :---: |
| Bradford | 2.4 | 3.3 | 1.5 |
| State | 1.6 | 1.6 | 1.4 |

Discipline risk ratios by racial/ethnic group are calculated for students with disabilities and nondisabled students by dividing the discipline rate of a specific racial/ethnic group by the discipline rate of all other racial/ethnic groups. Risk ratios indicate the risk that students (either with disabilities or nondisabled) from a specific racial/ethnic group is suspended/expelled for greater than 10 days compared to students (either with disabilities or nondisabled) from all other racial/ethnic groups. A risk ratio of 1.0 indicates that, for instance, white students with disabilities are equally likely to be suspended/expelled as students with disabilities from all other racial/ethnic groups. The resulting risk ratios are reported for students with disabilities and nondisabled students from 2008-09 through 2009-10. The 2008-09 data represent new baseline data for Indicator 4b. Blank cells indicate that there are less than 10 students (either with
disabilities or nondisabled) for a specific racial/ethnic group suspended/expelled for greater than 10 days. N/A refers to risk ratios that cannot be calculated because the sum of all other racial/ethnic groups is zero.

2008-09 Risk Ratios

|  | Nondisabled Students | Students with Disabilities |
| ---: | ---: | ---: |
| White |  |  |
| Black |  |  |
| Hispanic |  |  |

## Section Three: Prevalence

Indicators relative to the prevalence of students with disabilities include the percentage of students evaluated within 60 days, student membership by racial/ethnic category, and risk ratios of racial/ethnic groups being identified as disabled. Beginning with the 2009-10 school year, race and ethnicity are reported using seven categories to comply with federal requirements.

## Evaluation within 60 Days:

The number of students with parental consent to evaluate who were evaluated within 60 days of referral divided by the total number of students with parental consent to evaluate in a given school year as reported via school district survey. The data are reported for 2007-08 through 2009-10.

Students Evaluated within 60 Days of Referral

|  | $\mathbf{2 0 0 7 - 0 8}$ | $\mathbf{2 0 0 8 - 0 9}$ | $\mathbf{2 0 0 9 - 1 0}$ |
| ---: | :---: | :---: | :---: |
| Bradford | $98 \%$ | $100 \%$ | $100 \%$ |
| Enrollment Group | $98 \%$ | $100 \%$ | $100 \%$ |
| State | $94 \%$ | $97 \%$ | $98 \%$ |

## LEA Profile 2011

## Student Membership by Racial/Ethnic Category:

The two columns on the left of the table below show the statewide racial/ethnic distribution for all PK-12 students and all students with disabilities as reported in October 2010 (survey 2). Statewide, there is a larger percentage of black students in the disabled population than in the total PK-12 population (26\% vs. $23 \%$ ). Similar data for the district are reported in the two right-hand columns.

## Selected Disabilities by Racial/Ethnic Category:

Racial/ethnic data for all students as well as students with a primary disability of SLD, EBD, and intellectually disabled (IND) are presented for the district and state as reported in October 2010 (survey 2).

## Risk Ratios For Students Placed in Exceptional Education:

The risk that students of a given race will be identified as a student with a disability or a student in selected disability categories when compared to students of all other races. A risk ratio of 1.0 indicates the students of a given race are equally likely as all other races combined to be identified as disabled. A risk ratio equal to NA indicates that either the race of interest or the sum of all other races is equal to zero. In calculating risk ratios, students reported as multiracial are prorated across other racial/ethnic categories. The data are presented for all students with a disability, students who are identified as IND, EBD, or SLD, and students who are identified as having autism spectrum disorder (ASD), speech or language impairments (SI-LI), other health impaired, or homebound or hospitalized ( $\mathrm{OHI}-\mathrm{HH}$ ). The data are presented for the district and the state as reported in October 2010 (survey 2). A blank cell indicates less than 30 students of a specific race/ethnicity with the given disability.

## Section Four: Parent Involvement

## Parent Survey:

The parent involvement rate is the number of parents reporting that schools facilitated parent involvement as a means of improving services and results for children with disabilities, divided by the total number of responding parents. These data are reported for parents of preschool children with disabilities and parents of children with disabilities in grades K-12 for 2007-08 through 2009-10.

Preschool Parent Involvement Rate

|  | $\mathbf{2 0 0 7 - 0 8}$ | $\mathbf{2 0 0 8 - 0 9}$ | $\mathbf{2 0 0 9 - 1 0}$ |
| ---: | :---: | :---: | :---: |

| Bradford | $21 \%$ | $38 \%$ | $38 \%$ |
| Enrollment Group | $26 \%$ | $33 \%$ | $41 \%$ |
| State | $32 \%$ | $32 \%$ | $40 \%$ |

## Section Five: Selected State Performance Plan Indicators

The following table includes selected state performance plan indicators, the state targets for 2009-10 for these indicators, district data, and whether or not the district met the target. State targets are presented in bold. Because rounding is not used in determining if targets have been met, LEA data contain as many decimal places as needed to determine if the target has been met. If, for example, $3.9 \%$ of students with disabilities in a given district drop out of school, the district will not be considered as having met the target of $4.0 \%$. For indicators 4,9 , and 10 , an " N " in the Target Met column means that a district's data contributed to Florida not making the state target. For indicators 1, 2, and 4, the data lag one year, meaning that data are from the 2008-09 school year, although more recent data may also be found in this profile.
