SUBJECT: The Future of Cloud Computing in the Workforce Webinar

Colleagues:

I am pleased to share that the Division of Career and Adult Education in partnership with Amazon Web Services (AWS) will host an informational webinar on March 25th focusing on building partnerships with school districts, academic institutions, state and local government, and employers around cloud skills training.

AWS officials will be joined by Dr. Antonio Delgado, Dean of Engineering, Technology and Design at Miami Dade College (MDC), to share how a partnership between MDC and AWS is helping students accelerate their post-graduation careers. The timing could not be more ideal, especially given the demand for cloud computing and computing technology across Florida.

School district technical colleges and Florida College System institution administrators and faculty are welcome to register for The Future of Cloud Computing in the Workforce webinar being held on **March 25th from 2:00-3:00 PM EDT** at the link below.
