

**INTRODUCTION**

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

- If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
- If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
- If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

# Expenditures

## Expenditure for Maintenance, Repair and Renovation from 1.50-Mills and PECO

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district.

## Revenue

### 1.50 Mill Revenue Source

Schedule of Estimated Capital Outlay Revenue from each currently approved source which is estimated to be available for expenditures on the projects included in the tentative district facilities work program. All amounts are NET after considering carryover balances, interest earned, new COP's, 1011.14 and 1011.15 loans, etc. Districts cannot use 1.5-Mill funds for salaries except for those explicitly associated with maintenance/repair projects. (1011.71 (5), F.S.)

### **Class Size Reduction Planning**

**Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.**

In conjunction with the opening of a new middle school next school year, the School Board just conducted a redistricting. This redistricting is to move middle and high school students from overcrowded schools into less overcrowded or under-capacity schools.

Two new charter schools are slated to open this next school year in Wesley Chapel. This will reduce the need for permanent student stations. The School District is currently reviewing other charter school applications.

A new magnet K8 school will be opening in two years and a new technical high school will be opening on the east side of the county in three years. Both of these schools will draw students from currently overcrowded schools and reduce the need for permanent student stations. Additional magnet schools are also being considered.

### **School Closure Planning**

**Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.**

Moore-Mickens Education Center was closed several years ago. A community organization currently has a long-term lease on that facility. We are looking to dispose of the Trilby Education Center. We have a couple of other vacant parcels that we are working to dispose of. Any expected revenue from these will be reinvested into our education programs.

The School Board voted to close Hudson Elementary School beginning with the 2020-2021 School Year and consolidate those students with Gulf Highlands Elementary School and Northwest Elementary School.

In addition, we continue to consider consolidation of a couple of our under-enrolled facilities.
