# Instructions for Completion

Strand: Methods of Teaching ESOL (MT)		
Standard	Description of Assignment(s)	Description of Assessment(s)
<b>MT.2: English Language Acquisition and Development</b>  Teachers will apply evidence-based practices to deliver instruction that supports and accelerates English language acquisition.	<b>Assignment(s):</b>  To demonstrate evidence-based practices that support English language acquisition, have students use the five correct short vowel sounds in the English language. The teacher will model the correct short vowel sound for each vowel. Each English Language Learner (ELL) should be paired with a native English speaker practicing the correct vowel sound. Using consonant vowel consonant (CVC) word cards, the student pairs will discuss and sort the word cards by vowel sound. The ELL student will read each word card aloud. The partner student will read it using correct pronunciation back to the student.  The purpose is to create benchmarks-aligned lesson plans structured to meet the state academic standards and Florida's English Language Development (ELD) Standard(s) to show what students are expected to know and be able to do at each grade level and across all content areas.	<b>Assessment(s):</b>  To visually assess if the students were able to match the actual vowel with sound on the CVC cards. They will also be assessed auditorily while they are saying the sounds to their partner.
Performance Indicator	Description of Assignment(s)	
MT.2.1 Demonstrate the use of evidence-based practices in English language acquisition to plan instruction that meets the needs of ELLs at varying English proficiency levels.	To scaffold the content and instruction of the phonology lesson based on the English language proficiency level of the students in your class.
