

## District Comprehensive Evidence-Based Reading Plan

Annually, school districts must develop a Comprehensive Evidence-Based Reading Plan (CERP) that outlines the components of the district's comprehensive system of reading instruction. In order to assist districts, the Florida Department of Education (Department) has developed the format below for district reading plans. Districts may utilize the Department's format or an alternative developed by the district. The CERP must be approved by the governing board or authority prior to being submitted to the Department by August 1 for approval. A charter school that elects to develop its own CERP must submit its CERP, approved by the governing board or authority, to the sponsoring district by July 15 and meet the requirements of sections (ss.) [1002.33\(7\)\(a\)2.a.](#) and [1003.4201](#), Florida Statutes (F.S.).

The District CERP depicts and details the role of administration (both district and school level), professional learning, assessment, curriculum and instruction in the improvement of student learning of the Benchmarks for Excellent Student Thinking (B.E.S.T.) English Language Arts (ELA) Standards as provided in [Rule 6A-1.09401, Florida Administrative Code \(F.A.C.\), Student Performance Standards](#). This information is reflected for all schools and grade levels and must be shared with all stakeholders, including school administrators, literacy leadership teams, literacy coaches, classroom instructors, support staff and parents.

### 1) Contact Information

The Main District Reading Contact will be the Department's contact for the District CERP and is responsible for the plan and its implementation. Other contacts are those who work primarily with an area covered within the plan. Indicate the contacts for your district. Add additional rows as needed.

| Point of Contact                                 | Name             | Email                                                                                                    | Phone        |

## 2) District Expenditures

### Comprehensive System of Reading Instruction Expenditures ([Rule 6A-6.053\(9\)\(b\)3.b., F.A.C.](#))

The reading funding included in the Florida Education Finance Program (FEFP) base funding is intended to provide comprehensive reading instruction to students in prekindergarten (PreK) through grade 12. Districts will include salaries and benefits, professional learning, assessment, programs/materials, tutoring and incentives required to effectively implement the district's plan. The expenditures must prioritize Voluntary Prekindergarten (VPK) students who have a substantial deficiency in early literacy skills and K-3 students who have a substantial reading deficiency or characteristics of dyslexia.

Charter schools must utilize their proportionate share in accordance with ss. [1002.33\(7\)\(a\)2.a.](#), [1003.4201](#) and [1008.25\(3\)\(a\)](#), F.S. *Note: All intensive reading interventions specified by the charter must be delivered by a teacher who has a literacy micro-credential or is certified or endorsed in reading.*

| Comprehensive System of Reading Instruction Expenditures                                                                                                                                                                            | Amount           | FTE (where applicable) |

### 3) Literacy Leadership – District and School

#### A. Measurable Student Achievement Goals ([Rule 6A-6.053\(9\)\(b\)3.d., F.A.C.](#))

Goals for the plan year should increase from the previous year in order to meet statewide literacy achievement goals.

For VPK, establish clear and measurable student literacy achievement goals based on percentiles from the Florida Assessment of Student Thinking (FAST).

| FAST  |                                                     |                                                     |                                                             |                                                             |
|-------|-----------------------------------------------------|-----------------------------------------------------|-------------------------------------------------------------|-------------------------------------------------------------|
| Grade | Previous School Year – % of Students Scoring        | Goal for Plan Year – % of Students Scoring          | Previous School Year – % of Students Scoring                | Goal for Plan Year – % of Students Scoring                  |
|       | Urgent Intervention<br><10 <sup>th</sup> percentile | Urgent Intervention<br><10 <sup>th</sup> percentile | At & Above Benchmark<br>40 <sup>th</sup> percentile & above | At & Above Benchmark<br>40 <sup>th</sup> percentile & above |
| VPK   | 1.6%                                                | <1%                                                 | 90%                                                         | 91%                                                         |

**1. Describe how the district will improve literacy outcomes for VPK students based on an analysis of student performance data.**

Our PM 3 data indicates that 68% of our students are Kinder-Ready. There is a larger number of students that are not proficient in classrooms with less experienced teachers, so our focus for improvement will be around professional learning and coaching. We will use assessment and walkthrough data to create individualized coaching cycles for less experienced teachers and we will continue to strengthen our PLC process with a focus on engaging in data-driven discussions using multiple sources of data to inform instructional decisions.

**For K-10, establish clear and measurable student literacy achievement goals based on achievement levels from the FAST.**

| FAST  |                                              |                                            |                                              |                                            |

**2. Describe what has been revised to improve literacy outcomes for students in the district's CERP based upon the District CERP Reflection Tool and a root-cause analysis of student performance data.**

In an effort to support early literacy and prevent growing reading gaps, we are implementing the iReady suite for all tiers of instruction in grades K-5. We will continue pushing for fidelity of implementation in our secondary literacy interventions as we move into the second year with the intervention programs. We will continue to strengthen our Science of Reading PL for instructional and literacy coaches as well as school based Core Teams.

**3. Describe the process used by principals to monitor implementation of the reading plan, including the frequency of reading walkthroughs conducted by administrators.**

Using a newly developed district-created walk-through tool weekly, school leaders, coaches, and district support staff will focus feedback and PL sessions on utilizing core materials with fidelity, standards-based instruction, use of evidence-based instructional strategies, differentiated instruction, and enhanced Tier 2 interventions. School Literacy Leadership teams will monitor the implementation of school improvement goals as related to literacy.

**4. In addition, describe how principals monitor collection and utilization of assessment data, including progress monitoring data, to inform instruction and support needs of students.**

School principals will lead and/or review agendas from School Literacy Leadership team meetings, and collaborative planning meetings to monitor the collection and utilization of assessment data. When such meetings occur, the meeting participants will analyze the progress monitoring data, district interim data, unit assessments data, intervention data, and data gathered from literacy walk-through tools to inform instructional needs of all students. Principals will utilize the District Data Protocol while analyzing data from Educlimber, state testing platforms, and the district psychometrician, as they make instructional leadership decisions. Principals, in collaboration with their School Literacy Leadership teams, look for grade-level and school trends regarding strengths and weaknesses in both the state testing data as well as the district formative assessment data. State and district data will drive analysis to determine where additional support is needed for both students and staff, and troubleshoot ways to provide the necessary support, resources, and/or coaching. Coaches will support teachers as they analyze grade/student level data and align the results with upcoming instructional strategies. Coaching cycles are offered to individual teachers in response to data or upon teacher request.

Additional support may come in the form of:

- peer observations of model classrooms to observe evidence-based reading strategies
- additional professional learning provided by the Curriculum and Instruction coaches
- additional professional learning organized by the Professional Development Center
- a targeted book study conducted by a school-based PLCs
- evidence collected from the district walk through tool

**C. Literacy Coaches ([Rule 6A-6.053\(4\), F.A.C.](#))**

The Just Read, Florida! literacy coach model delineates the roles and responsibilities of literacy coaches.

- **Is the district using the Just Read, Florida! literacy coach model as defined in [Rule 6A-6.053\(4\), F.A.C.](#)?**

☒ Yes

☐ No

- **If no, please describe the evidence-based coach model the district is using.**

N/A

- **How is the district's literacy coach model communicated to principals?**

The literacy coach model is embedded within CCPS' Literacy Coach job description. At the first principal's meeting, the principals and coaches will meet to collaboratively plan literacy and teacher support for the 2026-2027 school year. The coaching guidance document will be continuously reviewed throughout the school year at principal's meetings.

- **How does the district support literacy coaches throughout the school year?**

The Division of Learning provides regular training to principals to support their role in the implementation of literacy coaches, and job-embedded professional learning in the form of a Principal's Coach and guidance from the Division of Learning. In addition, the Division of Learning will host monthly coaching collaboratives for the literacy coaches which will occur in the format of a District Learning Community (DLC) and will employ a train-the-trainer model. State Regional Literacy Directors are sought out to provide professional learning to the coaches throughout the school year. Newly onboarded coaches will also be Literacy Coach Endorsed by the end of the school year through the FCRR FDOE's Literacy Coach Endorsement Program.

- **How is the district supporting coaches with prioritizing high-impact activities, such as conducting data analysis with teachers to establish goals and create action plans, coaching and providing professional learning based on need?**

Coaches will implement focused coaching cycles, conduct data analysis, support PLCs, and utilize several methods of coaching models such as collaborative planning, instructional rounds, and modeling lessons. The district will support these high-impact activities through monthly coaching meetings with members of the Division of Learning. Through our monthly Coaching Collaboratives, coaches have the opportunity to reflect, learn, problem solve, and brainstorm with support from the Curriculum and Instruction Specialists and other Division of Learning Staff. Coaches will continue to utilize the District Data Protocol with teachers as they are coaching and participate in School Literacy Leadership Meetings.

- **How does the district monitor implementation of the literacy coach model?**

Coaches will be expected to meet weekly/ bi-weekly with the school principal (or principal designee) to review the coach's list of priorities in response to his or her coaching. The coach will track evidence of impact within an electronic coaching platform. At the monthly principal meetings, the Division of Learning Leadership will work with principals to identify strengths and weaknesses within the coaching models at their schools and collaborate to find solutions when necessary. Curriculum and Instruction Specialists and Professional Learning Specialists will meet with school-based literacy coaches once a month to provide training and to assist with coaching struggles that may arise.

- **How does the district measure the effectiveness of literacy coaches?**

All coaches utilize an electronic coaching platform to measure instructional impact. Coaches will share interaction and impact cycle data with principals to collaborate and determine instructional needs for the school.

## ● **Assessment, Curriculum and Reading Instruction**

### **A. Florida's Formula for Reading Success ([Rule 6A-6.053\(3\)\(a\), F.A.C.](#))**

K-12 reading instruction will align with Florida's Formula for Reading Success, 6 + 4 + T1 + T2 + T3, which includes:

- **Six components of reading:** oral language, phonological awareness, phonics, fluency, vocabulary and comprehension.
- **Four types of classroom assessments:** screening, progress monitoring, diagnostic and summative assessment.

- **Three tiers of instruction that are standards-aligned;** include accommodations for students with a disability, students with an Individual Educational Plan (IEP) and students who are English language learners; and incorporate the principles of Universal Design for Learning as defined in [34 Code of Federal Regulations 200.2\(b\)\(2\)\(ii\)](#).
  - **Core Instruction (Tier 1):** provides print-rich explicit and systematic, scaffolded, differentiated instruction and corrective feedback; builds background and content knowledge; incorporates writing in response to reading.
  - **Supplemental Instruction/Interventions (Tier 2):** provides explicit, systematic, small group teacher-led instruction matched to student need, targeting gaps in learning to reduce barriers to students' ability to meet Tier 1 expectations; provides multiple opportunities to practice the targeted skill(s) and receive corrective feedback; occurs in addition to core instruction.
  - **Intensive, Individualized Instruction/Interventions (Tier 3):** provides explicit, systematic individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback and frequent progress monitoring; occurs in addition to core instruction and Tier 2 interventions. Tier 3 interventions must be provided to students identified as having a substantial deficiency in reading. All intensive reading interventions must be delivered by instructional personnel who are certified or endorsed in reading or possess a literacy micro-credential as provided in [s. 1003.485, F.S.](#)

**1. How does the district's strategic plan align with Florida's Formula for Reading Success for all students, including students with disabilities and students who are English language learners?**

All students, including those with an identified disability and those who are English Language learners, will follow the CCPS Instructional Framework which is consistent with Florida's Formula for Success.

The district instructional framework has 6 domains: Assessment & Data, Standards-Based Instruction, Curriculum, Environment, Literacy and Professional Learning. Each domain includes key terms which outline expectations within each domain. Explicit and systematic instruction, differentiation and scaffolded instruction are all tied to the Standards Based-Instruction domain. An additional lesson structure is a provided resource in our instructional framework which is consistent with language outlined in Florida's Formula for Success. It chunks the lesson into 5 parts similar to the 5 E model which includes differentiated core instruction, modeling and guided practice and both formative and summative assessment of student learning. In addition, the updated literacy block is aligned to the six components of literacy instruction.

Additionally, students with a federal plan (IEP, 504, or LEP) will have the additional support required by their plan to include accommodations, specialized instruction, and related services.

**2. Describe your public school PreK (VPK, Exceptional Student Education (ESE) and other PreK) program's plan for assessment, standards, instruction and support to meet the needs of all learners.**

For VPK:

Within the first 45 days of school, preferably prior to the child's first day, the teacher and parent work together to administer the ASQ-3, a developmental screening tool and the ASQ-SE a social emotional screening tool. Data collected provides a baseline that assists teachers in planning for and supporting children's learning.

- The AIM Assessment system is used throughout the year as an ongoing progress monitoring tool. Using observation and documentation, teachers track each child's development and create individual learning plans accordingly. PreK students also complete STAR assessments three times throughout the year. This tool gauges kindergarten readiness and provides teachers with additional data to support children regardless of developmental level.
- Programs use the research-based Frog Street curriculum which is aligned with both state and national early learning standards. Teachers are expected to refer to and use the standards when planning lessons. Frog Street provides alternative activities, lessons and resources for children below, at, and above expected developmental levels. Conscious Discipline is used as a social-emotional curriculum. This system helps create a "school family" grounded in respect and kindness. In order to best ensure that the curricula are being

implemented as intended, each team is assigned an Educational Specialist who acts as a coach/mentor and provides support and feedback. Specialists utilize a coaching-to-fidelity tool which is aligned with the curricula as a means to guide observations and support improvement planning.

- The CLASS observation tool is administered twice each year to assess teacher-child interactions and instructional quality. Ed Specialists are trained and reliable CLASS observers and conduct one administration per year. The program hires an outside agency to administer the second CLASS to ensure reliable and accurate data is being collected. Information gathered is shared with teachers and indicated coaching and support follows.

**For ESE Pre-K:**

- CCPS staff members complete the Child Outcome Summary (COS) when they enter pre-kindergarten
- For progress monitoring, teachers use the Hawaii Early Learning Profile (HELP).
- ESE Pre-K program uses state and nationally aligned, standards-based curriculum. Teachers are expected to refer to and use the standards when planning lessons. Teachers provide alternative activities, lessons and resources for children below, at, and above expected developmental levels.
- When the students exit the ESE Pre-K program, a final COS is completed to determine the student's growth over the course of time.

**2a. Describe the instructional materials your public school PreK (VPK, ESE and other PreK) program utilizes.**

- Frog Street: A research-based program designed to support the holistic development of four year olds, encompassing social emotional, physical, language, and cognitive growth.
- Conscious Discipline: A social emotional learning curriculum that focuses on building self-regulation, positive relationships, and problem-solving skills in children.

**3. Describe the interventions provided to public school VPK students identified as having a substantial deficiency in early literacy skills as defined in [Rule 6A-6.053\(5\), F.A.C.](#)**

For students without a PM3 score from the FAST/STAR assessments, percentile rankings from PM1 will be used (less than the 10th percentile for Tier 3 and less than the 25th percentile for Tier 2).

- Teachers utilize the Individual Instructional Strategies provided within the FAST/STAR Assessment system. They are included in individual learning plans implemented throughout the day.
- Teachers utilize the instructional strategies provided in the Florida Early Learning and Developmental Standards. They are included in individual learning plans implemented throughout the day.
- Teachers implement the Heggerty curriculum with more intensity for students identified as having substantial deficiency in early literacy skills.
- Classrooms combine, organizing students into literacy learning groups based on ability. Partnering lower performing students with teachers skilled in remediation.
- Teachers utilize Frog Street's Differentiated Learning Guide to individualize according to each student's developmental level.

**B. Assessment/Curriculum Decision Trees ([Rule 6A-6.053\(9\)\(b\)4., F.A.C.](#))**

Districts are required to develop Assessment/Curriculum Decision Trees to demonstrate how data will be used to determine specific reading instructional needs and interventions for all students in grades K-12. Use Assessment/Curriculum Decision Trees to address ALL students. The template can be used for grade bands or for individual grades.

The Decision Trees must contain the following information:

- Name of each assessment, targeted audience, component(s) of reading assessed, type of assessment, the frequency of data collection and the method and timeframes by which assessment data will be provided to teachers and parents. For students in VPK through grade 10, the FAST must be administered pursuant to [s. 1008.25\(9\)\(b\), F.S.](#), and included as a component of the Assessment/Curriculum Decision Trees.
- Performance criteria used for decision-making for each assessment at each grade level.
- Evidence-based instructional materials and strategies.
- Specific criteria for when a student is identified to receive intensive reading interventions (Tier 3), what intensive reading interventions will be used, how the intensive reading interventions are provided and assurance that intensive reading interventions are delivered by a teacher who is certified or endorsed in reading or instructional personnel who possess a literacy micro-credential.
- Identification of the multisensory interventions provided to students in grades K-3 who have a substantial deficiency in reading or characteristics of dyslexia, including a description of the intensive, explicit, systematic and multisensory reading interventions which will be provided to students in grades K-3.

Note: Evidence-based instructional materials and strategies have a significant effect on improving student outcomes and meet strong, moderate or promising levels of evidence as defined in [20 United States Code \(U.S.C.\) s. 7801\(21\)\(A\)\(i\)](#):

- (A) ...an activity, strategy or intervention that –
- (i) demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on –
- (I) strong evidence from at least 1 well-designed and well-implemented experimental study;
- (II) moderate evidence from at least 1 well-designed and well-implemented quasi-experimental study; or
- (III) promising evidence from at least 1 well-designed and well-implemented correlational study with statistical controls for selection bias.

## Grades VPK-5

### 1. Grades VPK-5 Assessments

| FAST                     |                                                                                                                                       |                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                           |                                              |

● **Students with a Substantial Deficiency in Reading ([Rule 6A-6.053\(6\), F.A.C.](#))**

Students identified with a substantial deficiency in reading must have an individualized progress monitoring plan that is designed to address the student's specific reading deficiency and that meets the minimum requirements set forth in [s. 1008.25\(4\)\(c\), F.S.](#) The individualized progress monitoring plan must be developed within forty-five (45) days after the results of the coordinated screening and progress monitoring system become available, and parents must be consulted in the development of the plan.

Students with qualifying disabilities covered by an IEP or a 504 Plan are exempt from the requirement to have a progress monitoring plan, if the IEP or 504 Plan addresses the student's reading deficiency. Nothing in [Rule 6A-6.053, F.A.C.](#), should be construed to require or prohibit an IEP or 504 Plan or the contents of the CERP.

A K-3 student is identified as having a substantial deficiency in reading if the student demonstrates through progress monitoring, formative assessments or teacher observation data, minimum skill levels for reading competency in one or more of the six (6) components of reading; and

- The student is identified as in need of Tier 3 interventions; or
- The student was retained the previous school year; or
- For kindergarten through grade 2, the student scores:
  - Below the tenth (10<sup>th</sup>) percentile or is unable to complete the practice items on the designated grade-level assessment at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to [s. 1008.25\(9\), F.S.](#); or
  - Level 1 at the end of the year test administration of the coordinated screening and progress monitoring system pursuant to [s. 1008.25\(9\), F.S.](#); or
- For grade 3, the student scores:
  - Below the twentieth (20<sup>th</sup>) percentile at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to [s. 1008.25\(9\), F.S.](#); or
  - Level 1 on the statewide, standardized ELA assessment pursuant to [s. 1008.22\(3\)\(a\), F.S.](#)

Tier 3 interventions must be provided to students identified as having a substantial reading deficiency.

**2a. Describe the district's process (e.g., Multi-Tiered System of Supports (MTSS)) for identifying grades K-3 students in need of Tier 2/Tier 3 interventions.**

Students in K-3 are identified for tiered support initially based on their PM3 assessment scores. STAR/FAST assessment results, i-Ready Inform results along with district interim assessments, formative assessments, and classroom performance data, collectively inform the identification of K–3 students who require interventions or exhibit substantial reading deficiencies (See attached Elementary ELA Progress Monitoring Guidance Document). For students without a PM3 score from the FAST/STAR assessments, percentile rankings from PM1 will be used (less than the 10th percentile for Tier 3 and less than the 20th percentile for Tier 2).

- During **MTSS Core Team** and **grade-level teacher meetings**, occurring at least three times yearly, administrators, teachers, and staff review a combination of FAST, FAST/STAR, i-Ready Inform, district interim assessments, formative assessments, gradebook grades, and other available classroom performance data to determine students in need of Tier 2/Tier 3 interventions.
  - Students scoring at a level 2 on FAST/STAR assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to a Tier 2 intervention aligned to their area of need as determined by the district decision tree.
  - Students scoring at a level 3 on FAST/STAR assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to Tier 2 and Tier 3 interventions aligned to their area of need as evidenced by the district decision rules.

**2b. Describe the district's process (e.g., MTSS) for identifying grades 4-5 students in need of Tier 2/Tier 3 interventions.**

Students in grades 4–5 are identified for tiered support initially based on their PM3 FAST assessment scores. Those scoring at Level 1 receive both Tier 2 and Tier 3 interventions, while students scoring at Level 2 are provided Tier 2 interventions. i-Ready Inform, Formative assessments, and classroom performance are also used to guide students' need for intervention. For students without a PM3 score from the FAST assessments, percentile rankings from PM1 will be used.

- During **MTSS Core Team** and **grade-level teacher meetings**, occurring at least three times yearly, administrators, teachers, and staff review a combination of FAST, i-Ready, district interim assessments, formative assessments, gradebook grades, and other available classroom performance data to determine students in need of Tier 2/Tier 3 interventions.
  - Students scoring at a level 2 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to a Tier 2 intervention aligned to their area of need as determined by the district decision tree.
  - Students scoring at a level 3 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to Tier 2 and Tier 3 interventions aligned to their area of need as evidenced by the district decision rules.

- **Students with Characteristics of Dyslexia ([Rule 6A-6.053\(7\), F.A.C.](#))**

Students who have characteristics of dyslexia must be covered by one of the plans described in [s. 1008.25\(4\)\(b\), F.S.](#), and parents must be consulted in the development of the plan.

**3a. Describe the district's process (i.e., actionable steps) for identifying grades K-3 students with characteristics of dyslexia. Tier 3 interventions must be provided to students identified as having characteristics of dyslexia.**

Charlotte County Public Schools begins by identifying students that have a substantial reading deficiency as defined in 6A.6.053.

To identify students who may have a substantial reading deficiency, Charlotte County utilizes the i-Ready Early Literacy and Dyslexia Risk Screener, which includes i-Ready "Inform" Diagnostic tests and i-Ready Literacy Tasks administered as needed based on student needs and Inform Diagnostic data. This screening process is designed to evaluate student proficiency across the six components of reading defined by Florida's Formula for Reading Success, facilitating the identification of those exhibiting dyslexic characteristics.

1. Administer the i-Ready Inform (diagnostic) for Reading. Students in grades K–3 will take the Diagnostic three times a year during the fall, winter, and spring testing windows.
2. Administer the required grade level fluency Literacy Task immediately after the Fall i-Ready Inform diagnostic.
3. For students scoring "Approaching" or "Below Benchmark", they continue to the Dyslexia Risk Screener which will yield a result of No Observed Risk, Some Risk, or At Risk. A designation of At Risk would then be the "lowest achievement level/benchmark".
4. We will notify parents of the screening results and provide intensive interventions.

For kindergarten through grade 3, students are identified as having a substantial deficiency in reading if the student demonstrates through progress monitoring, formative assessments or teacher observation data, minimum skill levels for reading competency in one or more of the six (6) components of reading; and

- The student is identified as in need of Tier 3 interventions; or
- The student was retained in the previous year; or
- For kindergarten through grade 2, the student scores:

a. Below the tenth (10th) percentile or is unable to complete the practice items on the designated grade-level assessment at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to section (s.) 1008.25(9), Florida Statutes (F.S.), or;

b. Level 1 at the end of the year test administration of the coordinated screening and progress monitoring system pursuant to s. 1008.25(9), F.S.; or

4. For grade 3, the student scores:

a. Below the twentieth (20th) percentile at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to s. 1008.25(9), F.S.; or

b. Level 1 on the statewide, standardized English Language Arts (ELA) assessment pursuant to s. 1008.22(3)(a), F.S.

Students who are identified as having a substantial reading deficiency are then administered additional screenings to determine the specific area(s) of skill deficit. **Students that fall below grade level expectations in either phonological awareness or phonics are identified as having characteristics of dyslexia. Students**

are provided with dyslexia-specific interventions, such as structured literacy approaches, that are intensive, explicit, systematic, and multisensory.

**3b. Students with characteristics of dyslexia require additional screening pursuant to [s. 1008.25\(9\), F.S.](#) List the screener(s) utilized.**

We are utilizing the iReady Inform Diagnostic along with the Early Literacy Task (Fluency, Decoding, and Automaticity Measure) and Dyslexia Risk Indicator with students who are determined to have characteristics of dyslexia.

**4. For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 1 instruction?**

The effectiveness of Tier 1 instruction is evaluated by school-based core teams/literacy teams at least three times per year. These teams review data from state and district interim assessments, district formative assessments, and walk-through data, within the context of the Multi-Tiered System of Supports (MTSS) framework.

**5. For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?**

The effectiveness of Tier 2 interventions are monitored using the Educlimber data system by school-based core teams/literacy teams and grade level teams on regular intervals throughout the school year, within the context of the Multi-Tiered System of Supports (MTSS) framework.

**6. For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?**

The effectiveness of Tier 3 interventions are monitored using the Educlimber data system by individual classroom teachers and school-based teacher support teams (TST) every six to eight weeks, within the context of the Multi-Tiered System of Supports (MTSS) framework.

**Grades K-5 Decision Tree**

Elementary schools (K-5) must teach reading in a dedicated, uninterrupted block of time of at least 90 minutes daily to all students. The reading block will include whole group instruction utilizing an evidence-based sequence of reading instruction and small group differentiated instruction in order to meet individual student needs.

**Tier 1 (Core) Only**

**Beginning of Year Data**

Students must meet the following criteria at the beginning of the school year:

Triangulated student data indicators include but are not limited to the following:

- **FAST STAR Early Literacy or Reading:** Kindergarten - Grade 2: Scored "OnWatch" (25-39PR) or "At/Above Benchmark" (40 PR) criteria on the assessment for 2026-2027 PM1.
- **FAST:** Grade 3-5: Scored a level 3 or above on the 2025-2026 PM 3 or 2026-2027 PM1.
- **i-Ready Inform:** Students who fall one grade level "below," "on," or "above" grade level

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                   |                                                                                                                                                                                                                                                          |

| <p>UFLI, SIPPS, and Hegerty are structured, Science of Reading-aligned resources that strongly emphasize multisensory learning and include explicit and systematic instruction. Their lessons follow a consistent, interactive routine that engages students' senses to strengthen decoding, encoding, and word recognition skills. Visual elements, such as letter cards with picture cues and decodable text, are paired with auditory components like systematic phonemic awareness and phonics instruction. To reinforce sound-symbol connections, students engage in kinesthetic activities like sky writing and finger tapping, as well as tactile experiences with whiteboards and letter tiles. These strategies are so effective that teachers often apply them when using other intervention resources, ensuring a comprehensive and cohesive approach to literacy instruction.</p> |                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Additional performance criteria that prompt Tier 3 interventions for students not meeting expectations/benchmarks during the school year:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <p><b>For K-3 students who have a substantial deficiency in reading or characteristics of dyslexia, identify the multisensory strategies provided.</b></p> <p>UFLI, SIPPS, and Heggerty are structured, Science of Reading-aligned resources that strongly emphasize multisensory learning and include explicit and systematic instruction. Their lessons follow a consistent, interactive routine that engages students' senses to strengthen decoding, encoding, and word recognition skills. Visual elements, such as letter cards with picture cues and decodable text, are paired with auditory components like systematic phonemic awareness and phonics instruction. To reinforce sound-symbol connections, students engage in kinesthetic activities like sky writing and finger tapping, as well as tactile experiences with whiteboards and letter tiles. These strategies are so effective that teachers often apply them when using other intervention resources, ensuring a comprehensive and cohesive approach to literacy instruction.</p> |                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## 7. Summer Reading Camps ([Rule 6A-6.053\(8\), F.A.C.](#))

Requirements of Summer Reading Camps pursuant to [s. 1008.25\(8\), F.S.](#), include:

- Providing instruction to grade 3 students who score Level 1 on the statewide, standardized ELA assessment;
- Implementing evidence-based explicit, systematic and multisensory reading instruction in phonemic awareness, phonics, fluency, vocabulary and comprehension; and
- Providing instruction by a highly effective teacher endorsed or certified in reading.
  - *Note: Instructional personnel who possess a literacy micro-credential **may not** be assigned to these students.*

**7a. Provide a description of the district's plan to meet each requirement for Summer Reading Camps required by [s. 1008.25\(8\), F.S.](#)** As a reminder, instructional personnel providing services to retained third grade students, including those attending Summer Reading Camp, must be certified or endorsed in reading and rated highly effective as determined by the teacher's performance evaluation under [s. 1012.34, F.S.](#)

| Summer Reading Camps for Retained Grade 3 Students                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

**Describe the district's process (e.g., MTSS) for identifying grades 6-8 students in need of Tier 2/Tier 3 interventions.**

During MTSS Core Team and grade-level teacher meetings, occurring at least three times yearly, administrators, teachers, and staff review a combination of FAST, district interim assessments, formative assessments, gradebook grades, and other available classroom performance data to determine students in need of Tier 2/Tier 3 interventions.

- a. Students scoring at a level 2 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to a Tier 2 intervention aligned to their area of need as determined by the district decision tree.
- b. Students scoring at a level 3 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to Tier 2 and Tier 3 interventions aligned to their area of need as evidenced by the district decision rules.

**10. For grades 6-8, what processes and procedures are in place to identify and solve problems to improve the effectiveness of Tier 1 instruction?**

The effectiveness of Tier 1 instruction is evaluated by school-based core teams/literacy teams at least three times per year. These teams review data from state and district interim assessments, district formative assessments, and walk-through data, within the context of the Multi-Tiered System of Supports (MTSS) framework.

Literacy-focused instructional coaches are in place at each school and support grade-levels teams as they plan during PLC time and implement instruction, implementing coaching cycles when Tier 1 instruction could use additional support.

**• For grades 6-8, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?**

The effectiveness of Tier 2 interventions are monitored using the Educlimber data system by school-based core teams/literacy teams and content area teams on regular intervals throughout the school year, within the context of the Multi-Tiered System of Supports (MTSS) framework.

**12. For grades 6-8, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?**

The effectiveness of Tier 3 interventions are monitored using the Educlimber data system by individual classroom teachers and school-based teacher support teams (TST) every six to eight weeks, within the context of the Multi-Tiered System of Supports (MTSS) framework.

| Grades 6-8 Decision Tree                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                 |

**14. Describe the district's process (e.g., MTSS) for identifying grades 9-12 students in need of Tier 2/Tier 3 interventions.**

During **MTSS Core Team** and **grade-level teacher meetings**, occurring at least three times yearly, administrators, teachers, and staff review a combination of FAST, district interim assessments, formative assessments, gradebook grades, and other available classroom performance data to determine students in need of Tier 2/Tier 3 interventions.

- Students scoring at a level 2 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to a Tier 2 intervention aligned to their area of need as determined by the district decision tree.
- Students scoring at a level 3 on FAST assessments and/or consistently below grade level on district interim assessments, formative assessments, or as evidenced by classroom performance data will be assigned to Tier 2 and Tier 3 interventions aligned to their area of need as evidenced by the district decision tree.

- **For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 1 instruction?**

The effectiveness of Tier 1 instruction is evaluated by school-based core teams/literacy teams at least three times per year. These teams review data from state and district interim assessments, district formative assessments, and walk-through data, within the context of the Multi-Tiered System of Supports (MTSS) framework.

Literacy-focused instructional coaches are in place at each school and support grade-levels teams as they plan during PLC time and implement instruction, implementing coaching cycles when Tier 1 instruction could use additional support.

- **For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?**

The effectiveness of Tier 2 interventions are monitored using the Educlimber data system by school-based core teams/literacy teams and content area teams on regular intervals throughout the school year, within the context of the Multi-Tiered System of Supports (MTSS) framework.

- **For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?**

The effectiveness of Tier 3 interventions are monitored using the Educlimber data system by individual classroom teachers and school-based teacher support teams (TST) every six to eight weeks, within the context of the Multi-Tiered System of Supports (MTSS) framework.

| Grades 9-12 Decision Tree                                                                                                                                                                                                                                                                                                                              |

## 5) Professional Learning ([Rule 6A-6.053\(9\)\(b\)3.g.—k., F.A.C.](#))

Describe the literacy professional learning that will be provided by the district and/or schools, aligned to the requirements below:

- Provide professional learning required by ss. [1012.585\(3\)\(f\)](#) and [1012.98\(5\)\(b\)11., F.S.](#), which includes training to help teachers integrate phonemic awareness, phonics, word study and spelling, fluency, vocabulary and text comprehension strategies into an explicit, systematic and sequential approach to reading instruction, including multisensory intervention strategies;
- Provide professional learning in B.E.S.T. ELA Standards and evidence-based reading practices and programs;
- Provide professional learning to help instructional personnel and certified PreK teachers funded in the FEEP earn a certification, a credential, an endorsement or an advanced degree in scientifically researched and evidence-based reading instruction;
- Differentiate and intensify professional learning for teachers based on progress monitoring data;
- Identify mentor teachers and establish model classrooms within the school; and
- Ensure that time is provided for teachers to meet weekly for professional learning.

**Provide the Name of Professional Learning, Target Audience and Description. Add additional rows as needed.**

| <b>Instructional Personnel and Certified PreK Teachers</b><br><b>Describe how professional learning is provided to help instructional personnel and certified PreK teachers funded in the FEFP earn a certification, a credential or credentials, an endorsement or an advanced degree in scientifically researched and evidence-based reading instruction.</b><br>FLDOE approved Reading endorsement pathways and literacy micro-credential coursework is available free to our teachers through a variety of providers including district trained personnel in a multitude of delivery methods including on-line, synchronous and self-paced asynchronous as well as live face to face. Reading endorsement coursework is included in our FLDOE approved Professional Learning Certification Program (PLCP) available to temporarily certified teachers to earn certification. |                                                                                        |                                                                                                                                                                                  |
| <b>Differentiated Professional Learning</b><br><b>Describe how professional learning is differentiated and intensified for teachers based on progress monitoring data.</b><br>Literacy coaches provide personalized, differentiated and intensified job-embedded professional learning and tiered support based on progress monitoring data under the direction of their site-based administrators as well as at the request of individual teachers. At monthly Coaching Collaboratives, ongoing PL on B.E.S.T. ELA standards are provided by our Elementary and Secondary Curriculum and Instruction Specialists to our Literacy Coaches who then provide the training at the building level.                                                                                                                                                                                   |                                                                                        |                                                                                                                                                                                  |
| <b>Mentor Teachers</b><br><b>Describe how mentor teachers are identified and how model classrooms are established and utilized within the school.</b><br>Mentor teachers are identified at the school level by the principal according to the following criteria:<br>2. Instructional staff with at least three years in the district                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                        |                                                                                                                                                                                  |

3. A member of the mentee's department/subject area/grade level unless there are no qualified or willing candidates
4. Accomplished in the use of listening techniques, reflective questioning, collaborative planning, reflection and the use of case studies
5. Understands the content requirements of the Charlotte County NET Program
6. Completion of the most recent version of FLDOE Clinical Educator training or planned completion of the most recent version during the year in which the coach receives the supplement
7. Rated as "effective" or "highly effective" in his or her most recent evaluation
8. Has had no disciplinary offenses or ethical lapses in the previous five years of CCPS service.

Reading-endorsed mentor teachers are paired with newly hired ELA teachers, whenever possible. Principals identify model classrooms at the school level based on student performance data and teacher evaluation data. As part of coaching impact cycles Literacy Coaches facilitate instructional rounds to model classrooms within the school and district.

#### **Professional Learning Time**

**Describe how time is provided for teachers to meet weekly for professional learning.**

At the building level, PLC time is built into the master schedule for teachers to work collaboratively on data mining, lesson planning, curriculum, assessment and job-embedded professional learning.

District Learning Communities (DLC) will be offered after Progress Monitoring Window Number Two to help address gaps in student learning with grade-level teachers. These DLCs will allow teachers to share ideas and collaborate as they work towards student success in the second semester of the school year.

### **6) Tutoring Programs to Accelerate Literacy Learning ([Rule 6A-6.053\(9\)\(b\)3.b., F.A.C.](#))**

**Describe any tutoring programs available within your district and include targeted grade levels (e.g., Reading Achievement Initiative for Scholastic Excellence (RAISE) High School Tutoring). Add additional rows as needed.**

| Name of Tutoring Program | Target Audience | Description |
|--------------------------|-----------------|-------------|
| NA                       |                 |             |

### **7) Family Engagement ([Rule 6A-6.053\(9\)\(b\)3.p., F.A.C.](#))**

**In accordance with the list outlined in [s. 1008.25\(5\)\(d\), F.S.](#), describe the district's plan for immediately notifying parents of students identified with a substantial deficiency in reading.**

Parents are notified in writing with the criteria that determine their child's deficiency along with the specific area of reading where the deficit lies. Additionally, parents are provided with access to our website Charlotte County Public Schools Read at Home Plan, and an invitation to participate in the New World's Reading Initiative. Parents are also updated monthly on their child's progress with the intervention. The district partners with the Patterson Foundation to offer literacy learning events across the district, which are communicated to parents from both the school site and through social media.

**Describe the literacy partnerships or programs the district utilizes to increase support for families to engage in literacy activities and reading at home (e.g., New Worlds Reading Initiative).**

- **Izzy Book Bus-** The book bus visits elementary school family events and students have the opportunity to receive free books from the bus when they participate with their families
- **Family Reading Center-** A resource room for parents to gain valuable insight in how to assist their student at home academically

- **Remake Learning Days-** Kindergarten readiness bags were provided by the Patterson Foundation, and literacy focused family and community events
- **New Worlds Reading Initiative-** We encourage all eligible families to register to receive free books to read at home
- **Imagination Library-** We encourage parents to register for this program to receive free books to read at home
- **Public Libraries:** The district will enhance the connections with the local public libraries
- **YMCA/ Boys and Girls Club with Charlotte County Reads -** Provide before and after school (and summer) tutoring Pre-K through Grade 3 so all students are reading on grade level
- **Informational One-Pagers-** These are distributed electronically to families at all elementary schools, and they provide strategies and activities to prevent "summer slide"

## 8) Highly Effective Teachers ([Rule 6A-6.053\(9\)\(b\)3.f., F.A.C.](#))

Describe how the district prioritizes the assignment of highly effective teachers, as identified in [s. 1012.34\(2\)\(e\), F.S.](#), from kindergarten to grade 2.

The district understands that strong early literacy skills are crucial for long-term student success. To support this, the district collaborates with principals to prioritize highly effective teachers for kindergarten through second-grade classrooms.

Teacher placements are based on several factors:

- Performance evaluation ratings
- District and state test scores
- Student growth data
- Teacher certification areas

If a highly effective teacher isn't available, the district uses its coaching model to provide ongoing support. This includes personalized coaching with a focus on explicit and systematic instruction in foundational literacy skills.

## 9) Assurances ([Rule 6A-6.053\(9\)\(b\)2., F.A.C.](#))

District CERP Assurances: Initial next to each assurance (a.—i.). The [Local Educational Agency Chief Executive Officer, or his/her authorized representative] assures the following:

| Initials                                                                            | Assurance                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | a. All reading instruction and professional learning is grounded in the science of reading; uses instructional strategies that include phonics instruction for decoding and encoding as the primary strategy for word reading; and does not employ the three-cueing system model of reading or visual memory as a basis for teaching word reading.                                                      |
|  | b. All students identified with a substantial deficiency in reading are covered by an individualized progress monitoring plan that meets the requirements of <a href="#">s. 1008.25(4)(c), F.S.</a> , to address their specific reading deficiency, unless they have an IEP or 504 plan that addresses their reading deficiency, or both in accordance with <a href="#">Rule 6A-6.053(6)(c), F.A.C.</a> |

|    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
