Report Definitions

The findings for each education or training application that worked with the FETPIP program is represented on a one-page report. Each report page is divided into seven primary sets of data types. These are Total Individuals, Total with Outcome Data, Florida Employment Data, Earnings by Level, Florida Continuing Education Data, Receiving Public Assistance and Florida Department of Corrections Data. The following notes describe the content of each of the major categories including several subcategories of data elements. The notes are keyed to alphanumeric identifiers on the sample report on the preceding page. Please note that data cells with small numbers have been suppressed and replaced by asterisks for confidentiality purposes, in compliance with Florida Statute Section 1008.39.

Notes:

- *All Florida Employment Data is annualized.*
- *(****) = group or subgroup value is fewer than 10, but greater than 0 (values 1-9)*
- *(-) = subgroup value is equal to 0 and cohort is greater than zero*
- *(N/A) = data is unavailable.*

A) TOTAL INDIVIDUALS: The number of individuals with valid Social Security numbers as reported for follow-up to FETPIP.

The FETPIP Process

The Florida Education and Training Placement Information Program (FETPIP) is part of the Florida Department of Education's Division of Technology and Innovation. Formally established by section 1008.39, Florida Statutes, FETPIP is an interagency data collection and reporting system which provides follow-up data, reports, and other business intelligence products. FETPIP examines current and former students who have enrolled in or graduated, exited, or otherwise completed an educational or training program in Florida. Section 1008.39, Florida Statutes requires all elements of Florida's workforce development system to use information provided through FETPIP for any project they may conduct requiring automated matching of administrative records for follow-up purposes.

FETPIP examines populations from all of Florida's education sectors, including public high school students, secondary and postsecondary vocational students, adult general education, adult basic education and GED® students, Florida College System students, State University System students, Independent Colleges and Universities of Florida students, and students from a select number of other private vocational schools, colleges, and universities. FETPIP also examines Workforce Innovation and Opportunity Act (WIOA), Welfare Transition, Vocational Rehabilitation, and Apprenticeship program participants, and Unemployment Insurance claimants.

FETPIP collects and utilizes data quarterly or annually from several state and federal partners to develop outcome data and reports that describe student group or participant outcomes based on employment, incarceration, participation in public assistance programs, and continuing education experiences after either graduating from, completing, or otherwise exiting an education or training program. These data are aggregated and used to produce outcome performance measures that are intended to assist in evaluating educational program success, return on investment, and other metrics as required. FETPIP's intra- and inter-agency partners include:

- **Florida Department of Commerce (Commerce):** Commerce provides quarterly demographic and program participation data for all WIOA Adult, Youth, Dislocated Worker, and Wagner-Peyser program participants.
- **Florida Department of Revenue (DOR):** DOR provides quarterly demographic, employment, wage, and industry information for all people employed in or reporting Unemployment Insurance information in Florida.
- **United States Department of Labor State Wage Interchange System (SWIS):** SWIS provides on-demand demographic, employment, wage, and industry information from the other 49 states, the District of Columbia, Puerto Rico, for specifically requested populations. SWIS data is used exclusively assessing and reporting WIOA program participant outcomes and performance.
- **Florida Department of Corrections (DOC):** DOC provides demographic data for people incarcerated in Florida's prison system and people who have been released but are still under DOC's supervision (e.g., parole).
- **Florida Department of Children and Families (DCF):** DCF provides quarterly demographic and benefits received data for all who receive benefits from the Temporary Assistance to Needy Families program and Supplemental Nutritional Assistance Program.
- **Florida Department of Education (DOE):** FETPIP's intra-agency partners, including High School, the Florida College System, Workforce Development Information System, the State University System, the Independent Colleges and Universities of Florida, and DOE's Office of Student Financial Assistance, the Division of Blind Services, and the Division of Vocational Rehabilitation provide demographic, program, enrollment, exit, and student aid data.

FETPIP produces a variety of data reports to these organizations that provide data for outcomes. A more detailed account of reporting procedures and data availability can be found on the FETPIP website, <http://www.fldoe.org/accountability/fl-edu-training-placement-info-program/index.shtml>.
